

The Outdoor Collection | 2020

The Outdoor Collection | 2020

For 2020, B&B Italia presents three new outdoor collections, which complement its offer by opening up to three complementary and different worlds. With the contribution of Antonio Citterio, Naoto Fukasawa and Philippe Starck, B&B Italia recounts three new outdoor stories, approaching project areas not previously explored by the company, also taking the opportunity to continue in the search for increasingly environmentally friendly solutions.

The goal is to bring all the qualities that have distinguished B&B Italia indoor products, such as research, technological innovation, ergonomics, creativity, quality, and comfort to the outdoors.

Per il 2020 B&B Italia presenta tre nuove collezioni outdoor, che vanno ad arricchire la sua offerta aprendo a tre mondi complementari e differenti. Ci troviamo di fronte al lavoro di tre maestri indiscussi del design internazionale, che incarnano tre approcci unici al design del prodotto. Con il contributo di Antonio Citterio, Naoto Fukasawa e Philippe Starck, B&B Italia racconta tre nuove storie outdoor, avvicinandosi a territori progettuali precedentemente non esplorati dall'azienda, cogliendo inoltre l'occasione per proseguire nella ricerca di soluzioni sempre più rispettose dell'ambiente.

L'obiettivo è portare nell'arredo per esterni gli elementi distintivi che da sempre contraddistinguono i prodotti di B&B Italia, come la ricerca, l'innovazione tecnologica, la creatività, la qualità ed il comfort.

Ribes

Antonio Citterio

The starting point is a futon base with flexible glass-fibre slats resting on an aluminium frame.

Il punto di partenza è una base “futon” con doghe flessibili in fibra di vetro, appoggiate su una struttura in alluminio.

Nipa Doshi &
Jonathan Levien

These large, elongated, oval or square ottomans are a multifunctional furnishing.

I grandi pouf di forma ovale allungata e quadrata sono complementi polifunzionali.

Ginestra

Antonio Citterio

Sinuous harmonious lines clearly inspired by northern trends. It is characterised by an interlacing in polypropylene fibre that is ideal for outdoor use.

Dalle linee sinuose e fluide di chiara ispirazione nordica, caratterizzata da un intreccio di nastri in tessuto sintetico adatto all'utilizzo outdoor.

Tobi-Ishi Outdoor

Edward Barber &
Jay Osgerby

The name and inspiration come from the smooth stones “tobi-ishi” used as ornaments in traditional Zen gardens.

Il nome e l'ispirazione è un riferimento alle pietre levigate “tobi-ishi” usate con funzione ornamentale nei tradizionali giardini zen.

Tobi-Ishi Outdoor, tavolo • OT162

Link Outdoor

Jakob Wagner

It stands out for its “soft” material and sensual shape. The material makes you want to reach out and touch its smooth surface.

Si distingue per la sua matericità “morbida”, per la sensualità della sua forma e del suo materiale che suscitano il desiderio di sfiorarne la superficie levigata.

Fiore

Naoto Fukasawa

I have called my latest project Fiore, or flower in Italian, because the Papilio Shell chairs sit around these tables like butterflies flying around a flower.

Ho chiamato questo nuovo tavolo Fiore, perché è un tavolo a cui le Papilio Shell stanno intorno come le farfalle volano intorno al fiore.

Papilio Shell Outdoor

Naoto Fukasawa

A chair originating from a shell with a design that enhance comfort, it expresses considerable versatility that makes it perfect in different situations.

Una sedia originata da una scocca, il cui disegno sottolinea l'accoglienza e la comodità, esprime una notevole versatilità che la rende utilizzabile in situazioni molto diverse tra loro.

Titikaka

Naoto Fukasawa

It revolutionises the concept of a bench. The traditional typology of the outdoor bench is revamped with contemporary language. It's an impressive piece that resembles a sculpture.

Rivoluziona il concetto di panchina. Ripropone la tradizionale tipologia della panca per esterni con linguaggio contemporaneo e si impone per la sua presenza scultorea.

Cosmos Outdoor

Jeffrey Bennett

Harmonious tables and small table which can be used in pairs or groups due to their compact size.
Serie di tavoli e tavolini dalle linee armoniose che possono essere utilizzati in coppia o in piccoli gruppi.

Butterfly

Patricia Urquiola

Its name comes from the “butterfly” shape created by the outer corner that joins the armrest and the backrest.

Prende il suo nome dalla forma a “farfalla” che disegna l'angolo esterno di unione tra bracciolo e schienale.

Fat-Sofa Outdoor

Patricia Urquiola

The rounded, soft and sinuous shapes of the Fat-Sofa seating system are the base for the outdoor version, characterized by a brand new interlacing design.

Le forme arrotondate, morbide e sinuose del sistema di sedute Fat-Sofa vengono riprese nella versione da esterni, caratterizzata da un'inedita proposta di intreccio.

Canasta

Patricia Urquiola

The play between classic and contemporary is not a new idea: the Viennese cane inspiration is retro, and the polyethylene texture speaks today's language.

Il gioco tra il classico e il contemporaneo è senza alcuna nostalgia: se l'ispirazione alla paglia di Vienna è retro, la texture in polietilene parla il linguaggio di oggi.

Crinoline

Patricia Urquiola

Can you picture the dresses that women wore in the 1800s? Full, bell-shaped skirts held by crinolines (rigid underskirt garments) were spectacular “micro-architectures”.

Avete presente le gonne delle dame ottocentesche? Gonfie, a campana, sostenute dalle crinoline (sottogonne rigide). Erano scenografiche micro-architetture da salotto.

Fat-Fat Outdoor

Patricia Urquiola

The concept of a tray helped create three small outdoor tables with steel frames that give them a lightweight look. These small tables are entirely painted or with tops in porcelain stoneware.

Il tema del vassoio viene ripreso per dar vita a tre tavolini per esterni il cui aspetto leggero è merito della struttura in acciaio. I tavolini sono proposti interamente verniciati oppure con piano in gres porcellanato.

Awa Outdoor

Naoto Fukasawa

Base and top are integrated: aesthetically, it's the epitome of essential elegance.

Base e piano sono un unicuum: l'estetica si divide tra l'eleganza e l'essenzialità.

Overscale Flames Outdoor

Jean-Marie Massaud

The large oil candles designed by Jean-Marie Massaud are enclosed by a metallic frame painted matt white.

Le grandi candele a olio disegnate da Jean-Marie Massaud sono sostenute da una struttura metallica verniciata bianca opaca.

White Collection

Marcel Wanders

The Gold Collection by Marcel Wanders is available in the white version: vases and stool are in ceramic, also suitable for outdoor use.

La Gold Collection firmata da Marcel Wanders viene proposta in versione bianca: vasi e sgabello sono in ceramica, adatta anche per esterno.

Springtime

Jean-Marie Massaud

The Springtime complements are designed by Jean-Marie Massaud as furnishing elements of an outdoor area that conceptually dialogues between nature and interior spaces.

I complementi Springtime sono pensati da Jean-Marie Massaud come elementi di arredo di un'area esterna che dialoga concettualmente tra natura e spazi interni della casa.

Frank Outdoor

Antonio Citterio

This outdoor ottomans have contrasting profiles matched to colourful outdoor fabrics to provide a touch of colour to the outdoor furnishings.

Pouf per esterni che si caratterizzano per l'abbinamento di profili a contrasto abbinati a colorati tessuti outdoor che donano una nota di colore agli arredi per esterno.

Karam

B&B Italia CR&S

These baskets come in various sizes and have been designed in sets of three: one for the table and one free-standing.

Ceste pensate in varie dimensioni come tris da tavolo e tris da terra.

Kyra

B&B Italia CR&S

Designed to guarantee high performance outdoor, Kyra carpets are made entirely by hand in a single size and they come in different colours.

Progettati per garantire alte prestazioni in ambienti esterni, i tappeti Kyra sono realizzati interamente a mano in una unica dimensione e sono proposti in diverse tonalità di colori.

Twist Kaleidos

B&B Italia CR&S

Specifically designed for outdoor use, marked by permeability and breathability.

Studiati appositamente per l'utilizzo all'aperto con caratteristiche di permeabilità e traspirabilità.

Technical Data

Awa Outdoor
Naoto Fukasawa - 2009

A sculptural project by Naoto Fukasawa: the small table Awa Outdoor is a versatile object that can be used as a base for a lot of things. Base and top are integrated: aesthetically, it's the epitome of essential elegance. Awa is made with a technologically advanced material, a special blend of white Cristalplant Outdoor® that ensures it can be used both indoors and outdoors. Its particular surface is very soft, similar to natural stone.

Scultoreo progetto di Naoto Fukasawa: il tavolino Awa Outdoor è un oggetto versatile, di servizio, indispensabile per l'appoggio. Base e piano sono un unicuum: l'estetica si divide tra l'eleganza e l'essenzialità. Il materiale è tecnologicamente avanzato: lo compone una speciale miscola in Cristalplant Outdoor® bianco che assicura l'utilizzo in indoor così come in outdoor. La particolare superficie del materiale ha un effetto soft touch, simile alla pietra naturale.

Top and base-frame	Cristalplant Outdoor® (natural mineral filler of phosphate of aluminium with polyester acrylate resin)	Piano e basamento	Cristalplant Outdoor® (carica minerale naturale di idrato d'alluminio con resina poliestere acrilata)

Ayana

Naoto Fukasawa - 2020

Minimalist and innovative, the Ayana collection becomes a new chapter in the story that connects B&B Italia to Naoto Fukasawa. It sees wood as the protagonist, interpreted in an unusual way, with a pleasant oriental touch. If the depths and heights are a clear reference to the south-east Asian tradition, the backrest recalls a Swedish wall bar, an exercise equipment turned into a load-bearing element. Thanks to this solution, the elements of the Ayana collection can be enjoyed and appreciated at 360 degrees, discovering on each side a new elegant interplay of intersections and proportions. Two and three seat sofas and the armchair have armrests at different heights. The armchair armrest is higher to guarantee a more ergonomic seat. The sofa armrest, which is lower, can be combined with a cushion that is easy to be fastened and removed, and helps to lie down more comfortably if necessary. The upholstery of this collection stands out for the individual cushions, all covered with waterproof fabrics.

Minimalista e innovativa, la collezione Ayana diventa un nuovo capitolo nella storia che lega B&B Italia a Naoto Fukasawa e che vede come protagonista il legno, interpretato in maniera insolita, con un piacevole tocco orientale. Se le profondità e le altezze sono un chiaro rimando alla tradizione del sudest asiatico, lo schienale richiama una spalliera svedese, che da strumento per l'attività fisica si trasforma in elemento portante. Grazie a questa soluzione, gli elementi della collezione Ayana possono essere goduti e apprezzati a 360 gradi, scoprendo su ogni lato un nuovo elegante gioco di incroci e proporzioni. I divani, proposti nelle versioni a due e tre posti, e la poltrona si presentano con braccioli di diversa altezza. Il bracciolo della poltrona è più alto per garantire una seduta più ergonomica. Al bracciolo del divano, più basso, è possibile abbinare un cuscinetto facile da agganciare e rimuovere, che all'occorrenza consente di sdraiarsi agevolmente. Le imbottiture si contraddistinguono per i cuscini singoli, rivestiti da tessuti waterproof.

Ayana's warm minimalism is completed with a chair, a dining table and a low table. The dining chair recalls the stylistic features of the other seats, for a perfect family feeling, with the structure in natural teak wood and two generously padded cushions covered in fabric. The table stands out for its oval top in serpentine, a typical stone of the Alps. The supporting structure in natural teak appears light but is extremely robust, able to resist weather and support the heavy top. Even the coffee table has a round section structure in natural teak, with a top in serpentine. Its broad dimensions allow to create a pleasant convivial atmosphere in outdoor settings. Ayana is a project with a green soul. The teak used to make the structures is FSC certified (Forest Stewardship Council) and all the materials that make up the various elements of the series, at the end of the product's life cycle, can be separated and disposed of with respect for the environment.

Il minimalismo caldo di Ayana si completa con una sedia, un tavolo da pranzo e un tavolo basso. La sedia richiama gli stilemi delle altre sedute, per un perfetto family feeling, con la struttura in teak naturale a sezione tonda e una generosa imbottitura a due cuscini rivestiti in tessuto. Il tavolo si contraddistingue per l'ovale del piano in serpentino, pietra tipica delle Alpi. La struttura portante in teak naturale appare leggera ma si rivela estremamente robusta, capace di resistere alle intemperie e sostenere l'importante superficie. Anche il tavolo basso presenta la struttura a sezione tonda in teak naturale, sormontata da un piano in serpentino. Le ampie dimensioni sono pensate per creare un ambiente conviviale e piacevole anche all'aperto. Ayana è un progetto dall'animo green. Il teak utilizzato per realizzare le strutture è certificato FSC (Forest Stewardship Council) e tutti i materiali che compongono i vari elementi della serie, al termine del ciclo di vita del prodotto, potranno essere separati e smaltiti nel rispetto dell'ambiente.

Ayana

Naoto Fukasawa - 2020

The entire collection is based on structures with a round section, a far cry from the traditional square section that defines many outdoor furnishings. As if they were made of sticks simply set next to one another, the Ayana structures are made of natural teak. The wood is unpainted to allow it to age and evolve in the most genuine way, respecting the intrinsic characteristics of this material. An ancestral choice that recalls ancient tools and primitive constructions, which however conceals ingenious technical solutions. The structures are also distinguished by the presence of invisible joints that do not include metal elements such as screws, but only wooden pins. An aesthetic choice that is also a functional one: in fact, this allows the wood to continue its transformations as weather conditions change, without however causing irreversible cracking or deformation. In Fukasawa's vision, round sections and untreated wood create a more natural look that is completed with a seat style that is halfway between the Far East and contemporary Scandinavian.

L'intera collezione si basa su strutture a sezione tonda, lontane dalla tradizionale sezione quadrata che definisce larga parte dell'arredo outdoor. Come fossero fatte di bastoni semplicemente accostati, appoggiati a quota zero, le strutture di Ayana sono realizzate in teak naturale, non verniciato in modo da garantire al legno di maturare ed evolvere nella maniera più genuina, rispettando le caratteristiche intrinseche di questo materiale. Una scelta ancestrale, che ricorda strumenti antichi o magari costruzioni primitive, che tuttavia nasconde soluzioni tecniche di assoluto ingegno. Le strutture sono contraddistinte anche dalla presenza di incastri invisibili che non prevedono l'aggiunta di elementi metallici quali viti o giunti, ma soltanto spine di legno. Una scelta estetica, ma anche funzionale: infatti in questo modo si permette al legno di seguire naturalmente le sue trasformazioni al variare delle condizioni atmosferiche, senza però causare fessurazioni o deformazioni irreversibili. Nella visione di Fukasawa, sezione tonda e legno non trattato concorrono a creare un aspetto più naturale, che si completa con uno stile di seduta che si situa a metà strada tra Estremo Oriente e contemporaneo scandinavo.

Ayana

Naoto Fukasawa - 2020

TEAK WOOD

Teak wood comes from various tectona plants that are common in tropical countries. As a result of its strong resistance to humidity and of its internal content of oily substances, it is considered a very precious wood type especially for outdoor environments. It must be said that wood is a living material that reacts to external agents; hence, it is normal and natural to note a variation in the shade of colour as time goes by. The change in colour over time is not a defect. On the contrary, it is a natural characteristic of this wood that lives and reacts to the outside environment with an aging/oxidation process which does not alter the structural integrity of the product. The images on the right show an example of how the colour of the wood surface can vary.

Il legno di Teak proviene da diverse piante di tectona diffuse nei paesi tropicali. Ha eccellenti caratteristiche di resistenza agli agenti atmosferici, alla salsedine, all'umidità e alle escursioni termiche grazie alla presenza al suo interno di una resina oleosa. Il legno è comunque un materiale vivo che reagisce agli agenti esterni; una esposizione continua ad essi muta progressivamente lo strato superficiale fino alla formazione di una patina superficiale grigio/argento. Tale fenomeno non è quindi da considerarsi un difetto ma la testimonianza della naturalità del legno che vive e reagisce all'ambiente esterno con un processo di maturazione/ossidazione che non altera in alcun modo l'integrità strutturale del prodotto. L'immagine a lato riporta un esempio di variazione della colorazione della superficie del legno.

SERPENTINE STONE

The Serpentine of Valmalenco is an ornamental stone used for both construction and furnishing. It is quarried by natural splitting or in blocks and has physical and aesthetic properties that render it both highly prized and extremely durable. Thanks to its physical and aesthetic properties, it is perfect for interior and exterior cladding of buildings, lining stoves and furnishings. With its fine grain and marked foliation, natural split serpentine is processed mainly into sheets of varying thicknesses.

Il serpentino della Valmalenco è una pietra ornamentale e da costruzione utilizzata in edilizia e nell'arredamento. E' coltivato sia nella varietà a spacco sia in quella massiccia, e possiede caratteristiche fisiche ed estetiche che lo rendono estremamente durevole e pregiato. Grazie alle sue proprietà fisiche e qualità estetiche, trova naturale impiego nella realizzazione di rivestimenti di stufe, esterni e interni di edifici e complementi d'arredo. Il serpentino a spacco, in virtù della sua grana molto fine e della marcata foliazione, viene lavorato prevalentemente in lastre di vario spessore, leggere e impermeabili.

Bay

Nipa Doshi and Jonathan Levien - 2018

Bay is a collection of sculptural and monolithic yet visually light outdoor seats comprising of a sofa in two sizes, an armchair and a high-backed armchair. Their enveloping volumes are marked by a double polypropylene fibre interlacing that creates “air pockets”, granting transparency and lightness to the furniture. The frame accommodates padded solid seats and soft cushions for added comfort. The colours combinations are extremely refined, with tortora and anthracite for the interlacing, paired with elegant block colour and patterned fabrics for the seats and cushions.

Bay è una collezione di sedute da esterno composta da divano in due dimensioni, poltrona e poltrona con schienale alto, che si distinguono per l'aspetto scultoreo monolitico, al contempo visivamente leggero. Avvolgenti volumi intrecciati realizzati in fibra di polipropilene, con un doppio intreccio che crea “tasche d'aria” che donano trasparenza e leggerezza, sono combinati con sedute imbottite dalle sembianze di rocce e si completano con morbidi cuscini che offrono grande comfort. Ricercata la proposta cromatica che prevede due colori per l'intreccio, tortora e antracite, da abbinare alle raffinate tonalità di tessuti tinta unita e fantasia previsti per i rivestimenti di sedute e cuscini.

Bay

Nipa Doshi and Jonathan Levien - 2018

In 2019 the Bay collection has seen the addition of a sofa, a small armchair and an ottoman that reinforce the iconic image of the range by mirroring the generous and solid shapes and the sense of transparency generated by the interplay of anthracite-and dove-coloured polypropylene interlacing. The new sofa has a particularly welcoming and deep seat, complemented by soft seat-back cushions and new roller cushions that can be used as headrests. The small armchair is a scaled-down version of the existing armchair providing a perfect addition to the collection, or an alternative for smaller spaces. The new ottoman mirrors the chair design and coordinates with the whole range.

La collezione Bay si arricchisce nel 2019 di un divano, una poltroncina e un pouf che confermano l'iconicità della famiglia, riprendendone i volumi ampi e monolitici e le trasparenze create dai sofisticati giochi di intrecci in polipropilene antracite e tortora. Il nuovo divano presenta una seduta particolarmente accogliente e profonda, completata da morbidi cuscini schienale e dai nuovi cuscini rullo da utilizzare come poggiatesta. La poltroncina riproduce in scala ridotta le poltrone già in collezione, diventando così una perfetta aggiunta oppure un'alternativa per spazi più ridotti. Nuovo anche il pouf che riprende il disegno delle sedute e si coordina con tutti gli elementi della serie.

Butterfly

Patricia Urquiola - 2015

Butterfly gets its name from the “butterfly” shape created by the outer corner that joins the armrest and the backrest. It is a modular seating system that responds effectively to the needs of modularity and comfort, suitable for free and informal usage. Its modular structure is shaped around an ottoman, which is the base piece, and which, when integrated with the backrest and/or the armrest, becomes a central or terminal element, either left or right. The combination of these elements, using a simple joint system, makes it possible to freely set up versatile configurations, from in-line sofas to corner solutions, from front facing to lounge layouts. The

Butterfly prende il suo nome dalla forma a “farfalla” che disegna l'angolo esterno di unione tra bracciolo e schienale. È un sistema di sedute componibili che risponde in modo efficace ad esigenze di modularità e comfort, proponendo un utilizzo libero e informale. La struttura modulare si sviluppa intorno ad un pouf, il pezzo base, che integrato con schienale e/o bracciolo diventa poi un elemento centrale o terminale, destro o sinistro. Dall'accostamento tra questi elementi, tramite un semplice sistema di giunzione, nascono configurazioni libere e versatili, dai divani lineari a soluzioni angolari, da un accostamento vis-à-vis a soluzioni lounge.

Butterfly complements have an outline that perfectly follows the lines of the sofa, harmoniously flanking the seat at the top. The family consists of round, square, and rectangular low tables and a small table featuring a large weave pattern, made of tortora coloured twisted polyethylene fibres that wraps around the grey painted aluminium frame. Two finishes are available for the surfaces of the complements: white Carrara marble “venatino statuarietto” or thermo-treated ash wooden slats.

I complementi Butterfly presentano una silhouette che riprende perfettamente l'andamento della struttura del divano, affiancandosi poi armoniosamente alla seduta nella parte alta. La famiglia si compone di tavoli bassi di forma tonda, quadrata e rettangolare e da un tavolino caratterizzati da un intreccio grafico e dimensioni macro, realizzato con fibre di polietilene ritorte di color tortora, che avvolge la struttura in alluminio con finitura verniciato grigio. I piani dei complementi sono proposti in due finiture: marmo bianco di Carrara “venatino statuarietto” o in legno a doghe di frassino termotrattato.

Canasta

Patricia Urquiola - 2007

The inspiration? A wicker basket in the Far East: Patricia Urquiola started working on the weave of Canasta (basket in Spanish) while out in the Far East. To find the perfect weave, the designer reinterpreted the traditional design of the octagonal holes in Viennese cane, mixed two patterns to transform the product into the macro-pattern of Canasta and create a series of outdoor sofas that look classic but have contemporary adaptability. In fact, the play between classic and contemporary is not a new idea: the Viennese cane inspiration is retro, and the polyethylene texture speaks today's language.

L'ispirazione? Una cesta in vimini vista in Estremo Oriente: Patricia Urquiola inizia da qui il lavoro sull'intreccio di Canasta (cesta, in spagnolo). Per trovare la trama perfetta la designer reinterpreta anche il tipico disegno a fori ottagonali della paglia di Vienna, mixa i due segni e li trasforma nel macro pattern geometrico di Canasta creando una serie di divani da giardino dalla memoria classica ma con plasticità contemporanea. Infatti il gioco tra il classico e il contemporaneo è senza alcuna nostalgia: se l'ispirazione alla paglia di Vienna è retro, la texture in polietilene parla il linguaggio di oggi.

A family of seating featuring a maxi-interlacing of white polyethylene fibre ribbon. There are many typologies: circular and linear sofas, armchairs, chairs and service elements. All these very comfortable seating have frames in aluminium with weather resistant polyester powder painting with interlacing in polyethylene fibre.

Famiglia di sedute caratterizzata dal macro-intreccio di nastri in fibra di polietilene bianca. Molteplici le tipologie: divani circolari e lineari, poltrone, sedie ed elementi di servizio. Tutte le sedute di grande comfort hanno la struttura in alluminio verniciato a polvere poliestere resistente agli agenti atmosferici e intreccio in fibra di polietilene.

Canasta '13

Patricia Urquiola - 2013

Outdoor sofas, swivel sofas, high and low back armchairs for the garden from the Canasta '13 collection maintain the iconic design and the typologies of the entire Canasta series, but with a new look designed to blend in with the external environment even more. The colours of the woven material become more natural,

I divani da esterno, divani girevoli, poltrone alte e basse da esterno della collezione Canasta '13 mantengono il design iconico e le tipologie di tutta la serie Canasta e cambiano “veste” per fondersi maggiormente con l'ambiente esterno. I colori dell'intreccio si fanno più naturali tingendosi di un tortora mélange e la trama dell'intreccio

Tortora mélange, and the weave expands to let light and glimpses of the surroundings show through. Unique pieces, elegant outdoor furnishings that are super comfortable like the circular sofa with the swivel base, which lets you follow the sun and turn 360°.

si dispiega lasciando trasparire la luce e l'ambiente circostante. Pezzi unici, protagonisti eleganti dell'arredamento da esterno e super confortevoli come il divano circolare oversize con la base girevole per seguire il sole a 360°.

Canasta tables

Patricia Urquiola - 2007/2013

The Canasta collection includes tables and service elements in different sizes. The tables frames are in aluminium and the service elements frames are in steel. Both frames are painted with weather resistant polyester powder. The tops are covered with exclusive tiles with decorative patterns.

La collezione Canasta si completa di tavoli ed elementi di servizio in diverse dimensioni. I tavoli hanno la struttura in alluminio mentre gli elementi di servizio in acciaio. Entrambe le strutture sono verniciate a polvere poliestere resistente agli agenti atmosferici e piani rivestiti con piastrelle esclusive con motivi decorativi.

Nature is undoubtedly the inspiration behind the choices of colours and materials for the table Canasta '13. The cement coloured porcelain stoneware characterized the top of Canasta '13 tables and small tables. This look conveys timelessness and essential elegance.

Evidenti sono i richiami alla natura che hanno guidato le scelte cromatiche e materiche per il tavolo Canasta '13. La finitura in cemento color porcellana caratterizza il piano dei tavoli e dei tavolini Canasta '13. Questa veste conferisce un'eleganza sobria e senza tempo.

Charles Outdoor

Antonio Citterio - 2010

The Charles sofa system, a long-time bestseller for the company, is being introduced in an outdoor version: Charles Outdoor. Characteristics that made it a classic of pure contemporary taste have been left unchanged. The system will have the same slim frame, flexibility and signature design of the inverted “L” shape aluminium foot.

Il sistema di divani Charles, bestseller e longseller dell'azienda, viene proposto nella versione outdoor: Charles Outdoor. Rimangono inalterate le caratteristiche che lo hanno reso un classico dal gusto decisamente contemporaneo: la struttura sottile, la flessibilità del sistema e il design essenziale del piedino in alluminio a forma di “L” rovesciata.

Charles Outdoor

Antonio Citterio - 2010

The new piece maintains the beauty and simplicity of the original project while also evolving gracefully for practical outdoor use the piece is lightweight thanks to its slim aluminium frame and has an external surface created by open interlacing brown polypropylene ribbon.

Sempre mantenendo un'estetica rigorosa e atemporale, equivalente al progetto iniziale, il volume di struttura si svuota grazie ad una struttura leggera di alluminio e a una superficie esterna realizzata con un intreccio aperto, regolare e ortogonale, di nastri in polipropilene marrone.

Colosseo Outdoor

Naoto Fukasawa - 2020

In 2020 Colosseo debuts outdoor in the new porcelain stoneware version in sauge and clay colors. A furnishing element with various functions depending on the occasion and need (coffee table and pouf). Colosseo takes its name from the designer's inspiration. Naoto Fukasawa has in fact arrived at the desired shape thinking of a solid in the shape of an upside-down truncated cone, creating an assonance with the structure of the famous Roman arena.

Nel 2020 Colosseo debutta nella nuova versione Outdoor, in gres porcellanato nei colori salvia e argilla. Elemento di arredo con varie funzioni a seconda delle occasioni e delle necessità (pouf e tavolino), Colosseo prende il nome dall'ispirazione del designer. Naoto Fukasawa è arrivato alla forma desiderata pensando ad un solido a forma di tronco di cono rovesciato alleggerito nella struttura da incavi a forma di arco, creando così una assonanza con la famosa arena romana.

Cosmos Outdoor

Jeffrey Bennett - 2019

This collection includes harmonious tables and small table which can be used in pairs or groups due to their compact size. They adapt easily to different enviroments both as contract furnishing schemes and residential balconies or terrace. These tables are entirely painted (anthracite, sage and clay) or with tops in porcelain stoneware (white or anthracite).

La collezione include una serie di tavoli e tavolini dalle linee armoniose che possono essere utilizzati in coppia o in piccoli gruppi. La versatilità che li contraddistingue ne permette l'adattabilità a diversi contesti. Da progetti contract a balconi e terrazze ad uso residenziale. I tavoli possono essere interamente verniciati (antracite, argilla e salvia) oppure con il piano in gres porcellanato (bianco o antracite).

Crinoline

Patricia Urquiola - 2008

Can you picture the dresses that women wore in the 1800s?

Full, bell-shaped skirts held by crinolines (rigid underskirt garments) were spectacular “micro-architectures” commonly seen in living rooms everywhere.

All of the chairs in the Crinoline collection are designed to reflect this elegant look: the wide curve of the base is repeated in the seat and the curve of the backrest.

Avete presente le gonne delle dame ottocentesche? Gonfie, a campana, sostenute dalle crinoline (sottogonne rigide) erano scenografiche micro-architetture da salotto. “Più che romantica. Più che sensuale. L'ispirazione è esotica ed erotica”, dice Patricia Urquiola.

Le poltrone e sedie Crinoline sono disegnate per rendere l'idea di questi abiti eleganti: l'ampia conca della base è ripresa nella seduta e nella curvatura dello schienale.

Armchairs, small armchairs, chairs and a stool are designed in several different shapes and heights. The polyethylene fibre interlacing are joined by natural or bronze abaca. Being a natural material, the product with abaca interlacing is suitable for indoors, covered outdoor spaces or verandas.

Sedie, uno sgabello, poltroncine e poltrone sono declinate in tipologie diverse per forma e altezza. Ad intrecci in fibra di polietilene, si affiancano quelli in abaca naturale o bronzo. Il prodotto con intreccio in abaca naturale, trattandosi di fibra naturale, è destinato all'utilizzo in ambienti interni, in esterni coperti o verande.

Crinoline
Patricia Urquiola - 2008

The table reflects the style of the Crinoline series, with a curved shape like the seats and the interlacing in polyethylene fibre. The base is made of two connected elements that create a chalice shape that supports the top which is made of white glass.

Coerente con la serie Crinoline, il tavolo riprende le forme curve che caratterizzano le sedute e l'intreccio in fibra di polietilene. La base si compone di due elementi uniti che creano una forma a calice che supporta il piano realizzato in vetro bianco.

Erica

Antonio Citterio - 2017

Sofas, armchair, small armchair and chair, including a stackable version, offer a technological blend of extruded and die-cast aluminium elements. Their lightness and design makes them ideal for both public and residential settings, featuring seat and back cushions for ergonomic comfort together with strength for outdoor use. The painted frames are available in three finish combinations: white painted aluminium frame with tortora colour polypropylene fibre interlacing, tortora painted aluminium frame with tortora colour polypropylene fibre interlacing or anthracite painted aluminium frame with anthracite colour polypropylene fibre interlacing.

Divani, poltrona, poltroncina e sedia, anche in versione impilabile, sono studiati con un mix tecnologico di estrusi e pressofusioni di alluminio. La loro leggerezza e il loro disegno ne suggeriscono l'utilizzo sia in spazi pubblici che residenziali, rispettando criteri di ergonomia e adattabilità ambientale. I cuscini sedile e schienale garantiscono un confortevole relax. Tre le finiture delle strutture verniciate, abbinate ad intrecci di nastri in tessuto sintetico con un'anima interna ad alta tenacità studiata per l'utilizzo outdoor: struttura in alluminio verniciato bianco con intreccio in fibra di polipropilene tortora, struttura in alluminio verniciato tortora con intreccio in fibra di polipropilene tortora o struttura in alluminio verniciato antracite con intreccio in fibra di polipropilene antracite.

Erica '19

Antonio Citterio - 2019

The Erica collection of sofas, armchairs and small chairs that was so successfully launched in 2017 has been enhanced by new sofas, still based on the same characteristic curved backrest and interlacing as before but offering a deeper seat and lived-in appearance. The sofas come in three extra-comfortable sizes - the 170 cm and 216 cm styles with a 96 cm deep seat and the 153 cm version with a 140 cm seat - and the cushions have a different type of filling giving an even softer and more natural look and making them even more inviting.

Erica, la collezione di divani, poltrone e poltroncine presentata con successo nel 2017, si arricchisce di nuovi divani che riprendono lo schienale curvo e l'intreccio caratteristici della serie, ma si distinguono per la seduta più profonda e l'aspetto vissuto. I divani sono proposti in tre misure particolarmente accoglienti 170 cm e 216 cm con seduta profonda 96 cm e 153 cm con seduta profonda 140 cm e prevedono, per i cuscini, una nuova tipologia di imbottitura che conferisce al prodotto un aspetto più morbido e naturale, un vero e proprio invito al relax.

The unusual colour juxtaposition of frame and interlacing in anthracite, tortora or a frame in sage with natural-coloured interlacing can be complemented by a vast range of cushion covers, in an array of tones and designs, all co-ordinating with each other. There is also a chair with armrests with an brand new interlaced backrest.

Inediti gli accostamenti cromatici con struttura e intreccio antracite, tortora oppure con struttura salvia e intreccio naturale, da abbinare ad un'ampia gamma di rivestimenti per i cuscini proposti in numerose nuance e fantasie tra loro coordinabili. La proposta è completata dalla sedia con braccioli con un inedito intreccio per lo schienale.

Fat-Fat Outdoor

Patricia Urquiola - 2019

The concept of a tray helped create three small outdoor tables with steel frames that give them a lightweight look. These small tables are entirely painted or with tops in porcelain stoneware.

Il tema del vassoio viene ripreso per dar vita a tre tavolini per esterni il cui aspetto leggero è merito della struttura in acciaio. I tavolini sono proposti interamente verniciati oppure con piano in gres porcellanato.

Fat-Sofa Outdoor

Patricia Urquiola - 2015

The rounded, soft and sinuous shapes of the Fat-Sofa seating system are the base for the outdoor version, characterized by a brand new interlacing design. Its fully padded seat is accompanied by a metal frame backrest that supports the original weave, creating a special play of fullness and emptiness. The large weave pattern, made of tortora coloured twisted polyethylene fibres, makes

Le forme arrotondate, morbide e sinuose, del sistema di sedute Fat-Sofa vengono riprese nella versione da esterni, caratterizzata da un'inedita proposta di intreccio. La seduta completamente imbottita è accompagnata ad uno schienale con struttura in metallo su cui si tesse l'originale intreccio, creando uno speciale gioco di pieni e vuoti. L'intreccio, di effetto grafico e dimensioni macro, realizzato con fibre

the design unique, respecting the designer's idea of lightness, transparency and puts the furnishings in an open "dialogue" with the surrounding environment. Fat-Sofa Outdoor consists of six types, ranging from the linear sofa to a large relax island, from two height variants of the armchair to a range of different sizes of ottomans.

di polietilene ritorte di color tortora, conferisce unicità al progetto, nel rispetto dell'idea della designer di leggerezza, trasparenza e "dialogo" dell'elemento di arredo con l'ambiente circostante. Fat-Sofa Outdoor si compone di sei tipologie, che spaziano dal divano lineare ad un'isola relax di ampie dimensioni, dalla poltrona con schienale in due altezze ad una serie di elementi pouf di diverse dimensioni.

Fiore

Naoto Fukasawa - 2018

Fiore is a collection of dining tables with small sizes and small tables that stand out for their perfect formal balance and for the striking texture of their cement finish, available in white or greige. “Many years ago, I called my chairs Papilio because their silhouettes reminded me of butterflies. Now I have called my latest project Fiore, or flower in Italian, because the Papilio Shell chairs sit around these tables like butterflies flying around a flower. The combination of a Fiore table with the Papilio chairs creates a pleasant outdoor environment for a coffee or a quick meal. This was made possible by the use of a special cement moulding technology. We also added pigments so as to match the tables to the shell of the Papilio Shell chairs.” (Naoto Fukasawa)

Una collezione di tavoli da pranzo di piccole dimensioni e di tavolini che si caratterizzano per il perfetto equilibrio formale e la forte matericità della finitura in cemento, in due varianti colore, greige e bianco. “Molti anni fa ho chiamato le mie sedie Papilio, perché la loro silhouette evocava le farfalle. Ora ho chiamato questo nuovo tavolo Fiore, perché è un tavolo a cui le Papilio Shell stanno intorno come le farfalle volano intorno al fiore. Credo che questa introduzione di Fiore insieme alle sedie Papilio crei un bell’ambiente outdoor per un caffè o un pasto veloce. Ciò è stato possibile grazie all’utilizzo di una tecnologia di stampo in cemento. Abbiamo aggiunto anche i pigmenti corretti per l’abbinamento con i colori delle scocche delle Papilio Shell.” (Naoto Fukasawa)

Ginepro
Antonio Citterio - 2020

The Ginepro table is made with an anthracite painted aluminum structure and a Serpentine stone top extremely durable and precious as the linear and timeless style.

Il tavolo Ginepro è realizzato con struttura in alluminio verniciato antracite e piano in pietra Serpentino estremamente durevole e pregiata in linea con lo stile lineare e senza tempo.

With its two shapes (round and rectangular with rounded corners) and four dimensions, it lends itself to be placed in different outdoor environments: terraces, verandas, patios and gardens.

Con le sue due forme (rotondo e rettangolare con angoli smussati) e quattro dimensioni, si presta ad essere collocato in ambienti differenti: terrazze, verande, patio e giardini.

Ginestra

Antonio Citterio - 2017

Collection of large rectangular and round dining tables featuring natural teakwood structural details and designed tops, studied to match central inserts made of Calacatta white porcelain stoneware. The same collection features a chair, always in natural teakwood, with sinuous harmonious lines that are clearly inspired by northern trends. It is characterised by an interlacing in polypropylene fibre that is ideal for outdoor use. Colours are chosen to match natural teakwood with a beige interlacing. Comfort is guaranteed by seat and back cushions.

Collezione di tavoli da pranzo rettangolari e rotondi di grandi dimensioni caratterizzati da dettagli strutturali e disegni dei top realizzati in teak naturale che si abbinano ad inserti centrali realizzati in gres porcellanato bianco Calacatta. Della stessa serie una sedia, sempre in teak naturale, dalle linee sinuose e fluide di chiara ispirazione nordica, caratterizzata da un intreccio di nastri in tessuto sintetico adatto all'utilizzo outdoor. Lo studio cromatico ha previsto l'abbinamento del teak naturale ad un intreccio con nastro di colore beige. Il comfort è garantito da un cuscino sedile e schienale.

Gio

Antonio Citterio - 2016

Gio, designed by Antonio Citterio, is the series with a contemporary classic accent dedicated to living in the open air. A complete range of sofas, end units, chaise longue, sunbeds, armchairs, chairs, tables and complements which have been developed from solid teak structures with a special antique grey finish, which gives the wood a particular lived-in aspect and silver-grey reflective quality.

Al vivere all'aria aperta è dedicata Gio, la serie dall'accento classico contemporaneo disegnata da Antonio Citterio. Una famiglia completa di divani, elementi terminali, chaise longue, lettini, poltrone, sedie, tavoli e complementi che si sviluppano a partire da strutture in massello di teak nella speciale finitura antique grey, che conferisce al legno un particolare aspetto vissuto con riflessi grigio argento.

The various types of sofas, end units and chaise longue can be assembled to form linear, corner and peninsula seating. All elements have a basic structure of wooden slats where backrests and armrests, characterised by and interlacing of tortora ribbons, can be easily inserted.

Da un punto di vista formale le varie tipologie di divani, elementi terminali e chaise longue, tutti accostabili per formare sedute lineari, angolari e a penisola, prevedono una struttura di base a doghe di legno sulla quale si innestano telai schienale e braccioli caratterizzati dall'intreccio di nastri di colore tortora.

Gio

Antonio Citterio - 2016

The seats are equipped with seat and back cushions which makes the Gio series particularly cosy and comfortable, and offer exclusive colour combinations.

Le sedute sono completate da cuscini sedile e schienale che rendono Gio particolarmente accogliente e confortevole e offrono esclusivi abbinamenti cromatici.

To ensure a better insulation from the weather, all the padded elements have a polyester cover with waterproof treatment, and the fabrics are certified for resistance to weathering, UV rays, chlorine and sea spray.

Per garantire un migliore isolamento dalle intemperie, tutte le imbottiture sono rivestite con una fodera di poliestere con trattamento waterproof, mentre i tessuti sono certificati per resistenza agli agenti atmosferici, ai raggi UV, all'acqua clorata e alla salsedine.

Gio

Antonio Citterio - 2016

The particular type of structure of Gio allows for easily disassemble the various components, so to reduce the space needed to store the products in winter.

Questa particolare tipologia di struttura consente di disassemblare in maniera molto semplice i vari componenti, riducendo così i volumi nel caso in cui si renda necessario stoccare il prodotto nel periodo invernale.

Hospes

B&B Italia CR&S - 2020

The B&B Italia's Research & Development Centre has developed Hospes, an extremely versatile ottoman that is at its best in any room. A dynamic complement that can be used in different ways and fits perfectly with different product families. Made in two sizes and three colors - overseas blue, stone, anthracite - it is based on a robust aluminum frame covered with an interlacing of waterproof ropes. On top, the interlacing is held up by webbing that provides support and comfort.

Il Centro Ricerche & Sviluppo di B&B Italia ha sviluppato il nuovo pouf Hospes, una seduta estremamente versatile, che trova il suo luogo ideale in ogni ambiente. Un complemento dinamico che può essere utilizzato in modi diversi e si sposa perfettamente con diverse famiglie di prodotto. Realizzato in due dimensioni e tre colori - blu oltremare, sasso e antracite - si basa su un robusto telaio in alluminio rivestito con un intreccio di corde impermeabili. Nella parte superiore l'intreccio è sostenuto da cinghie che danno sostegno e comfort.

Husk Outdoor

Patricia Urquiola - 2011

Comfort and eco-sustainability are the key words for describing Husk Outdoor, designed by Patricia Urquiola. The collection is a tribute to softness, and just looking at these pieces is restful. Husk Outdoor features a hard shell made of Hirek®, a special plastic formed from recycled and recyclable polymers, and a set of soft cushions. The shell is white, while the fixed seat support is available painted in five colours. Cushions come in two versions, with larger sizes on the seat or on the back.

Comfort ed ecosostenibilità le parole chiave delle poltrone Husk Outdoor disegnate da Patricia Urquiola. La collezione è un inno alla morbidezza e invita al riposo già al primo sguardo. Husk Outdoor si caratterizza per una scocca rigida in Hirek®, una speciale plastica formata da polimeri riciclati e riciclabili, ed una serie di cuscini soffici. Bianco è il colore della scocca, mentre il supporto fisso è disponibile verniciato in cinque varianti. Due le versioni della cuscinatura, a scelta di dimensioni più generose sulla seduta o sullo schienale.

The dining chair version completes the Husk Outdoor collection, which meets a variety of size and functional needs. The shell is available only in white; the four legs are in white or black painted metal. The Husk Outdoor collection also includes two small tables: one with three spokes ø 45 cm, available in the same colour variants as the armchair bases; the other with four spokes ø 62,5 cm, already proposed in indoor spaces, joins the Outdoor collection with single colour versions painted white or black.

La tipologia sedie da pranzo completa la proposta Husk Outdoor ed è in grado di rispondere a necessità diverse per dimensione degli spazi e per funzioni. Unico è il colore della scocca, il bianco; le quattro gambe sono in metallo verniciato bianco oppure nero. Della collezione Husk Outdoor fanno parte anche due tavolini: uno a tre razze ø 45 cm, disponibile nelle stesse varianti di colore dei basamenti delle poltrone; l'altro a quattro razze ø 62,5 cm, già proposto per spazi indoor, entra a far parte della collezione Outdoor con le versioni monocolor verniciato bianco o nero.

Hybrid

Antonio Citterio - 2020

After the great success of Ribes, Antonio Citterio developed some design ideas behind it and created Hybrid, an innovative new system of modular seating elements that it is so versatile it can be arranged into an almost infinite number of combinations. The key role of the textile dimension stands out immediately, with upholsteries that cover completely the generous padding, the absolute protagonist. These are typical elements of indoor furnishings, which find with Hybrid an outdoor interpretation. Hence the name of the collection, which is proposed as a real link between the inside and the outside of the house. Hybrid represents in fact the perfect furnishing element for climates and spaces that are defined by a continuous blend of inside and outside environments, with rooms that open to an en-plein-air dimension, and for living spaces integrated into terraces and gardens. The combination of opposites happens not only visually, but also through the sense of touch. Hybrid guarantees in fact the typical comfort of traditional upholstered furniture for interiors, thanks to a new type of mattress seat conceived for outdoor furnishing.

Dopo il grande successo di Ribes, Antonio Citterio ne sviluppa alcuni spunti progettuali e nasce Hybrid, un nuovo sistema di sedute modulare ad alto tasso di innovazione, estremamente versatile e dalla componibilità pressoché infinita. Immediatamente balza all'occhio il ruolo chiave della dimensione tessile, che riveste completamente una generosa imbottitura, assoluta protagonista. Si tratta di elementi tipici dell'indoor, che con Hybrid arrivano con determinazione nell'outdoor. Da qui il nome della collezione, che si propone come vero e proprio anello di congiunzione tra l'interno e l'esterno della casa. Hybrid rappresenta infatti il perfetto elemento d'arredo per climi e spazi che si definiscono per la continuità tra dentro e fuori, ambienti naturalmente aperti a una dimensione en-plein-air, ma anche per spazi living integrati a terrazze o giardini. L'unione degli opposti non avviene soltanto attraverso la vista, bensì anche col tatto. Hybrid garantisce infatti il comfort tipico dei tradizionali imbottiti da interni, grazie a una seduta a materasso, estremamente soffice e accogliente, inedita per l'arredamento da esterni. La cuscinatura è infatti realizzata con materiale per imbottiture a diversa densità, studiato per accogliere

The cushions are actually made with paddings with different densities, carefully designed to pleasantly accommodate the body and support it at the same time, without sinking. The supporting structures are almost invisible, and the seat seems to float a few centimeters above the floor. The solid base is formed by a frame in extruded aluminum painted in he colours sage, clay and anthracite, and is completed by a platform with fiberglass slats. The backrest conceals an aluminum structure, covered with soft polyurethane, which is in turn covered with a padded sheath, completed with a cover in waterproof fabric. The platform is available in eight sizes and two depths, while the armrest and backrest come in two heights. To guarantee further comfort to the deeper seat, the low backrest can be raised with an additional headrest cushion. Additional cushions in various sizes enrich the range, offering countless design and chromatic solutions. The Hybrid collection also includes a series of new outdoor fabrics made with mélange polypropylene yarn in five colour variants that are accented by refined trims. Choices that confirm a decisive and elegant presence for interiors and outdoor spaces.

piacevolmente il corpo e sostenerlo allo stesso tempo, senza sprofondare. Le strutture portanti sono pressoché invisibili e la seduta sembra fluttuare a pochi centimetri dal pavimento. La base è formata da una solida struttura a cornice in estruso di alluminio verniciato nei colori salvia, argilla e antracite, completata da un pianale con doghe in fibra di vetro. Lo schienale nasconde una struttura di alluminio, rivestita di poliuretano morbido, a sua volta rivestito con una guaina imbottita, completata con un rivestimento in tessuto impermeabile. La piattaforma è disponibile in otto misure e due profondità, mentre il bracciolo e lo schienale prevedono due altezze. Per garantire ulteriore comodità alla seduta più profonda, lo schienale basso si può innalzare con un cuscino poggiatesta supplementare. Cuscini aggiuntivi in varie dimensioni arricchiscono la gamma, offrendo innumerevoli soluzioni progettuali e cromatiche. Fanno parte della collezione Hybrid una serie di nuovi tessuti outdoor realizzati con filato di polipropilene mélange in cinque varianti di colore che si sposano con raffinate bordature. Scelte che confermano una presenza decisa ed elegante per interni ed esterni.

Hybrid

Antonio Citterio - 2020

All the objects in the Hybrid collection can be dismantled completely. At the end of the life cycle, each individual element can be separated and disposed of following the path best suited to each material. The particular type of structure of Hybris allows for easily disassemble the various components, so to reduce the space needed to store the products in winter.

Tutti gli oggetti della collezione Hybrid sono completamente disassemblabili. Alla fine del ciclo di vita ogni singolo elemento si potrà separare e smaltire seguendo il percorso più adatto a ogni materiale. La sua particolare struttura consente di disassemblare in maniera molto semplice i vari componenti, riducendo così i volumi nel caso in cui si renda necessario stoccare il prodotto nel periodo invernale.

Link Outdoor
Jakob Wagner - 2009

One-of-a-kind, this piece has been moulded in a continuous, joint-free shape: Link Outdoor stands out for its “soft” material and sensual shape. The material makes you want to reach out and touch its smooth surface. An interestingly shaped dining table dominates the room: Danish designer Jakob Wagner places his pure, contemporary mark on this room, typical of northern design. The table is made in a single piece and there are no hooks or joints. Made from a practical technological material: a special type of Cristalplant Outdoor® ensures that it is suitable for outdoor use. It is a resin, in a fluid form that is moulded into the desired shape, a concept in line with B&B Italia’s production philosophy for upholstered furniture. Cristalplant Outdoor® has a velvety smooth surface, an effective soft-touch surface that feels wonderful.

Pezzo unico, plasmato, continuo, privo di giunti: Link Outdoor si distingue per la sua matericità “morbida”, per la sensualità della sua forma e del suo materiale che suscitano il desiderio di sfiorarne la superficie levigata. Un tavolo da pranzo sinuoso, plastico, protagonista dello spazio: lo firma il designer danese Jakob Wagner che ci mette il suo segno purissimo e contemporaneo, tipico del design nordico. Il tavolo è realizzato in un unico stampo e non prevede l'utilizzo di agganci e giunture. Tecnologico e pratico il materiale che lo compone: una speciale miscela in Cristalplant Outdoor® che assicura l'utilizzo da esterni e da interno. La resina, è in forma fluida e viene lavorata con stampi, concetto in linea con la filosofia di produzione degli imbottiti di B&B Italia. Al tatto Cristalplant Outdoor® si caratterizza per la superficie vellutata con effetto soft-touch di notevole impatto sensoriale.

Mirto Outdoor

Antonio Citterio - 2013

A classic is born. It expresses Antonio Citterio's stable elegance. Different types of seat: chairs, armchairs and a sunbeds are included in the collection.

The folding armchair revisits the classic shape of the director's chair, with exclusive details.

Nasce un classico che esprime l'eleganza stabile e riconoscibile del suo autore. Fanno parte della collezione diverse tipologie di seduta: sedie, poltrone, lettini con schienale reclinabile ed una poltroncina pieghevole che rielabora il lessico della classica tipologia da regista, con dettagli accurati.

Mirto Outdoor

Antonio Citterio - 2013

Details like the light aluminium structure, the mesh in Batyline® Canatex, in which hemp fibre confers a more rustic natural look compared to plastics that are usually used in this sector. The edges are cut, sewn and glued masterfully around the profiles to create minimal décor.

Dettagli come la struttura leggera in alluminio, la rete in Batyline® Canatex, la cui fibra di canapa conferisce una mano più rustica e naturale rispetto alle plastiche in uso nel settore. I bordi tagliati, cuciti e incollati con sapienza seguono i profili e dettano il decoro minimal.

Mirto Outdoor

Antonio Citterio - 2013

All sizes of tables, small tables and consoles have the same frame and top in painted aluminium, in brushed natural Iroko slats, in Calacatta white porcelain stoneware or in enamelled lava stone with anthracite, clay, sage decoration. The quality and attention to detail make Mirto a collection that is made to last.

Tavoli, tavolini e console hanno la stessa struttura e top in lamiera verniciata, con doghe di Iroko naturale spazzolato, in gres porcellanato bianco Calacatta o in pietra lavica smaltata con decoro antracite, argilla, o salvia. L'aspetto qualitativo e la cura dei dettagli fanno di Mirto una collezione fatta per durare nel tempo.

Mirto Outdoor

Antonio Citterio - 2013

In 2019 the Mirto collection is also being expanded to include new designs and finishes starting with the folding director's chair now in ecru canvas with natural thick leather armrests and a die-cast aluminium frame in the new colours, clay and sage. There is also a series of very innovative dining, small and console tables in several sizes that reproduce the collection's minimalist design elements with a fresh take on colours and decorations.

La collezione Mirto si amplia nel 2019 con nuove proposte e finiture, a partire dalla sedia regista pieghevole ora presentata con un rivestimento in tela ecrù con braccioli in cuoio naturale e struttura in pressofusione d'alluminio nei nuovi colori argilla e salvia. La grande novità è rappresentata dalla serie di tavoli da pranzo, tavolini e console in varie dimensioni che riprendono il disegno essenziale di quelli già parte della collezione, ma introducono i temi del colore e del decoro.

The die-cast aluminium frame comes in three new varnishes - clay, sage and anthracite - and the table tops are made of black lava stone laid out in designs based on traditional Sicilian lace in the three different frame shades. A really innovative technique has been used to manufacture the decorative tiles using a special material obtained by crushing recycled electronic equipment screens which is then applied to the surface of the tiles using an exclusive production process.

Le strutture in pressofusione d'alluminio si presentano verniciate nei tre colori argilla, salvia e antracite, mentre i piani sono realizzati con piastrelle di pietra lavica smaltata con decori che riproducono il disegno di un pizzo siciliano tradizionale da abbinare alle tre tonalità delle strutture. La tecnica di stampa delle piastrelle è altamente innovativa e utilizza per il decoro uno speciale materiale ottenuto dalla frantumazione del vetro di monitor e strumenti elettronici dismessi, poi applicato alla superficie delle piastrelle tramite un esclusivo processo di lavorazione.

Oh, it rains!
Philippe Starck - 2020

The collaboration between B&B Italia and Philippe Starck leads to the birth of a sofa amnd an armchair, both with impressive dimensions and highly scenographic presence, that surprisingly combine an unusual shape and an unexpected function, with a name that really attracts attention. The designer started his research for this project by going back to the origins of outdoor furniture, that of nomads and soldiers: desert tents and field equipment, colonial colors and very light materials, essential shapes with function connected with rapid action. Colours and materials go hand in hand with the initial concept and the collection introduces colonial shades waterproof fabrics. The collection is enhanced by optional cushions that guarantee extra comfort and a dynamic look to this large object, suitable for private settings and also for outdoor areas in hotels and lounge. From a technical standpoint, the backrest is made with a double layer of water-repellent fabric, which makes it 100% waterproof. It is also possible to choose the version with a side table integrated into the structure, available in Mediterranean stone.

Nata dalla collaborazione tra B&B Italia e Philippe Starck, la collezione Oh, it rains! propone un divano e una poltrona studiati per essere utilizzati all'aperto con un design elegante, frutto di una funzionalità iconoclasta, che si adatta alla perfezione a qualsiasi ambiente pubblico o privato che sia. Il designer si è ispirato alle origini del concetto di outdoor e di arredamento per esterni: tende del deserto e attrezzature da campo tipiche dei popoli nomadi e dei soldati, colori coloniali e materiali molto leggeri, forme essenziali dalle funzionalità intuitive e di facile implementazione. I colori e i materiali utilizzati sfoggiano una tavolozza di tonalità che vanno dal beige al marrone caldo. I tessuti sono idrorepellenti e rendono il prodotto completamente impermeabile. La collezione è arricchita da numerosi cuscini opzionali che garantiscono ancora più comfort e dinamicità a questo prodotto adatto sia ad ambienti privati che ad aree outdoor di hotel e lounge. Infine, nella struttura della seduta, è possibile integrare un tavolino in pietra mediterranea.

Oh, it rains! Philippe Starck - 2020

The large backrest of the product it is not just decorative but it acts like a wall or a partition to create an intimate and private setting nad, when necessary, it folds down on top of the seat so cushions and seat are covered and protected.

L'ampio schienale non è solo decorativo ma crea in maniera del tutto naturale uno spazio intimo e privato che grazie alla impeccabile ergonomia si reclinfa facilmente sulla seduta, in caso di pioggia o maltempo, in modo che cuscini e seduta siano coperti e protetti.

Papilio Shell Outdoor

Naoto Fukasawa - 2016

Papilio Shell Outdoor is linked through its name to the previous family of very successful chairs and armchairs, but has an independent history. Originating from a shell with a design that enhance comfort, it expresses considerable versatility that makes it perfect in different situations.

Papilio Shell Outdoor cita con il suo nome una precedente famiglia di sedute di grande successo, ma ha una storia indipendente. Originata da una scocca, il cui disegno sottolinea l'accoglienza e la comodità, esprime una notevole versatilità che la rende utilizzabile in situazioni molto diverse tra loro.

Ravel

Patricia Urquiola - 2008

A fisherman's work, the sea and its fragrance. A humble fishing net and its diamond-shaped weave. This is what inspired Patricia Urquiola to create the pattern of the woven material for Ravel. She worked until she arrived at the complex pattern that decorates the backrests of the pieces in the collection. The result of field experimentation in the field, Patricia Urquiola's work marks another visitation of the interlacing theme. Interlaced backs in polyethylene

Il lavoro dei pescatori, il mare e il suo profumo. Una umile rete dal pesca ed il suo intreccio a losanga. Qui Patricia Urquiola si ispira per elaborare la trama dell'intreccio di Ravel, fino a ottenere il pattern complesso, che disegna gli schienali della collezione. Frutto di una sperimentazione avvenuta sul campo, il lavoro di Patricia Urquiola segna un ulteriore approfondimento del tema dell'intreccio. Schienali intrecciati in fibra di polietilene si abbinano a

fibre matched with base in black or white galvanized steel with polyester powder painting produce a modular element of two different sizes. The pieces can be easaily combined to form linear, corner, terminal elements or chaise longue. The ottoman-small table pieces can be used between seats, or to add depth to sofas.

una base in acciaio zincato nero o bianco verniciato a polvere poliestere, producendo un elemento modulare di due diverse dimensioni, accostabile con estrema libertà a formare sedute lineari, angolari, terminali o chaise longue. Elementi pouf-tavolino possono essere utilizzati sia a intervallare le sedute, sia ad alimentarne la profondità.

Ray Outdoor Fabric
Antonio Citterio - 2017

Ray Outdoor Fabric features an interlacing ribbon pattern, created using polypropylene fibre that are resistant to UV rays and weathering. The range of colours, particularly suitable for outdoor environments, varies from turquoise to blue and from acid green to tortora through to bright bordeaux.

Ray Outdoor Fabric si distingue per l'intreccio a nastro, realizzato in fibra di polipropilene resistente ai raggi UV ed agli agenti atmosferici. La gamma di colori, particolarmente adatta agli ambienti outdoor, varia dal turchese al blu, dal verde acido al tortora sino ad un vivo colore bordeaux.

The “Fabric” collection consist of sofas available in two depths as well as modular elements such as terminal elements or chaise longue, armchair and a sunbed with wheels.

Le tipologie di seduta si compongono di divani in due profondità e di elementi componibili, dai terminali alle chaise longue, alla poltrona e al lettino con ruote.

Ray Outdoor Natural
Antonio Citterio - 2017

After its success indoors, the Ray seating system designed by Antonio Citterio now include two new outdoor versions, namely the “Natural” and “Fabric” collections of seats which stand out for their new interlacings and materials.

Dopo il successo in ambito indoor, il sistema di sedute Ray di Antonio Citterio si veste per l'outdoor con due famiglie di sedute, “Natural” e “Fabric” che si distinguono per differenti intrecci e materiali.

Ray Outdoor Natural features an interlacing rope pattern reminiscent of Manila hemp, in perfect harmony with nature, and is created with textilene, making it perfect for outdoor use.

La famiglia Ray Outdoor Natural è caratterizzata da un intreccio a “corda” che si rifà all'abaca naturale, in perfetta armonia con la natura, ed utilizza textilene perfettamente adatto agli ambienti esterni.

Ray Outdoor Natural
Antonio Citterio - 2017

Ray Outdoor Natural is available with an extruded aluminium feet or teakwood base. The “Natural” collection consists of sofas available in two depths as well as modular elements such as terminal elements, chaise longue and armchair.

Ray Outdoor Natural è disponibile sia con piedini in estruso d'alluminio che nella versione con basamento in teak. Le tipologie di seduta si compongono di divani in due profondità e di elementi componibili, dai terminali alle chaise longue, e poltrona.

Ribes
Antonio Citterio - 2019

Ribes is a modular seating system designed by Antonio Citterio with a focus on versatility, customisation, colour and research on materials. Sofas, central and end elements, chaises longues and ottomans all come in a huge variety of shapes and sizes that lend themselves to being arranged in an outdoor space according to personal taste thanks to the exceptional versatility of the modular components and the availability of a vast rage of covers and finishes.

Ribes è un sistema di sedute componibili disegnato da Antonio Citterio, che mette al centro del progetto i temi della flessibilità, della personalizzazione, del colore e della ricerca sui materiali. Divani, elementi centrali e terminali, chaise longue e pouf, proposti in numerose tipologie e dimensioni, consentono di interpretare lo spazio outdoor in maniera molto personale grazie all'estrema flessibilità compositiva e alla possibilità di scegliere tra numerosissimi rivestimenti e finiture.

The starting point is a futon base with flexible glass-fibre slats resting on an aluminium frame to which two types of arm or back rest can be attached as desired: one with a polypropylene fibre interlacing, the other with a roller cushion.

Il punto di partenza è una base “futon” con doghe flessibili in fibra di vetro, appoggiate su una struttura in alluminio, sulla quale fissare liberamente braccioli e schienali previsti in due tipologie: a telaio con intreccio in fibra di polipropilene oppure a rullo.

Ribes

Antonio Citterio - 2019

The seating system is enriched with seat cushions intended as comfortable mattresses to stretch out on and several shapes of back- and armrest cushion, all containing a new filling giving Ribes a particularly lived-in and soft look.

Colour comes into play in the painted frames in shades of anthracite, sage and clay. These same tones are then picked up in the back and arm supports combining the colours sage and clay with a natural-coloured interlacing and anthracite to one in a matching shade, and the same for the brackets of the roller sections.

Il sistema di sedute si arricchisce di cuscini sedile pensati come comodi materassi dove rilassarsi e varie tipologie di cuscini schienale e bracciolo, tutti realizzati con una nuova imbottitura che dona a Ribes un aspetto vissuto particolarmente morbido.

Il tema del colore viene introdotto dalle strutture verniciate nelle tonalità antracite, salvia e argilla.

Queste nuance sono riprese dagli schienali e braccioli a telaio, che abbinano il salvia e l'argilla ad un intreccio naturale e l'antracite ad un intreccio tono su tono ed ai supporti delle versioni a rullo.

Because it is so versatile, Ribes can also be reconfigured over time by adding new elements as well as altering the functional use of existing ones. By substituting, adding or varying the position of the back and armrests, a sommier can turn into a vis-à-vis sofa, a sofa become an island and a corner seating plan transform into a comfortable bed. Ribes means transformation and is especially suited to those areas that are neither in-nor outside: verandas, shady patios, under a loggia or on a covered terrace allowing a fluid approach to the open spaces in the home.

Grazie alla flessibilità del sistema, Ribes può essere modificato nel tempo aggiungendo nuovi elementi, ma anche cambiando la funzione d'uso di quello esistenti. Sostituendo, aggiungendo o modificando la posizione di schienali e braccioli, un sommier può diventare un vis-à-vis, un divano può diventare un'isola, un angolare può diventare un comodo letto. Una natura trasformabile quella di Ribes, che si trova particolarmente a suo agio negli spazi di passaggio tra interno ed esterno, nelle verande o all'ombra di un patio, sotto un loggiato o un terrazzo coperto, per vivere con fluidità la casa e gli spazi aperti.

Ribes
Antonio Citterio - 2019

The Ribes sofa has several strengths including total disassembly, the possibility of storing the product for winter time, modularity and multiple configurations.

Il divano Ribes ha diversi punti di forza tra cui il totale disassemblaggio, la possibilità di essere stoccato per l'inverno, la componibilità e le molteplici configurazioni.

Ribes

Antonio Citterio - 2019

The textile choice is also extensive and colourful with designs that have been inspired by traditional fabrics collected during numerous trips to South America, reinterpreted and redesigned using very clear colour schemes that still leave a wide choice of different combinations allowing maximum customisation. The seat, back and arm cushions can be covered as desired in wide or narrow-striped, dotted or singlecolour material, all in various shades that coordinate with each other. There is also a choice of trim colours in natural, blue and red tones.

Anche la proposta tessile è ricca e colorata, con fantasie che si ispirano a tessuti tradizionali raccolti nel corso di numerosi viaggi in Sudamerica, reinterpretati e ridisegnati secondo schemi cromatici ben precisi, che lasciano tuttavia grande libertà di scelta negli abbinamenti così da offrire innumerevoli possibilità di personalizzazione. I cuscini sedile, schienale e bracciolo possono essere vestiti a piacere con tessuti a righe larghe, righe strette, puntinati e uniti, tutti in varie tonalità tra loro coordinabili. A scelta anche il colore dei profili, previsti nei toni naturale, blu e rosso.

Springtime

Jean-Marie Massaud - 2008

The Springtime complements are available in three different sizes all with a rounded shape and are made of water-repellent material. The products are designed by Jean-Marie Massaud as furnishing elements of an outdoor area that conceptually dialogues between nature and interior spaces.

Realizzati in materiale idrorepellente, i complementi Springtime sono disponibili in tre diverse dimensioni e forme, seppur tutte arrotondate. Sono pensati da Jean-Marie Massaud come elementi di arredo di un'area esterna che dialoga concettualmente tra natura e spazi interni della casa.

Tabour Outdoor

Nipa Doshi and Jonathan Levien - 2018

After their success indoors, the Tabour ottomans now include new versions for use outdoors. These large, elongated, oval or square ottomans are multifunctional furnishings that can be used to create open-air conversation islands or to extend sofas and armchairs. The central, oversized “button”, white, tortora or anthracite painted serves as a tray.

Dopo il successo in ambito indoor, i pouf Tabour ampliano le loro funzioni d’usonel contesto outdoor. I grandi pouf di forma ovale allungata e quadrata, sono complementi polifunzionali che possono comporre arcipelaghi di conversazione all’aperto o diventare la naturale prosecuzione di divani e poltrone. Il “bottone” oversize centrale verniciato bianco, tortora o antracite ha la funzione di vassoio.

Titikaka
Naoto Fukasawa - 2009

The waters of Lake Titikaka dictate the shape (and name) of the bench by Fukasawa. This stretch of water lies between Bolivia and Perù, a lake 204 km long and 65 km wide that occupies around 8562 km². This very beautiful place caught the designer's attention, and he tried to capture the movement of the waves to “move” the bench into a new, wavy shape. Titikaka revolutionises the concept of a bench. The traditional typology of the outdoor bench is revamped with contemporary language. It's an impressive piece that resembles a sculpture. Made of teakwood slats that cover the structure to the ground on both front and back, positioned horizontally on the aluminium structure in an original wave-like arrangement to create curves that are both pleasant and ergonomically functional.

Le acque del lago Titikaka dettano la forma (e il nome) della panca firmata Fukasawa. Tra Bolivia e Perù, il bacino di 204 km di lunghezza per 65 di larghezza occupa un'area di 8.562 km². Il luogo di grande suggestione ha colpito la fantasia del designer, che ha cercato di catturare il movimento delle onde per “muovere” la panca dall'inedito andamento ondulatorio. Titikaka rivoluziona il concetto di panchina. Ripropone la tradizionale tipologia della panca per esterni con linguaggio contemporaneo e si impone per la sua presenza scultorea. È realizzata in listelli di teak che scendono a terra su entrambi i fronti e si distribuiscono intorno alla struttura in alluminio con un originale andamento ondulatorio creando curve insieme plastiche e funzionali all'ergonomia della seduta.

Tobi-Ishi Outdoor

Edward Barber and Jay Osgerby - 2017

After the debut in the home collection, Edward Barber and Jay Osgerby design Tobi-Ishi Outdoor, the outdoor version of the iconic round dining table and of the small table clearly inspired by Zen. The design duo are great enthusiasts of Japanese art and culture, and the name and inspiration come from the smooth stones “tobi-ishi” used as ornaments in traditional Zen gardens. The overhang of the table and the vertical trapezoidal bases set at right angles generate an essential sculptural figure that appears to change shape depending on the point of observation. Exclusively made of cement, Tobi-Ishi Outdoor comes in two colour variants, grey and anthracite.

Dopo il debutto nella collezione casa, Edward Barber e Jay Osgerby propongono Tobi-Ishi Outdoor, la versione da esterno dell'iconico tavolo da pranzo rotondo e del tavolino con esplicite ispirazioni zen. I due designer sono grandi estimatori dell'arte e della cultura giapponese ed il nome e l'ispirazione è un riferimento alle pietre levigate “tobi-ishi” usate con funzione ornamentale nei tradizionali giardini zen. Lo sbalzo del piano e le basi trapezoidali verticali poste ortogonalmente tra loro generano una figura scultorea ed essenziale, che varia costantemente la propria immagine secondo il punto di osservazione. Unica la finitura del tavolo e del tavolino, realizzati in cemento in due diverse varianti di colore, grigio ed antracite.

Tramae
unPIZZO - 2020

unPIZZO, a design studio and textile handicrafts laboratory specialized in interlacing for furnishing, continues its research on the revival of ancient craft techniques with Tramae, a brand new ottoman for B&B Italia. Available in three dimensions, this small object full of character stands out for its hexagonal shape, which is rounded until the edges are no longer visible. The surface shows a singular dynamic mix of materials and colors that come to life through an exclusive weave that reinterprets the tradition of wicker basket making in a contemporary key. At the end of its lifespan, Tramae can be dismantled completely so that each component can be separated and disposed of in the best way for each material.

unPIZZO, studio di progettazione e artigianato tessile specializzato nell'intreccio per l'arredamento, prosegue la sua ricerca sul recupero di antiche tecniche artigianali con Tramae, un nuovissimo pouf per B&B Italia. Realizzato in tre dimensioni, questo piccolo oggetto pieno di carattere si contraddistingue per la forma esagonale che si arrotonda fino a perdere gli spigoli. La superficie presenta un singolare dinamismo di materiali e colori che prendono vita grazie ad un intreccio esclusivo che rilegge in chiave contemporanea la tradizione della lavorazione dei cesti in vimini. Tramae è completamente disassemblabile. Alla fine del suo ciclo di vita ogni singolo elemento che lo compone si potrà separare e smaltire seguendo il percorso più adatto a ogni materiale.
