PANAMA BANANA

DESIGNER: AGOTA RIMSAITE

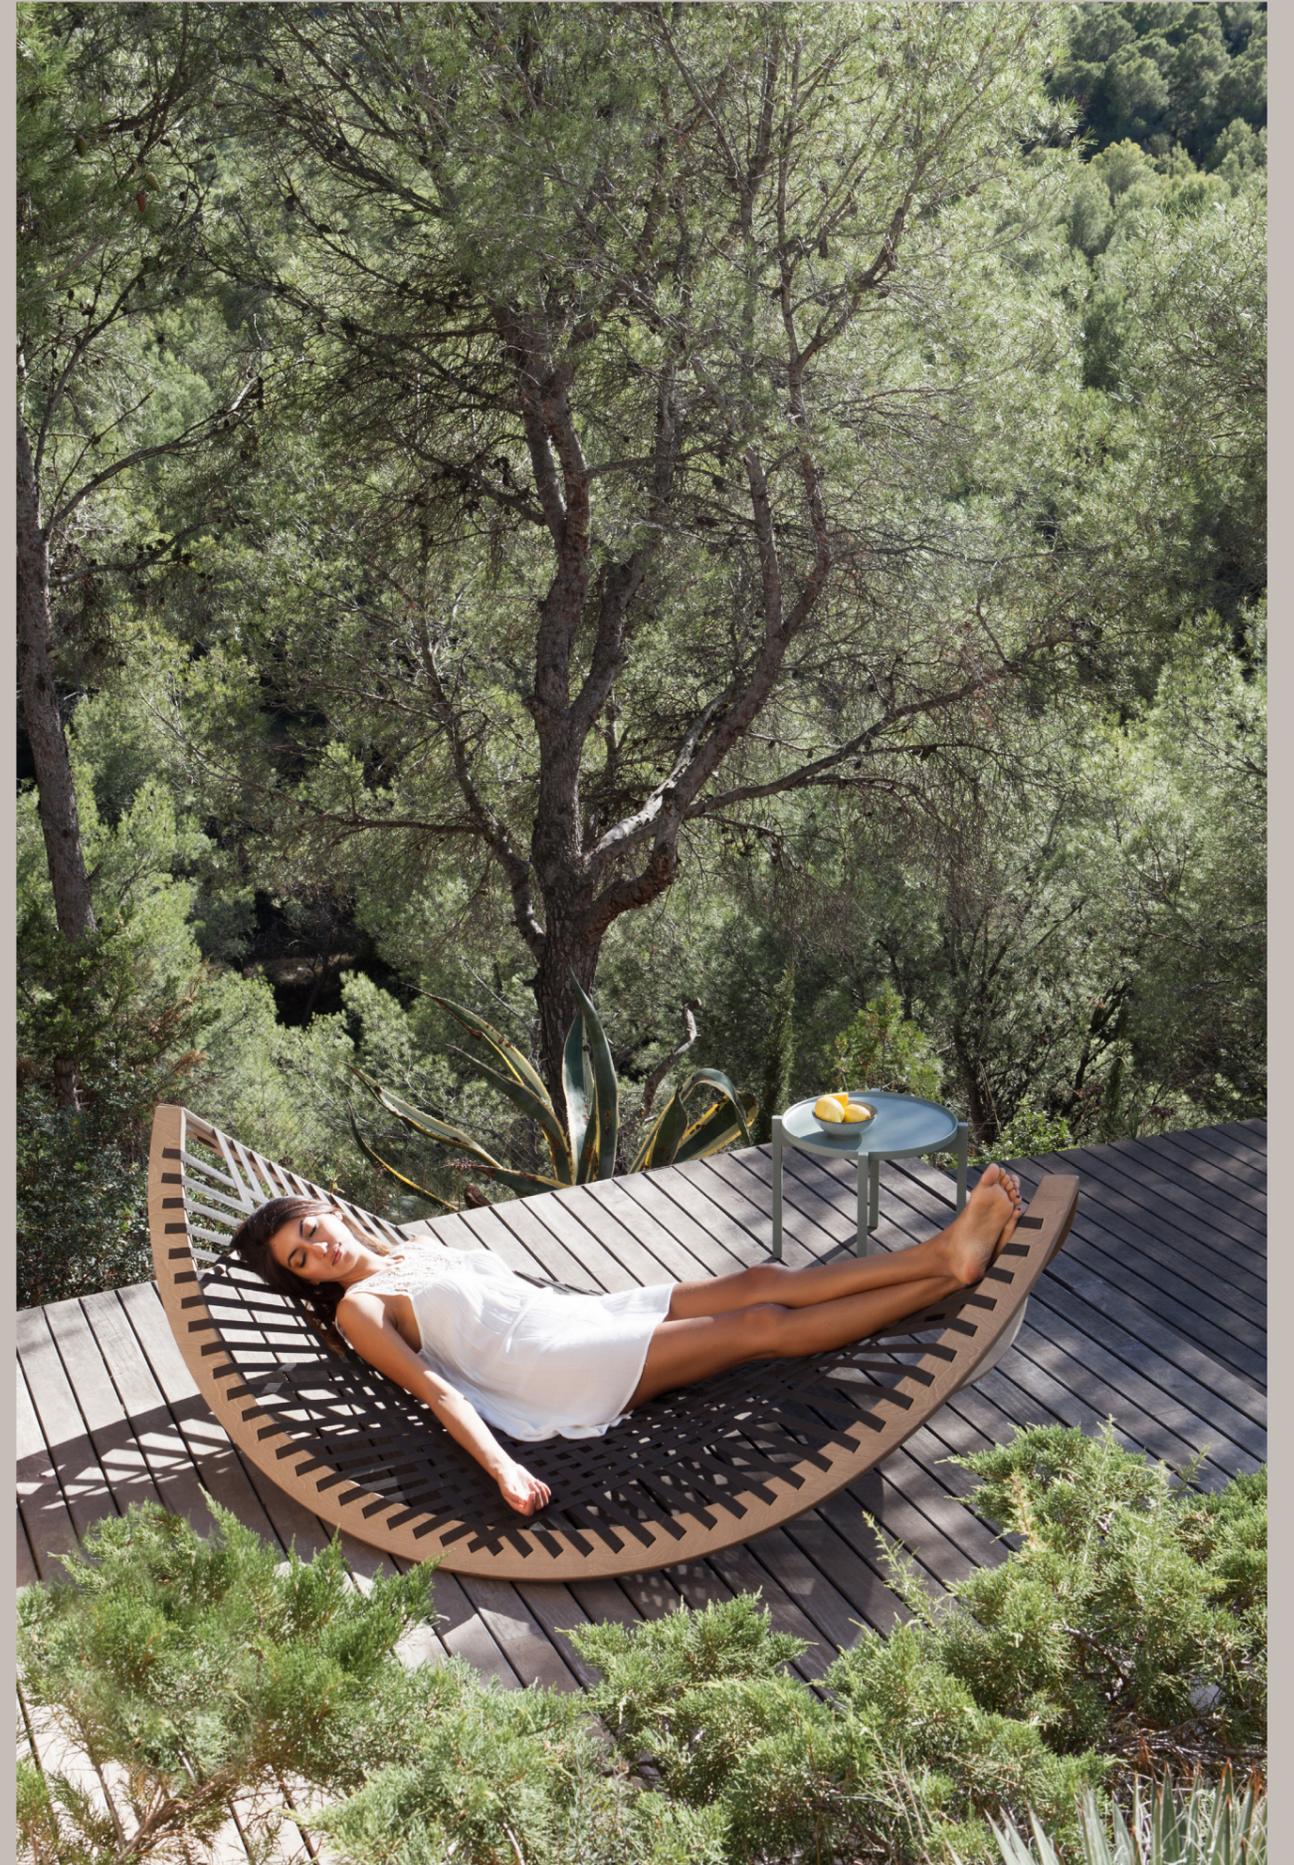

“Panama Banana” is an outdoor furniture that could be used as a lounge and as football goal. The design piece is made of water resistance plywood, coated by two layers of transparent varnishing and polyester ropes that give an open texture, so when you lie down, the wind can go through and you feel more refreshed. Because of its light weight it can be easily moved, so switching the functions between lounge and modern football goal is really easy - just turn it around 90 degrees. As a lounge hammock it is very comfortable because as you lie down your legs slightly go up so they can relax better. Finally, when you want to store it, you simply remove the support details and it folds flat.

Enjoying most of outdoor living. Loungers Panama Banana in Beige and Olive colors and table Ogis - Mushroom Grey.

The design of Panama Banana lounge has been inspired by seaside elements such as surfing board, ship and their smooth shapes. That is why it integrates so well with its environment. Lounger Panama Banana - Olive and side table Ogis - Olive.
