

Rückl

1846

Timeless stories, timeless emotion

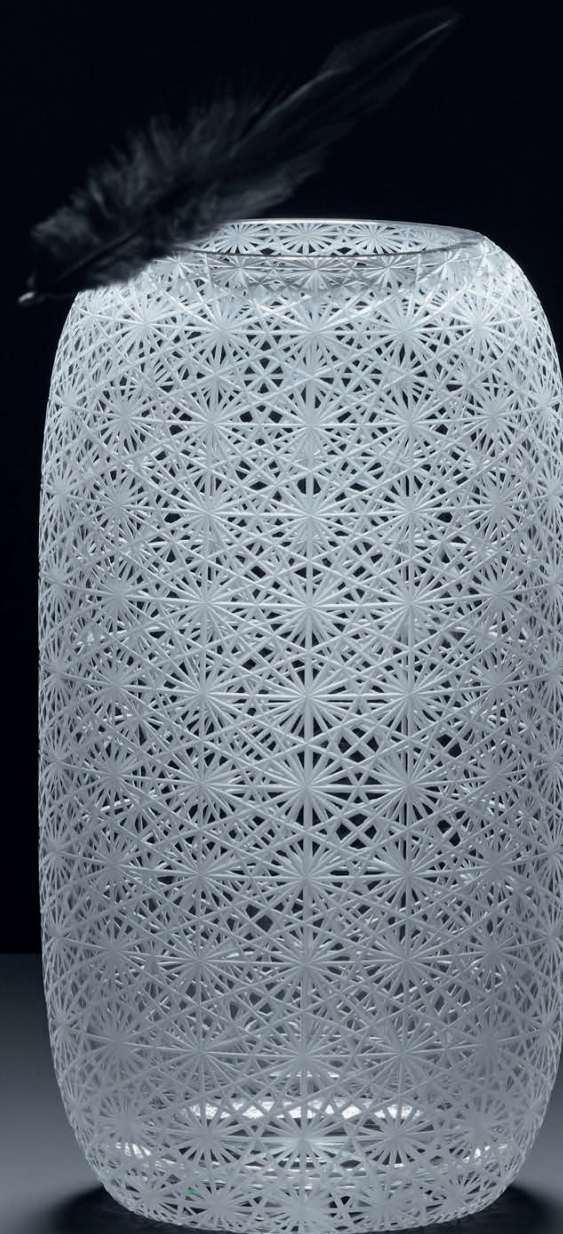

Enjoy the spotlights, the grand theater, as well as the never ending tale of love and pain. Arms full of bouquets for the femme fatale, the best whiskey to accompany Hamletian polemics. Design full of profound words, grand gestures and sensitive confessions, cut into the most beautiful Czech crystal with both mastery and graceful craft. Rückl is here with a new collection.

Rony Plesl

Odette

Powerful stories of good, evil, love and jealousy resound in the rustle of silky swan feathers. The delicacy of lace and the rhythm of graceful ballet steps reflect in the precise cut of a collection that is the ultimate testimony to the incredible skill of Czech glassmakers and cutters.

Design Rony Plesl

Pink

Hues as soft as morning clouds and crystal-clear as frost paints on window glass.
Unique color and cut define our way, the direction we took.
Pink is a Rückl signature.

Design Rony Plesl

ABC

Romantic initials carved into a tree, the icing on a gingerbread heart or dedication in a beloved book. Rückl's crystal alphabet builds on this tradition of remembering cherished precious moments. Better yet, we give you a brilliant tool to express yourself in a whole new crystal language.

Play, combine colors and letters and elegantly compose what you mean to say. Say it with Rückl.

Design Rony Plesl

Amadeus

Tones of Don Giovanni weave their way through murky streets. They emerge from the windows of an opulent palace that hosts a lavish masquerade. Bon viveur masks and wigs whirl to the rhythm of this genius composer.

Design Rony Plesl

Metamorphosis

Metamorphosis as a transformation of one form into another.

Metamorphosis as a recrystallization of quartz.

Metamorphosis that discovers an identity within an absurd Kafka manuscript.

Design Rony Plesl

Robot

The futuristic symbol of human ingenuity, as well as technologies that live their own lives. A word coined by Karel Čapek, an idea that was well ahead of his time.

Design Rony Plesl

Golem

The earth shakes and in the distance we hear thudding steps.
The air fills with clay-dust and a carmine glow floods the streets
of Prague's Old Town. After many quiet years,
the Golem has set off on a journey to meet his creator.

Design: Rony Plesl

Love

A fateful meeting, the kinship of two souls and undying desire. The purest human emotion reflects in the majesty of clear crystal engraved with a hand-cut declaration. All you need is LOVE.

Design Rony Plesl

Hamlet

Sarcasm, wit and the ingenuity of the Shakespearean legacy, as well as the questions for which we have no answers. As if the gilded Hamlet sought to find the denouement to life's vanity, twists and turns in your hands. Have a seat and enjoy your moments with the Danish Prince.

Design Rony Plesl

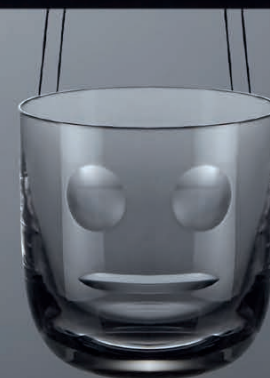

Mr. K.

The calm appearance of Mr. K. conceals the typical Kafkaesque irony, as well as the permanent imprint that Frigo, the sad clown, left in world cinematography. This silent companion faces life seemingly without emotions, yet always with a slight smile and bird's eye view.

Design Rony Plesl

Wilde

The absinth aficionado and Victorian hedonist knew how to enjoy life to the fullest. Yet, the hand-cut snake serves as a reminder of the fatal temptations, the sins of a Bohemian lifestyle that even Oscar Wilde couldn't resist.

Design Lukáš Novák

St. Nicholas

A hundred towers proudly rise below the Prague Castle.
Yet for centuries only one dome defined the Lesser Town.
The astounding Baroque pearl, the queen of Prague's churches,
magnificent and uplifting.

Design Rony Plesl

Storytellers

Czech history tells the great story of inventive spirits, fertile lands and business tenacity. Beer – this iconic golden beverage – gave us culture of friendly meetings and storytelling. Drink elegantly with Rückl.

Design Kristýna Venturová

Krakatit

Clear night sky exploding with bright stars that guide Czech glassmaking from time immemorial. A tribute to people who touch glass to transform it into beauty. An homage to Karel Čapek, a writer who explored the darkness to find light.

The Rückl family glassworks has produced top-quality cut crystal since 1846. Yet the family’s glassmaking tradition has been handed down from generation to generation for over three hundred years. The Nížbor manufacture produces exclusive hand-made works using time-tested glassmaking techniques.

Art Director Rony Plesl retrieved and fine-tuned the best from the Rückl family archives, adding a pastel color-palette, unusual material combinations, and contemporary design. Bohemian crystal bearing the Rückl logo continues the heritage of a brand in which the art of glassmaking surpasses craft. It’s our mission.
