ITALIAN EMBROIDERED OIL-CLOTHED LINENS FOR THE TABLE

La Gallina Matta is a tabletop and home decoration company. Founded by Claudia Petruzzi Granato in 2004, the Italy-based home textile specialist La Gallina Matta is renowned for its coated (or “oil-clothed”), embroidered linens for table settings and companion fabrics for furnishings. La Gallina Matta offers original placemats, napkins and cocktails to enhance residential and commercial interiors. Practical, elegant, easy to clean, 100% made in Italy.

Produced to the highest standards from exceptional base fabrics, the firm’s tablecloths, runners, placemats, napkins, coasters, and decorative textiles dazzle for many reasons, not the least of which is their ideal balance of form and function. As Petruzzi Granato explains: “Our oil-clothed linens offer a decorative magic, adding color, pattern, shine, and ease to the tabletop.”

La Gallina Matta’s style speaks of cozy informality, although many of its patterns are equally at home in formal settings. The designs suit the intent in that both are understated enough to coordinate with a wide range of tableware from informal stoneware to the most elaborated china. Petruzzi Granato goes back to the future for each extension to the collection, analyzing the ancient arts to influence the creation of the unique, timeless, timely shapes that she models for the characteristics of the modern table. The designs range widely in shape, style, and decorative detail; each incorporates machine-made or bespoke embroidery, cut and hand-finished by the company’s artisans.

La Gallina Matta crafts its collections in its dedicated Rome facility. Over the last decade and a half, Petruzzi Granato has fine-tuned the La Gallina Matta factory into an expert source for linen manufacturing and handmade craftsmanship.

Production occurs in three phases: coating, embroidery with mercerized cotton, and hand cutting. The coating process – both the formula and the technology – is among the factory’s distinctive capabilities. The unique coating makes for stain-and wrinkle-resistance, and as well is care free: Simply wipe up spills with a damp sponge.
