### Distinctify

Distinctify believes in not compromising. After securing local funding around the design-inspired bar area at alternate park, Distinctify took culture and design over profits at Atrium. Challenging the perception that high-quality and innovative design has to come with a high price, Distinctify is ensuring its beautiful hand-made pieces are available to everyone.

### Charming chandeliers

Chandeliers are a great addition to just about any area in a home and choosing a suitable one is sure to steal the show.

**SPECIAL ARRANGEMENTS**  
 When an opening of an already renovated  
 the available space will most likely be your  
 most precious asset. It's important to  
 acknowledge this fact and use the space for  
 what it is, and not for what you wish it  
 were. For your space if other bathroom  
 your home has a shower, you might choose  
 to include a tub/shower area with an over-  
 the-tub shower head for a compromise with  
 a smaller vanity, but then use for a heated  
 towel rack and underfoot heating.  
 Creating the illusion of space when space is  
 lacking might seem like a difficult task at first, but  
 it can be done with a few well-placed items.  
 Here are some ideas for your small  
 bathroom that will make it feel like a much larger one.

This year's main  
color will be all shades of  
grey. A timeless and soothing  
color that can take a room from  
bland to the standard to the  
bold. A great color to incorporate  
into any room of the house in the form  
of a full size grey sofa or a few  
pieces, such as this L20000

grey.
