ABOUT US

We like peace and quiet when we work. That's why we started SilentLab, where we create quiet and send it wherever it's needed the most. Our original office acoustical solutions carve out oases of calm and privacy even in the noisiest interior environments.

Open offices are more popular than ever, but along with greater interaction comes overwhelming noise. Thanks to our team of acoustics experts, we enable companies to provide employees with the distraction-free workspaces they need to perform and collaborate at optimal levels. Our unique mobile soundproof offices, acoustical wall panels, ceiling hangings and other sound-reduction accessories are all made at our in-house production facilities in the Czech Republic.

Our holistic approach to sustainable sound empowers us to create complete acoustic solutions. We can also work with you to devise highly customized solutions precisely tailored to your needs. Visual appeal is as important to us as top-tier performance, which is why all our products combine unique designs with maximum functionality.

fixing	plywood anchor bar
optional equipment	light, table (oak)

WALLBOOTH

MOVE

ACOUSTIC POUFS

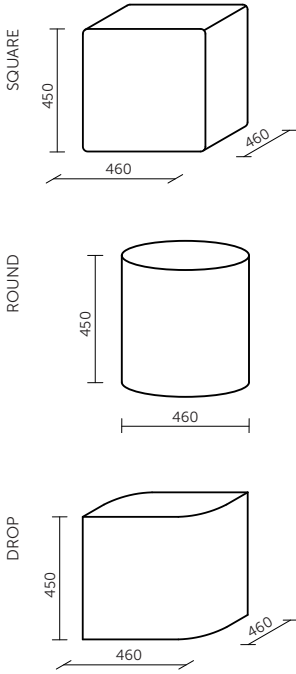

ACOUSTIC POUFS

Enliven your office while reducing ambient noise with lightweight MOVE acoustic poufs. Built-in handles and innovative materials make for easy lifting and optimal sound absorption. The more you have, the better the results.

TECHNICAL DETAILS

basic dimensions SQUARE	460 x 450 x 460 mm
basic dimensions ROUND	diameter 460 mm height 450 mm
basic dimensions DROP	460 x 450 x 460 mm
filling	high-performance acoustic foam
finish	decorative fabric (refer to swatches)
additional components	felt handle – 100% sheep wool

MOVE

PETAL

MODULAR POUFS

MODULAR POUFS

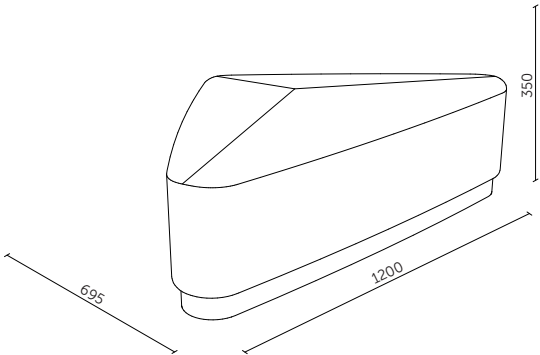

Easy to handle and so comfortable! PETAL poufs are ideal for use in dedicated relaxation zones as well as in any informal space where people gather to take a few minutes for themselves. PETAL adapts to your preferred style, ready for assembly to suit the look and needs of your office.

PETAL

TECHNICAL DETAILS

basic dimensions	1200 x 350 x 695 mm
filling	high-performance acoustic foam
finish	decorative fabric (refer to swatches)
base	birch plywood with oak veneer

ABSO

CEILING PANELS

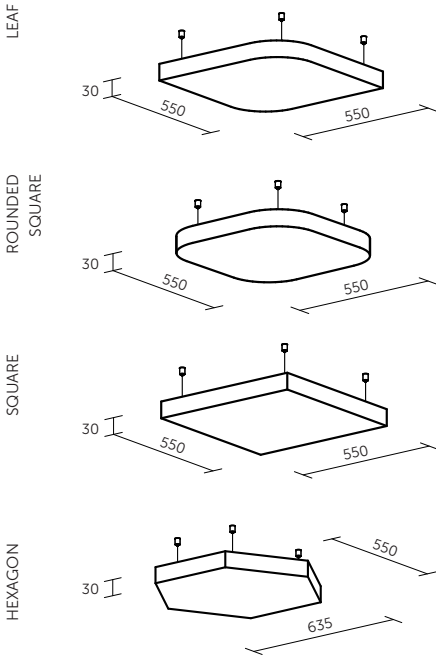

CEILING PANELS

Upgrade your ceiling into a dynamic piece of sound-proofing technology with ABSO. These acoustic ceiling panels can be placed around the office, significantly reducing noise. Hang them overhead to directly absorb sound in both work and leisure areas.

ABSO

TECHNICAL DETAILS

basic dimensions	550 x 550 x 30/60/90 mm
LEAF	custom sizes available upon request
basic dimensions	550 x 550 x 30/60/90 mm
ROUNDED SQUARE	custom sizes available upon request
basic dimensions	550 x 550 x 30/60/90 mm
SQUARE	custom sizes available upon request
basic dimensions	550 x 635 x 30/60/90 mm
HEXAGON	custom sizes available upon request
supporting frame	MDF (medium-density fibreboard)
filling	high-performance acoustic foam
finish	decorative fabric (refer to swatches)
installation	steel wire (up to 1.5m long)

STILL

WALL PANELS

WALL PANELS

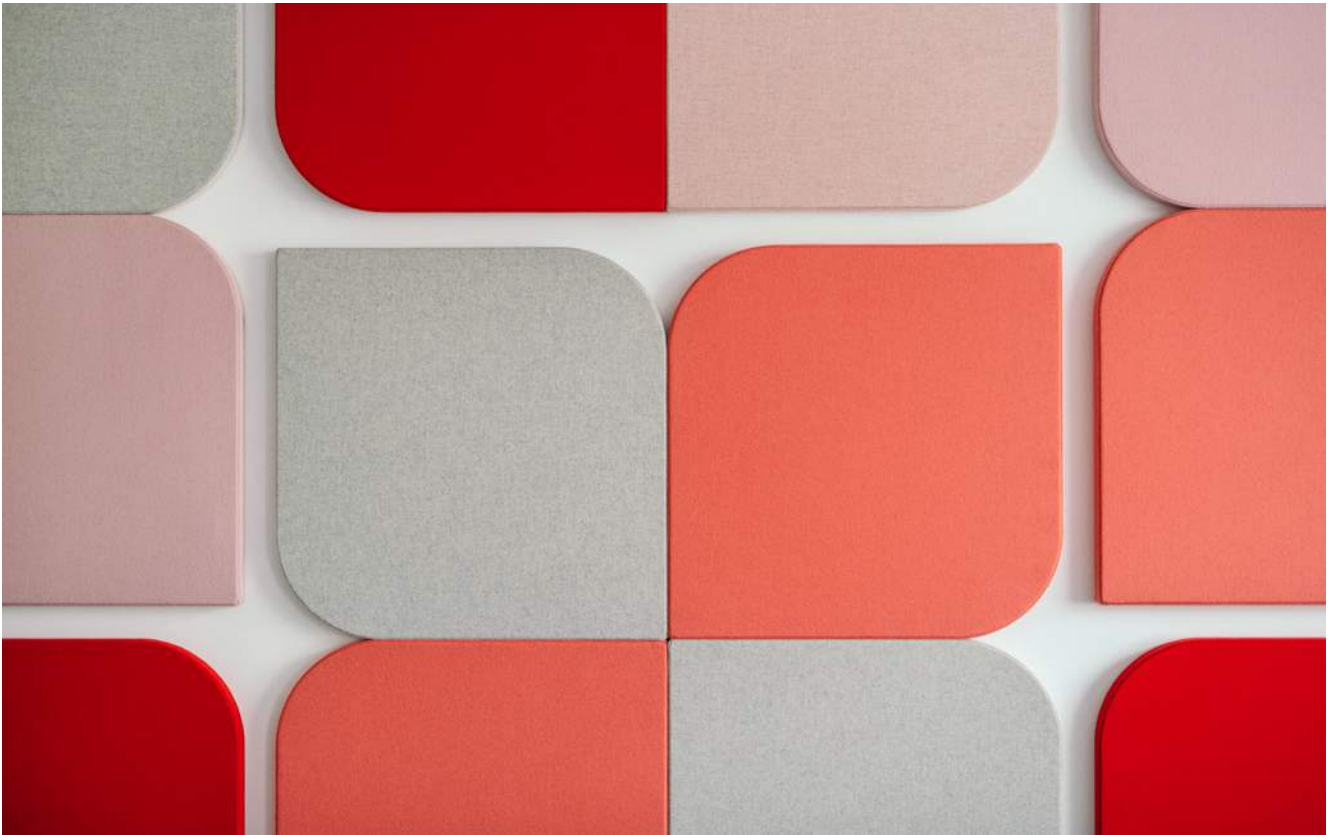

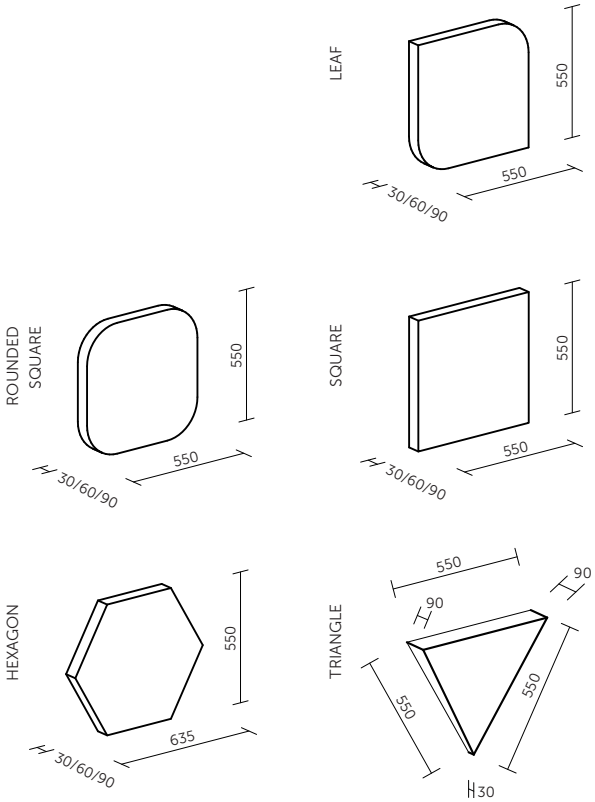

STILL is precision-engineered to absorb the frequencies created by the human voice. The result is a drastic reduction in background noise, making it much easier to converse quietly with colleagues or focus on the task at hand. With a wide selection of colors and shapes available, you'll find an ideal match for your office.

STILL

TECHNICAL DETAILS

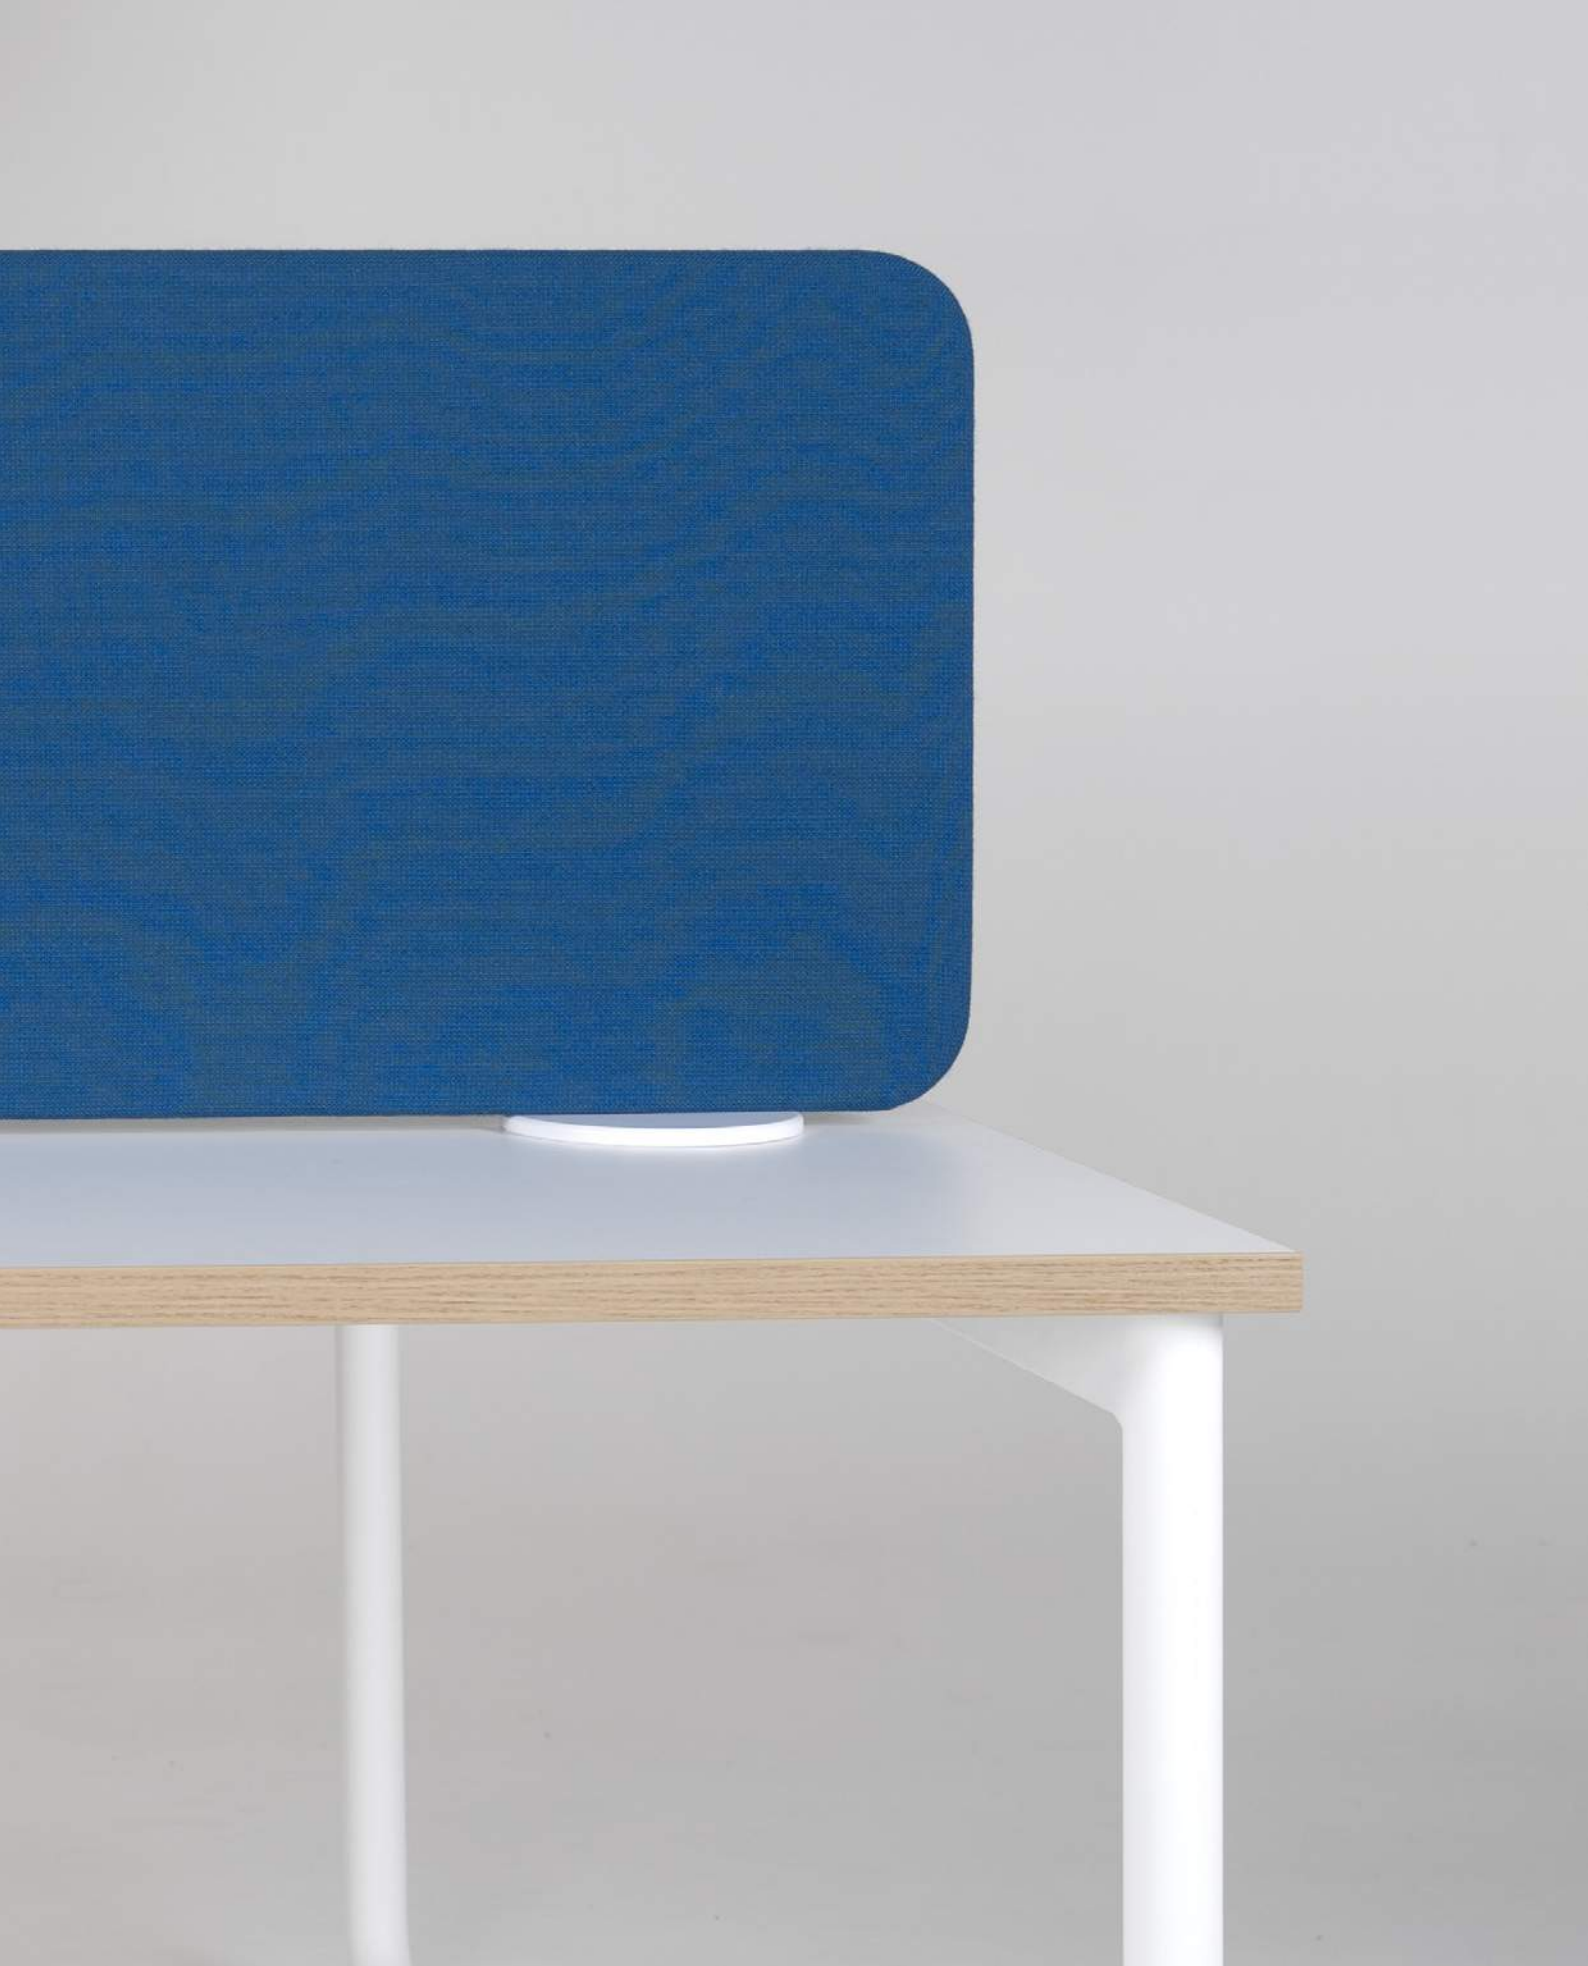

basic dimensions LEAF	550 x 550 x 30/60/90 mm custom sizes available upon request

installation	wall-mounted / with contact adhesive

MYSPACE

DESKTOP DIVIDERS

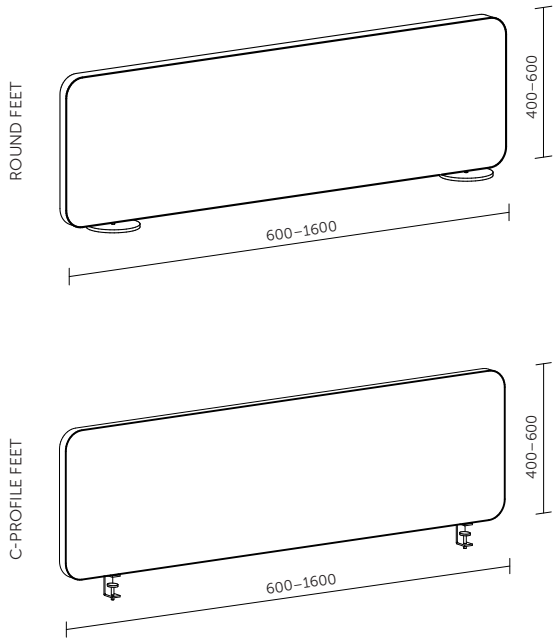

DESKTOP DIVIDERS

MYSpace desktop dividers transform vast office floors into individual private workstations. They're made from specially developed acoustic foam, empowering your team to properly concentrate on their work. The high-quality fabric we use also allows these acoustic desktop partitions to double as bulletin boards.

TECHNICAL DETAILS	
basic dimensions	standard height 400 and 600 mm standard width up to 1600 mm custom sizes available upon request
material	central supporting plate lined with sound-absorbing material
finish	decorative fabric (refer to swatches)
feet	round coated steel/C-profile coated steel (color refer to swatches), attached externally/internally

MYSpace

SHADE

FREESTANDING DIVIDERS

FREESTANDING DIVIDERS

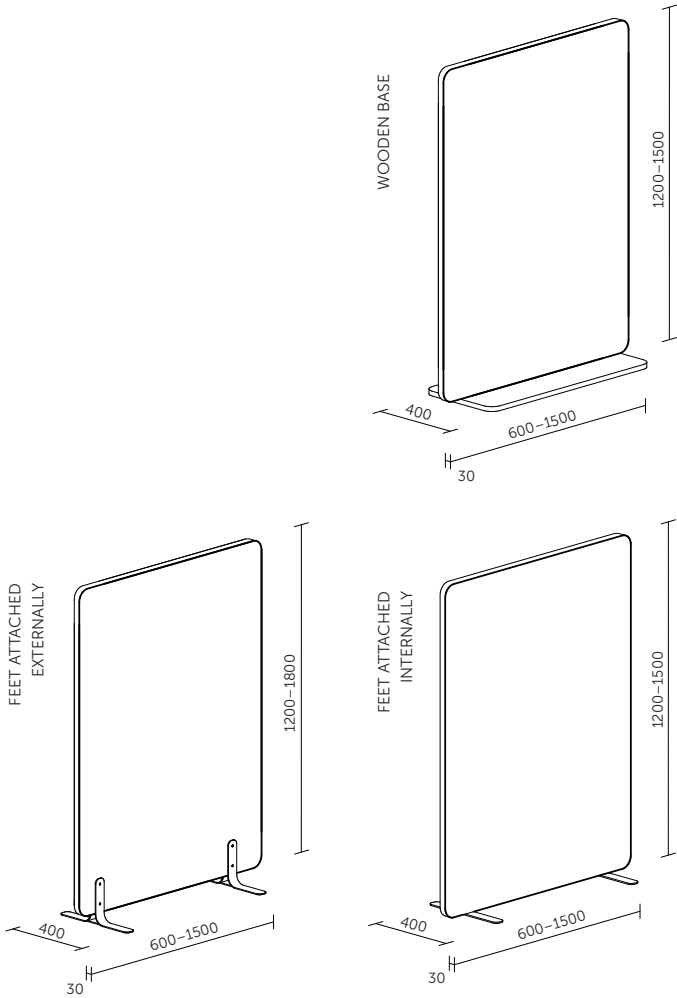

Deploy SHADE to instantly create an acoustic barrier at a moment's notice. Our freestanding acoustic dividers can be easily placed anywhere to keep coffee chatter or printer noise from disrupting the rest of the office.

SHADE

TECHNICAL DETAILS

□□ – available in leaf and rounded square shapes	
basic dimensions	standard height 1200, 1500 and 1800 mm* standard width up to 1500 mm custom sizes available upon request
material	central supporting plate covered with sound-absorbing material
finish	decorative fabric (refer to swatches)
feet	wooden base/coated steel (color refer to swatches), attached externally/internally

* configurations with height greater than 1500 mm only available with coated steel feet, attached externally

SHADE MARK

MARKER BOARD

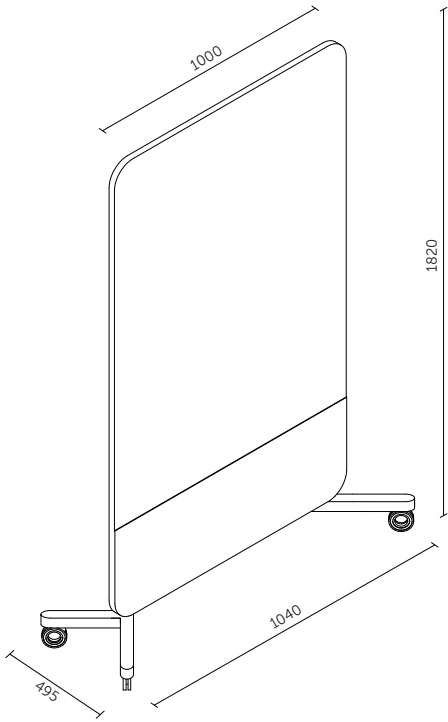

MARKER BOARD

The SHADE MARK serves two useful functions in the workplace. Like our other dividers, it absorbs noise and minimizes the inconvenience of an open space office. This version, however, also has a glass writing surface on one side, doubling as a whiteboard for notes, presentations, brainstorming sessions and other team meetings.

TECHNICAL DETAILS	
basic dimensions	standard height
	1820 mm including wheels
	1700 mm only the divider
	1350 mm whiteboard
	standard width
	1040 mm including wheels
material	1000 mm only the divider
	frame filled with sound-absorbing material, glass board, coated holder tray (RAL 9003)
finish	decorative fabric (refer to swatches)
feet	warnished plywood feet with grey wheels

SHADE MARK

FLEXI

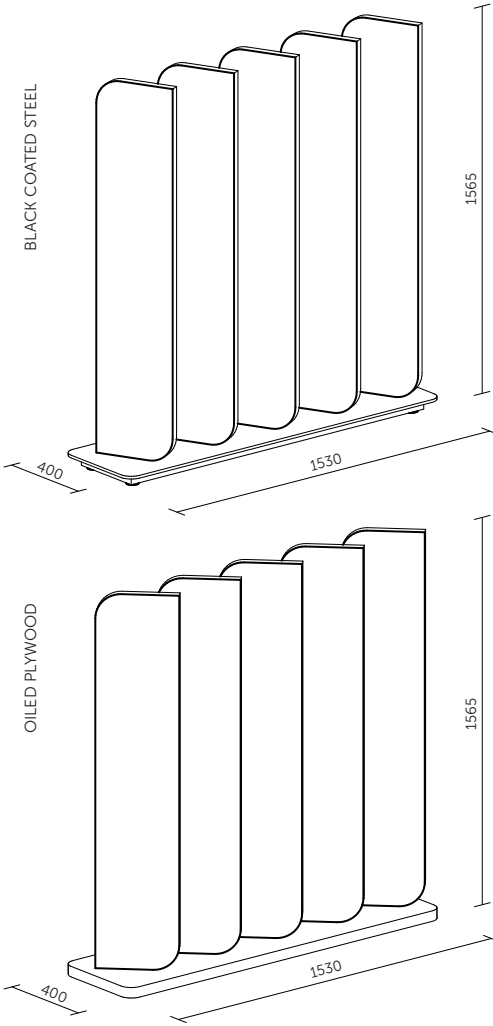

ROTATING DIVIDERS

ROTATING DIVIDERS

The adaptable FLEXI is an essential tool to have in your arsenal in the fight against noise. Simply open or close these adjustable mobile blinds to find the right balance for your workplace.

FLEXI

TECHNICAL DETAILS

basic dimensions	1530 x 400 x 1565 mm
blinds	covered with sound-absorbing material
finish	decorative fabric (refer to swatches)
feet	black coated steel/oiled plywood

MOSS

ACOUSTIC OBJECT

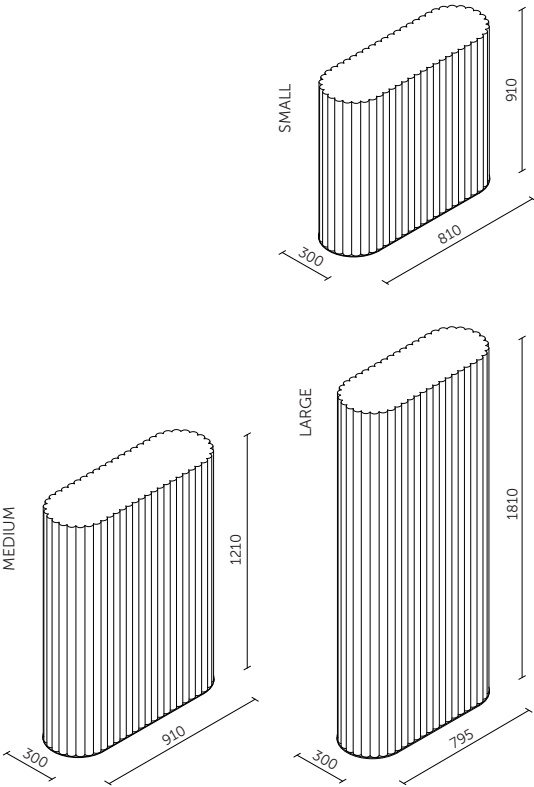

ACOUSTIC OBJECT

You'll be enchanted by the charming aesthetics and optimized functionality of MOSS. Its specialized materials enable it to absorb ambient sound and improve the office environment. MOSS is available in three sizes.

TECHNICAL DETAILS

basic dimensions SMALL	910 x 810 x 300 mm
basic dimensions MEDIUM	910 x 1210 x 300 mm
basic dimensions LARGE	795 x 1810 x 300 mm
filling	high-performance acoustic foam
finish	flock (color refer to swatches)
base	lacquered steel

MOSS

MUTE

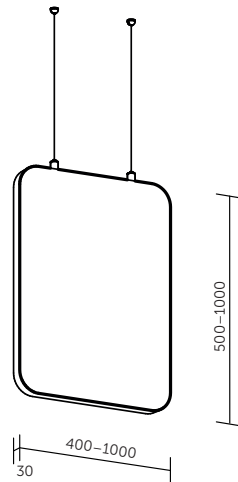

HANGING DIVIDERS

HANGING DIVIDERS

For an elegant solution to noise reduction, consider MUTE hanging dividers. They're an easy way to dampen echoes and ambient sound without requiring any permanent alterations to your workspace.

TECHNICAL DETAILS

basic dimensions	standard height 500 and 1000 mm standard width 400, 700 and 1000 mm standard dimensions 500 x 1000 x 30 mm custom sizes available upon request
material	central supporting plate cover with sound-absorbing material
finish	decorative fabric (refer to swatches)
installation	steel wire (up to 1.5m long)

MUTE

MATERIAL LINES

After you've chosen the right soundproofing tech for your office, bring it to life in one of three distinctive material options. Take your first steps towards a more tranquil workspace with SOFT, focused on maximizing functionality and value. Next, there's AMBIENT, which features two fabric options for increased comfort and performance. Finally, the PULSE line offres high-end fabrics to achieve the utmost in quality and design.

SOFT

SOFT is our entry-level category, made from BOMBAY fabric for an emphasis on effortless functionality. The PVC exterior is water-repellent and sleek, sure to complement any professional workspace, while metal frames ensure long-lasting quality.

AMBIENT

Our AMBIENT line comprises two appealing fabric choices: the irresistibly soft ASPECT, made from 75% flame-retardant Trevira CS, or the durable WOOLLAND, with its natural wool fibers, water-repellent and flame-retardant finish. Either way, you'll enjoy superior comfort and functionality.

PULSE

PULSE blends high-end fabrics from natural materials. Our enticing BLAZER, SYNERGY, FAME and BREEZE FUSION fabrics are exclusively sourced from verified partners who place a high premium on quality. As stimulating to the eye as they are to the touch, PULSE designs feature vibrant quilted arrangements with warm colors that promote creativity and enthusiasm. WOOLLAND QUILT is the brand new addition to our PULSE fabric line, which brings a modern twist to this material due to the aesthetical quilting.
