## Funkalla by Johanna Oras

A new design collection is ready to revolutionize.

Johanna Oras is an internationally recognized contemporary fine artist from Finland. During her almost 30-year career, she has always found great inspiration from nature. Oras has intricately studied the shapes, character and expression

of the Calla-lily for over two decades. During that time, Oras found the Calla to be a face for humane entities in her art.

Oras and the Calla have once again come together to create something wonderful: a new figure in the design world. In these Calla shapes you can see a fierce combination of passion, humanity and being in the moment. The dialogue between the Callas create interesting tensions that radiate lust for life and

adventure, with a beautiful modern twist.

A Funkalla lamp is an interesting and captivating décor element and a piece of art, that can be combined with any space, and it will always interplay with it's surroundings. This collaboration with Valaisin Grönlund has produced a truly sensational lamp that is ready to light your homes and hearts. Funkalla is a union of nature and humanity. A new classic is here.

Made from order. Check availability from our sales.

We manufacture textile shades and lamps for hotels, restaurants and other public areas. There are hundreds of fabrics to choose from.

We have a wide range of shade colours already in stock but even custom ones can be manufactured in request. Please contact our sales for more information.

Most of our lights can be modified for hotels, restaurants and other public areas and places. If there isn't suitable model in our product portfolio, we can create one from a drawing or from a sketch.

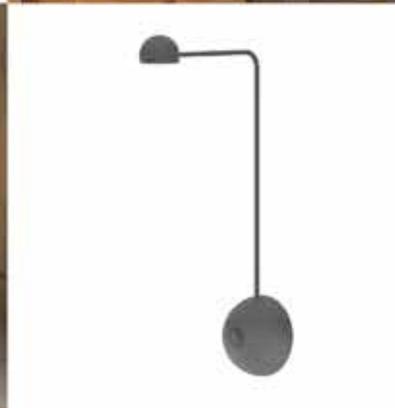

We can help you to design, draw and manufacture new model from idea to ready product.

Valaisin Grönlund manufactures lights for hotels, cruise ships, restaurants and public spaces.

Contact Valaisin Grönlund for minimum order quantity and delivery time.

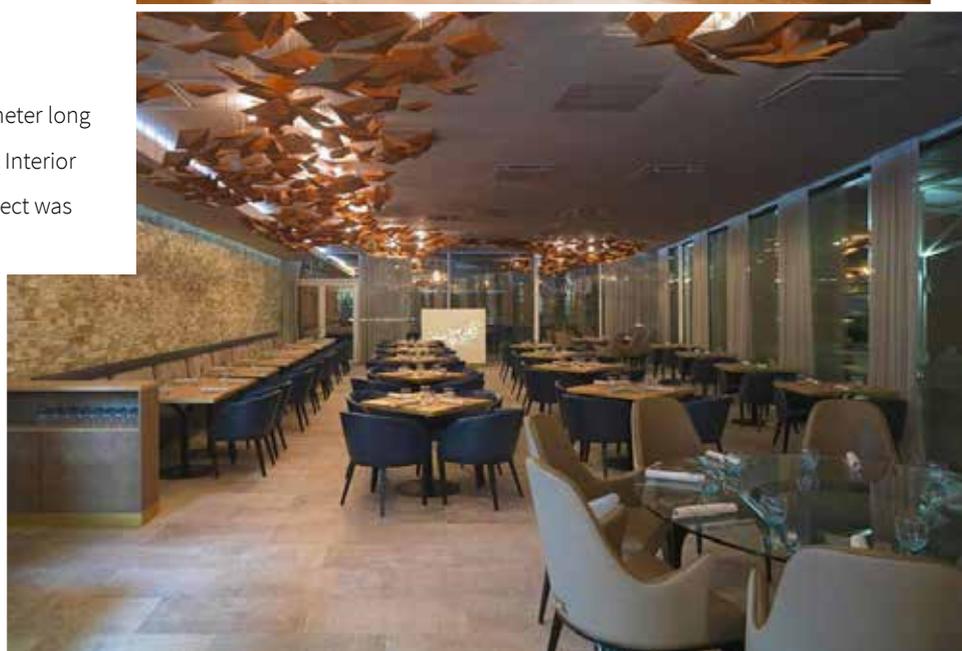

## PROJECT REFERENCES
