FOREWORD

Mooodi presents
**A LIFE
EXTRAORDINARY**

Mooodi was born from the urge and desire to make designer dreams come true. It started almost twenty years ago, back in 2001, when Marcel Wanders founded a platform for designers with daring and original ideas. Every year, Mooodi continues to be that accelerator for designers worldwide to realise their boldest dreams. This vision is intrinsic to all we do at Mooodi. It sets us apart from other design brands. We don't need to keep factories running or create a minimum of new designs because we are free to work with the greatest minds and craftsmen out there. Realising designs that are considered impossible.

Our strength is to go above and beyond to make designer dreams come true. We did so with innovative technologies such as the 'Electrosandwich' and 'The Button'. By efficiently implementing the Electrosandwich we created lights without wiring, writing a new chapter for design possibilities. The Button is a digital passport that proves authenticity and secures the investment of all our customers. As of 2019, the Button is implemented to all our designs.

Mooodi is at its best when it operates on the forefront. On all levels. We continuously look at what we do and why we do it. Therefore, we improved the launches of new designs by introducing 'More Mooodi Moments'. A strategic change that turned out to be a success. New designs are available immediately and globally right at the launch. We're proud of all the designs we launched throughout the year and this shines through in all we do.

In 2019, we launched two campaigns. With our 'Mooodi Originals' campaign, we highlight our most iconic and bestselling designs. Securing their position at the top. The 'Lost Recordings' is a campaign that gives way to the multisensorial direction Mooodi is heading. More and more we're focusing on rich visuals and tactility in all that we do and we look forward to keep surprising you with the opportunities this brings.

By introducing our new digital platform 'Mooodi.com', we secured a forefront position. Mooodi.com is available and accessible for e-very-one. We introduced new features such as online mood board functions, interactive products, and we made it easier to understand the sizes of our designs. We've made our sofa's configurable and there is much more to discover. Make sure to have a look and don't forget to read the online stories.

Every Mooodi design is unique, carries emotional meaning and tells a story of its own. We love creating those stories together with designers and will maintain to create stories ourselves, like we did with 'The Museum of Extinct Animals'. This family of Extinct Animals has been an endless source of inspiration for tactile fabrics, textures, carpets and content. This year we were especially excited to discover a new animal in the form of the 'Indigo Macaque', which inspired more designs including our latest Mooodi Wallcovering collection 'Tokyo Blue'.

This Boook is a collection of the extraordinary stories we brought to life over the past years. We hope you enjoy it.

Moooli presents

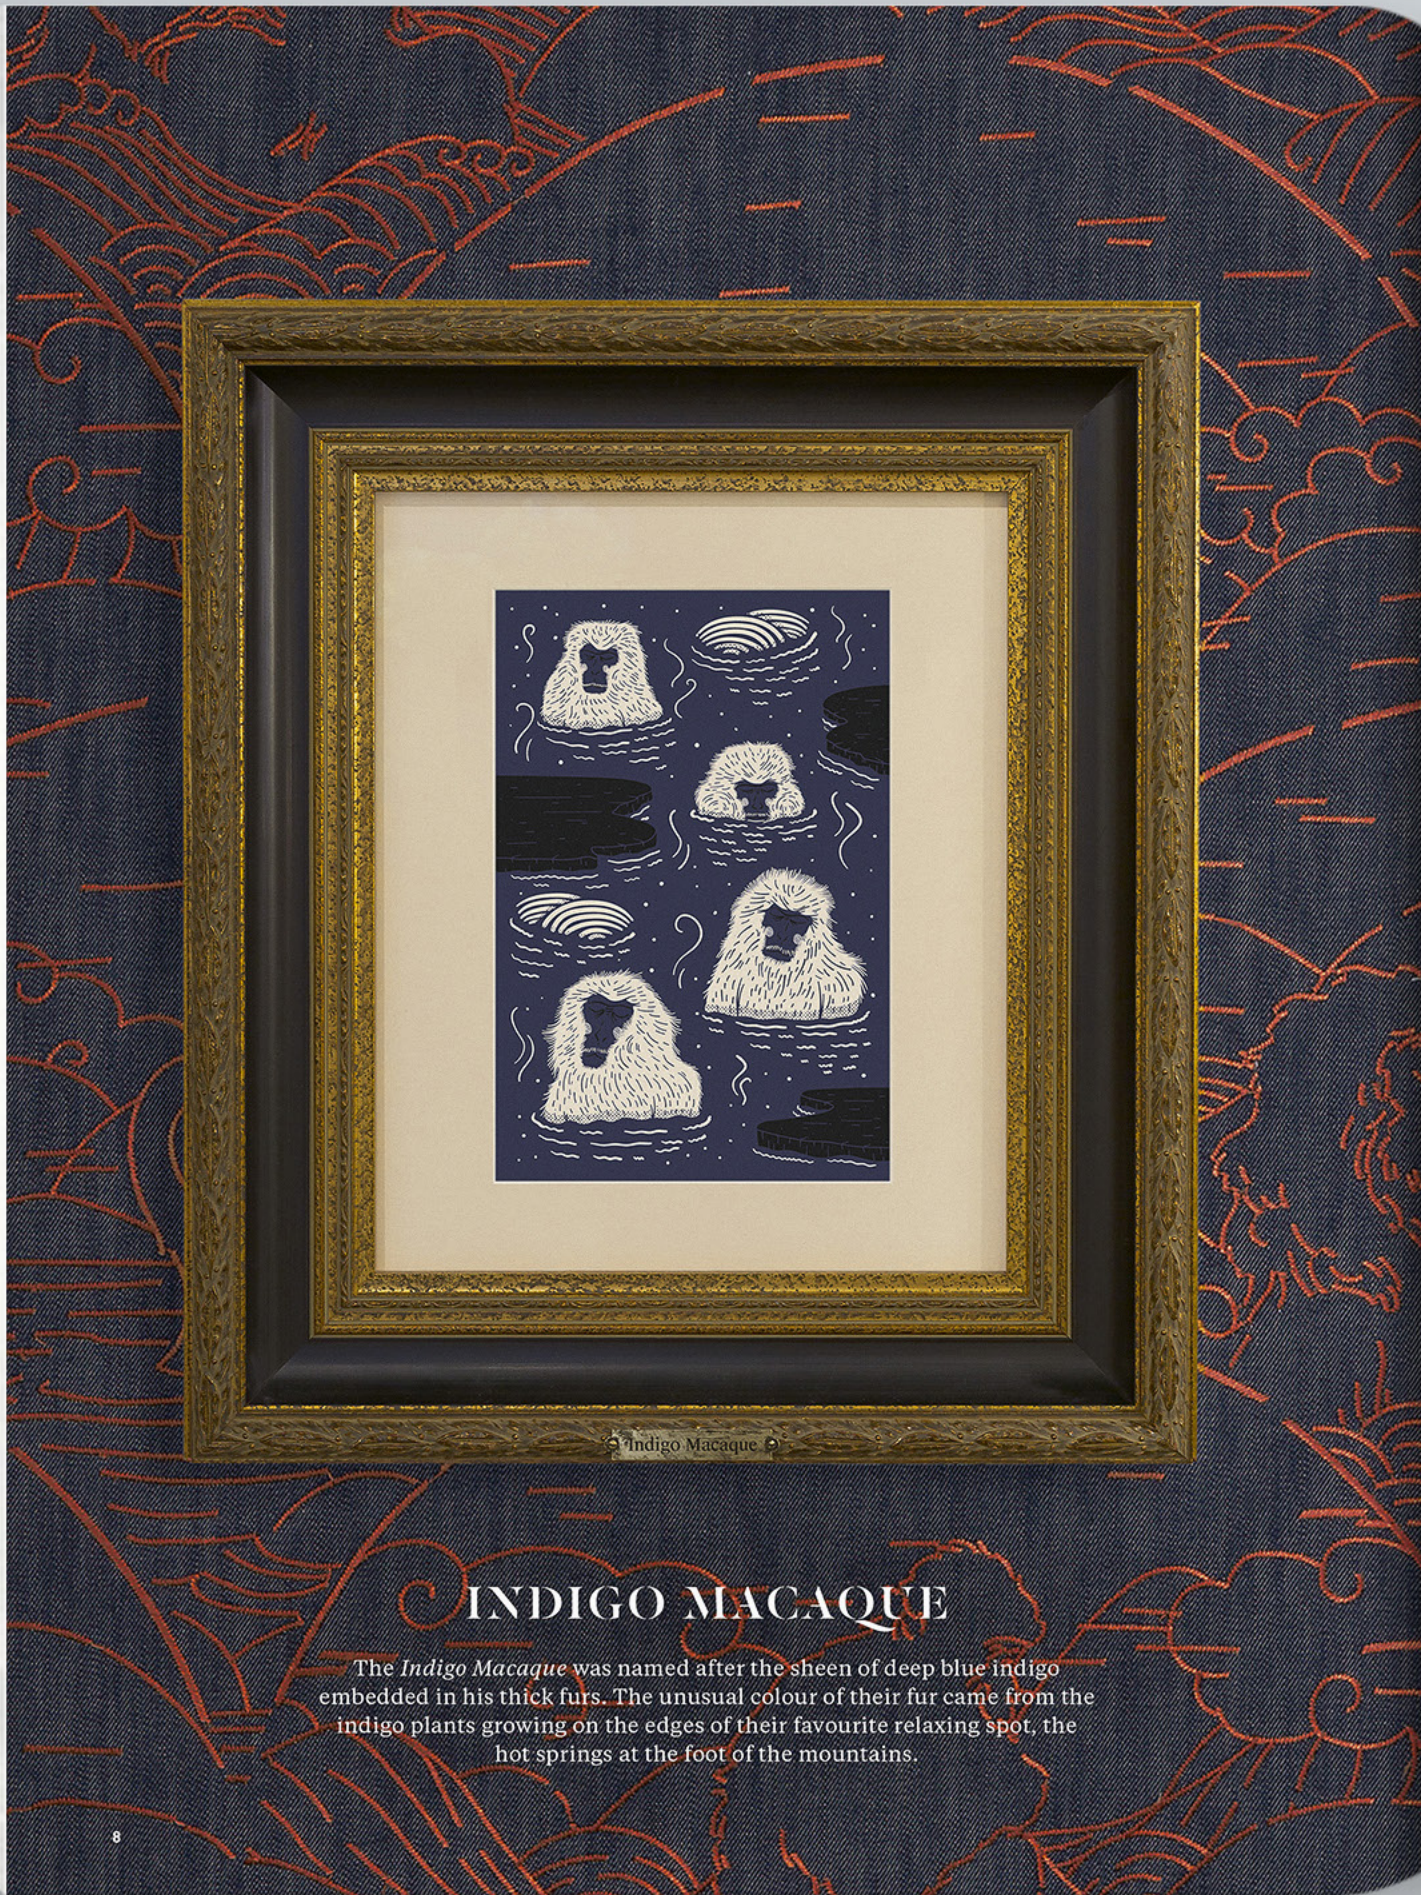

EXTINCT ANIMALS

With the *Museum of Extinct Animals* Moooli kicked off an endless journey of inspiration. To create the *Museum of Extinct Animals* Moooli sailed away on a bold adventure around the globe. Searching the dustiest of museum archives in order to find invaluable treasures: the drawings of lost animals, trimmed by imagination. Moooli celebrates nature's diversity, stimulating to stretch the limits of imagination. The exploration of long-lost animals has inspired a rich fabric collection, a broad range of beautiful carpets and an extraordinary wallcovering collection.

The *Extinct Animal Upholsteries* are a high-end collection of tactile fabrics and leathers. They bring a touch of luxury, softness and a splash of natural beauty to upholstered designs from the Moooli collection. Inspired by a selection of unique *Extinct Animal* drawings, Moooli continues to create a collection based on the animals' features. To follow this ambitious adventure, Moooli investigates the world of fabrics and leathers, discovering their natural qualities and the sensorial feel of diverse materials.

Moooli is committed to continue its exploration and innovation towards surface design. The latest addition to the *Extinct Animal* family is the *Indigo Macaque*. Moooli presents its *Denim Collection*. These new fabrics are made from a revolutionary *Denim* from Japan with a higher durability and resistance to fading, making it suitable for interior design purposes. During the 2019 Salone del Mobile, Moooli started exploring the world of *Denim* with washings, lasering and stitching and was the first to use the fabric in its collection. The available *Denims* are environmentally friendly produced, do not fade and do not leak colour. They come in three colours: *Lightwash Denim*, *Indigo Denim* and *Midnight Denim*.

Celebrating the success of the *Extinct Animals Wallcovering Collection*, Moooli Wallcovering launched a new *Indigo Macaque* inspired capsule collection called *Tokyo Blue*, with exciting new designs and materials. Five extraordinary wallcoverings in a variety of techniques such as embroidered denim and marquetry which come together to celebrate the versatile nature and beauty of Japanese culture.

INDIGO MACAQUE

The *Indigo Macaque* was named after the sheen of deep blue indigo embedded in his thick furs. The unusual colour of their fur came from the indigo plants growing on the edges of their favourite relaxing spot, the hot springs at the foot of the mountains.

INDIGO MACAQUE RUG

The sociable *Indigo Macaques* would bathe, play and, despite any form of privacy, exhibit affectionate behaviour towards each other in the pools. Chasing each other gleefully through the warm waters, without a care in the world.

BLUE-TINGED TRADE WARES

As far as we know the Indigo Macaque has only been sighted in Japan. This made many speculate about whether the Extinct Animal served as an inspiration for the many blue-tinged trade wares coming from the far-eastern country.

DESIGN DREAMS

Iconic Eyes, a modern chandelier with classic touch

The appearance of the Iconic Eyes is truly glorious and breath-taking. To create the Iconic Eyes, Bernhard Dessecker's idea was to create a modern chandelier from iconic automotive headlights.

12

AMAMI POUFS BY LORENZA BOZZOLI upholstered in Lario Blue and Dark Grey (size Ø30 and Ø50 shown), ARMoured BOAR RUG BY MOOOI for Moooi Carpets, BLOOMING SEADRAGON WALLCOVERING BY MOOOI for Moooi Wallcovering in Coral Red, ICONIC EYES BY BERNHARD DESSECKER (size 85 shown), LOVE SOFA BY MARCEL WANDERS upholstered in Liscio Perla with White Wash stained solid oak legs, POLAR BYZANTINE CHAPTER I RUG BY KLAUS HAAPANIEMI for Moooi Carpets.

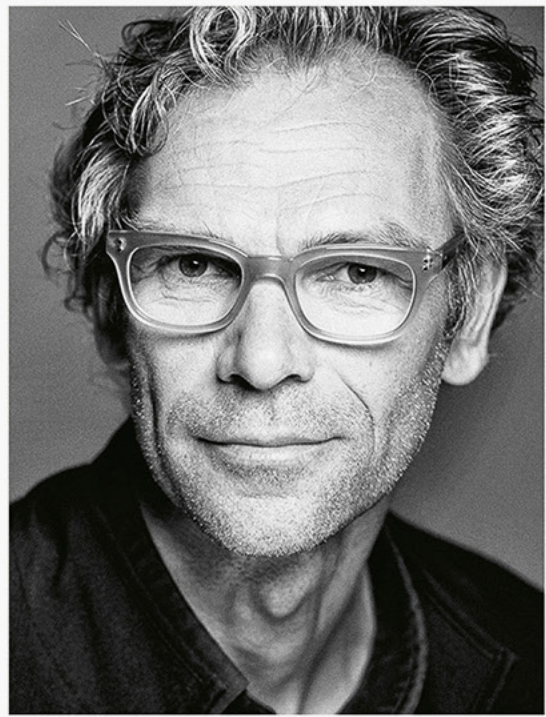

13

Iconic Eyes 161
BY BERNHARD DESSECKER

Iconic Eyes is exactly what Bernhard Dessecker imagined it to be: representative, grand and breathtaking. Yet modern in all aspects of technique, form and construction.

UNPREDICTABLE CREATIVE SPARKS
Bernhard Dessecker loves lighting design because the design process is never predictable. The quality of the light at the outcome is something he can never predict when he works on an idea or when he starts sketching. All it takes are creative sparks, physics and destiny. The *Iconic Eyes* came together after Bernhard got hold of a box with all sorts of automotive light parts. He tried to figure out which of these parts would be suitable for a lamp. Almost like he was solving a puzzle, he started putting the parts of BMW headlights together. From a tiny creative spark, the *Iconic Eyes* grew into an extraordinary chandelier.

Bernhard Dessecker, designer of the *Iconic Eyes* (photograph by Susie Knoll).

“IT IS GREAT
TO SEE
SOMETHING
BEING
EXACTLY
AS YOU
IMAGINED”

BERNHARD DESSECKER

16

17

LUCKY O'S
Overlapping O's, created of wood veneer marquetry inlay, resemble the rolling waves of the ocean. The unique wallcovering's ancient Seigaiha pattern symbolising waves of water represents good luck, power, and resilience.

LUCKY O'S WALLCOVERING
BY MOOOI for Moooi Wallcovering in Birch/Black. **RAIMOND** BY RAIMOND PUTS realisation by Ox-ID (size R89 shown). **SOMETHING LIKE THIS** SOFA BY MAARTEN BAAS upholstered in Dodo Pavane Jacquard. **WOODY** BY MARCEL WANDERS in Black stained solid oak.

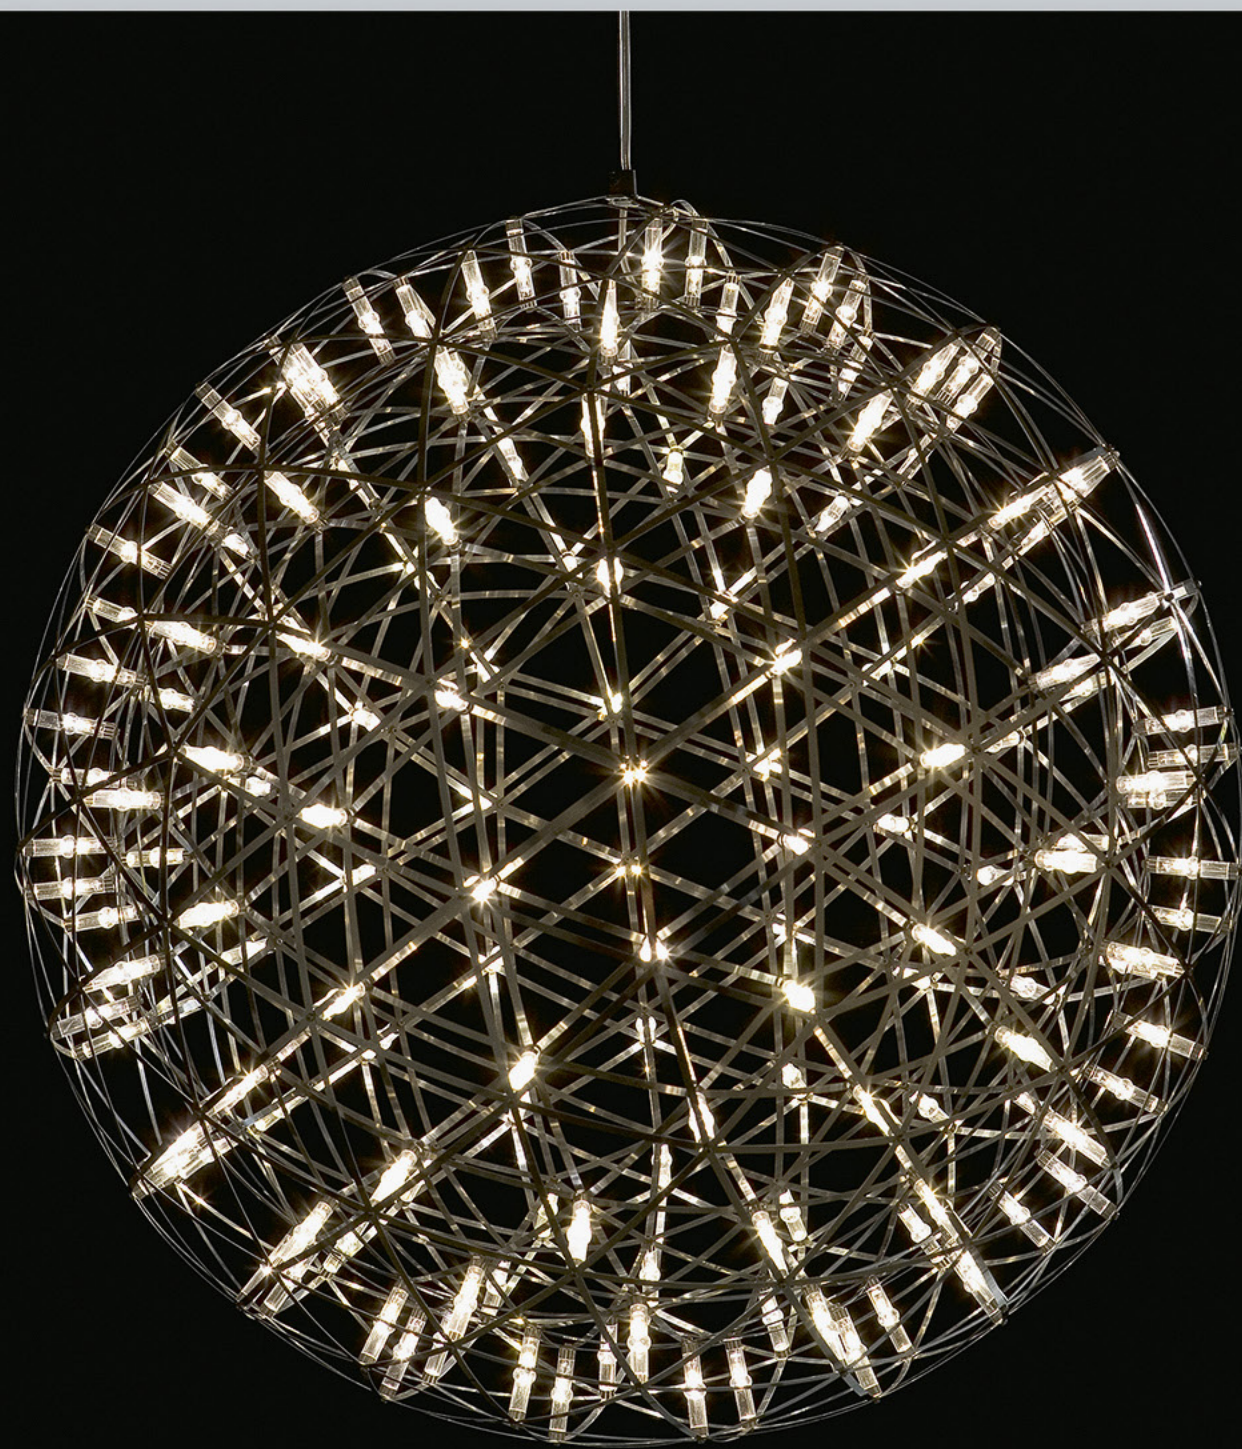

Raimond Tensegrity

BY RAIMOND PUTS
REALISATION BY OX-ID

MOOOI ORIGINAL

Raimond brings the starry night into every home

Raimond Puts (1937 - 2012) will forever be remembered by many as 'the man who brought the stars into our homes'. The Raimond is a design that took years of dedication and mathematical perfection and the result is like staring into the soft sparkle of a starry night.

Raimond R89

BY RAIMOND PUTS
REALISATION BY OX-ID

Made to be multiplied.
Like prime numbers.

**PERFECT SPHERES OF
MATHEMATICAL INGREDIENTS**

Punctuated by tiny LED lights, the *Raimond* is specially detailed to spread warm white light in every direction. Looking at the light feels like staring into the soft glow of a starry night. Inspired by the geodesic dome, designed by Buckminster Fuller, the *Raimond* lights are the result of almost forty years of research and dedication of mechanical engineer and self-taught designer Raimond Puts (1937–2012). Raimond Puts was not only intrigued by the shape of the geodesic dome, but also with the mystery of prime numbers. Therefore, it is no coincidence that the dimension of all *Raimond* lights resemble a prime number.

**THE BRIGHTEST STARS
DON'T SHINE ALONE**

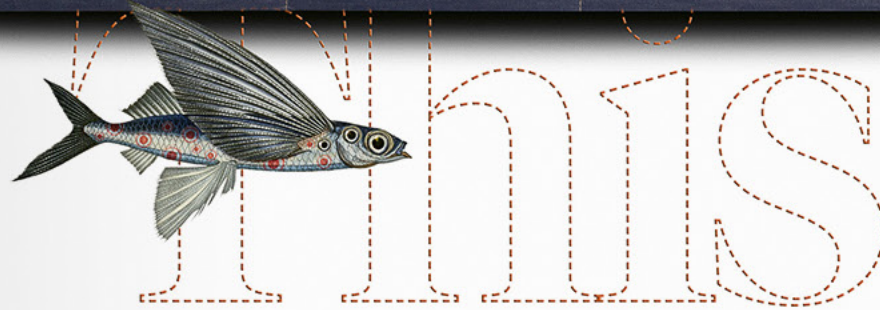

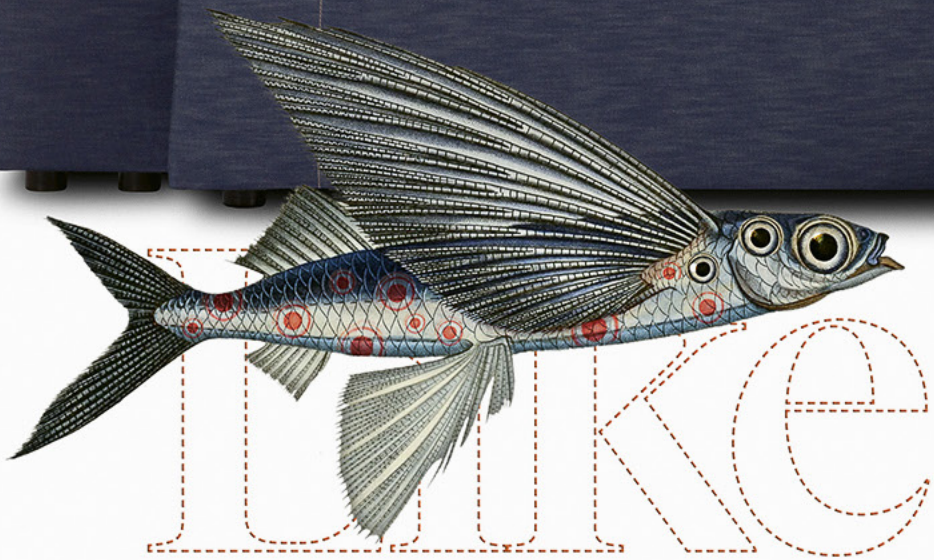

Raimond deserves to be clustered and is available in 6 suspended variants, in the shape of the *Raimond Zafu* and as floor lamp *Raimond Tensegrity*. Combine a couple of *Raimonds*, squint your eyes and experience how the warm light spreads in every direction.

Raimond Puts *, designer of the *Raimond* (photograph by Koos Breukel).

With 17 different modules, a footstool and a wide range of fabrics and leathers to choose from, the BFF Sofa by Marcel Wanders truly is everyone's best friend. Configure the endless possibilities online on [moooi.com](#).

The award-winning BFF Sofa is everyone's new best friend. A high quality, soft yet firm modular sofa system, consisting of a wide variety of modules for endless configurations.

Gabriele Chiave is Creative Director at Marcel Wanders. In his creative leadership role, Gabriele Chiave oversees the Amsterdam-based studio's work across a multitude of projects, from product and interior design to art direction.

Where did you draw inspiration from for the BFF Sofa?

GABRIELE CHIAVE: For the BFF Sofa design, we were inspired by the Capitone technique (matelasse' with no buttons) we used in the monster chair from Moooi. It is a characteristic that is expressed with deep buttoned upholstery and we found it to be so visually comfortable and soft that we thought to scale it up to a human scale and eventually the sofa. We crafted this sofa to have the appearance of an elegantly folded quilt that is seemingly buttoned, yet without the buttons. The result is a very comfortable and soft modular system that also has a familiar and cute feeling making it your best friend forever.

How does the BFF Sofa distinguish itself from other sofa's?

GC: The BFF Sofa sets itself apart in a few ways. First, it is completely configurable and modular. As a system, it offers 17 different module blocks and a footstool that can be composed freely in endless ways. Also, the sofa is very soft. We designed it with a wide range of high quality fabrics and shaped its profile and contours to be elegant and appealing. The playful look and soft visual comfort makes it also very special, as it recalls the typical matalasse technique used on fabric and leather. It is a modern and inviting

reinterpretation of the most welcoming piece of furniture in the house. Our approach was to make it a true eye-catcher that radiates great comfort.

What is the most important element of the BFF?

GC: The most important facet to this couch is how very much like a friend it is. In being so adaptable, it is like that best friend who is flexible and who makes themselves available to accommodate your needs. Or that friend who is always there for you. We designed the sofa to be soft yet durable, making it like a friend you can rely on who is comforting and supportive for any way in which one chooses to recline.

How would you describe your collaboration with Moooi?

GC: Our collaboration with Moooi is in many ways like working with family. We share a commitment to innovation and our values are completely aligned in our desire to bring the most beauty to everything we create together. This BFF Sofa is like a friend who understands what you need and that is our relationship with Moooi. In that sense, each company's designers relate to one another being on the same page and knowing exactly what level of beauty and style the project needs to achieve.

"BFF, a sofa that is your friend, that embraces you if you are tired, that cheers with you when your national soccer team scores a goal, that makes your mother-in-law feel welcome, that comforts you when you receive bad news, that stays with you also when you move cities, that never skips your birthdays, that never talks too loud, yet supports you if you do. A true Best Friend Forever".

LIBERTY LOUNGER

Artist Joep van Lieshout set himself a goal: to create one chair per day for a month. He named the project *Prototypes* as part of his utopian project *New Tribal Labyrinth*. This futuristic vision focuses on the reinvention of the industrial revolution by recreating an ideal world based on the lost relationship between individuals and raw materials.

THE GOLDEN CHAIR BY NIKA
ZUPANC upholstered in Glossy Gold
Skai leather with Gold frame.

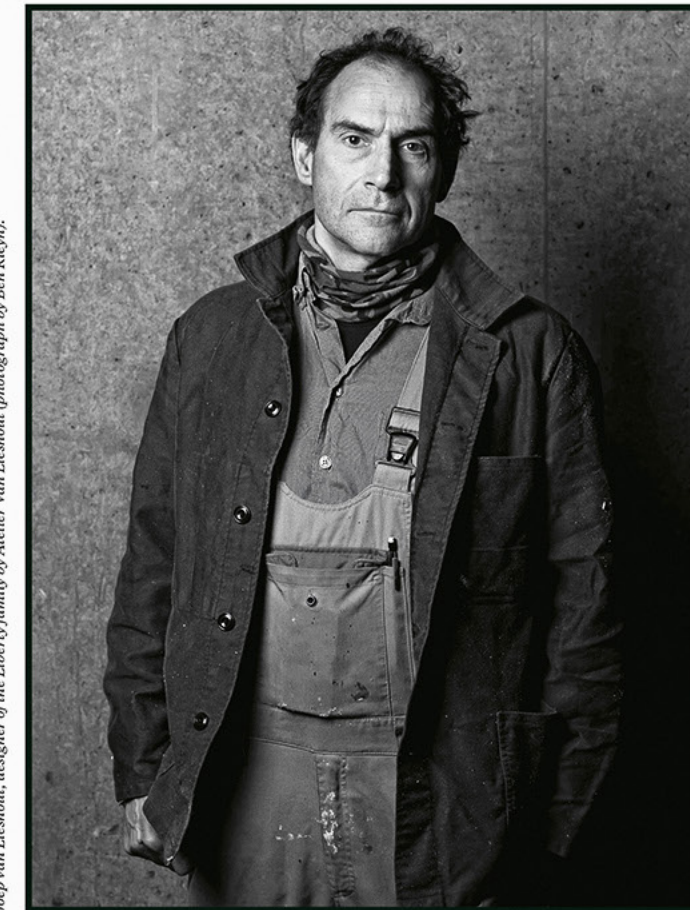

SMOOTH AMERICAN WALNUT

The Liberty Table combines very nice wood and quality craft with the original design by Atelier Van Lieshout. It is made from smooth American Walnut, which is a contrast to the rough painted timber of Van Lieshout's prototype. The Liberty lounge was part of the art project 'The New Tribal Labyrinth'. In this project, Joep van Lieshout gave himself the mission to create one chair each day: either successful or else scrapped. The Liberty Table still hints of this with contrasting rough edges.

Clean lines and sturdy wood are the protagonists in the Liberty family.

LIBERTY FAMILY, TRUE WORKS OF ART

Just like the earlier released *Liberty Lounger*, the *Liberty Table*, designed by Atelier Van Lieshout, is a typical example of artwork turned into a design object. With the *Liberty Table*, Atelier Van Lieshout continues to address the *New Tribal Labyrinth* and the *Arts and Crafts movement* with traditional craftsmanship and using simple shapes and forms.

*What will you be when you grow up?
More mature? Yes. Wiser? Hopefully.
The Kaipo stood the test of time and
became a timeless icon. Ultimately,
it matured in every essence and
has grown into the Kaipo TOO.*

KAIPO TOO: A DESIGNER
DREAM COME TRUE
The Kaipo TOO is the successor of the
first Kaipo design, dating back to 2001.
The lighting object still sports the
classic shape of the archetypical lamp
base. The main difference lies in the
choice of materials. Made of glass and
steel, the first Kaipo was a statement of
contrast. The Kaipo TOO radiates unity
as it is made solely out of glass.

Moool makes designer dreams come
true. With the Kaipo TOO, the choice in
design and preferred materials proved
to be a challenge. Therefore, Moool
searched the globe for the best and
high-skilled craftsmen to make sure
the Kaipo TOO came out exactly the
way it was intended by Dutch designer
Edward van Vliet: strong, beautiful
and elegant. Our research brought us
to Venice, home of traditional glass
blowing and the only place that could
meet our expectations in quality. The
transparency of the Kaipo TOO creates
an airy stratification. The feminine
contours of the archetypical base add
grace and elegance.

Edward van Vliet, designer of the Kaipo TOO.

MOOOI ORIGINAL

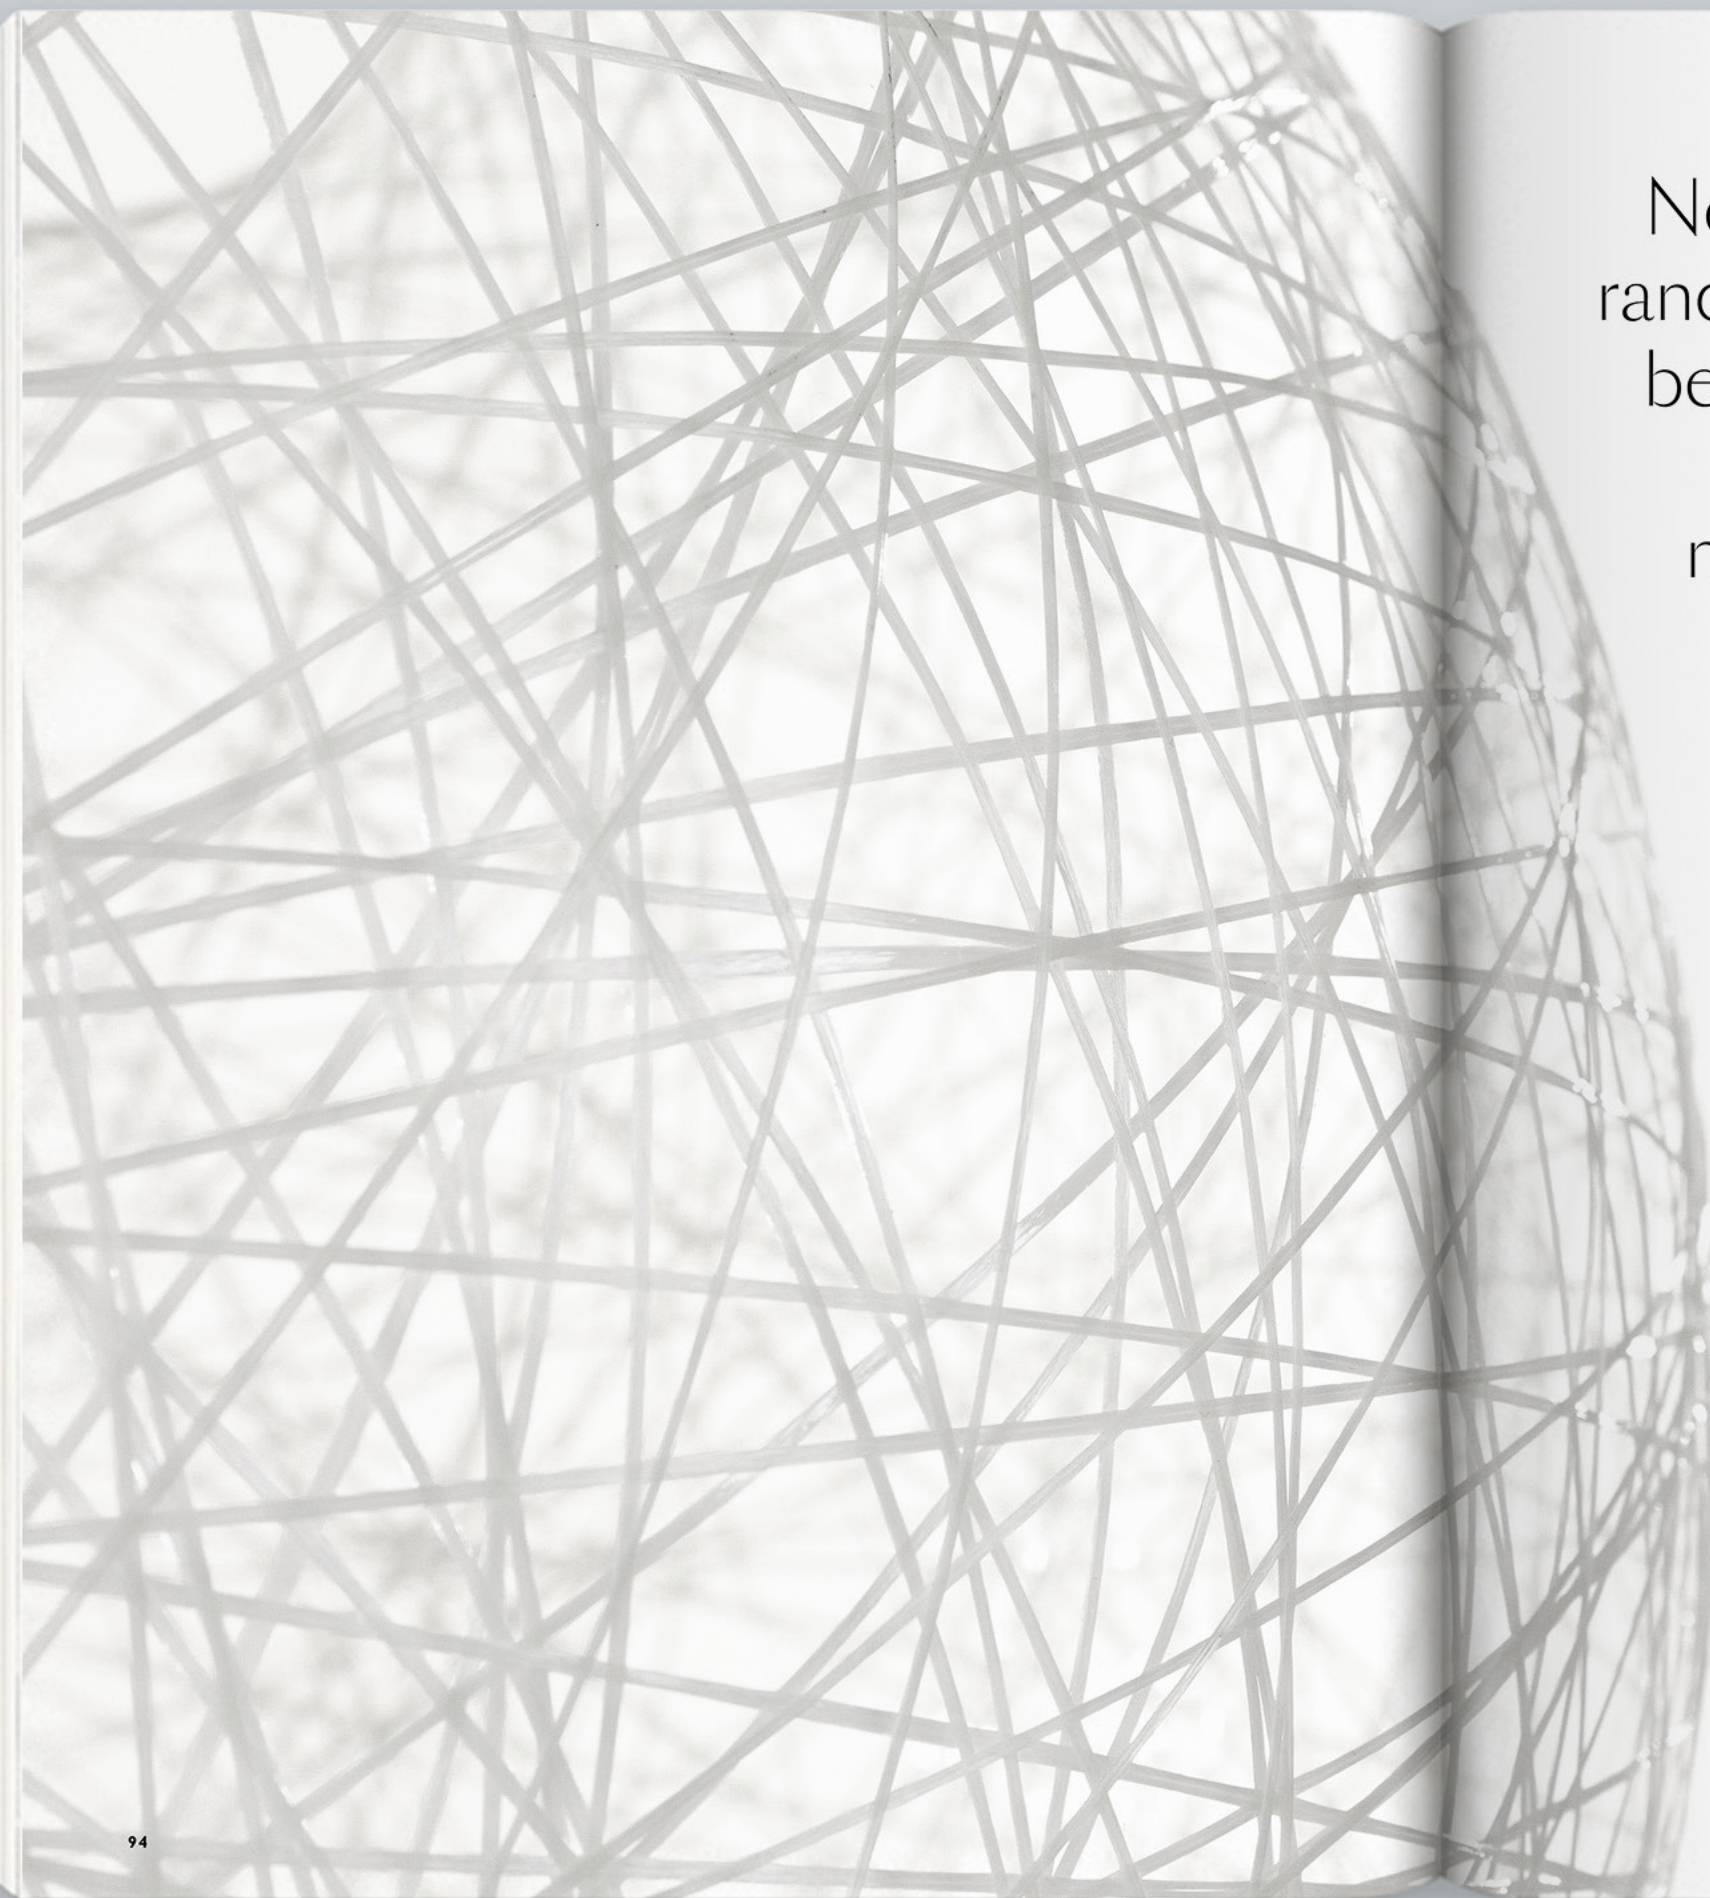

Random Light II, mesmerisingly beautiful

Bertjan Pot, the designer of the Random Light, is more a contemporary inventor than a designer. The Random light was his first design for Moooi, and like all his other designs, started out as an experiment for an interior object.

NUT LOUNGE CHAIR BY MARCEL
WANDERS upholstered in Oray Sand
with Natural stained oak legs and shell,
RANDOM LIGHT II BY BERTJAN
POT in White (medium shown).

No other suspension is incredibly random, versatile and mesmerisingly beautiful as The Random Light II. Just wait until a breeze of air makes it slowly start to rotate...

THE STORY OF A MOOOI ORIGINAL

They're never completely round, and always beautifully transparent and delicate. Bertjan Pot, the designer of the *Random Light*, is more a contemporary inventor than a designer. The *Random Light* was his first design for Moooli, and like all his other designs, started out as an experiment for an interior object. After graduating from the renowned Design Academy in Eindhoven (NL), Bertjan started experimenting with the remains of his graduation project. This experimenting resulted in what would eventually become the first *Random Light*. In 2001 Founder and Art Director for Moooli, Marcel Wanders, was impressed with Bertjan's clever experiment, thinking it would be a perfect fit for a brand like Moooli. After three years of perfecting the production process, The *Random Light* was added to the Moooli collection and became an instant icon!

MODERNISED AND BETTER THAN EVER

Almost twenty years later, the *Random Light* is as relevant and eye-catching as ever. A Moooli original loved by many all over the world. To honour the beautiful designs in our collection, we are committed to further improve our Moooli Originals. Together with designer Bertjan Pot, we've updated the *Random Light* with enhanced user-experience and Bertjan Pot's original idea as key focus. The end result is an aesthetically perfected and user-friendly design, with an enlarged lifecycle: the *Random Light II*. The *Random Light II* transmits a feeling of simplicity, softness, lightness and a touch of magic in contemporary style. The production process is a special story by itself: a resin drained yarn is randomly coiled around an inflatable beach ball creating a translucent 3D fabric. The beach ball is then deflated and extracted from a round opening in the lamp. At the end the skin becomes the product. Soft and magic.

Like an uncurling flower, the Hana Armchair Wingback seems to bloom open, honouring its name. Hana invites you to lay back, relax and let go in your own cosy little corner.

**THE HANA ARMCHAIRS
BY SIMONE BONANNI**

The *Hana Armchairs* by Simone Bonanni are a celebration of soft and round curves. Unfolding like a flower in bloom, *Hana* invites you to lay back, relax and let go in your own little corner in the world. With this new design, Moooi offers you a comfortable resolution for your busy routine. The *Hana* is more than a seating object. It is sculptured around the human body and its need to be pampered and embraced for long stretches of time. The generous and subtle curves allow for hours of lounging to daydream, read a book and let your imagination fly. Where will you go nestled in the Hana?

ABOUT SIMONE BONANNI

Simone Bonanni (Italy, August 1989) grew up in Pordenone. He graduated from IED Istituto Europeo di Design in Milan in 2011. A year later he started at Marcel Wanders Studio in Amsterdam where he worked as a product designer and project leader for three years. He moved back to Milan in 2015, where he founded Simone Bonanni Studio.

SCRIBBLE RUG BY FRONT

A series of colourful, hand-drawn scribbles decorate these seven rugs. The irregularly shaped pieces are like enlarged sketches to decorate your living room floor, with every pencil line visible.

Chess Table
BY FRONT

MOOOI ORIGINAL

The Animal family, a gathering of extraordinary creatures

Clippety-clop, clippety-clop, clippety-clop! Imagine a spontaneous encounter with an extraordinary horse in an entrance hall. Should you have fear? – no, dear.

LIBERTY TABLE BY ATELIER
VAN LIESHOUT in Solid American
Walnut, RABBIT LAMP BY FRONT,
SMOKE DINING ARMCHAIR BY
MAARTEN BAAS.

112

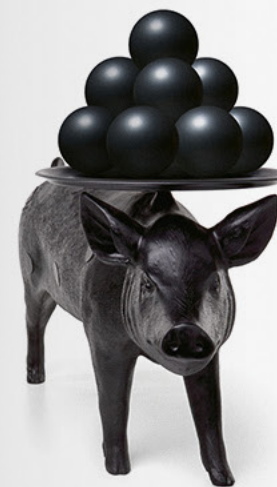

Hold onto the Animal family by Front, they'll abundantly add light to your life. All they ask for is a little bit of love and kindness — and an owner who doesn't shy away to designate them their places.

THE STORY OF A MOOOI ORIGINALS TRIPLET

The *Animal* family by Front moves away from abstraction and takes inspiration from living creatures. When Front designed the *Animal* family, they knew that people would either love or hate their designs. One thing is certain: those who spot these animals in the wild, will certainly be astonished. Due to their 'special' behaviour (have you ever seen a pig balancing a tray?) the *Animal* family never fails to elicit a strong response from onlookers.

THE HORSE LAMP

The *Horse Lamp* brings a touch of nature in fairytale style and genuine madness. His talent to make a bold statement is so developed, that trying to feed him carrots wouldn't do him justice. In fact, a spotlight is what he deserves.

THE PIG TABLE

Oink, oink! Meet the *Pig Table*: the table that thinks it's a pig. This proud big girl certainly didn't buy her hospitality license at the corner store — she definitely knows what she's doing. Isn't she extraordinarily adorable?

THE RABBIT LAMP

The *Rabbit Lamp* is a bit shy, but don't worry, he always hides where the light is. That being said, for a shy rabbit, he sure likes to receive a healthy dose of attention. When you turn on the light of this adorable creature, its reflection will evoke the feeling of warm fur. It's a rabbit to fall in love with. Although everyone knows that *Rabbits* cannot talk, this one will brighten up your life.

DESIGN DREAMS

Marcel Wanders created more Monsters!

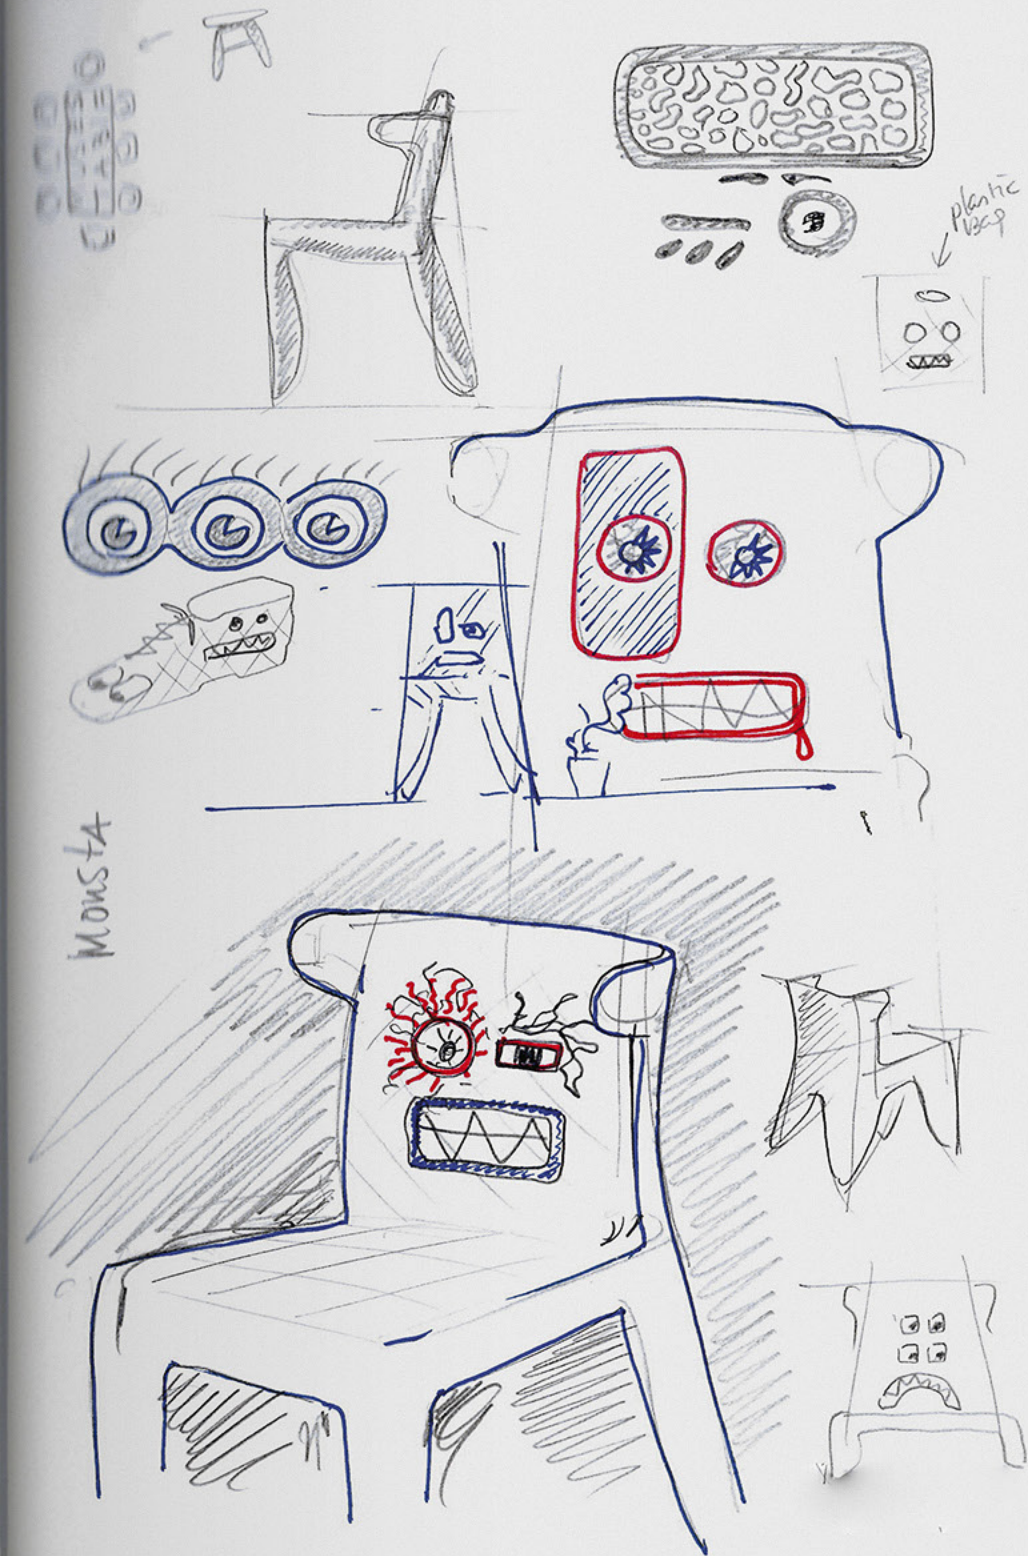

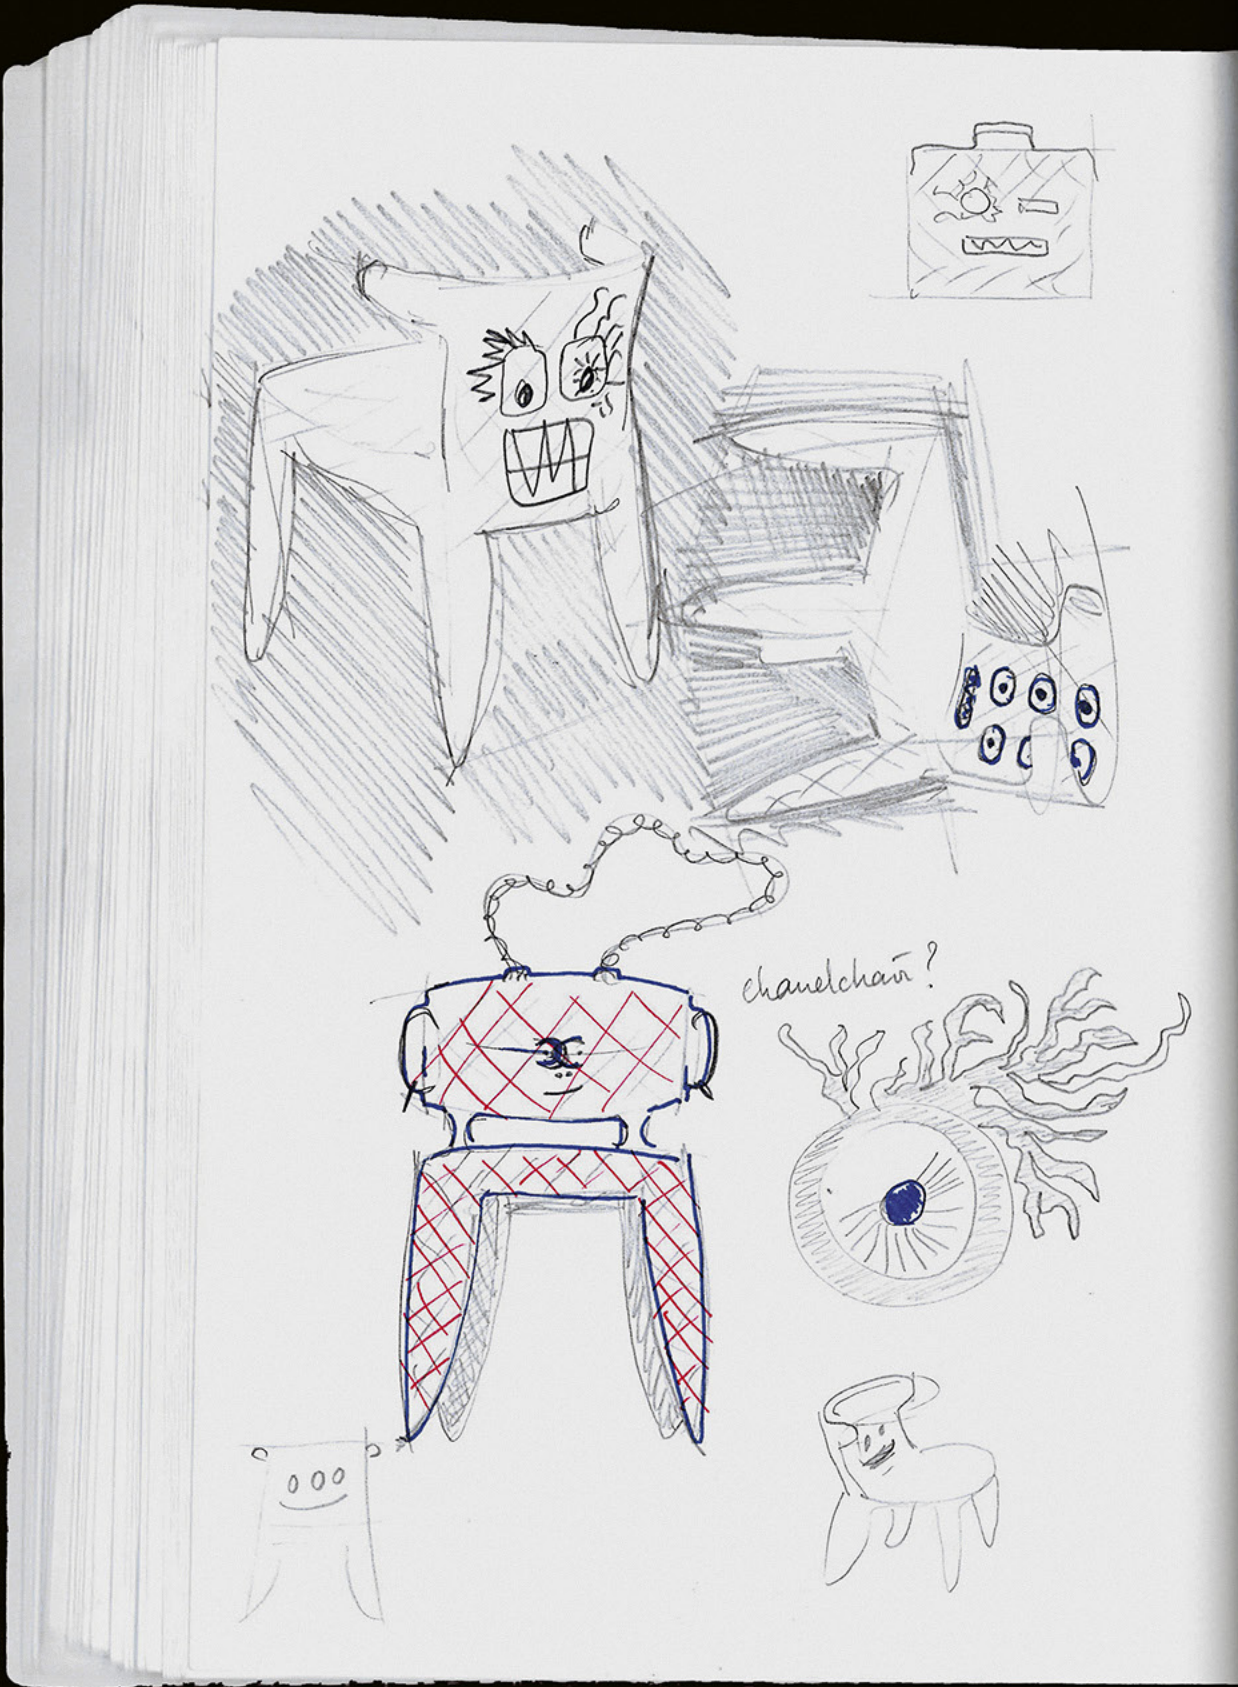

Ten years ago, Marcel Wanders had a dream that led to the creation of seven Monster muses. Ever since that day, the happy people at Moooli have been wondering about these intriguing creatures. After a lot of experiments and mutations, he did it again.

MONSTER RUG BY MARCEL WANDERS

The most colourful of each of them, the new design *Monster Rug* by Marcel Wanders for Moooli Carpets was created to bring balance between tables and chairs. This *Monster* speaks for all. Available in three sizes.

*Monsters desire respect, love,
laughs and sparkling eyes.
Feed them with flowers and
sunshine, poetry and fantasies
and they will always behave.
They'll treat you with peace.*

MEET THE MONSTERS

We're creating more *Monsters* than ever before. Scary? Not at all! The *Monster* is a symbol of the eternal battle between opposite forces that take place in life and can be easily recognised inside ourselves, if we have the courage to open our eyes. The *Monster* family now exists of *Monster Chairs*, *Monster Barstools*, a *Monster Table* and a *Monster Rug*. They all share the same great genes, curving lines and tranquility. The *Monster Table* though, has a huge appetite that needs to be satisfied, so we advise to have a gathering around it at least once a day, preferably around dinner time. The more *Monsters*, the merrier.

Our new four-legged monster shares the genes and curving lines of the Monster Chair and adds elegance to your dining experience. Available in 6 stained-wood colours and 3 sizes.

Monster Table
BY MARCEL WANDERS

Monster Table 180 Monster Table 240 Monster Table 280

*One day I will die. I foresee
a dramatic ending with
some fireworks, some pain
and lots of wild music. But
after that, it will be silent.
Silent for a long while...*

I will be sitting on a little stool at the head of a large table, ready for an eternal dinner. Seven dark leather chairs with ferocious faces surround the table. Eight sets of silver cutlery and white porcelain plates lay amongst copious amounts of white tulips on a fresh white tablecloth with white ribbons. There will be sparkling crystal glasses ready to be filled with endless amounts of superb wine. Candles will be burning as Callas and Puccini sit in the corner singing heavenly tunes as I wait for my guests. I will await my seven muses. I will await the seven most important women in my life to dine eternally in their gathered presence. All the beauty I discovered and hoped to have will suddenly be there for me eternally.

BUTTERFLIES...
My muses are the true collection of my life. I collect them as if they were butterflies. My net flies gracefully through the air as I want to catch them without hurting them. I want to treat them with kindness, caution, and respect. I will never pin a butterfly down to keep her from flying. Therefore, I know I am not able to keep them only for myself. (But when they fly away they magically double so I can take them with me wherever I am.) However important this collection is to me, I know that with my inevitable death I will lose not only my life but also my collection of muses.

THE ETERNAL PARTY...
At that table, after my death, I will wait patiently until my muses fly back to me, to my table for this eternal treat. I will look forward with excitement and hope that they might choose to be with me again. I will hope that I was able to give them enough respect, love, laughs and sparkling eyes. I will hope that with time they can forgive my stupidity, disloyalty and little lies. I will hope that I fed them enough flowers and sunshine, poetry and fantasies for them to desire a seat at my festive table. I will enjoy the eternal pleasure of being reunited with my muses. Each muse will find a black leather embroidered chair that is just for her: Her solitaire, soft and comfortable, follows the rules of a future contemporary style while conflicting with the rationales of history. Showing the frozen face of a monster, a dragon, seemingly harmless. Only when all seven muses are seated will the party begin. There will never be an end to this orgy of sensitivity and passion. We will laugh, we will tease, we will play and we will cry. We will feel connected on the deepest level of our souls. Wine will not give us headaches, sweets will not make us fat, cheese will scent like perfume, for always, forever...

THE MONSTER INSIDE...
The greater the excitement of being reunited with my collection of muses the crueler and more painful the moment if not all of them will arrive at my table. One of them could decide to stay away, not to join. One of them could turn her back to me. In this unfortunate event, this dark occasion, this moment of eternal sorrow, I will understand why I deserve my muse's disloyalty. The frozen monster in the free leather chair will come alive. It will step onto the table and reveal its fierce claws. It will spit fire while its black leather skin will turn crimson. From the chest of the monster will spring long sharp needles. With one swift move he will pierce all my loyal muses. I will remain alone at my table, the wine will bloat my skull, sweets will make me obese, the stench of the cheese will make me want to cut of my nose, for always, forever...

TODAY, FOREVER...
But today, I can still serve my muses; I must remember to feed them flowers and sunshine, poetry and fantasies... Eternity might last forever...

– Marcel Wanders

FOOLS PARADISE BROADLOOM BY MARCEL WANDERS for Moooi Carpets, MONSTER CHAIRS BY MARCEL WANDERS with and without cross-stitching, RAIMOND BY RAIMOND PUTS realisation by Ox-ID (R89 shown).

FOOLS PARADISE RUG BY MARCEL WANDERS

Marcel Wanders was inspired by ever-changing natural elements such as flowers, that wither over time. The wonderful design of *Fools Paradise* captures a moment and freeze it forever. The carpets are available in different sizes rugs and a broadloom carpet.

MOOOI ORIGINAL

The graceful contours of the Coppélia Chandelier

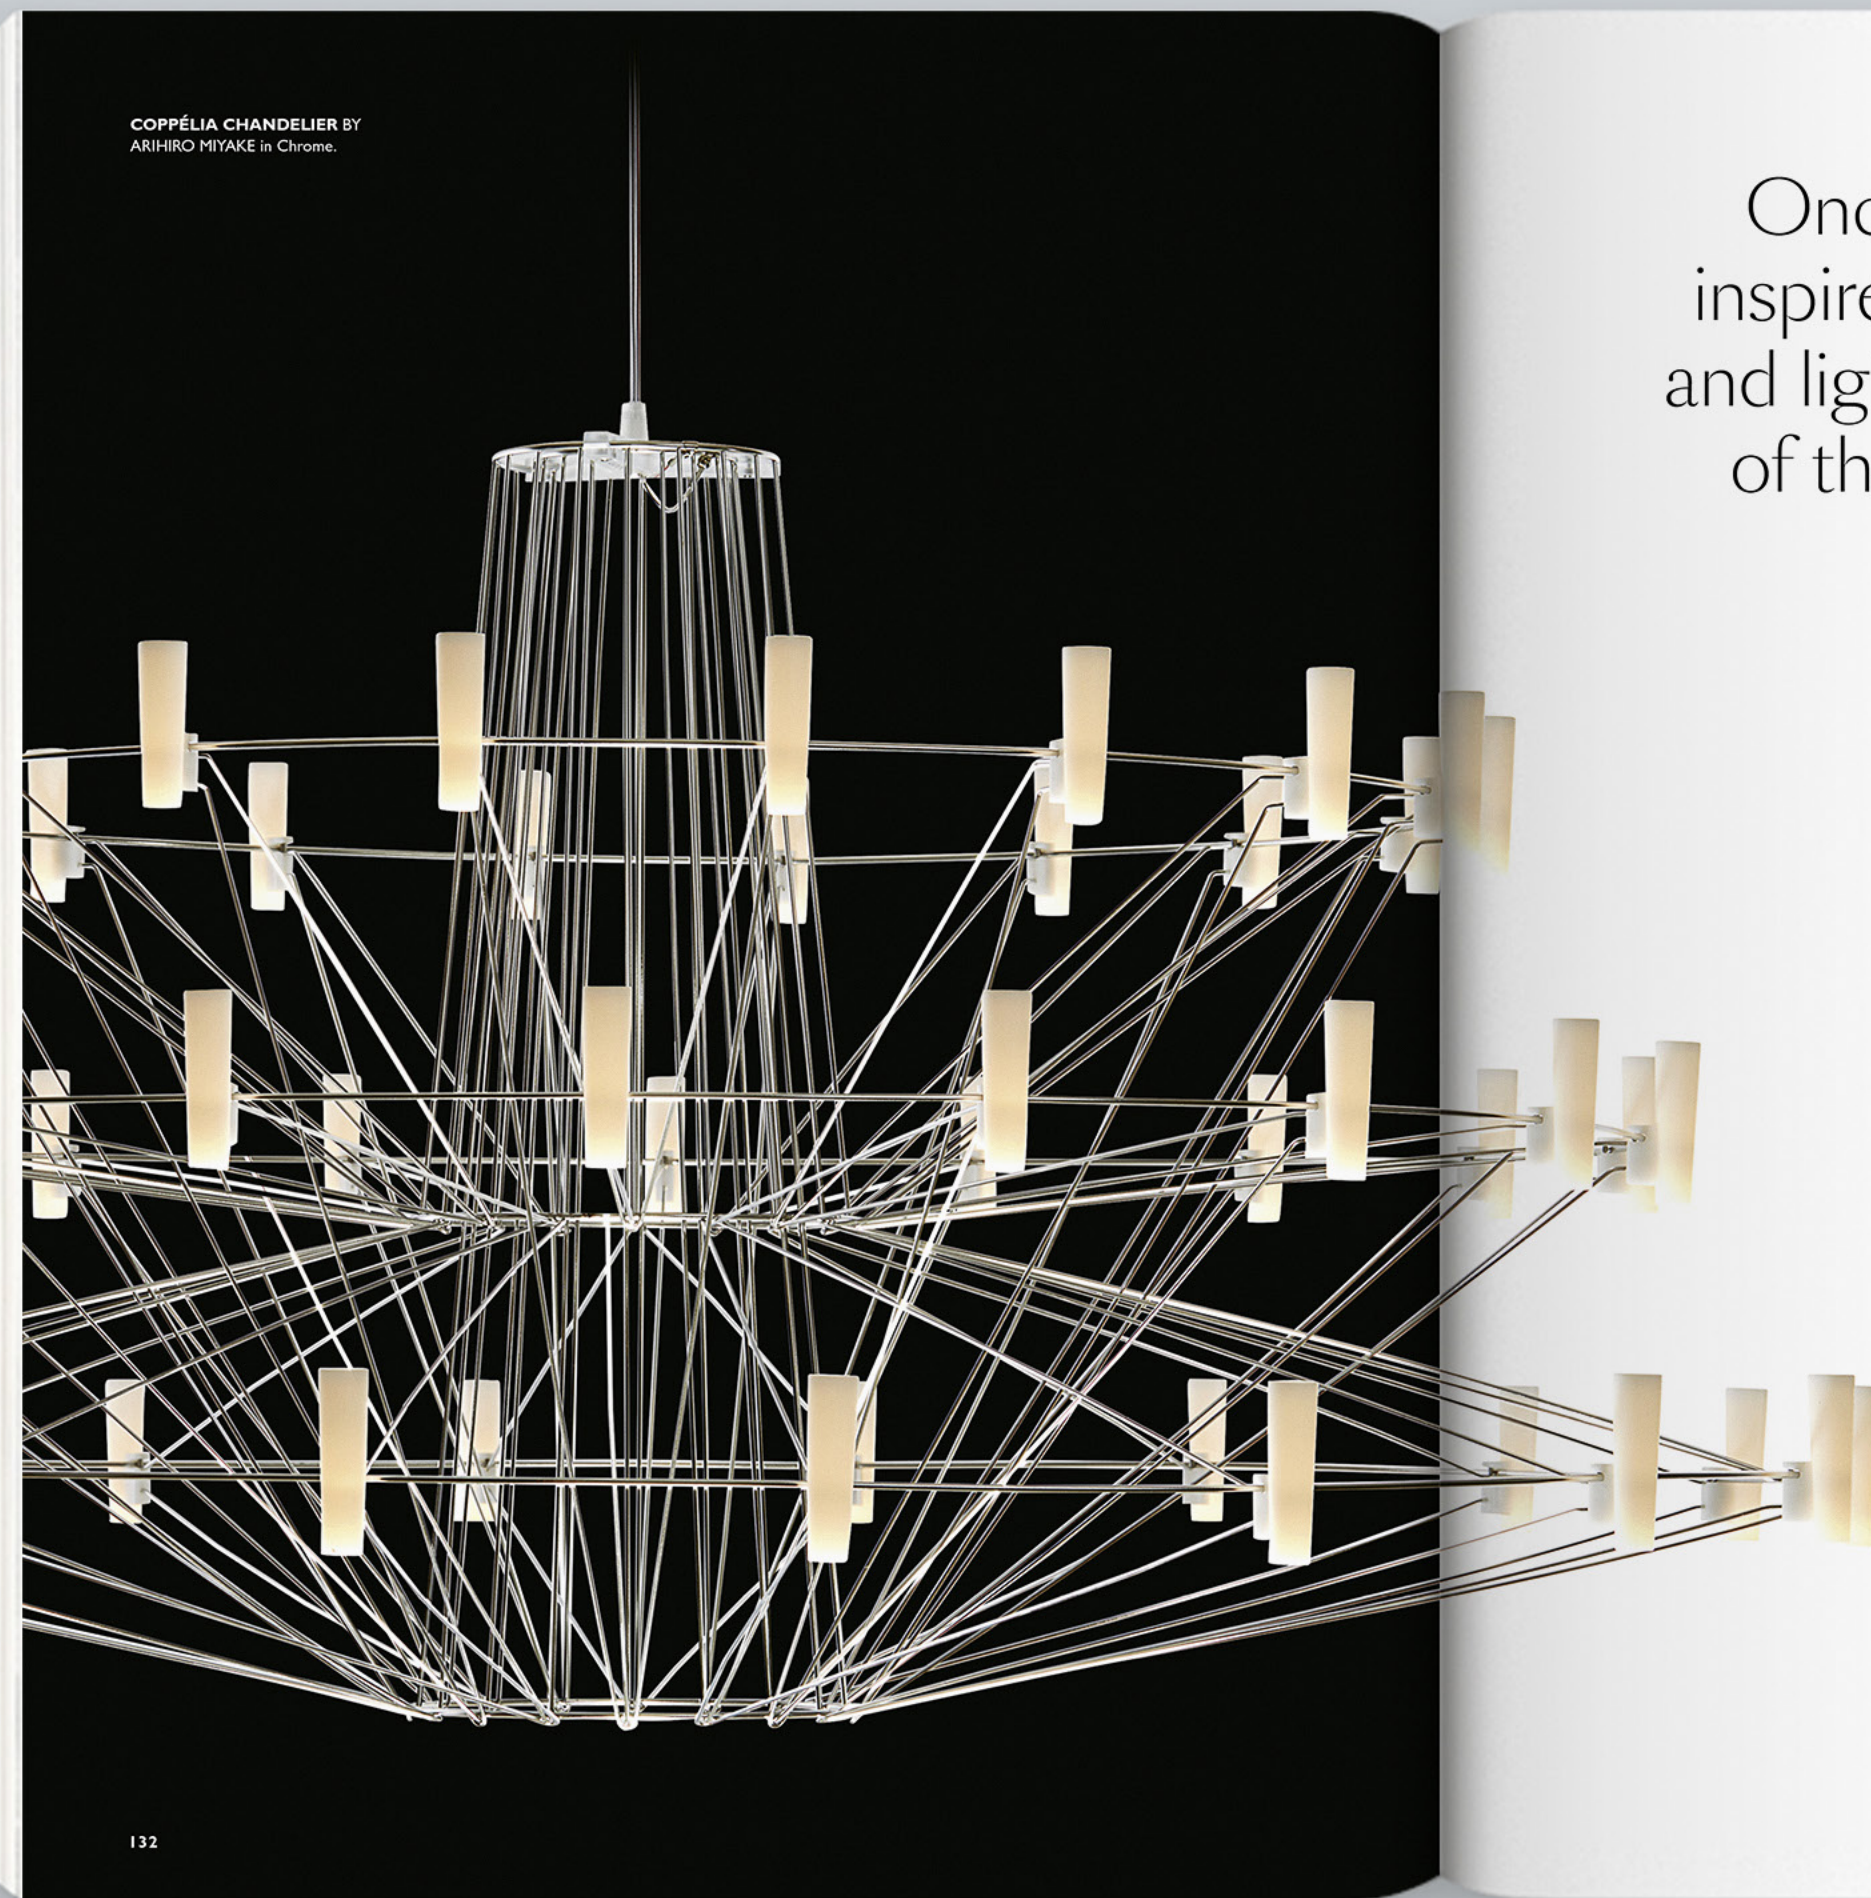

Like a beautiful mechanical doll, bringing a magical ballet to life. The Coppélia Chandelier by Arihiro Miyake takes the leading role and turns any interior into a grande opera d'arte.

CHARLES CHAIR BY MARCEL
WANDERS upholstered in Bouclé
Brown, **COPPELIA CHANDELIER**
BY ARIHIRO MIYAKE in Chrome

COPPÉLIA CHANDELIER BY
ARIHIRO MIYAKE in Chrome.

Once upon a time, a ballet inspired a designer with magic and lightly light. This is the story of the Coppélia Chandelier, a Moooi Original.

ALL GROWN UP

In 2009, Moooi co-founders Marcel Wanders and Casper Vissers visited Arihiro Miyake, a Japanese product and interior designer who lives and works in Helsinki. A mutual interest was born and ever since that day, Miyake was constantly sketching to come up with new ideas for Moooi.

Years went by, but every once in a while there's a kind of moment in which a few things connect. *Coppélia Chandelier* is the result of one such moment. Miyake named it after the famous Coppélia ballet, because the form reminded him of a pirouetting ballerina. Coppélia, is a romantic ballet in two scenes. The ballet tells the story of a doll that mysteriously comes to life with a graceful sense of wonder. In the outstanding performance the ballerina traces, with flexuous movements, a elegant after-image in the air. This lingering visual impression inspires the fluid motion in the design of Miyake's *Coppélia Chandelier*.

A STORY ABOUT SWIRLING MOTION, A DESIGN ABOUT STRUCTURE

Just like a huge ballet doesn't magically arise from the dust, the production of the *Coppélia Chandelier* also required a lot of endeavour and effort since the light is a reinterpretation of a traditional chandelier made from steel wire and lots of LEDs. Each of the LEDs is powered through the steel frame of the *Coppélia Chandelier*, without any additional wires.

The complex spoke-like structure of the light ensures that the different parts of the frame carrying the positive and negative currents never touch, only coming together at each LED light source. This in fact, makes that the lamp can be divided into two pieces, just like the famous Coppélia ballet.

The graceful tutu of the Coppélia Chandelier creates the feeling of dining by candlelight, the soft glow emits a romantic atmosphere.

⚙️ Configure Online

Configure, combine, repeat. The Container Table by Marcel Wanders, is part of a fully versatile system that has endless composition possibilities. The Container Table fits in every space. Configure on moooi.com.

The Container Table Concept features a hollow tapered plastic base, which can be filled with sand to provide stability for the screw-on top. It's light when you transport it and stable when you use it.

CONTAINER TABLE CONCEPT BY MARCEL WANDERS FITS EVERY INTERIOR
A later version of the table, called *Container Table New Antiques*, features a curved ornamental base. The *Container Table Bodhi* has the tapered polyurethane base, but is wrapped with vertical solid oak slats. The table features a *Linoak Table Top*, which consists of linoleum and an oak trim around the edge. The table's more natural look expands the range of settings the table can be used in. *Container Table Bodhi* is the latest addition to the collection, which is available in a variety of different colours, sizes and shapes.

DEAR INGO'S OPTIMUM BALANCE

Dear Ingo seems so familiar and yet so imaginative. This Moooi Original is a top-class eye-catcher that begs to be played with. Dear Ingo can be put in various forms and sizes and it leaves no spot in your interior unexposed. It is the most flexible, versatile chandelier you'll ever come across.

Ron Gilad, designer of the Dear Ingo.

Dear Ingo
BY RON GILAD

MOOOI ORIGINAL

What happens when a designer plays with fire?

The parents of Maarten Baas told him not to play with fire, but sixteen years ago his daring mind couldn't resist the experiment anymore. His fire has been burning ever since...

SMOKE CHAIR & CHANDELIER
BY MAARTEN BAAS, TIE-TAMI
WALLCOVERING BY MOOOI for
Moooi Wallcovering in Sunrise.

Each item of the Smoke family is made of solid wood. They all share the unfamiliar and untamed finish that is created by fire.

148

Where there's smoke, there's beauty. In 2002, Maarten Baas designed his Smoke collection; the end result of his search for beauty and perfection.

FINISHED WITH FIRE

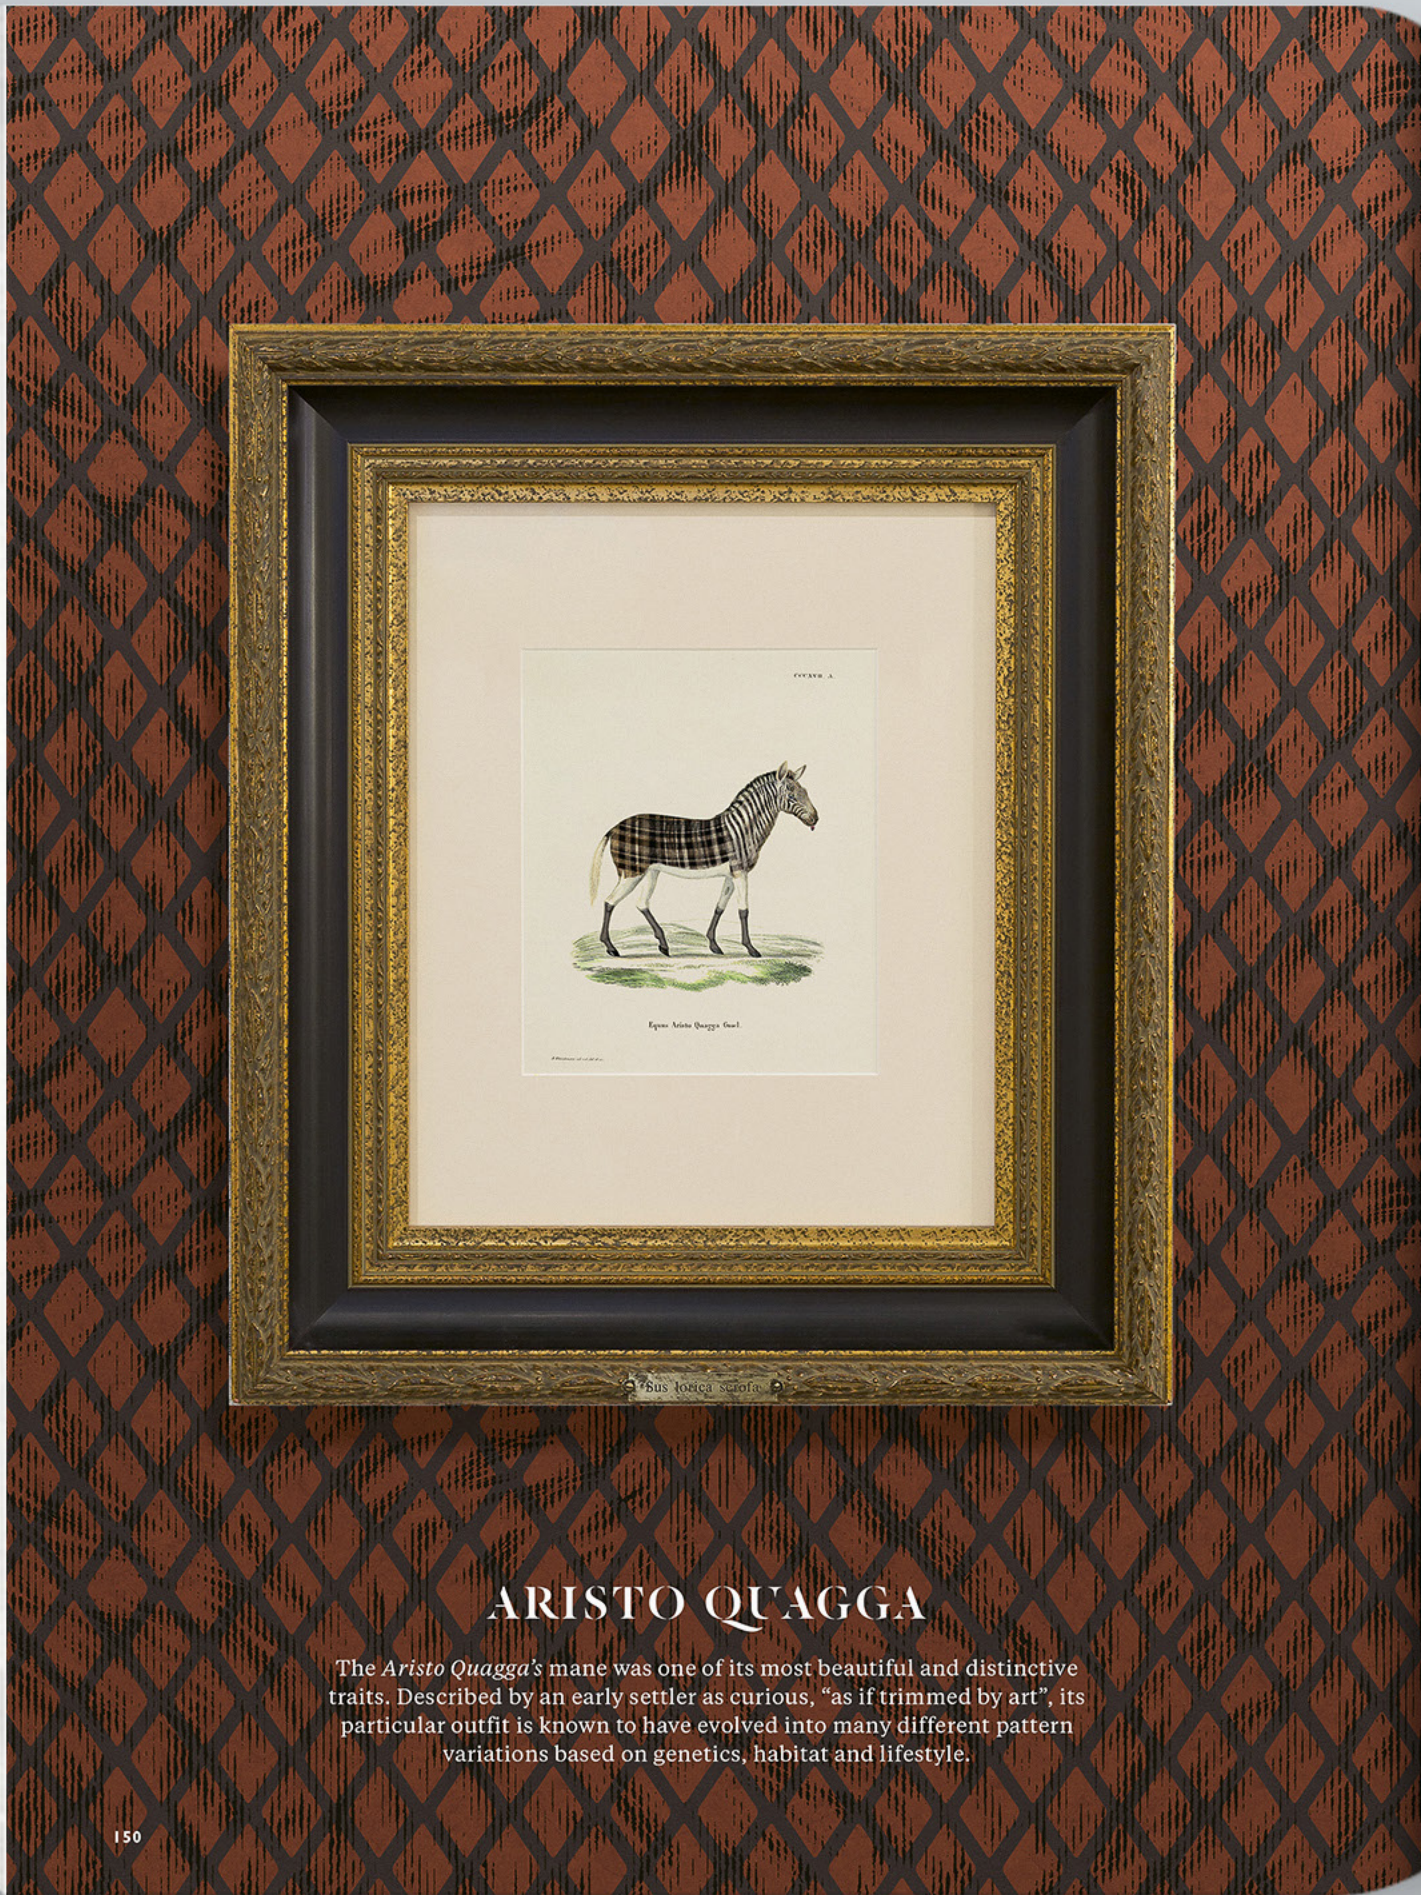

The frame of the *Smoke (Dining) Chairs* and the body of the *Smoke Chandelier* are set on fire, causing the wood to burn, smoulder and eventually char. After this, the pieces are not brushed clean to preserve the burned structures. When needed, pieces are re-placed or otherwise fixed so that they get back their original function. After the pieces have cooled completely, they are treated with a thick layer of epoxy. In this way the chair, the chandelier and the armchair remain firm and the charred wood intact. When the epoxy is completely cured, the seats of the chairs are covered with fire-retardant foam and then, finally, the seats are covered with deep black leather which is fixed with mat black nails.

MOOOI ORIGINAL

Every design in our collection is an original *Moool* design, but a few grew to be *Moool* fan-favourites. These designs are truly *Moool Originals*. Extraordinary designs, well-loved by people all over the world! The *Smoke* pieces play the leading roles among the *Moool Originals*. Every month we highlight one of our *Moool Originals* on our website. Visit moool.com to discover more extraordinary stories behind our (other) *Moool Originals*.

149

ARISTO QUAGGA

The *Aristo Quagga*'s mane was one of its most beautiful and distinctive traits. Described by an early settler as curious, "as if trimmed by art", its particular outfit is known to have evolved into many different pattern variations based on genetics, habitat and lifestyle.

DESIGN DREAMS

Heracleum makes every interior bloom

Nature is a miracle — isn't it? So is the Heracleum, designed by Bertjan Pot and powered through Electrosandwich® by Marcel Wanders. White leaves grow from one branch creating a very technical, natural structure.

HERACLEUM II BY BERTJAN POT
powered through Electrosandwich® by
Marcel Wanders in Nickel (small shown).
NUT DINING CHAIR BY MARCEL
WANDERS upholstered in Oray Sand
with Cinnamon stained oak legs and shell.

Dare to dream and welcome nature in your home. Like moonlight shines through trees, the delicate Heracleum is such a treasure to discover. See how it shines a soft light from dusk till midnight.

WIRES DON'T BELONG IN NATURE

Heracleum is a decorative LED lamp inspired by the Heracleum Plant. Heracleum is very thin and delicate. A design that is not possible with normal wires. Using the innovative and recently developed Electrosandwich® technology by Marcel Wanders, the Heracleum shines warm romantic light.

Bertjan Pot, designer of the Heracleum family.

FOREWORD

Mooodi presents
**A LIFE
EXTRAORDINARY**

Mooodi was born from the urge and desire to make designer dreams come true. It started almost twenty years ago, back in 2001, when Marcel Wanders founded a platform for designers with daring and original ideas. Every year, Mooodi continues to be that accelerator for designers worldwide to realise their boldest dreams. This vision is intrinsic to all we do at Mooodi. It sets us apart from other design brands. We don't need to keep factories running or create a minimum of new designs because we are free to work with the greatest minds and craftsmen out there. Realising designs that are considered impossible.

Our strength is to go above and beyond to make designer dreams come true. We did so with innovative technologies such as the 'Electrosandwich' and 'The Button'. By efficiently implementing the Electrosandwich we created lights without wiring, writing a new chapter for design possibilities. The Button is a digital passport that proves authenticity and secures the investment of all our customers. As of 2019, the Button is implemented to all our designs.

Mooodi is at its best when it operates on the forefront. On all levels. We continuously look at what we do and why we do it. Therefore, we improved the launches of new designs by introducing 'More Mooodi Moments'. A strategic change that turned out to be a success. New designs are available immediately and globally right at the launch. We're proud of all the designs we launched throughout the year and this shines through in all we do.

In 2019, we launched two campaigns. With our 'Mooodi Originals' campaign, we highlight our most iconic and bestselling designs. Securing their position at the top. The 'Lost Recordings' is a campaign that gives way to the multisensorial direction Mooodi is heading. More and more we're focusing on rich visuals and tactility in all that we do and we look forward to keep surprising you with the opportunities this brings.

By introducing our new digital platform 'Mooodi.com', we secured a forefront position. Mooodi.com is available and accessible for e-very-one. We introduced new features such as online mood board functions, interactive products, and we made it easier to understand the sizes of our designs. We've made our sofa's configurable and there is much more to discover. Make sure to have a look and don't forget to read the online stories.

Every Mooodi design is unique, carries emotional meaning and tells a story of its own. We love creating those stories together with designers and will maintain to create stories ourselves, like we did with 'The Museum of Extinct Animals'. This family of Extinct Animals has been an endless source of inspiration for tactile fabrics, textures, carpets and content. This year we were especially excited to discover a new animal in the form of the 'Indigo Macaque', which inspired more designs including our latest Mooodi Wallcovering collection 'Tokyo Blue'.

This Boook is a collection of the extraordinary stories we brought to life over the past years. We hope you enjoy it.

Moooli presents

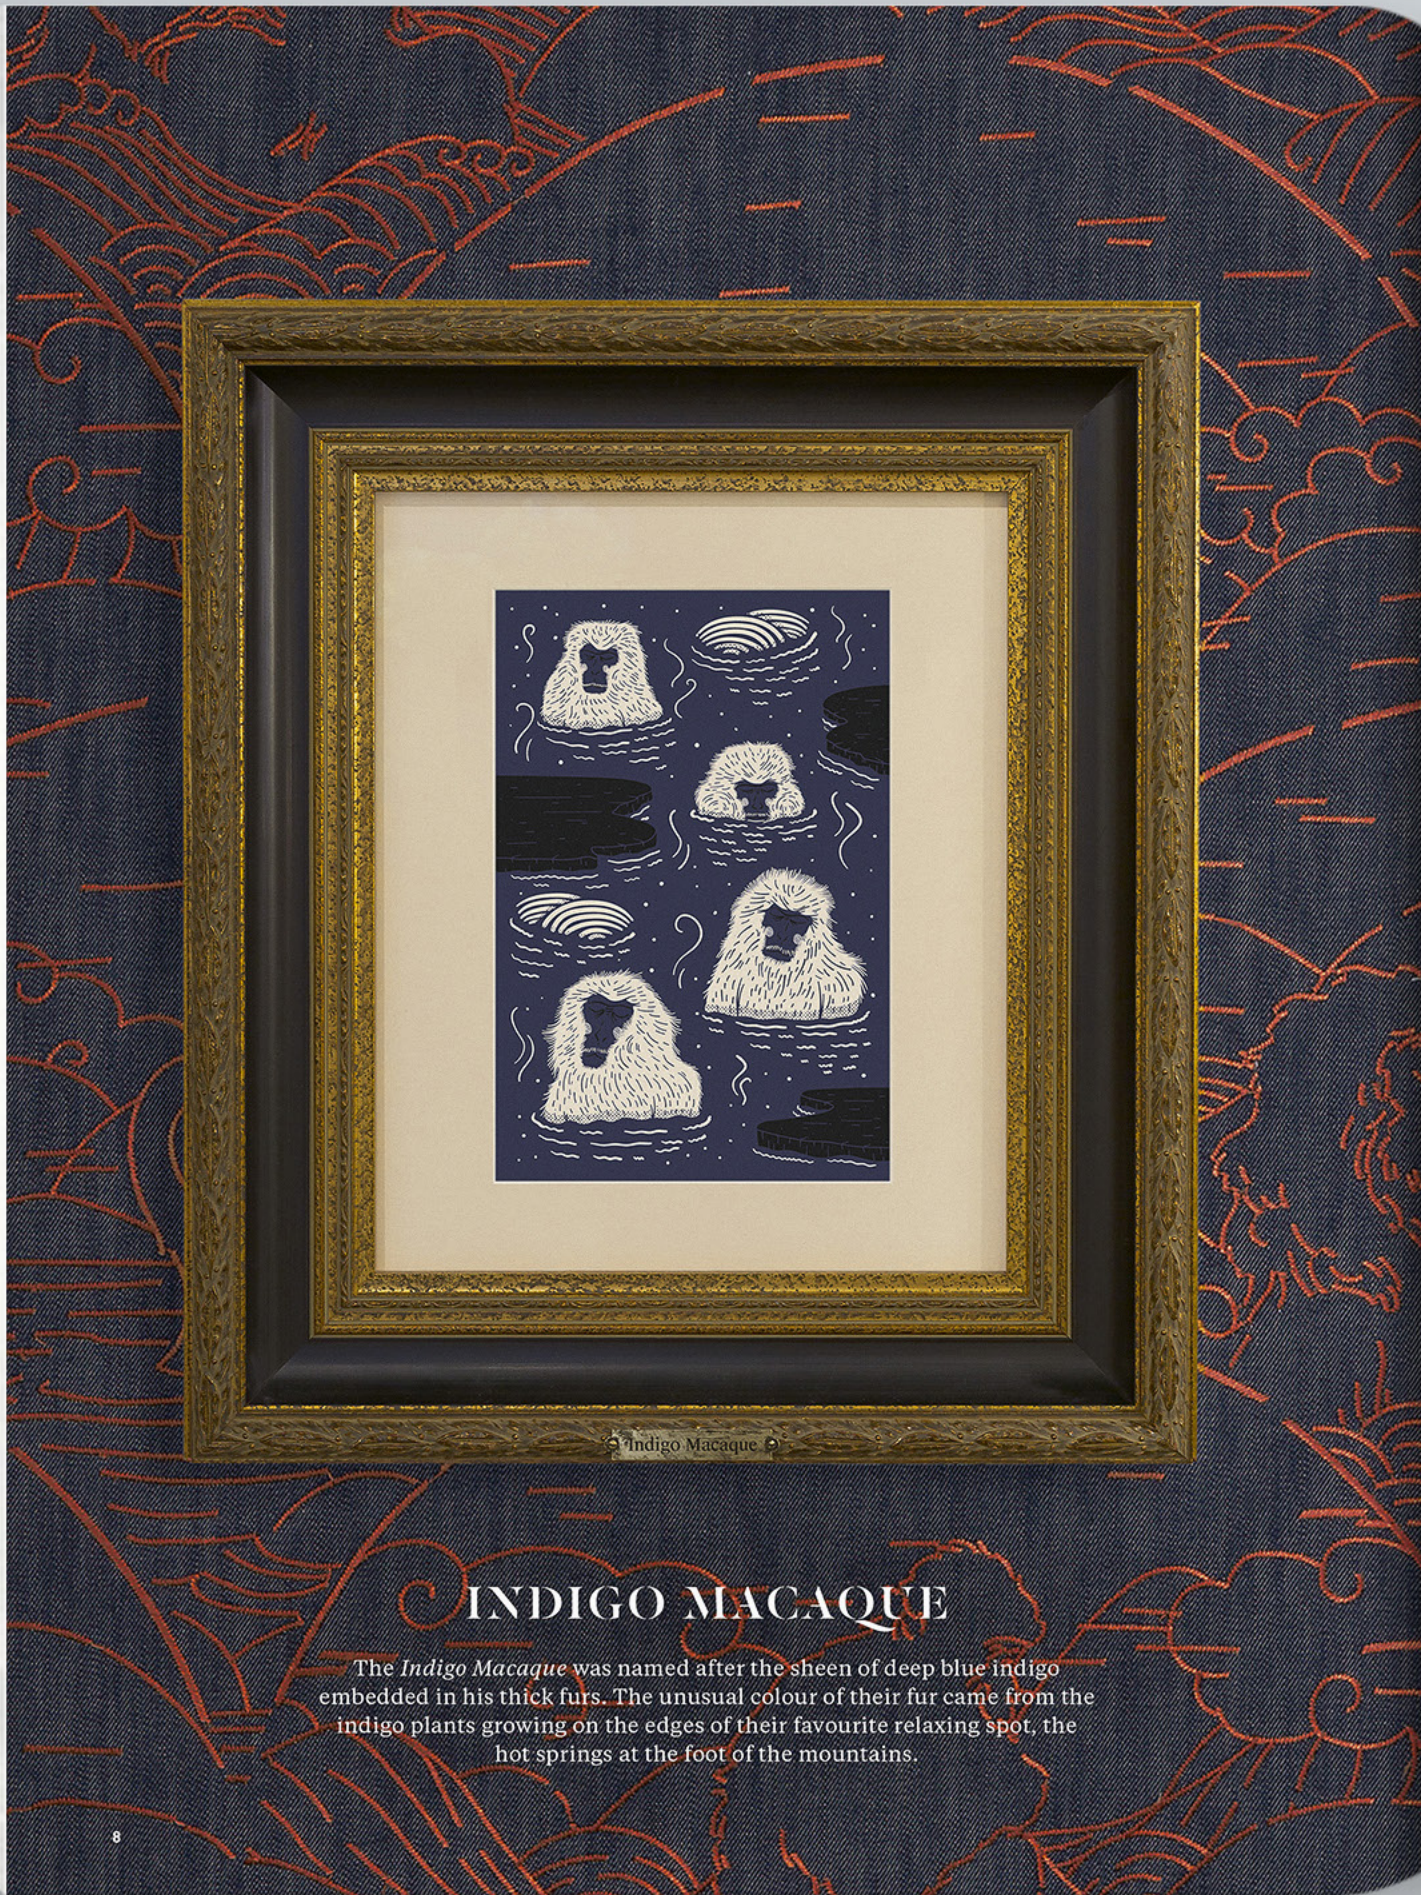

EXTINCT ANIMALS

With the *Museum of Extinct Animals* Moooli kicked off an endless journey of inspiration. To create the *Museum of Extinct Animals* Moooli sailed away on a bold adventure around the globe. Searching the dustiest of museum archives in order to find invaluable treasures: the drawings of lost animals, trimmed by imagination. Moooli celebrates nature's diversity, stimulating to stretch the limits of imagination. The exploration of long-lost animals has inspired a rich fabric collection, a broad range of beautiful carpets and an extraordinary wallcovering collection.

The *Extinct Animal Upholsteries* are a high-end collection of tactile fabrics and leathers. They bring a touch of luxury, softness and a splash of natural beauty to upholstered designs from the Moooli collection. Inspired by a selection of unique *Extinct Animal* drawings, Moooli continues to create a collection based on the animals' features. To follow this ambitious adventure, Moooli investigates the world of fabrics and leathers, discovering their natural qualities and the sensorial feel of diverse materials.

Moooli is committed to continue its exploration and innovation towards surface design. The latest addition to the *Extinct Animal* family is the *Indigo Macaque*. Moooli presents its *Denim Collection*. These new fabrics are made from a revolutionary *Denim* from Japan with a higher durability and resistance to fading, making it suitable for interior design purposes. During the 2019 Salone del Mobile, Moooli started exploring the world of *Denim* with washings, lasering and stitching and was the first to use the fabric in its collection. The available *Denims* are environmentally friendly produced, do not fade and do not leak colour. They come in three colours: *Lightwash Denim*, *Indigo Denim* and *Midnight Denim*.

Celebrating the success of the *Extinct Animals Wallcovering Collection*, Moooli Wallcovering launched a new *Indigo Macaque* inspired capsule collection called *Tokyo Blue*, with exciting new designs and materials. Five extraordinary wallcoverings in a variety of techniques such as embroidered denim and marquetry which come together to celebrate the versatile nature and beauty of Japanese culture.

INDIGO MACAQUE

The *Indigo Macaque* was named after the sheen of deep blue indigo embedded in his thick furs. The unusual colour of their fur came from the indigo plants growing on the edges of their favourite relaxing spot, the hot springs at the foot of the mountains.

INDIGO MACAQUE RUG

The sociable *Indigo Macaques* would bathe, play and, despite any form of privacy, exhibit affectionate behaviour towards each other in the pools. Chasing each other gleefully through the warm waters, without a care in the world.

BLUE-TINGED TRADE WARES

As far as we know the Indigo Macaque has only been sighted in Japan. This made many speculate about whether the Extinct Animal served as an inspiration for the many blue-tinged trade wares coming from the far-eastern country.

DESIGN DREAMS

Iconic Eyes, a modern chandelier with classic touch

The appearance of the Iconic Eyes is truly glorious and breath-taking. To create the Iconic Eyes, Bernhard Dessecker's idea was to create a modern chandelier from iconic automotive headlights.

12

13

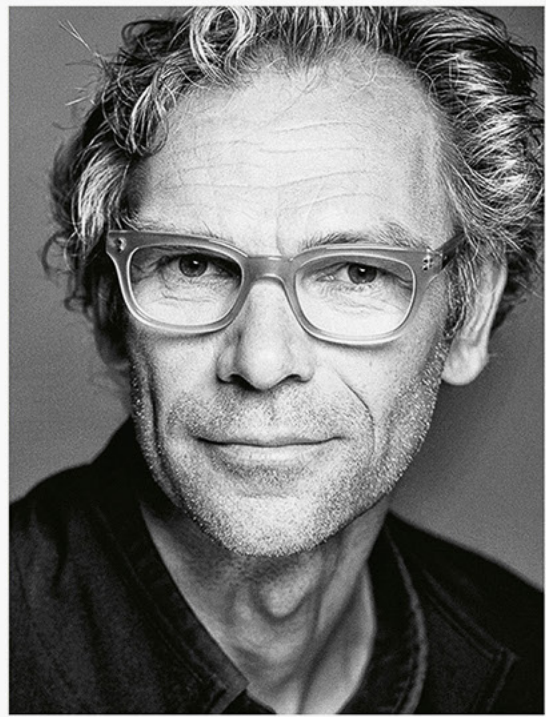

Iconic Eyes 161
BY BERNHARD DESSECKER

Iconic Eyes is exactly what Bernhard Dessecker imagined it to be: representative, grand and breathtaking. Yet modern in all aspects of technique, form and construction.

UNPREDICTABLE CREATIVE SPARKS

Bernhard Dessecker loves lighting design because the design process is never predictable. The quality of the light at the outcome is something he can never predict when he works on an idea or when he starts sketching. All it takes are creative sparks, physics and destiny. The *Iconic Eyes* came together after Bernhard got hold of a box with all sorts of automotive light parts. He tried to figure out which of these parts would be suitable for a lamp. Almost like he was solving a puzzle, he started putting the parts of BMW headlights together. From a tiny creative spark, the *Iconic Eyes* grew into an extraordinary chandelier.

17

LUCKY O'S
Overlapping O's, created of wood veneer marquetry inlay, resemble the rolling waves of the ocean. The unique wallcovering's ancient Seigaiha pattern symbolising waves of water represents good luck, power, and resilience.

LUCKY O'S WALLCOVERING
BY MOOOI for Moooi Wallcovering in Birch/Black. **RAIMOND** BY RAIMOND PUTS realisation by Ox-ID (size R89 shown). **SOMETHING LIKE THIS** SOFA BY MAARTEN BAAS upholstered in Dodo Pavane Jacquard. **WOODY** BY MARCEL WANDERS in Black stained solid oak.

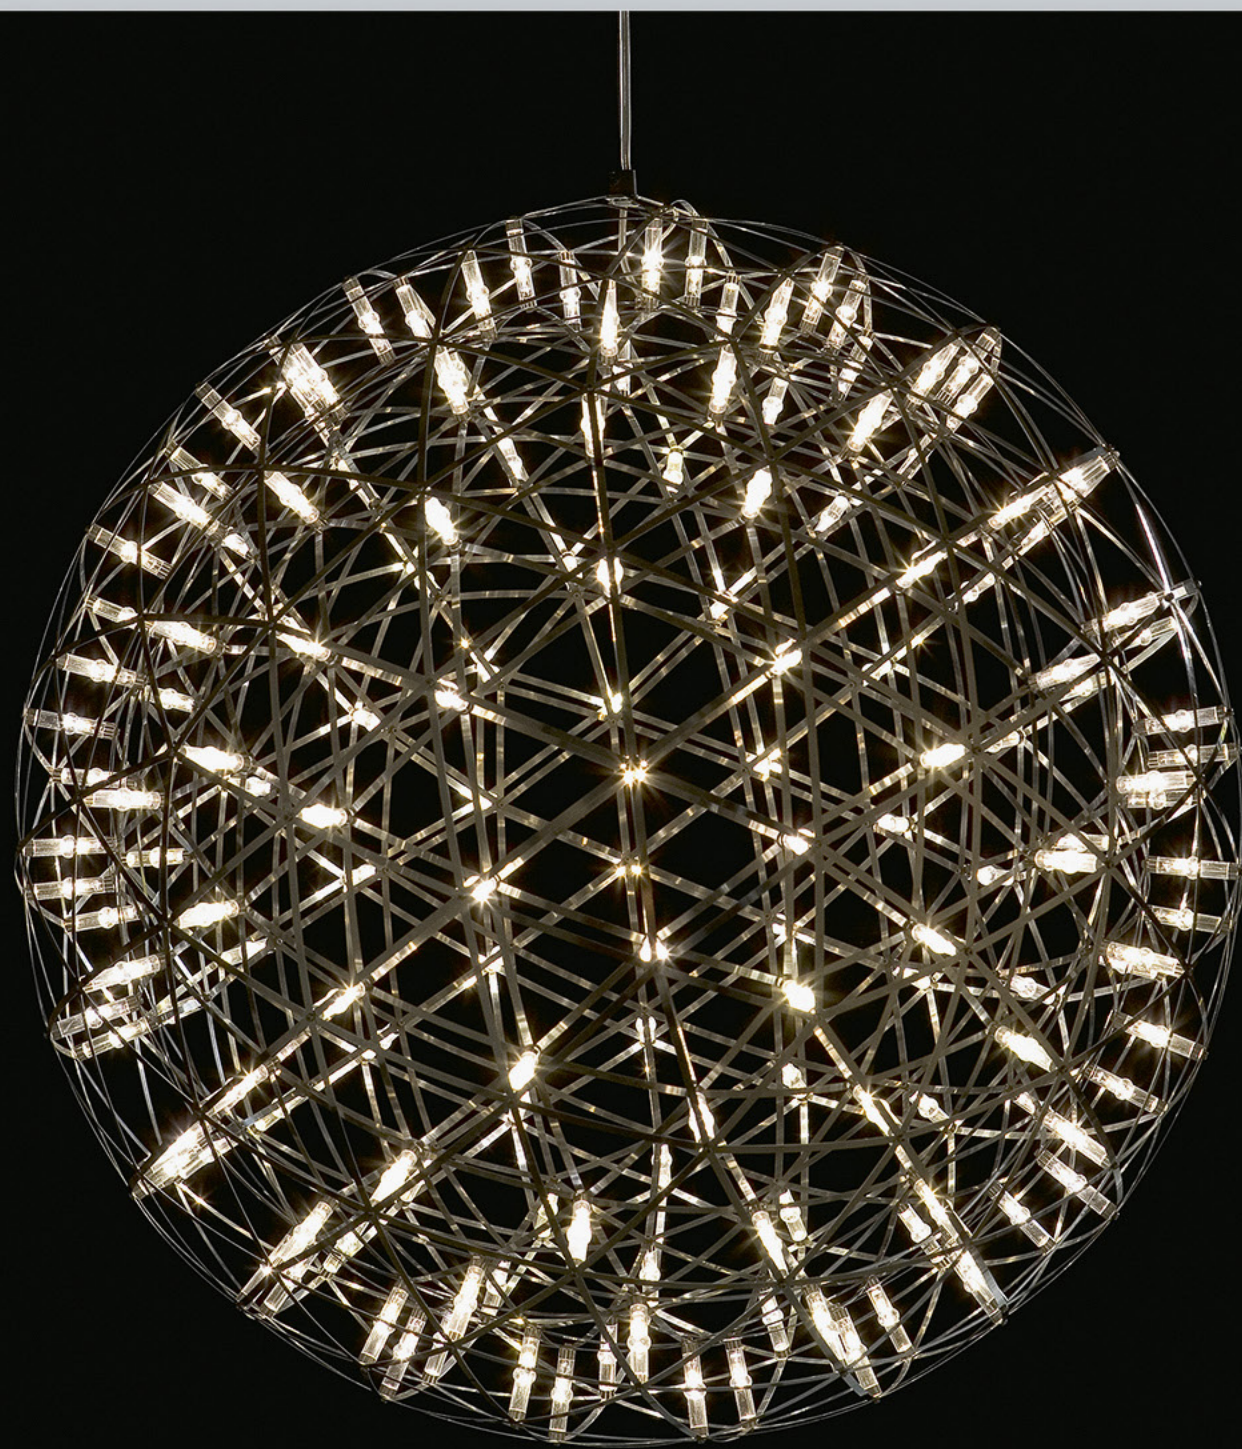

Raimond Tensegrity

BY RAIMOND PUTS
REALISATION BY OX-ID

MOOOI ORIGINAL

Raimond brings the starry night into every home

Raimond Puts (1937 - 2012) will forever be remembered by many as 'the man who brought the stars into our homes'. The Raimond is a design that took years of dedication and mathematical perfection and the result is like staring into the soft sparkle of a starry night.

Raimond R89

BY RAIMOND PUTS
REALISATION BY OX-ID

Made to be multiplied.
Like prime numbers.

**PERFECT SPHERES OF
MATHEMATICAL INGREDIENTS**

Punctuated by tiny LED lights, the *Raimond* is specially detailed to spread warm white light in every direction. Looking at the light feels like staring into the soft glow of a starry night. Inspired by the geodesic dome, designed by Buckminster Fuller, the *Raimond* lights are the result of almost forty years of research and dedication of mechanical engineer and self-taught designer Raimond Puts (1937–2012). Raimond Puts was not only intrigued by the shape of the geodesic dome, but also with the mystery of prime numbers. Therefore, it is no coincidence that the dimension of all *Raimond* lights resemble a prime number.

**THE BRIGHTEST STARS
DON'T SHINE ALONE**

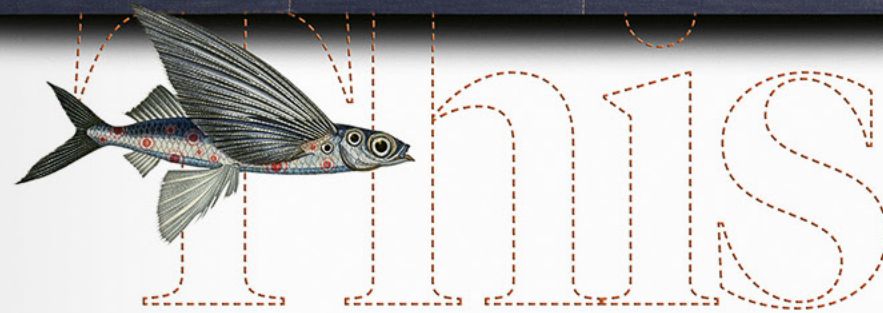

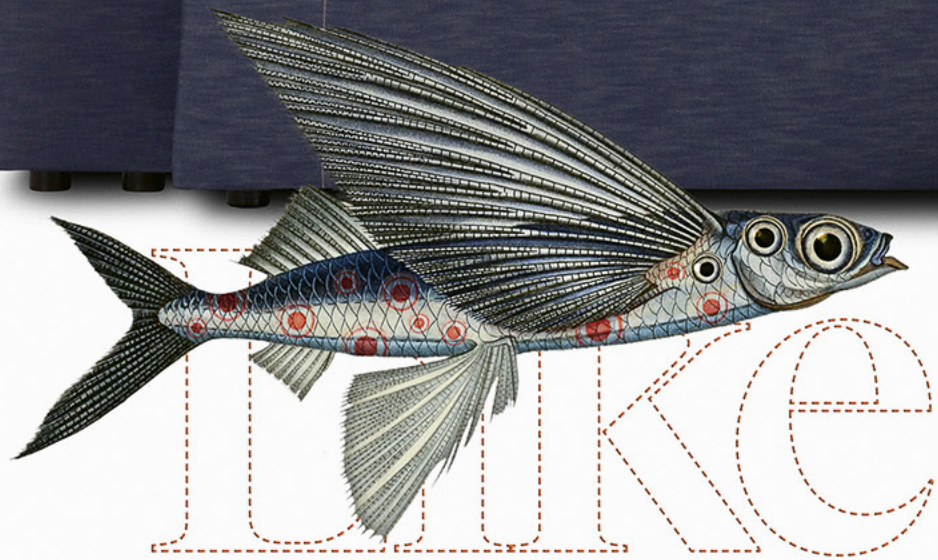

Raimond deserves to be clustered and is available in 6 suspended variants, in the shape of the *Raimond Zafu* and as floor lamp *Raimond Tensegrity*. Combine a couple of *Raimonds*, squint your eyes and experience how the warm light spreads in every direction.

Raimond Puts *, designer of the *Raimond* (photograph by Koos Breukel).

With 17 different modules, a footstool and a wide range of fabrics and leathers to choose from, the BFF Sofa by Marcel Wanders truly is everyone's best friend. Configure the endless possibilities online on [moooi.com](#).

The award-winning BFF Sofa is everyone's new best friend. A high quality, soft yet firm modular sofa system, consisting of a wide variety of modules for endless configurations.

Gabriele Chiave is Creative Director at Marcel Wanders. In his creative leadership role, Gabriele Chiave oversees the Amsterdam-based studio's work across a multitude of projects, from product and interior design to art direction.

Where did you draw inspiration from for the BFF Sofa?

GABRIELE CHIAVE: For the BFF Sofa design, we were inspired by the Capitone technique (matelasse' with no buttons) we used in the monster chair from Moooi. It is a characteristic that is expressed with deep buttoned upholstery and we found it to be so visually comfortable and soft that we thought to scale it up to a human scale and eventually the sofa. We crafted this sofa to have the appearance of an elegantly folded quilt that is seemingly buttoned, yet without the buttons. The result is a very comfortable and soft modular system that also has a familiar and cute feeling making it your best friend forever.

How does the BFF Sofa distinguish itself from other sofa's?

GC: The BFF Sofa sets itself apart in a few ways. First, it is completely configurable and modular. As a system, it offers 17 different module blocks and a footstool that can be composed freely in endless ways. Also, the sofa is very soft. We designed it with a wide range of high quality fabrics and shaped its profile and contours to be elegant and appealing. The playful look and soft visual comfort makes it also very special, as it recalls the typical matalasse technique used on fabric and leather. It is a modern and inviting

reinterpretation of the most welcoming piece of furniture in the house. Our approach was to make it a true eye-catcher that radiates great comfort.

What is the most important element of the BFF?

GC: The most important facet to this couch is how very much like a friend it is. In being so adaptable, it is like that best friend who is flexible and who makes themselves available to accommodate your needs. Or that friend who is always there for you. We designed the sofa to be soft yet durable, making it like a friend you can rely on who is comforting and supportive for any way in which one chooses to recline.

How would you describe your collaboration with Moooi?

GC: Our collaboration with Moooi is in many ways like working with family. We share a commitment to innovation and our values are completely aligned in our desire to bring the most beauty to everything we create together. This BFF Sofa is like a friend who understands what you need and that is our relationship with Moooi. In that sense, each company's designers relate to one another being on the same page and knowing exactly what level of beauty and style the project needs to achieve.

"BFF, a sofa that is your friend, that embraces you if you are tired, that cheers with you when your national soccer team scores a goal, that makes your mother-in-law feel welcome, that comforts you when you receive bad news, that stays with you also when you move cities, that never skips your birthdays, that never talks too loud, yet supports you if you do. A true Best Friend Forever".

LIBERTY LOUNGER

Artist Joep van Lieshout set himself a goal: to create one chair per day for a month. He named the project *Prototypes* as part of his utopian project *New Tribal Labyrinth*. This futuristic vision focuses on the reinvention of the industrial revolution by recreating an ideal world based on the lost relationship between individuals and raw materials.

LIBERTY LOUNGER BY ATELIER VAN LIESHOUT in Solid American Walnut, **RENDEZVOUS TOKYO BLUE WALLCOVERING** BY MOOOI for Moooli Wallcovering in Cashmere, **THE PARTY WALL LAMPS** BY KRANEN/GILLE Coco, Bert and Glenn shown.

DESIGN DREAMS

Liberty Table & Lounger, true works of art

The Liberty table, designed by Atelier Van Lieshout, is a typical example of an artwork turned into a design object, just like the earlier released Liberty Lounger.

THE GOLDEN CHAIR BY NIKA
ZUPANC upholstered in Glossy Gold
Skai leather with Gold frame.

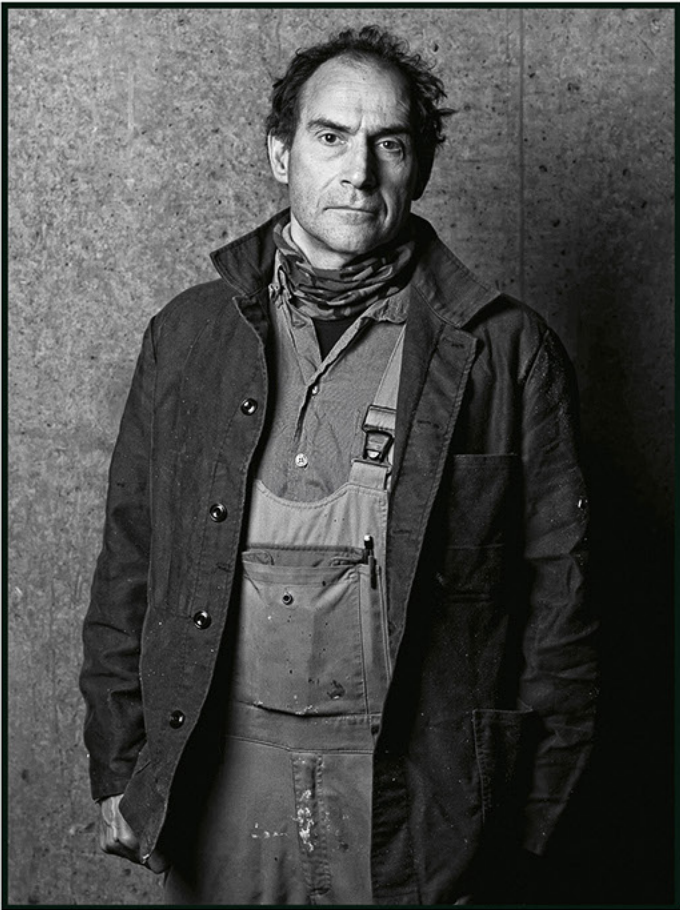

SMOOTH AMERICAN WALNUT

The Liberty Table combines very nice wood and quality craft with the original design by Atelier Van Lieshout. It is made from smooth American Walnut, which is a contrast to the rough painted timber of Van Lieshout's prototype. The Liberty lounge was part of the art project 'The New Tribal Labyrinth'. In this project, Joep van Lieshout gave himself the mission to create one chair each day: either successful or else scrapped. The Liberty Table still hints of this with contrasting rough edges.

Clean lines and sturdy wood are the protagonists in the Liberty family.

LIBERTY FAMILY, TRUE WORKS OF ART

Just like the earlier released *Liberty Lounger*, the *Liberty Table*, designed by Atelier Van Lieshout, is a typical example of artwork turned into a design object. With the *Liberty Table*, Atelier Van Lieshout continues to address the *New Tribal Labyrinth* and the *Arts and Crafts movement* with traditional craftsmanship and using simple shapes and forms.

*What will you be when you grow up?
More mature? Yes. Wiser? Hopefully.
The Kaipo stood the test of time and
became a timeless icon. Ultimately,
it matured in every essence and
has grown into the Kaipo TOO.*

**KAIPO TOO: A DESIGNER
DREAM COME TRUE**

The *Kaipo TOO* is the successor of the first *Kaipo* design, dating back to 2001. The lighting object still sports the classic shape of the archetypical lamp base. The main difference lies in the choice of materials. Made of glass and steel, the first *Kaipo* was a statement of contrast. The *Kaipo TOO* radiates unity as it is made solely out of glass.

Moooi makes designer dreams come true. With the *Kaipo TOO*, the choice in design and preferred materials proved to be a challenge. Therefore, Moooi searched the globe for the best and high-skilled craftsmen to make sure the *Kaipo TOO* came out exactly the way it was intended by Dutch designer Edward van Vliet: strong, beautiful and elegant. Our research brought us to Venice, home of traditional glass blowing and the only place that could meet our expectations in quality. The transparency of the *Kaipo TOO* creates an airy stratification. The feminine contours of the archetypical base add grace and elegance.

Edward van Vliet, designer of the Kaipo TOO.

BLUSHING SLOTH WOOLLY MOHAIR

Curled up in the highest branches of a tree, the sweet and kind-hearted *Blushing Sloths* only came down once a week. Inspired by the *Blushing Sloth's* coat, Moooi created a fabric honouring the *Blushing Sloth's* curls.

MOOOI ORIGINAL

Random Light II, mesmerisingly beautiful

Bertjan Pot, the designer of the Random Light, is more a contemporary inventor than a designer. The Random light was his first design for Moooi, and like all his other designs, started out as an experiment for an interior object.

NUT LOUNGE CHAIR BY MARCEL
WANDERS upholstered in Oray Sand

RANDOM LIGHT II BY BERTJAN
POT in White (medium shown).

No other suspension is incredibly random, versatile and mesmerisingly beautiful as The Random Light II. Just wait until a breeze of air makes it slowly start to rotate...

THE STORY OF A MOOOI ORIGINAL

They're never completely round, and always beautifully transparent and delicate. Bertjan Pot, the designer of the *Random Light*, is more a contemporary inventor than a designer. The *Random Light* was his first design for Moooli, and like all his other designs, started out as an experiment for an interior object. After graduating from the renowned Design Academy in Eindhoven (NL), Bertjan started experimenting with the remains of his graduation project. This experimenting resulted in what would eventually become the first *Random Light*. In 2001 Founder and Art Director for Moooli, Marcel Wanders, was impressed with Bertjan's clever experiment, thinking it would be a perfect fit for a brand like Moooli. After three years of perfecting the production process, The *Random Light* was added to the Moooli collection and became an instant icon!

MODERNISED AND BETTER THAN EVER

Almost twenty years later, the *Random Light* is as relevant and eye-catching as ever. A Moooli original loved by many all over the world. To honour the beautiful designs in our collection, we are committed to further improve our Moooli Originals. Together with designer Bertjan Pot, we've updated the *Random Light* with enhanced user-experience and Bertjan Pot's original idea as key focus. The end result is an aesthetically perfected and user-friendly design, with an enlarged lifecycle: the *Random Light II*. The *Random Light II* transmits a feeling of simplicity, softness, lightness and a touch of magic in contemporary style. The production process is a special story by itself: a resin drained yarn is randomly coiled around an inflatable beach ball creating a translucent 3D fabric. The beach ball is then deflated and extracted from a round opening in the lamp. At the end the skin becomes the product. Soft and magic.

Like an uncurling flower, the Hana Armchair Wingback seems to bloom open, honouring its name. Hana invites you to lay back, relax and let go in your own cosy little corner.

**THE HANA ARMCHAIRS
BY SIMONE BONANNI**

The *Hana Armchairs* by Simone Bonanni are a celebration of soft and round curves. Unfolding like a flower in bloom, *Hana* invites you to lay back, relax and let go in your own little corner in the world. With this new design, Moooi offers you a comfortable resolution for your busy routine. The *Hana* is more than a seating object. It is sculptured around the human body and its need to be pampered and embraced for long stretches of time. The generous and subtle curves allow for hours of lounging to daydream, read a book and let your imagination fly. Where will you go nestled in the Hana?

ABOUT SIMONE BONANNI

Simone Bonanni (Italy, August 1989) grew up in Pordenone. He graduated from IED Istituto Europeo di Design in Milan in 2011. A year later he started at Marcel Wanders Studio in Amsterdam where he worked as a product designer and project leader for three years. He moved back to Milan in 2015, where he founded Simone Bonanni Studio.

SCRIBBLE RUG BY FRONT

A series of colourful, hand-drawn scribbles decorate these seven rugs. The irregularly shaped pieces are like enlarged sketches to decorate your living room floor, with every pencil line visible.

Chess Table
BY FRONT

MOOOI ORIGINAL

The Animal family, a gathering of extraordinary creatures

Clippety-clop, clippety-clop, clippety-clop! Imagine a spontaneous encounter with an extraordinary horse in an entrance hall. Should you have fear? – no, dear.

LIBERTY TABLE BY ATELIER
VAN LIESHOUT in Solid American
Walnut, RABBIT LAMP BY FRONT,
SMOKE DINING ARMCHAIR BY
MAARTEN BAAS.

112

Hold onto the Animal family by Front, they'll abundantly add light to your life. All they ask for is a little bit of love and kindness — and an owner who doesn't shy away to designate them their places.

THE STORY OF A MOOOI ORIGINALS TRIPLET

The *Animal* family by Front moves away from abstraction and takes inspiration from living creatures. When Front designed the *Animal* family, they knew that people would either love or hate their designs. One thing is certain: those who spot these animals in the wild, will certainly be astonished. Due to their 'special' behaviour (have you ever seen a pig balancing a tray?) the *Animal* family never fails to elicit a strong response from onlookers.

THE HORSE LAMP

The *Horse Lamp* brings a touch of nature in fairytale style and genuine madness. His talent to make a bold statement is so developed, that trying to feed him carrots wouldn't do him justice. In fact, a spotlight is what he deserves.

THE PIG TABLE

Oink, oink! Meet the *Pig Table*: the table that thinks it's a pig. This proud big girl certainly didn't buy her hospitality license at the corner store — she definitely knows what she's doing. Isn't she extraordinarily adorable?

THE RABBIT LAMP

The *Rabbit Lamp* is a bit shy, but don't worry, he always hides where the light is. That being said, for a shy rabbit, he sure likes to receive a healthy dose of attention. When you turn on the light of this adorable creature, its reflection will evoke the feeling of warm fur. It's a rabbit to fall in love with. Although everyone knows that *Rabbits* cannot talk, this one will brighten up your life.

DESIGN DREAMS

Marcel Wanders created more Monsters!

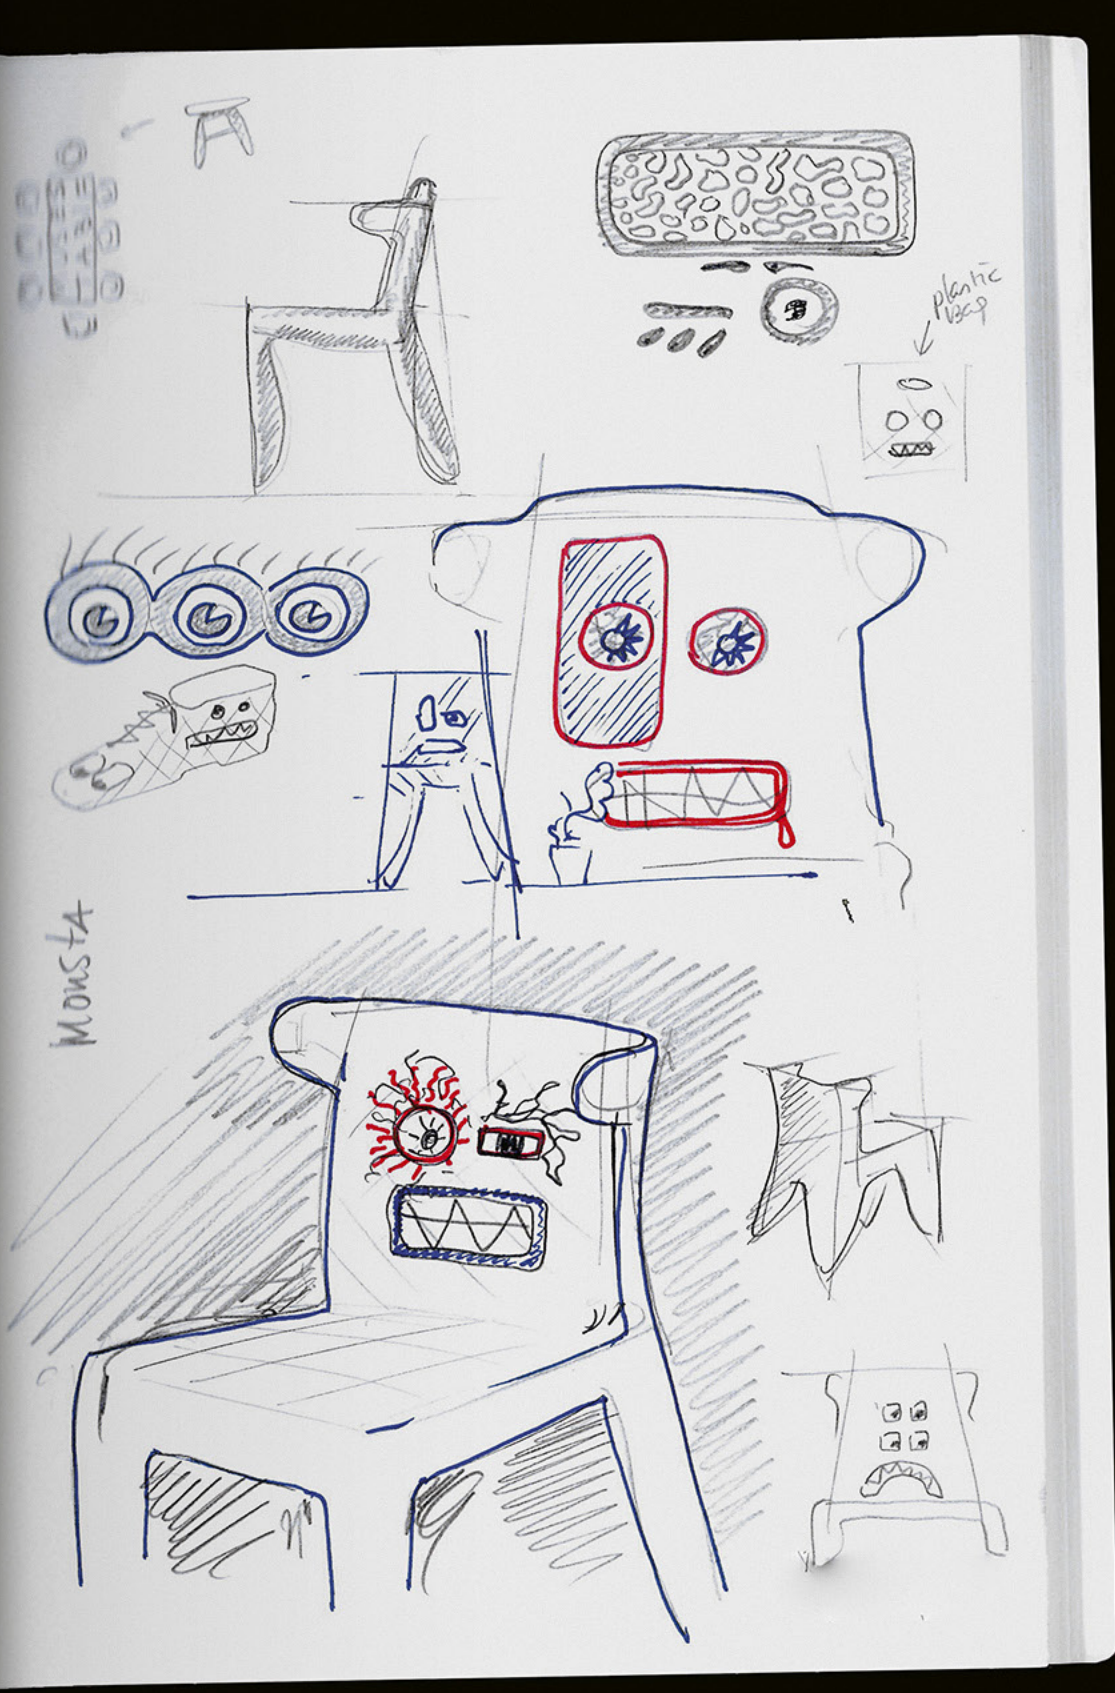

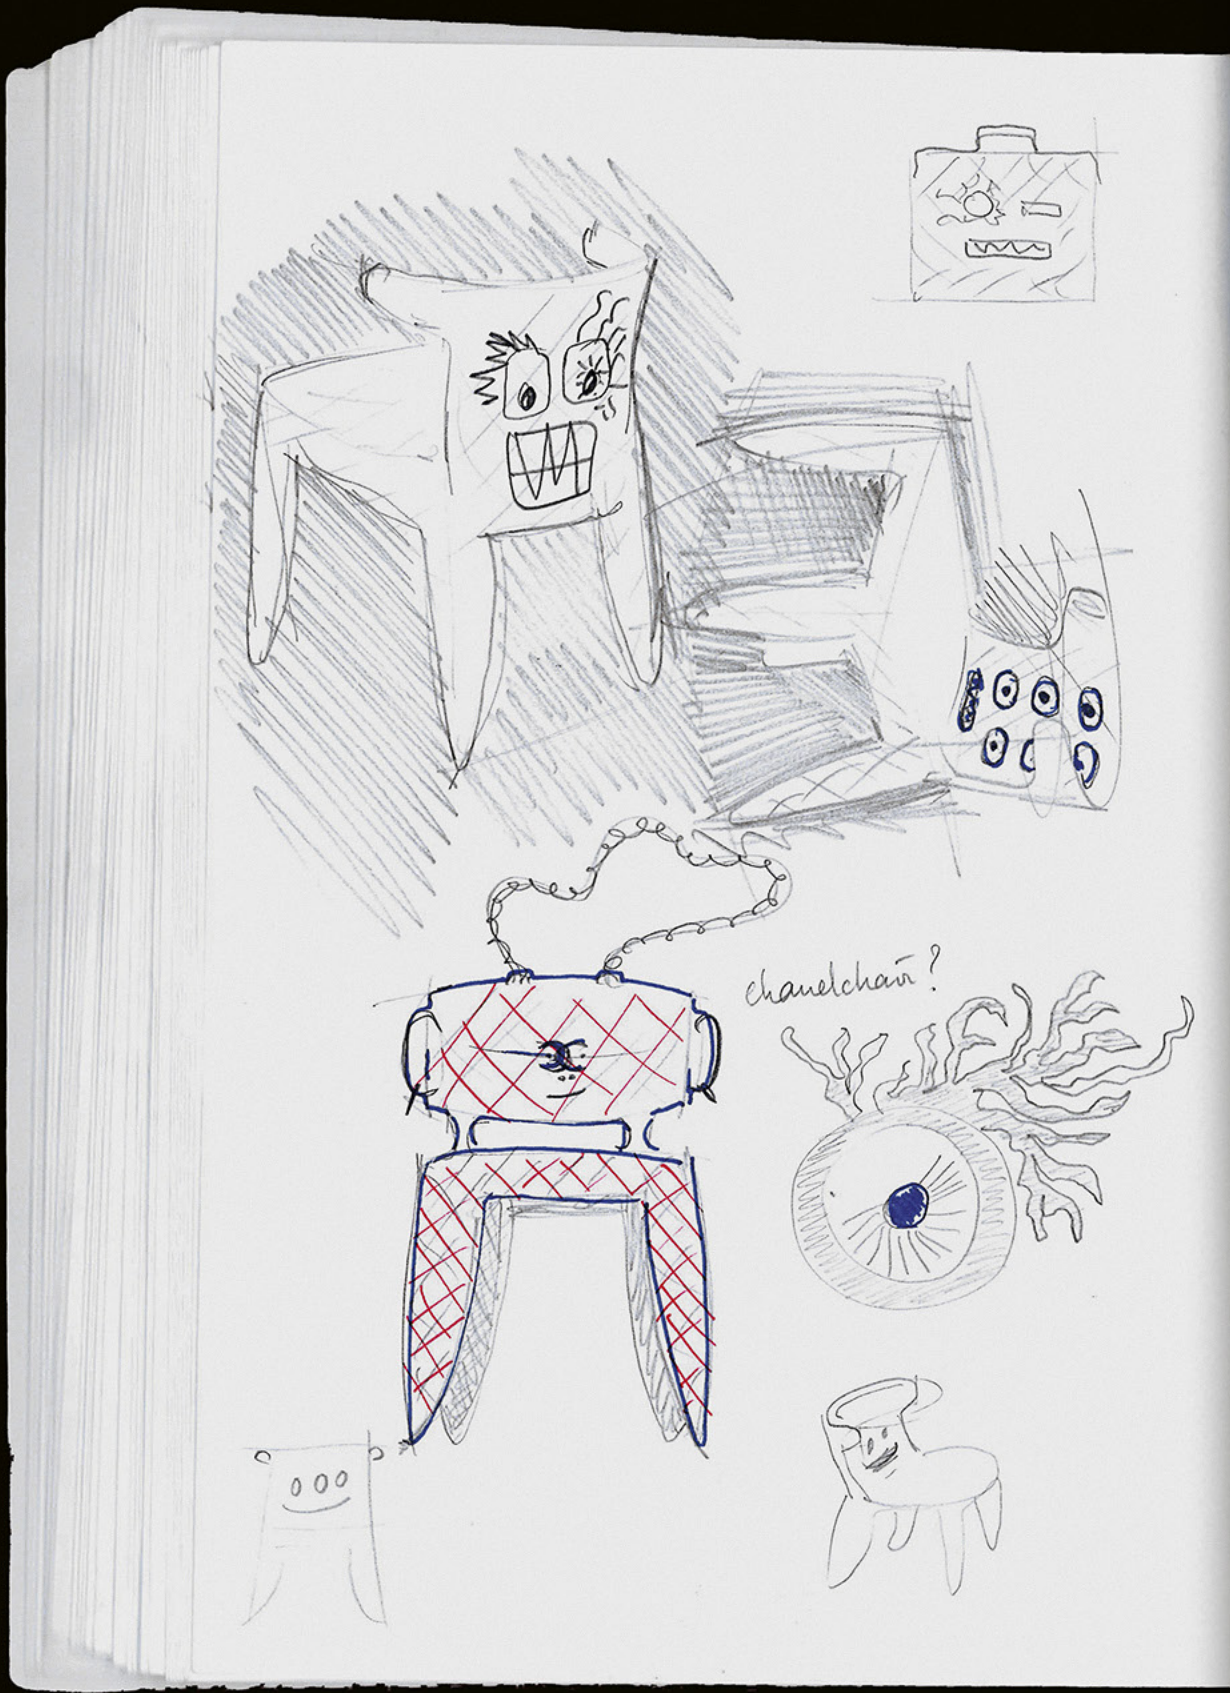

Ten years ago, Marcel Wanders had a dream that led to the creation of seven Monster muses. Ever since that day, the happy people at Moooli have been wondering about these intriguing creatures. After a lot of experiments and mutations, he did it again.

MONSTER RUG BY MARCEL WANDERS

The most colourful of each of them, the new design *Monster Rug* by Marcel Wanders for Moooli Carpets was created to bring balance between tables and chairs. This *Monster* speaks for all. Available in three sizes.

*Monsters desire respect, love,
laughs and sparkling eyes.
Feed them with flowers and
sunshine, poetry and fantasies
and they will always behave.
They'll treat you with peace.*

MEET THE MONSTERS

We're creating more *Monsters* than ever before. Scary? Not at all! The *Monster* is a symbol of the eternal battle between opposite forces that take place in life and can be easily recognised inside ourselves, if we have the courage to open our eyes. The *Monster* family now exists of *Monster Chairs*, *Monster Barstools*, a *Monster Table* and a *Monster Rug*. They all share the same great genes, curving lines and tranquility. The *Monster Table* though, has a huge appetite that needs to be satisfied, so we advise to have a gathering around it at least once a day, preferably around dinner time. The more *Monsters*, the merrier.

Our new four-legged monster shares the genes and curving lines of the Monster Chair and adds elegance to your dining experience. Available in 6 stained-wood colours and 3 sizes.

Monster Table
BY MARCEL WANDERS

Monster Table 180 Monster Table 240 Monster Table 280

One day I will die. I foresee a dramatic ending with some fireworks, some pain and lots of wild music. But after that, it will be silent. Silent for a long while...

I will be sitting on a little stool at the head of a large table, ready for an eternal dinner. Seven dark leather chairs with ferocious faces surround the table. Eight sets of silver cutlery and white porcelain plates lay amongst copious amounts of white tulips on a fresh white tablecloth with white ribbons. There will be sparkling crystal glasses ready to be filled with endless amounts of superb wine. Candles will be burning as Callas and Puccini sit in the corner singing heavenly tunes as I wait for my guests. I will await my seven muses. I will await the seven most important women in my life to dine eternally in their gathered presence. All the beauty I discovered and hoped to have will suddenly be there for me eternally.

BUTTERFLIES...
My muses are the true collection of my life. I collect them as if they were butterflies. My net flies gracefully through the air as I want to catch them without hurting them. I want to treat them with kindness, caution, and respect. I will never pin a butterfly down to keep her from flying. Therefore, I know I am not able to keep them only for myself. (But when they fly away they magically double so I can take them with me wherever I am.) However important this collection is to me, I know that with my inevitable death I will lose not only my life but also my collection of muses.

THE ETERNAL PARTY...
At that table, after my death, I will wait patiently until my muses fly back to me, to my table for this eternal treat. I will look forward with excitement and hope that they might choose to be with me again. I will hope that I was able to give them enough respect, love, laughs and sparkling eyes. I will hope that with time they can forgive my stupidity, disloyalty and little lies. I will hope that I fed them enough flowers and sunshine, poetry and fantasies for them to desire a seat at my festive table. I will enjoy the eternal pleasure of being reunited with my muses. Each muse will find a black leather embroidered chair that is just for her: Her solitaire, soft and comfortable, follows the rules of a future contemporary style while conflicting with the rationales of history. Showing the frozen face of a monster, a dragon, seemingly harmless. Only when all seven muses are seated will the party begin. There will never be an end to this orgy of sensitivity and passion. We will laugh, we will tease, we will play and we will cry. We will feel connected on the deepest level of our souls. Wine will not give us headaches, sweets will not make us fat, cheese will scent like perfume, for always, forever...

THE MONSTER INSIDE...
The greater the excitement of being reunited with my collection of muses the crueler and more painful the moment if not all of them will arrive at my table. One of them could decide to stay away, not to join. One of them could turn her back to me. In this unfortunate event, this dark occasion, this moment of eternal sorrow, I will understand why I deserve my muse's disloyalty. The frozen monster in the free leather chair will come alive. It will step onto the table and reveal its fierce claws. It will spit fire while its black leather skin will turn crimson. From the chest of the monster will spring long sharp needles. With one swift move he will pierce all my loyal muses. I will remain alone at my table, the wine will bloat my skull, sweets will make me obese, the stench of the cheese will make me want to cut of my nose, for always, forever...

TODAY, FOREVER...
But today, I can still serve my muses; I must remember to feed them flowers and sunshine, poetry and fantasies... Eternity might last forever...

– Marcel Wanders

FOOLS PARADISE RUG BY MARCEL WANDERS

Marcel Wanders was inspired by ever-changing natural elements such as flowers, that wither over time. The wonderful design of *Fools Paradise* captures a moment and freeze it forever. The carpets are available in different sizes rugs and a broadloom carpet.

MOOOI ORIGINAL

The graceful contours of the Coppélia Chandelier

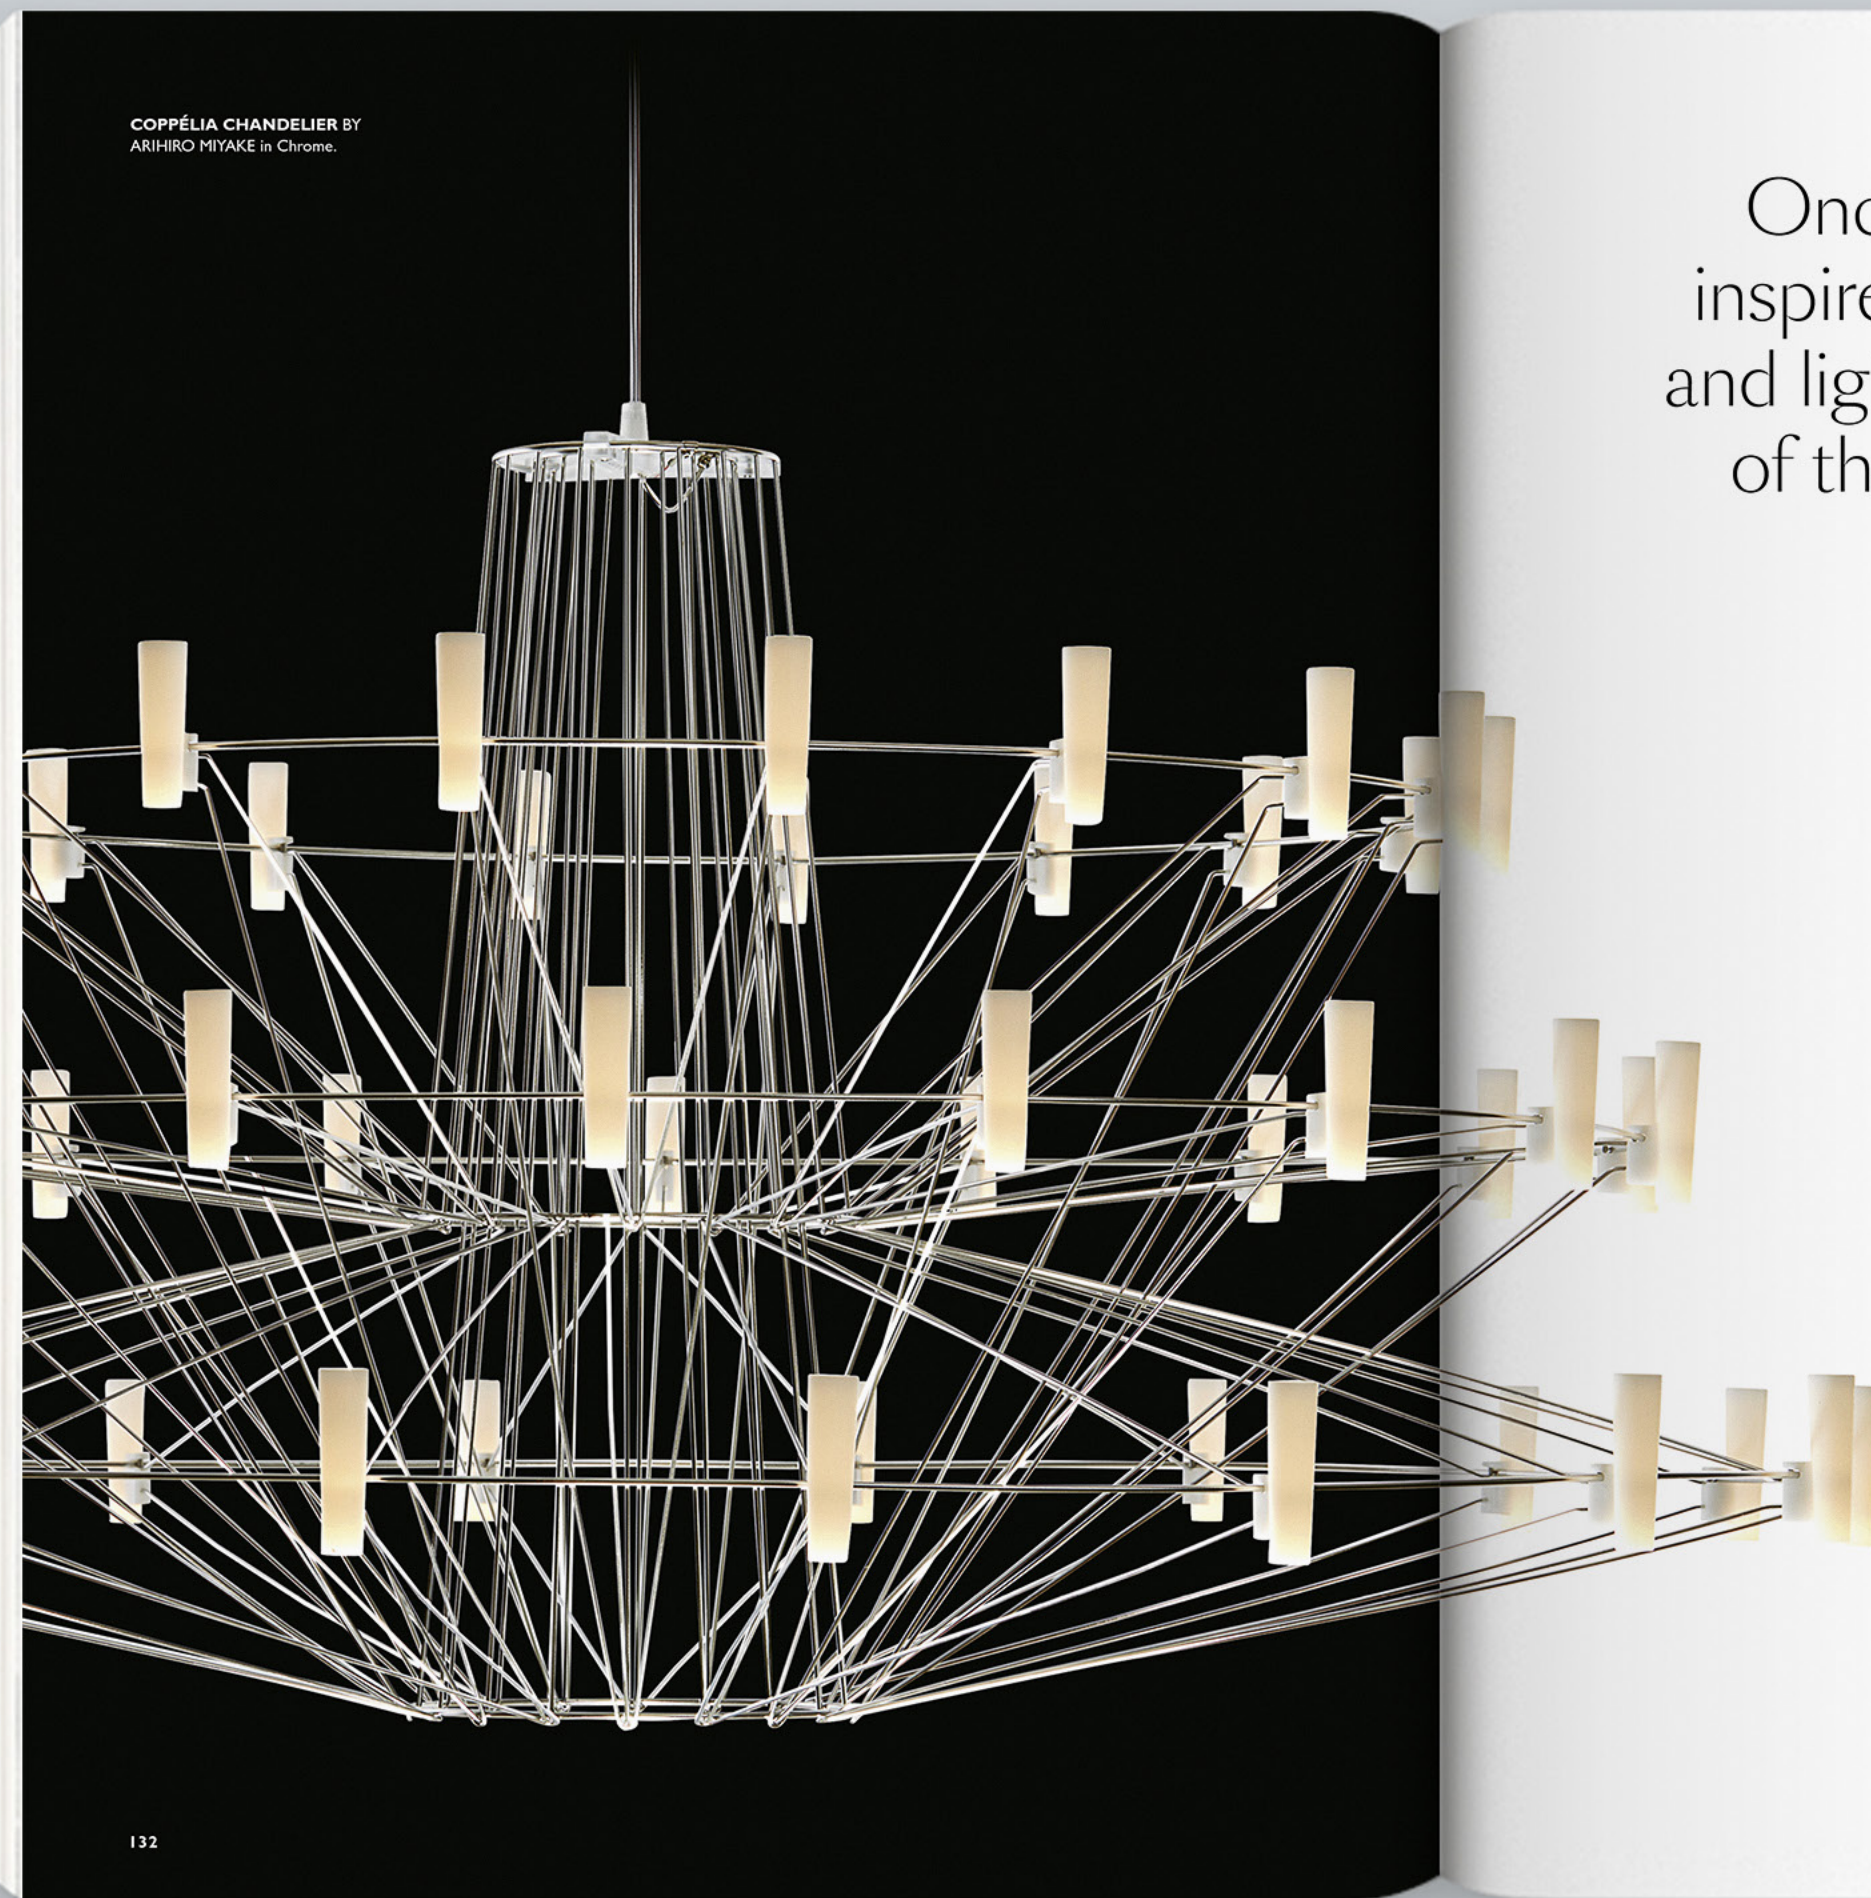

Like a beautiful mechanical doll, bringing a magical ballet to life. The Coppélia Chandelier by Arihiro Miyake takes the leading role and turns any interior into a grande opera d'arte.

CHARLES CHAIR BY MARCEL
WANDERS upholstered in Bouclé
Brown, **COPPÉLIA CHANDELIER**
BY ARIHIRO MIYAKE in Chrome

COPPÉLIA CHANDELIER BY
ARIHIRO MIYAKE in Chrome.

Once upon a time, a ballet inspired a designer with magic and lightly light. This is the story of the Coppélia Chandelier, a Moooi Original.

ALL GROWN UP

In 2009, Moooi co-founders Marcel Wanders and Casper Vissers visited Arihiro Miyake, a Japanese product and interior designer who lives and works in Helsinki. A mutual interest was born and ever since that day, Miyake was constantly sketching to come up with new ideas for Moooi.

Years went by, but every once in a while there's a kind of moment in which a few things connect. *Coppélia Chandelier* is the result of one such moment. Miyake named it after the famous Coppélia ballet, because the form reminded him of a pirouetting ballerina. Coppélia, is a romantic ballet in two scenes. The ballet tells the story of a doll that mysteriously comes to life with a graceful sense of wonder. In the outstanding performance the ballerina traces, with flexuous movements, a elegant after-image in the air. This lingering visual impression inspires the fluid motion in the design of Miyake's *Coppélia Chandelier*.

A STORY ABOUT SWIRLING MOTION, A DESIGN ABOUT STRUCTURE

Just like a huge ballet doesn't magically arise from the dust, the production of the *Coppélia Chandelier* also required a lot of endeavour and effort since the light is a reinterpretation of a traditional chandelier made from steel wire and lots of LEDs. Each of the LEDs is powered through the steel frame of the *Coppélia Chandelier*, without any additional wires.

The complex spoke-like structure of the light ensures that the different parts of the frame carrying the positive and negative currents never touch, only coming together at each LED light source. This in fact, makes that the lamp can be divided into two pieces, just like the famous Coppélia ballet.

The graceful tutu of the Coppélia Chandelier creates the feeling of dining by candlelight, the soft glow emits a romantic atmosphere.

MOOOI ORIGINAL

What happens when a designer plays with fire?

The parents of Maarten Baas told him not to play with fire, but sixteen years ago his daring mind couldn't resist the experiment anymore. His fire has been burning ever since...

SMOKE CHAIR & CHANDELIER
BY MAARTEN BAAS, TIE-TAMI
WALLCOVERING BY MOOOI for
Moooi Wallcovering in Sunrise.

Each item of the Smoke family is made of solid wood. They all share the unfamiliar and untamed finish that is created by fire.

148

Where there's smoke, there's beauty. In 2002, Maarten Baas designed his Smoke collection; the end result of his search for beauty and perfection.

FINISHED WITH FIRE

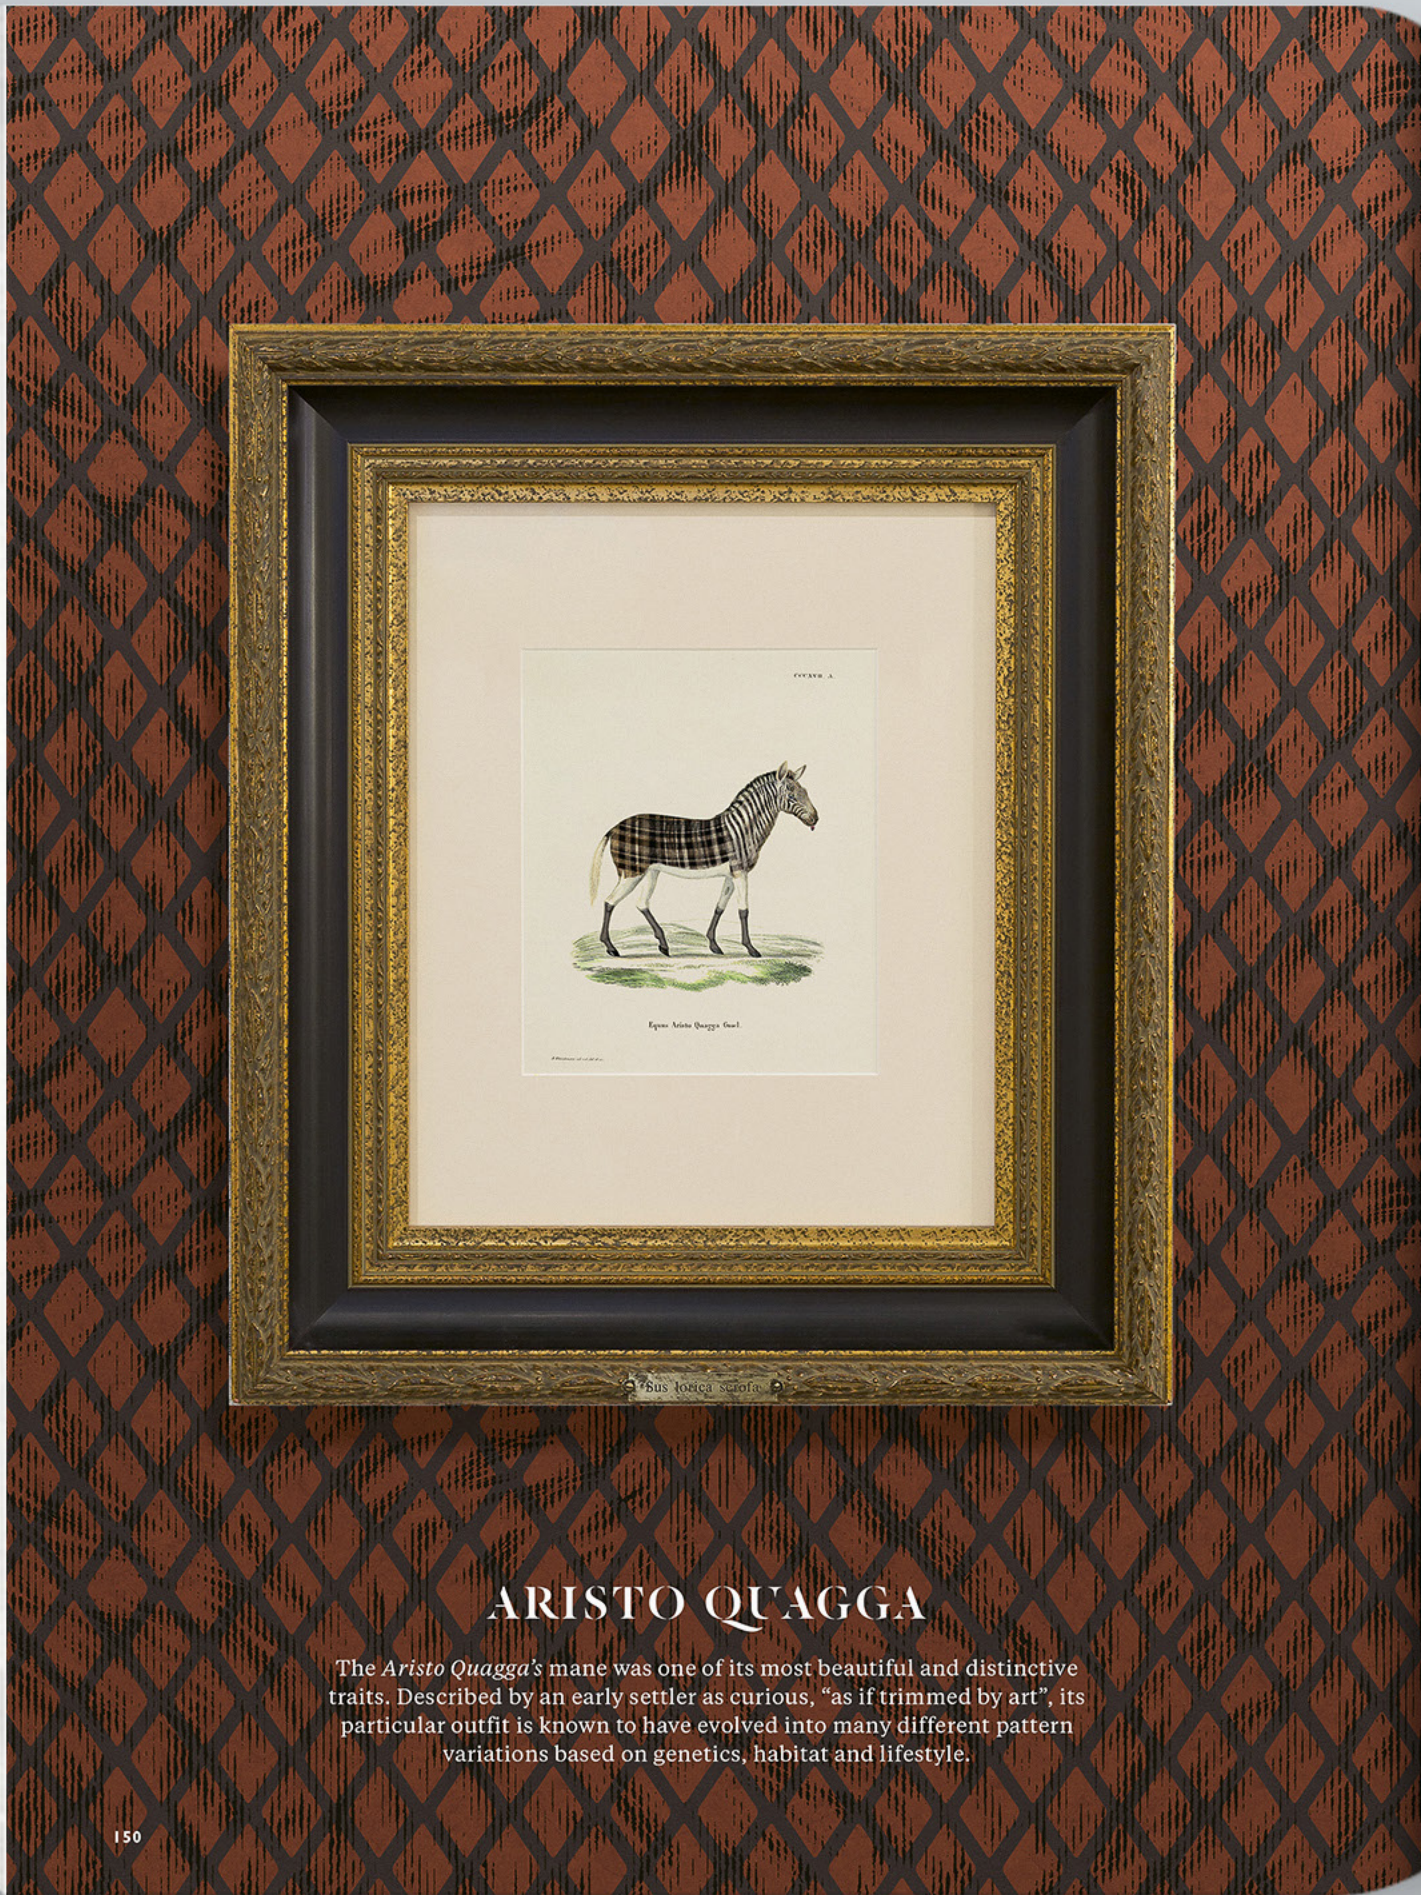

The frame of the *Smoke (Dining) Chairs* and the body of the *Smoke Chandelier* are set on fire, causing the wood to burn, smoulder and eventually char. After this, the pieces are not brushed clean to preserve the burned structures. When needed, pieces are re-placed or otherwise fixed so that they get back their original function. After the pieces have cooled completely, they are treated with a thick layer of epoxy. In this way the chair, the chandelier and the armchair remain firm and the charred wood intact. When the epoxy is completely cured, the seats of the chairs are covered with fire-retardant foam and then, finally, the seats are covered with deep black leather which is fixed with mat black nails.

MOOOI ORIGINAL

Every design in our collection is an original *Moool* design, but a few grew to be *Moool* fan-favourites. These designs are truly *Moool Originals*. Extraordinary designs, well-loved by people all over the world! The *Smoke* pieces play the leading roles among the *Moool Originals*. Every month we highlight one of our *Moool Originals* on our website. Visit moool.com to discover more extraordinary stories behind our (other) *Moool Originals*.

149

ARISTO QUAGGA

The *Aristo Quagga*'s mane was one of its most beautiful and distinctive traits. Described by an early settler as curious, "as if trimmed by art", its particular outfit is known to have evolved into many different pattern variations based on genetics, habitat and lifestyle.

DESIGN DREAMS

Heracleum makes every interior bloom

Nature is a miracle — isn't it? So is the Heracleum, designed by Bertjan Pot and powered through Electrosandwich® by Marcel Wanders. White leaves grow from one branch creating a very technical, natural structure.

HERACLEUM II BY BERTJAN POT
powered through Electrosandwich® by
Marcel Wanders in Nickel (small shown).
NUT DINING CHAIR BY MARCEL
WANDERS upholstered in Oray Sand
with Cinnamon stained oak legs and shell.

Dare to dream and welcome nature in your home. Like moonlight shines through trees, the delicate Heracleum is such a treasure to discover. See how it shines a soft light from dusk till midnight.

WIRES DON'T BELONG IN NATURE

Heracleum is a decorative LED lamp inspired by the Heracleum Plant. Heracleum is very thin and delicate. A design that is not possible with normal wires. Using the innovative and recently developed Electrosandwich® technology by Marcel Wanders, the Heracleum shines warm romantic light.

Berlijn Pot, designer of the Heracleum family.
