Bugünün ofis yaşamı, bugünün tasarımı.
Design for todays offices.

tunaofis

OZAN TIGLIOĞLU

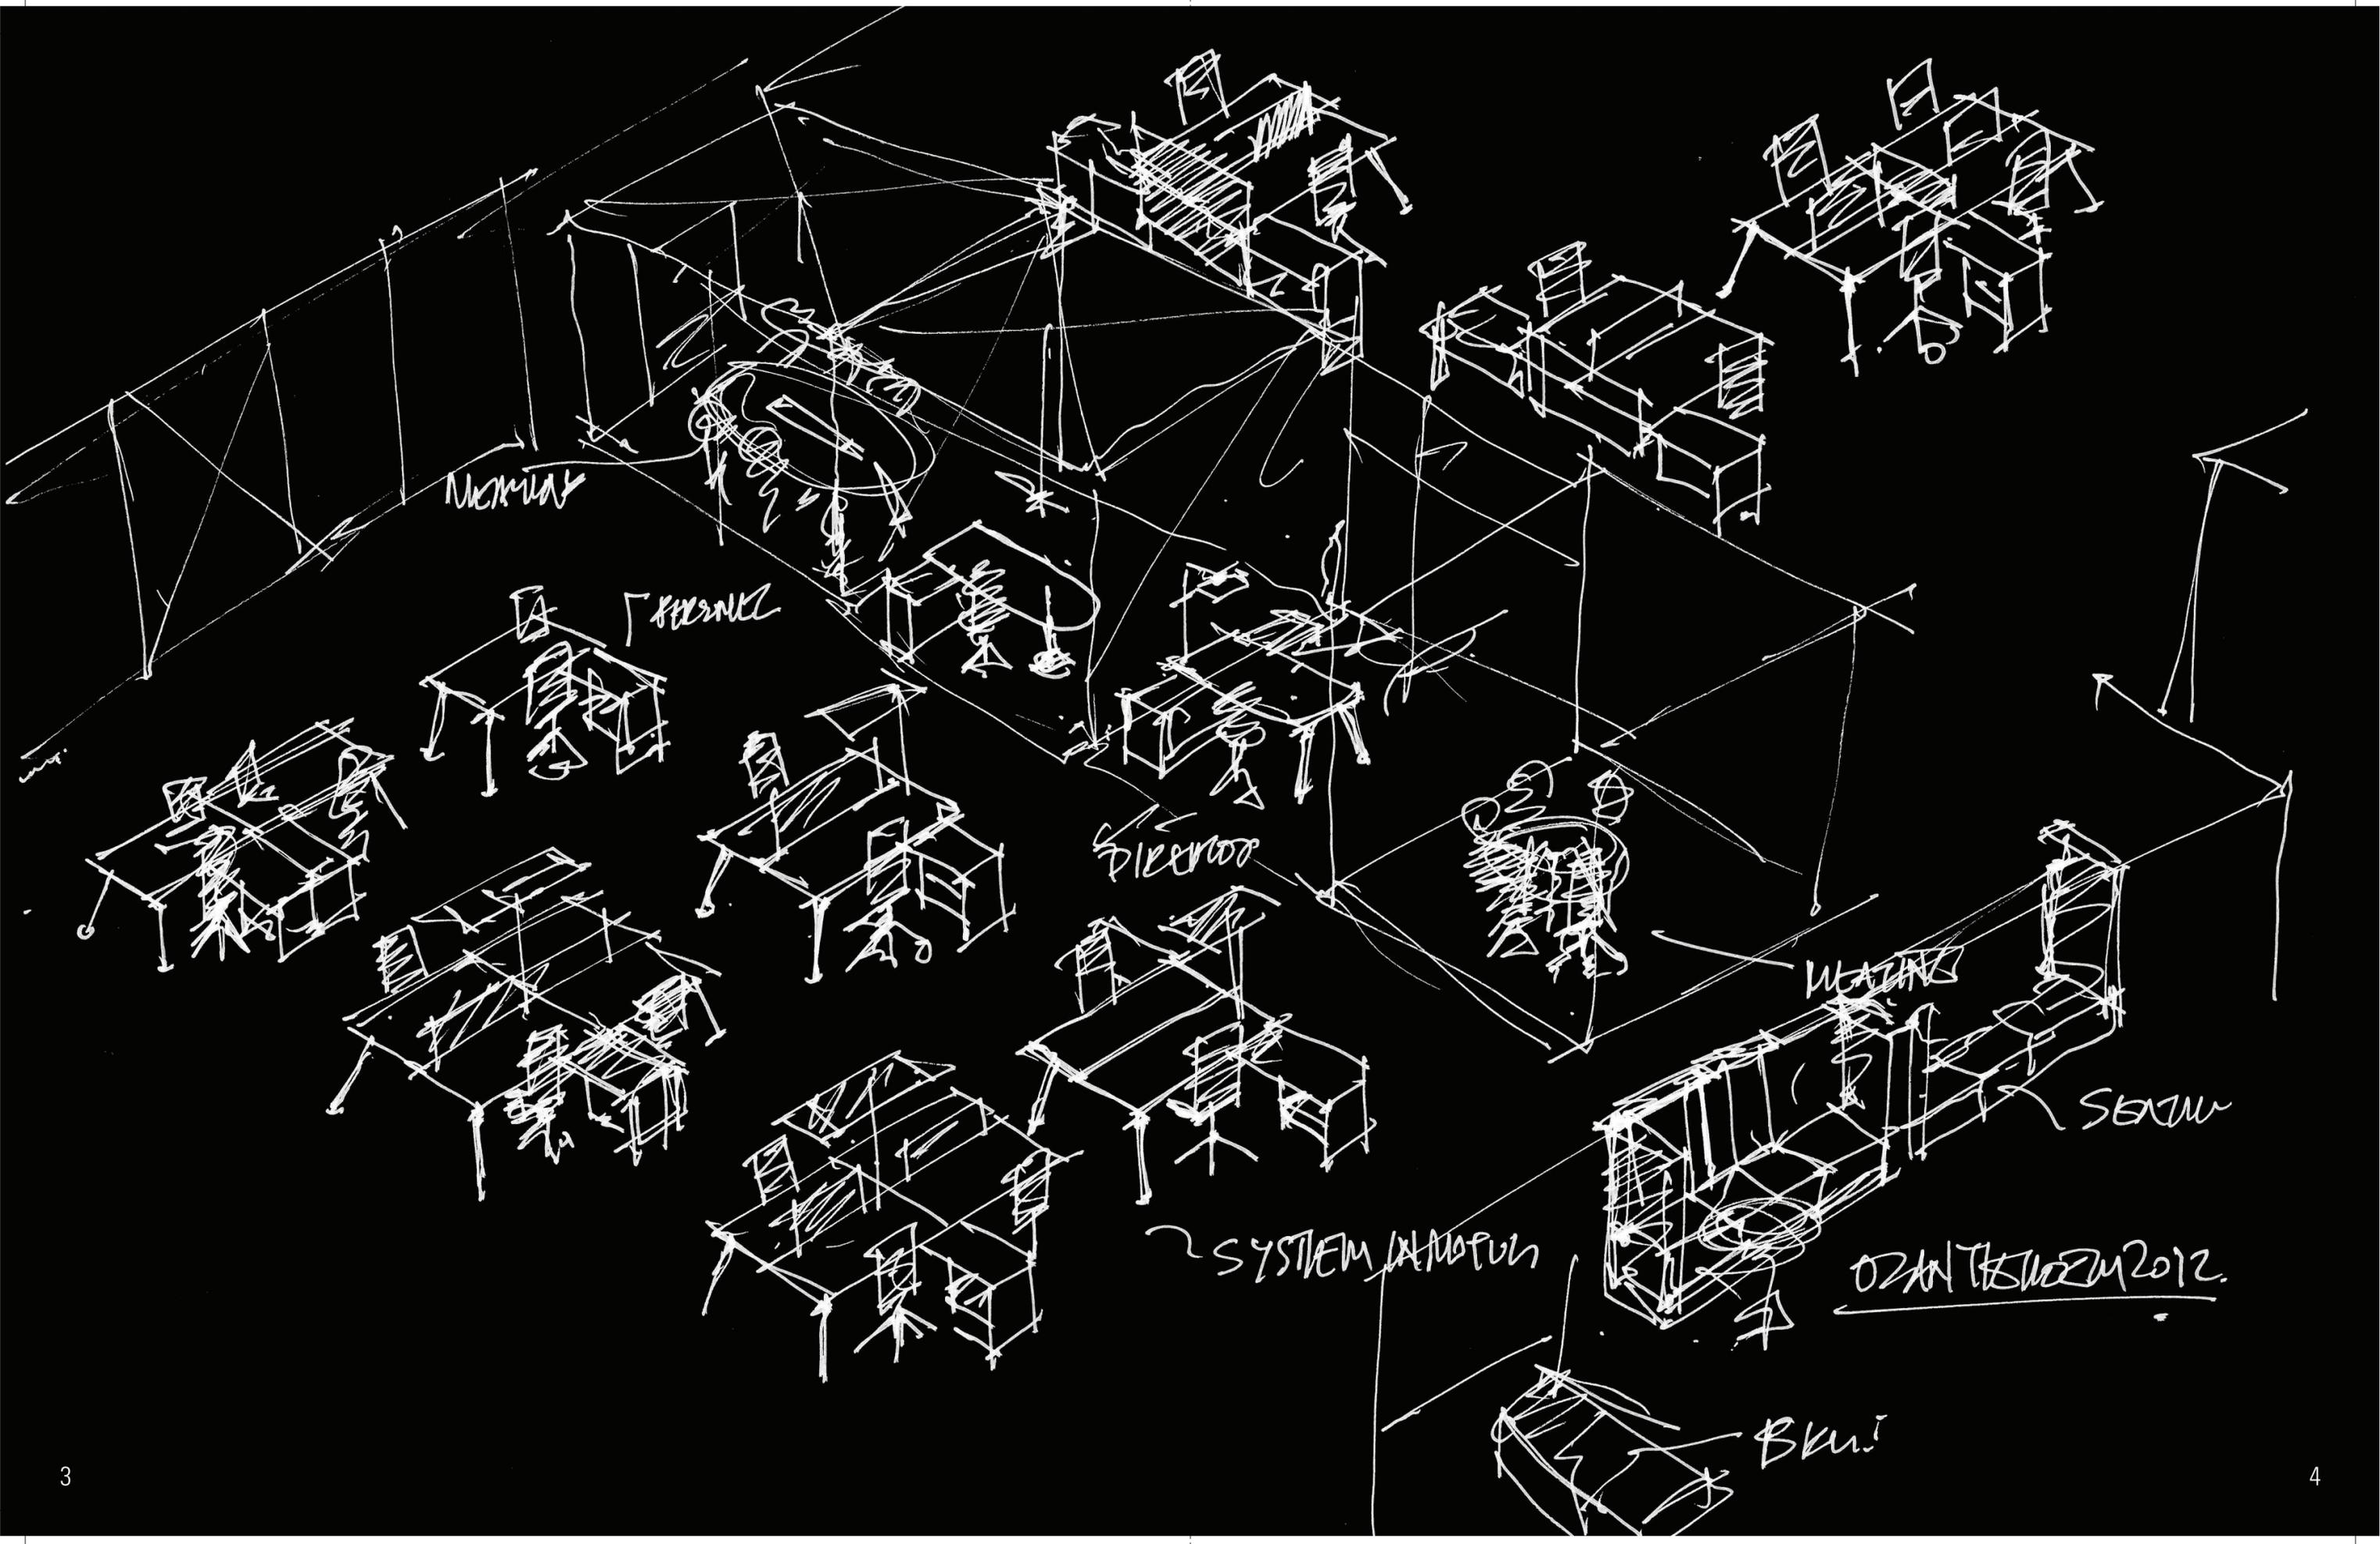

Duygular ve Doğa bize ilham verir. Tasarlamak, özgün bir ifade biçimidir. Tasarımın endüstriyel, ekonomik, pratik, uygulanabilir olması ise onu değerli bir ürün haline getirir. E-Motion, bu değerlere sahip bir iş istasyonu. Esnek çözümler sunan, yenilikçi, dinamik ve paylaşımcı. Yarını öngörüp bugünden tasarlanan ofisler için.

Emotions and nature inspire us. Design is a unique form of expression. Being industrial, economical, practical, and applicable makes design a valuable product. E-Motion is a workstation with these values. Offering flexible solutions, innovative, dynamic and collaborative. For offices designed after having foreseen the future.

Ayak yapısını oluşturan temel tasarım, doğanın bize verdiği eşsiz değişim ışığında standart bir malzemeye yumuşak bir dokunuş getirir. Sert köşeler yerine, esnek bir açı, iyi bir birleşim, ayak formundaki farklı biçim bu ürünü tanımlamamızı sağlar.

The basic design constituting the leg structure brings us a soft touch into a standard material in the unique light of change that nature offers us. We can describe this product as "Instead of sharp corners, a flexible angle, a good combination and a different form of leg".

VEN MİMARLIK
VEN ARCHITECTURE

Farklı renk kullanımı bize; duygulara ve eğlenceye dokunma fırsatı yaratır. Ayrıca ofis yaşamına ve mekanın yapısına paralel bir yaklaşım sergilememizi ve bu temelde ofis planlamasında yepyeni bakış açıları edinmemizi sağlar. E-Motion, çağdaş ofis dinamiklerine uygun tasarlanmış bir sistemdir.

Different colors makes it possible for us to touch emotions and entertainment. In addition, it allows us to exhibit a parallel approach to the spatial structure and obtain fundamentally new perspectives in planning an office. E-Motion is a system designed according to modern office dynamics.

Her bir işyeri için ayrılan alan esnek olduğundan ofis planlamacılar için E-Motion yepyeni bir yaklaşım oluşturmaktadır: "Eş yapılandırma". Bu yaklaşım, hem yüksek hem de düşük yoğunluklu kullanımı kolaylaştırır.

E-Motion creates a new approach for the office planners as each space allocated for each workplace is flexible: "Co-configuration". This approach facilitates the use of the space either in a high density or in a low density furnishing concept.

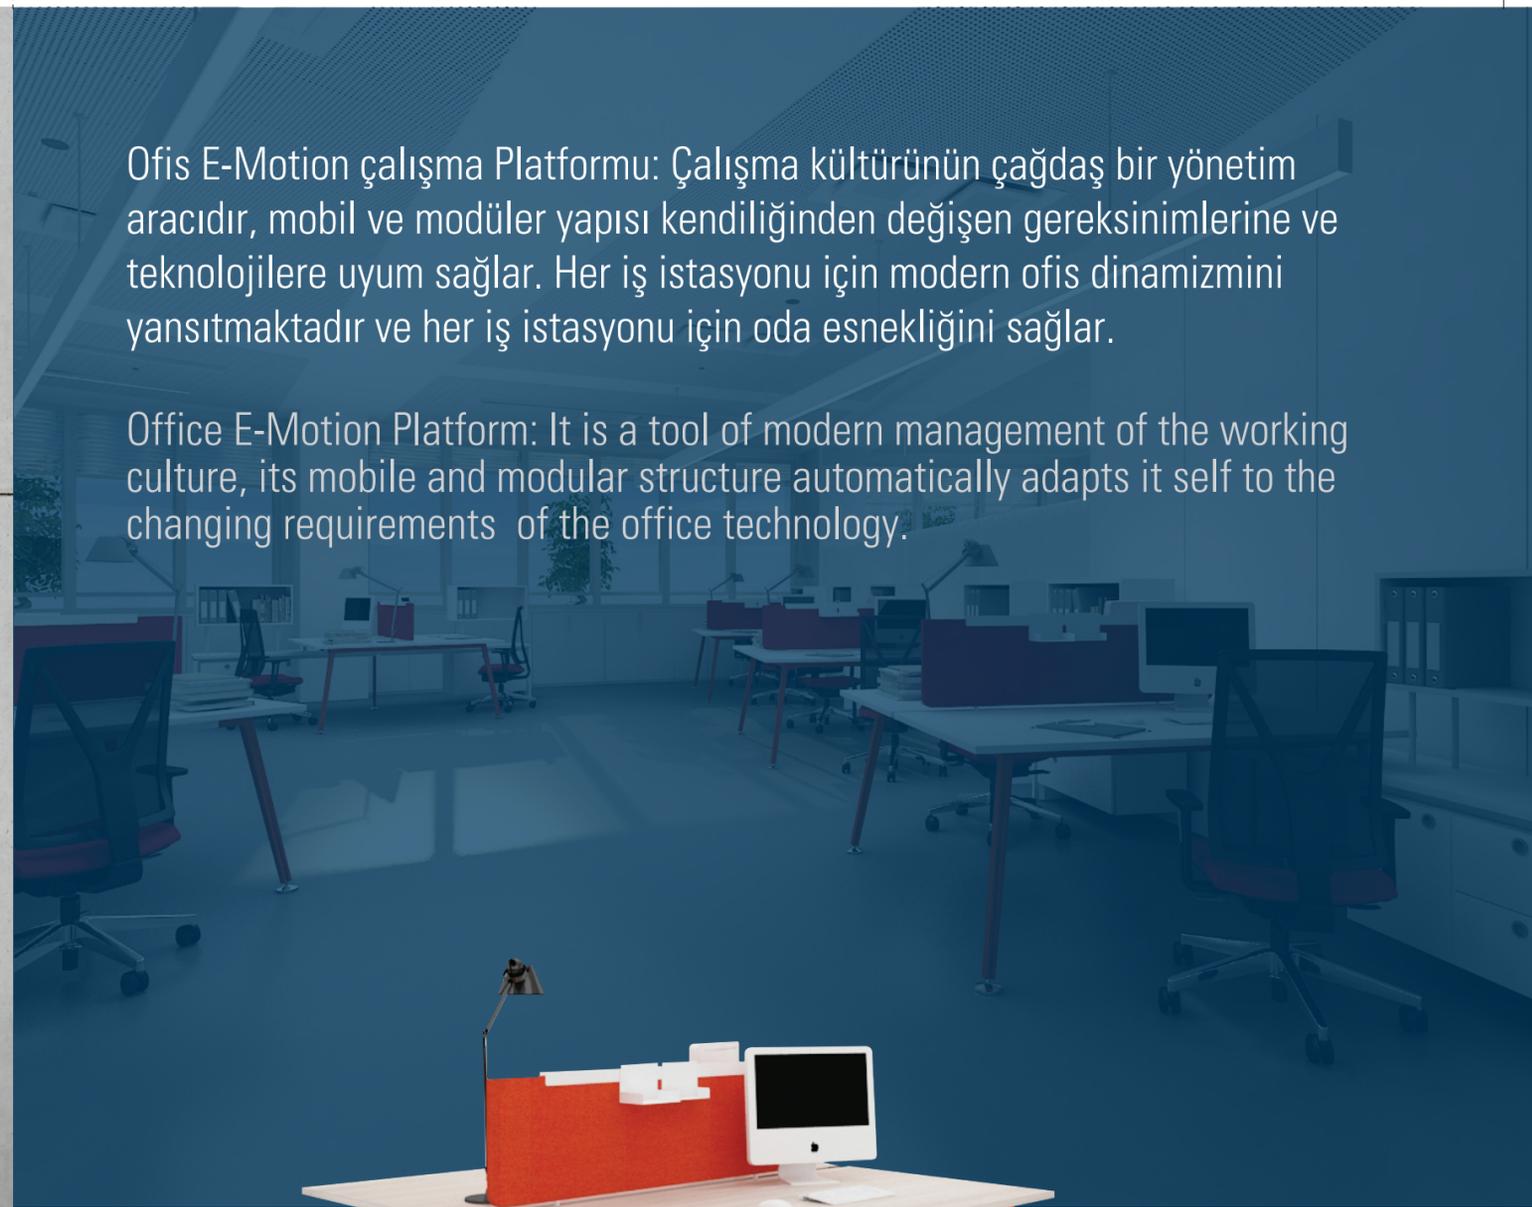

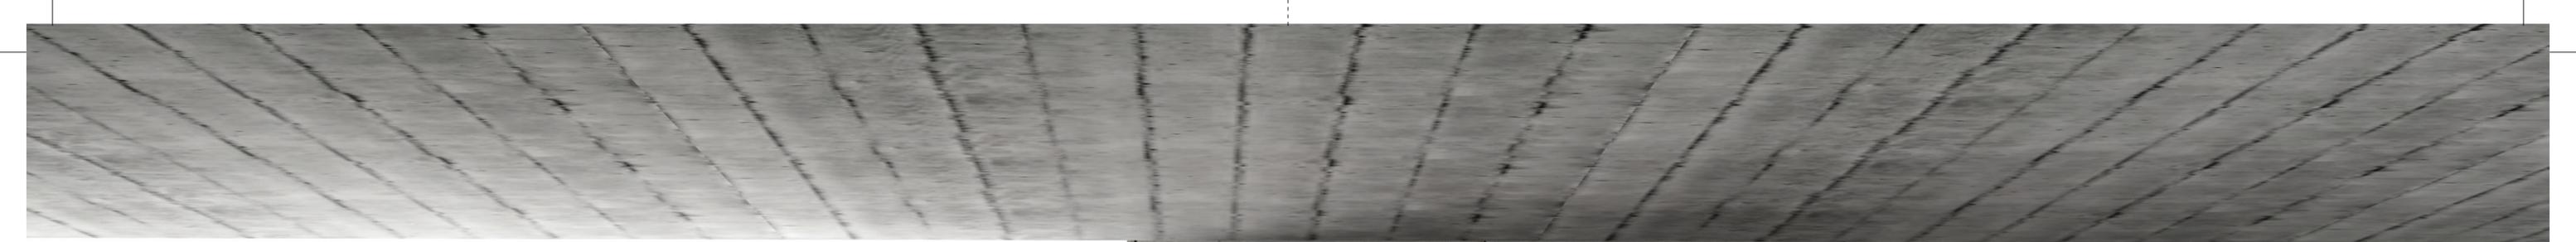

Ofis E-Motion çalışma Platformu: Çalışma kültürünün çağdaş bir yönetim aracıdır, mobil ve modüler yapısı kendiliğinden değişen gereksinimlerine ve teknolojilere uyum sağlar. Her iş istasyonu için modern ofis dinamiklerini yansıtmaktadır ve her iş istasyonu için oda esnekliğini sağlar.

Office E-Motion Platform: It is a tool of modern management of the working culture, its mobile and modular structure automatically adapts it self to the changing requirements of the office technology.

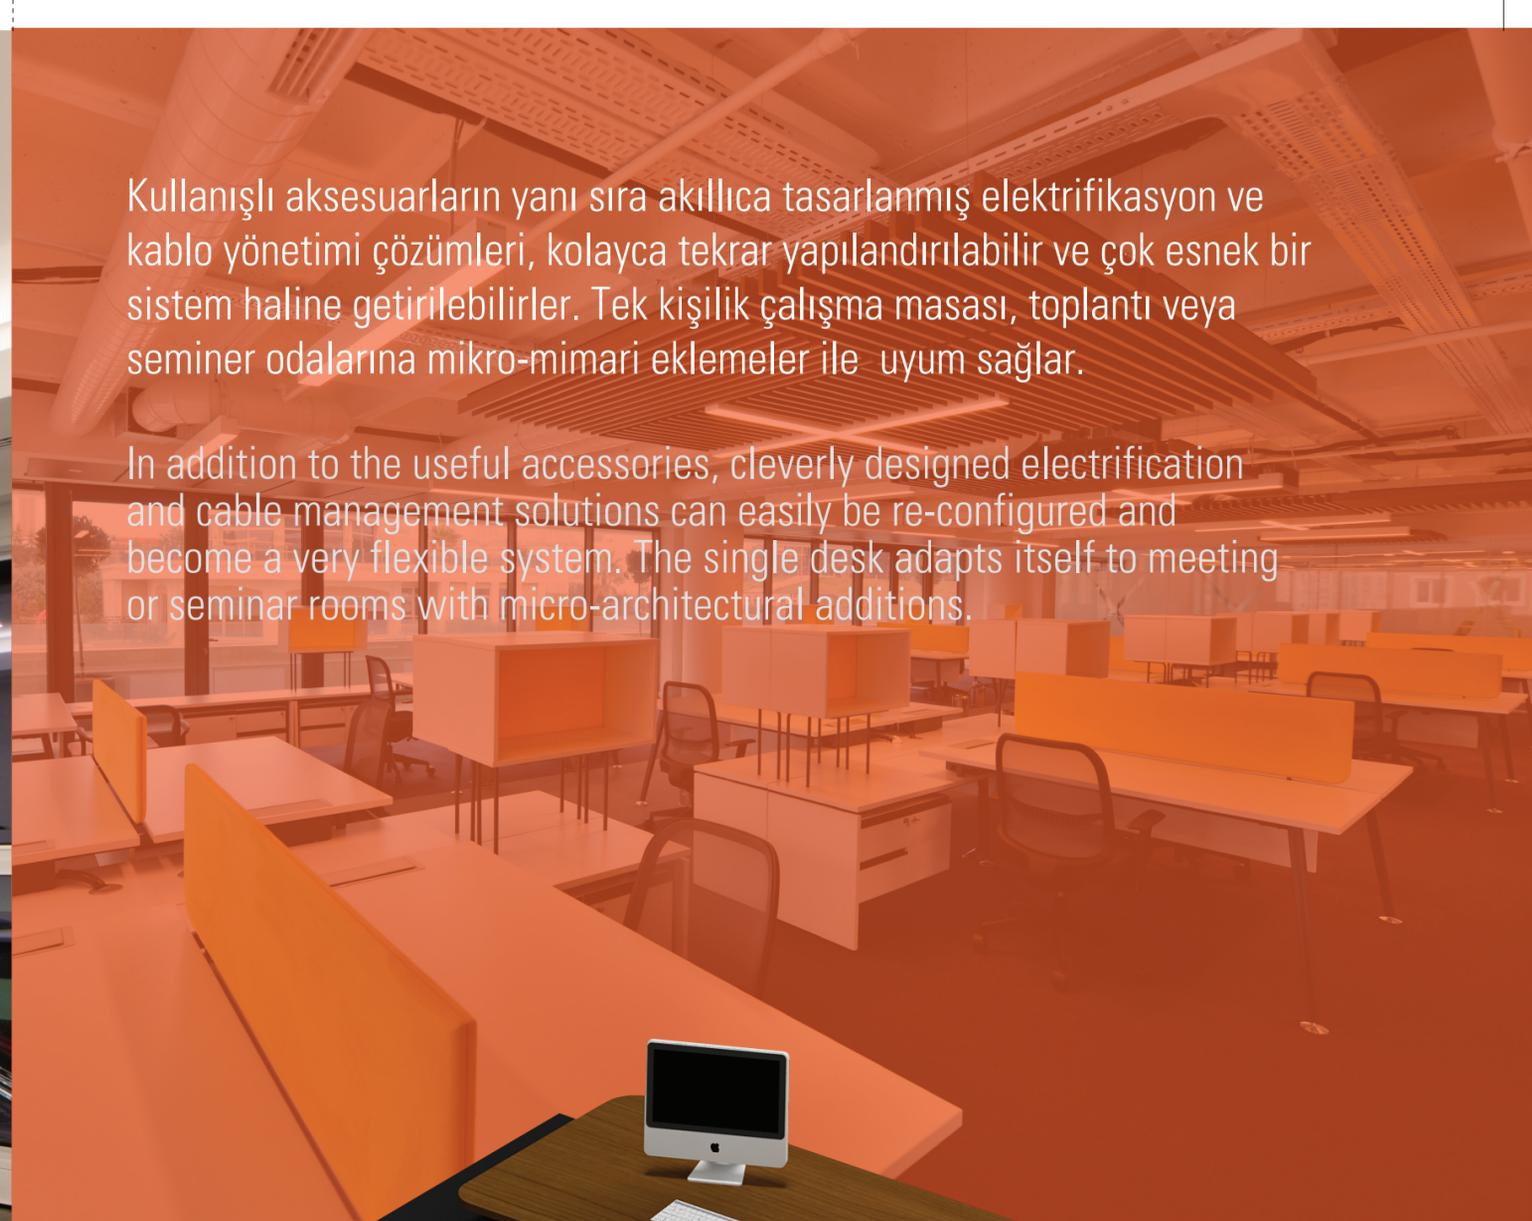

Kullanışlı aksesuarların yanı sıra akıllıca tasarlanmış elektrifikasyon ve kablo yönetimi çözümleri, kolayca tekrar yapılandırılabilir ve çok esnek bir sistem haline getirilebilirler. Tek kişilik çalışma masası, toplantı veya seminer odalarına mikro-mimari eklemeler ile uyum sağlar.

In addition to the useful accessories, cleverly designed electrification and cable management solutions can easily be re-configured and become a very flexible system. The single desk adapts itself to meeting or seminar rooms with micro-architectural additions.

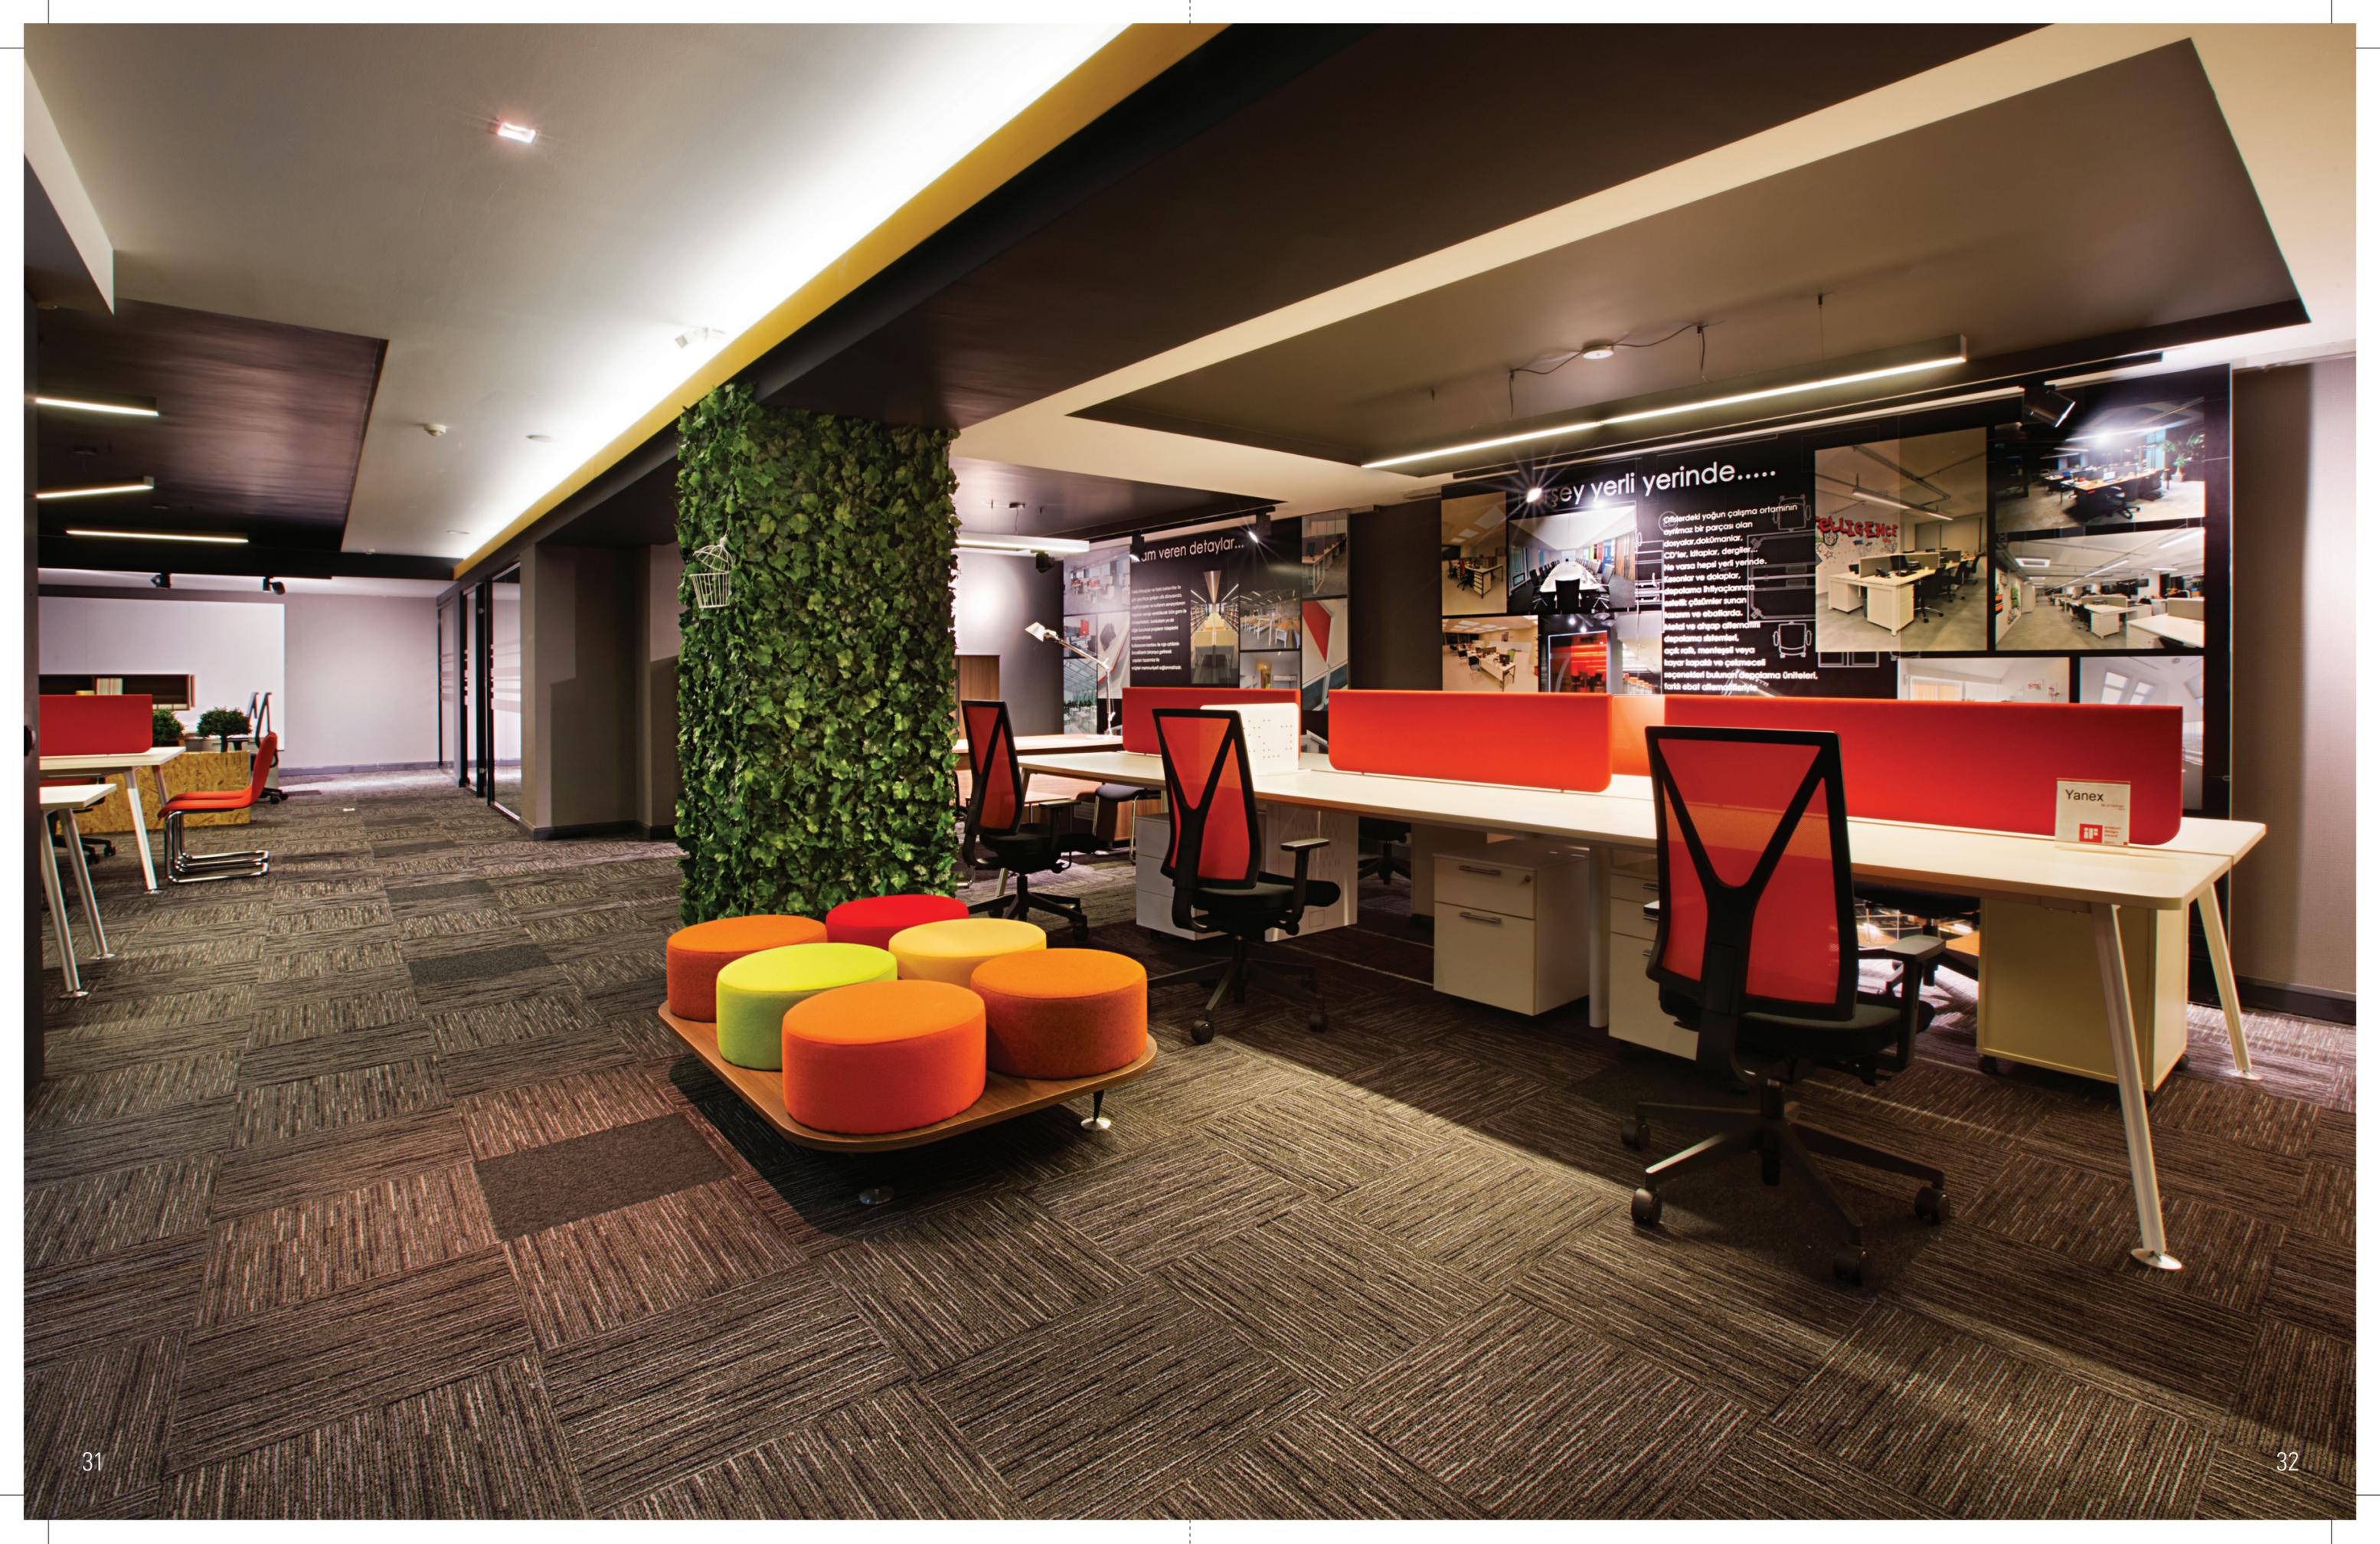

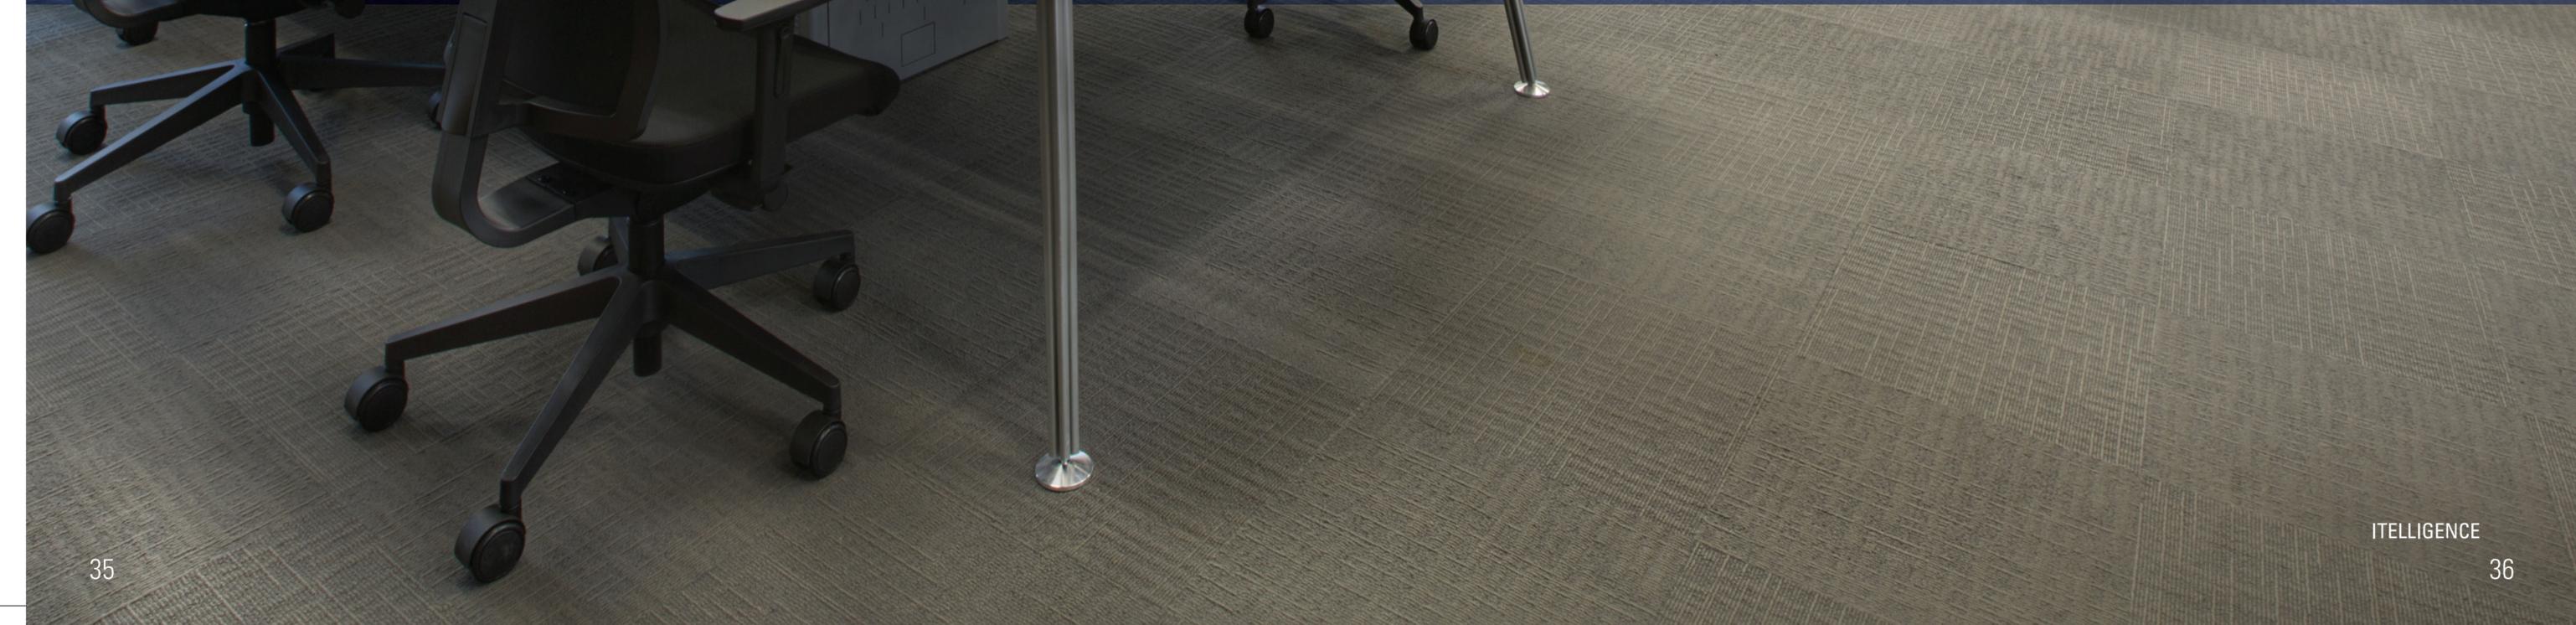

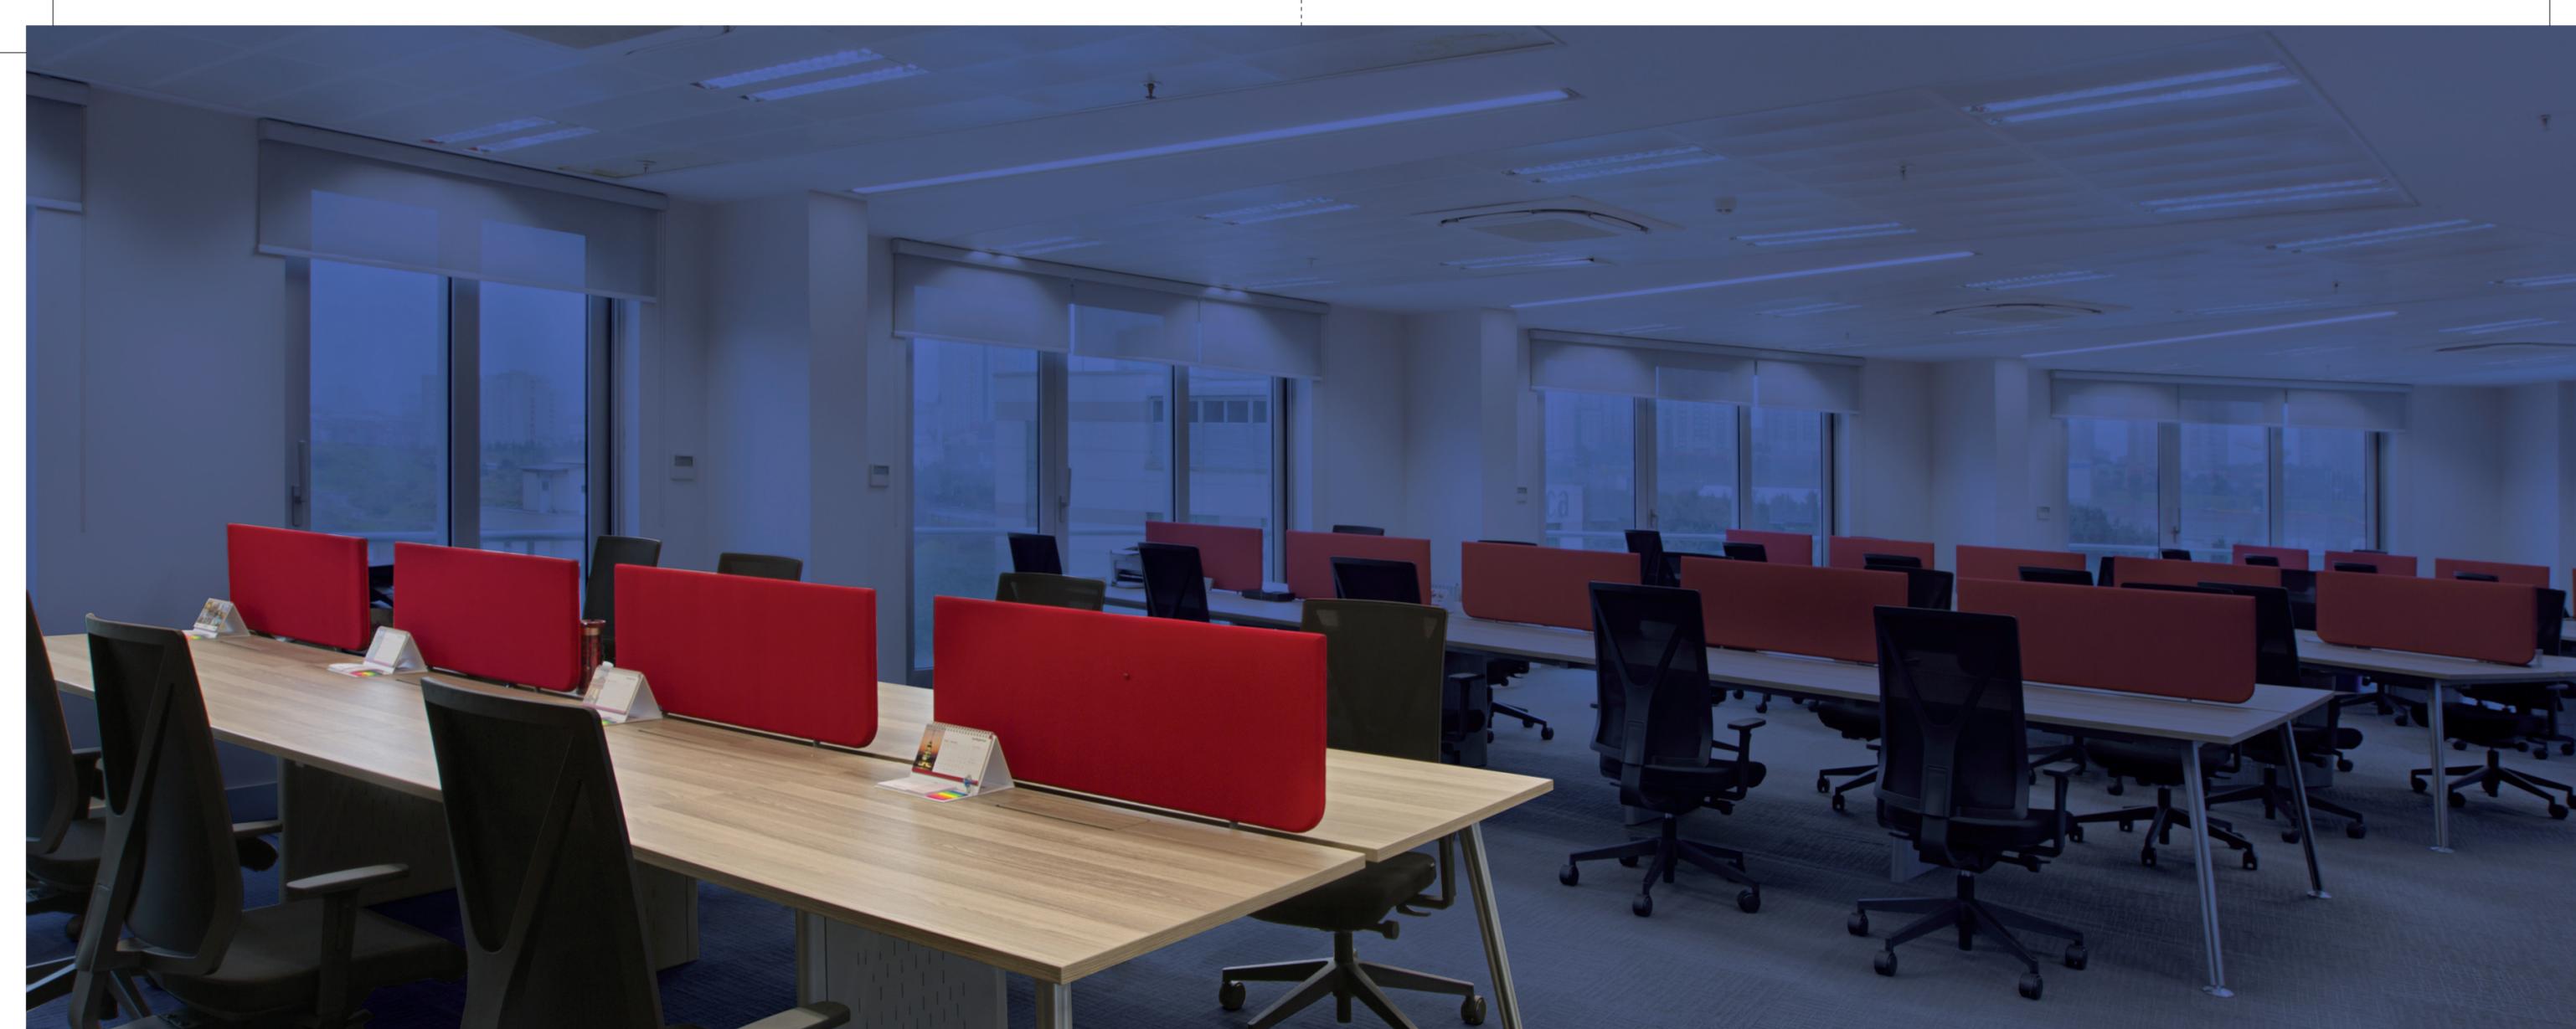

Elektrik estelasyonlarına ve yapının ihtiyaçlarına göre seçenekler proje ile birlikte alternatiflerle değerlendirilir.

According to the electrical installations and structural requirements, the options are evaluated together with the project and the alternatives.
