The range of table accessories offered by The Napking brand, owned by Bellavia Ricami SpA, is increasing.

The brand has gone beyond the traditional offer of hand-embroidered items, Bellavia's core business for about 60 years, proposing an original collection of digital prints on pure linen fabric.

Re-enactments of shapes and colors typical of Mediterranean locations, compositions inspired by futuristic graphic designs of the end of the 19th century, are the result of the work of the artists who helped create the new collection called "ILLUSTRATIONS".
