

Atipico

design for living

Il filo del design

Lana tessuta, complementi d'arredo, una tavola apparecchiata, il tocco della materia sotto le dita, un'idea che sfugge ai soliti percorsi interpretativi. Una poltrona che trasmette la sua comodità in modo irresistibile, quasi telepatico, una lampada accesa. Tavoli, tavolini, tondi, ovali, grandi, piccoli. Specchi, candelieri e lanterne come in un sogno rimbalzano tracce di luci e di ombre. E poi vasi, box, contenitori, vassoi, a tenere tutto quello che accompagna la vita. Ogni oggetto è contestualizzato, in modo da durare nel tempo, emozionare: non va semplicemente esposto, perché altrimenti smarrisce la sua poesia. Allora si mette in posa e aspetta, dialoga con gli altri, per coerenza e semplicità: alla base c'è un filo comune che li lega.

Anticonvenzionalità estetica

Atipico è un progetto che mette il design fuori dagli schemi e dentro la vita di tutti i giorni. Esclusivamente made in Italy, nasce per rendere bello ogni aspetto del quotidiano. Nessuna pretesa di staticità, movimento continuo di idee, relazioni, messa in comune di visioni: aspetto decorativo e funzionalità diventano indissolubili. Contaminazioni materiche: cemento, sughero, tessuto, ferro, legno, vetro, danno vita a un'estetica minimale, ricercata.

Scegliamo le persone, non solo le idee

Alla base del progetto Atipico c'è una ricerca continua, un bel dialogo con giovani designer, un ricco scambio di idee, un fare insieme che mette in comune visioni, concetti, pratiche, tecniche. Le suggestioni nascono da percorsi personali, dalla preferenza per questo o quel materiale, dalle invenzioni di un momento. Tutto è fecondo, mai visto, accolto e messo a confronto con la filosofia Atipico e con la sua passione per il design. Nascono così oggetti rivolti a chi è in cerca di qualcosa di nuovo, diversi nella forma e nell'utilità, coerenti nella forza, nella bellezza, protagonisti di uno stile di vita diverso, migliore.

The thread of design

Woven wool, furnishing accessories, a laid table, the feel of the material under your fingers, an idea that represents a break from the usual interpretations. An armchair that transmits its comfort in an irresistible, almost telepathic manner, a lamp that emits its light. Tables, coffee tables, round, oval, large, small. Mirrors, candlesticks and lamps reflect beams of light and shade like in a dream. Then there are vases, boxes, containers and trays to hold life's everyday items. Every object is contextualised to last in time, to stir the emotions: if merely displayed they would only lose their poetry. And so they pose and wait, dialogue with the others, a study in consistency and simplicity: underneath there is a common thread that unites them.

Unconventional aesthetics

Atipico is a project that breaks the mould of design and makes it part of everyday life. Strictly 'made in Italy', it seeks to make every aspect of our daily lives more beautiful. No traces of immobility, a continuous flux of ideas and relations, an amalgam of visions: decorative aspects and functionality form an indissoluble union. Fusions of materials - cement, cork, fabric, iron, glass - result in a minimalist, highly elegant aesthetic.

We choose people, not just ideas

There is continuous research behind the Atipico project, a rewarding dialogue with young designers, a rich exchange of ideas, a joint effort that brings together visions, concepts, practices, techniques. Suggestions stem from personal paths, from a preference for this or that material, from the inventions of a specific moment. Everything is fertile, never seen, embraced and compared with the Atipico philosophy and its passion for design. The result are objects designed for those that are looking for something new, different in form and functionality, consistent in their strength, in their beauty, protagonists of a lifestyle that is different, better.
