

S.D.R. Ceramiche s.r.l.
info@sdrceramiche.it - www.sdrceramiche.it

Passione, Dedizione, Partecipazione.

La Passione che SDR mette ogni giorno per ottenere prodotti curati nel dettaglio è la nota che contraddistingue i suoi lavori.

SDR è Dedizione, disponibilità verso le esigenze del cliente, attenzione alla qualità, rispetto della tradizione e dell'artigianalità, cura della manualità.

SDR si impegna ogni giorno a soddisfare le richieste del cliente, estetiche ed ergonomiche, dimostrando la più attenta Partecipazione ai bisogni che il mercato esprime.

Passion, Dedication, Participation.

The passion SDR puts everyday to get products with attention to details. It is the note that distinguishes his work.

SDR is dedication, openness to customer needs, attention to quality, respect for tradition and craftsmanship, manual care.

SDR daily works to meet, aesthetic and ergonomic customer demands, showing the most attentive participation to the market needs.

Artigianalità, Fatto a mano.

Quello che emerge dal prodotto SDR è il tratto artigiano che distingue ogni prodotto e ne restituisce prestigio e unicità: cura del dettaglio, ricerca attenta di materiali ed eleganza nell'espressione finale del concept. L'impronta del "fatto a mano" è per SDR elemento di distinzione e garanzia di professionalità.

Craftsmanship, handmade. What emerges from SDR product is the craftsman trait that distinguishes each product and gives prestige and uniqueness: attention to detail, careful selection of materials and elegance in the expression of the final concept. The handmade footprint is for SDR element of distinction and professionalism guarantee.

Memorie

design Luca Papini

La capacità di conservare i ricordi durante il processo produttivo della ceramica. Grazie all'uso di alcune polveri quarzate ed alle sapienti mani di artigiani, nasce la collezione "Memorie", frutto di vari studi e sperimentazioni con l'ausilio di malte.

The ability to retain the memories during the process of ceramic production. Through the use of some quartz dusts and skilled hands of artisans borns the collection "Memorie", result of various studies and experiments using resins.

Per le schede tecniche fare riferimento alla collezione Bull e sezione Lavabi.

Lavabi

Linee morbide che caratterizzano tante forme diverse per soddisfare le esigenze pratiche e caratterizzare la stanza da bagno. Nuovi materiali si aggiungono alla ceramica per creare nuove sensazioni e nuove ambientazioni.

Soft lines that characterize many different shapes to meet the practical requirements and characterize the bathroom. New materials are added to ceramic to create new sensations and new environment.

La collezione FLAT e QUBE sono realizzate seguendo le tendenze più moderne. La ceramica raggiunge spessori mai realizzati prima, grazie al bordo da 5mm che gli conferisce una leggerezza unica.

FLAT and QUBE collections are characterized following the latest trends. Ceramic reaches thicknesses never realized before, thanks to the edge of 5 mm which gives it a unique lightness.

Derivato dalla selezione di materie prime di primissima qualità, componente principale è una carica minerale naturale denominata, tri-idrato di alluminio (ATH), minerale derivato dalla Bauxite, legata da una bassa percentuale di materia “acrilatata” che le conferisce malleabilità e lavorabilità) è un materiale studiato per soddisfare i più alti standard di qualità tecnologia e impatto ambientale, è:

VERSATILE: è un materiale ad alte prestazioni funzionali ed estetiche.

RAFFINATO: la superficie è solida (solid surface) omogenea, non porosa ed estremamente liscia. Oltre a trasmettere senso estetico e di purezza, è facile da pulire, non ingiallisce e il colore non perde tono nel tempo.

PREGIATO: è completamente atossico, inerte, ipoallergenico, ignifugo. E inoltre si può facilmente ripristinare, e riciclare rientrando così tra quei materiali definiti “eco-compatibili”

DINAMICO: oltre alla classica colorazione PANNA, è disponibile nelle nostre colorazioni SABBIA e MAGNESIO, il colore è in tutta pasta e non semplicemente verniciato.

CURA E MANUTENZIONE:

MANUTENZIONE QUOTIDIANA: si consiglia di pulire la superficie con detergente anticalcare liquido (Viacal®, Ajax®, Cif®) utilizzando una spugna morbida.

MANUTENZIONE PROFONDA: in caso di macchie profonde e persistenti, usare una spugna abrasiva, bagnata con sola acqua o detergenti prima specificati, che rimuovendo uno spessore infinitesimo del materiale restituirà alla superficie la sua originale bellezza.

MANUTENZIONE STRAORDINARIA: in presenza di macchie ostinate o lievi graffi e scheggiature, si consiglia una levigatura con carta abrasiva 400-600 fino ad uniformare completamente la superficie, successivamente sciacquare bene con acqua e spugna morbida.

Derived from the selection of highest quality raw materials, the main component is a natural mineral filler called, aluminum tree-hydrate (ATH) derived from bauxite ore, linked by a low percentage of matter “acrylics” that gives malleability and workability it is a material designed to meet the highest standards of quality technology and environmental impact, is:

VERSATILE: it is a material with high functional and aesthetic performance.

REFINED: the surface is solid (solid surface) homogeneous, non-porous and extremely smooth. Besides delivering aesthetic sense and purity, it is easy to clean, over time does not become yellow and does not lose the color tone.

QUALITY: is completely non-toxic, inert, hypoallergenic, flame retardant. And also you can easily recover, recycle and thus being part of those materials defined “environmentally friendly”

DYNAMIC: Besides the classic color “PANNA”, is available in our colors SABBIA and MAGNESIO, the color is full body and not simply painted.

CARE AND MAINTENANCE:

DAILY MAINTENANCE: we recommend cleaning the surface with liquid softener detergent (Viacal®, Ajax®, Cif®) using a soft sponge

DEEP CARE: In case of deep and persistent stains, use a sanding sponge, wet with clean water or before specified detergent which will remove an infinitesimal thickness of the material will return to the surface to its original beauty.

EXTRAORDINARY MAINTENANCE: in case of persistent stains or slight scratches and nicks, it is recommended to sand with 400-600 grit sandpaper until the surface becomes completely even, then rinse well with water and soft sponge.
