BRAND PROFILE

GLOBAL STYLE MEETS FAMILY VALUES

FRATO 

A meticulous fusion of traditional Craftsmanship and forward-thinking sophistication. FRATO's unique interior lifestyle concept is inspired by the world's rich mix of cultures and most magnificent places. Characterised by luxurious levels of quality and comfort, our international aesthetic is sought-out by discerning and distinguished clients across the globe, from Europe and America to Asia.

Established in 2010 in the merchant city of Porto in Portugal, FRATO is proud to be a family-run company in a world full of corporations and conglomerates. In fact, this is such an important and empowering part of who we are that it inspired our insignia.

A unique portmanteau, FRATO is a combination of the names of the founders' two sons and a playful take on the word fraternity. It is a moniker with lineage, one that perfectly encapsulates our business values, and

our desire to nurture integrity, authenticity and honesty in all of our endeavours. It also represents our appreciation for all those that work with us, each valued employee and their kin regarded as an extension of the FRATO family.

From its beginnings as a high-end jewellery house, over time FRATO organically grew into a luxury interiors label, one that applies the same artisanal approach and jeweller's eye for detail to each of its exquisite furniture pieces. The result is a carefully crafted collection of pieces for the home that reimagines heritage shapes and glamorous materials in a way that feels both refreshingly original and eternally elegant.

Fraternity

CELEBRATING VERSATILITY AND INDIVIDUALITY

FRATO's timeless collection encompasses furniture, lighting, upholstery and rug designs, delivering a rarefied sense of luxury that quietly speaks volumes. Named after and inspired by a favourite city from around the globe, each individual piece has in common a refined silhouette, sharp tailoring and an elevated materiality.

Unique

FRATO SIGNATURE

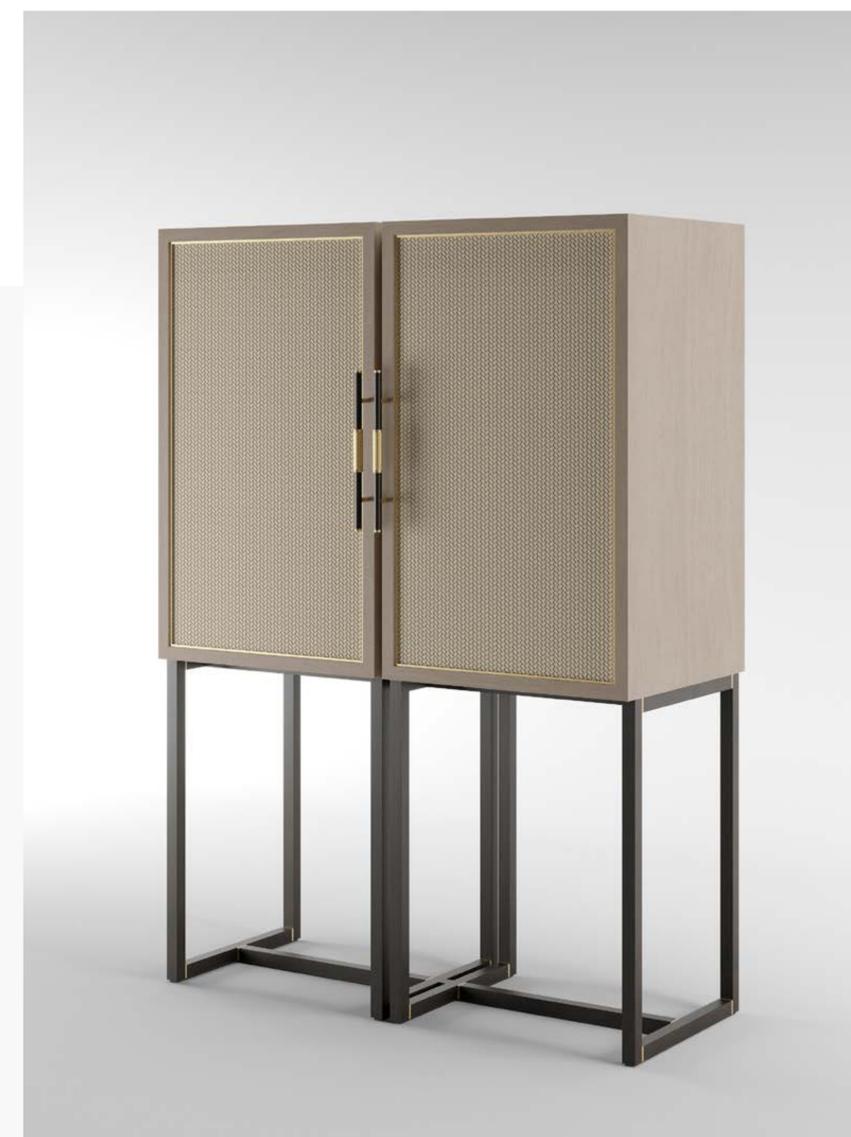

Imagine marble and stone accents expertly offset with metals and exotic wood veneers, while natural fabrics, from silk and velvet to wool and leather, add softness.

All of this packaged in a gentle palette of complementary colours for a seamless finish – that's the FRATO signature.

Seamless

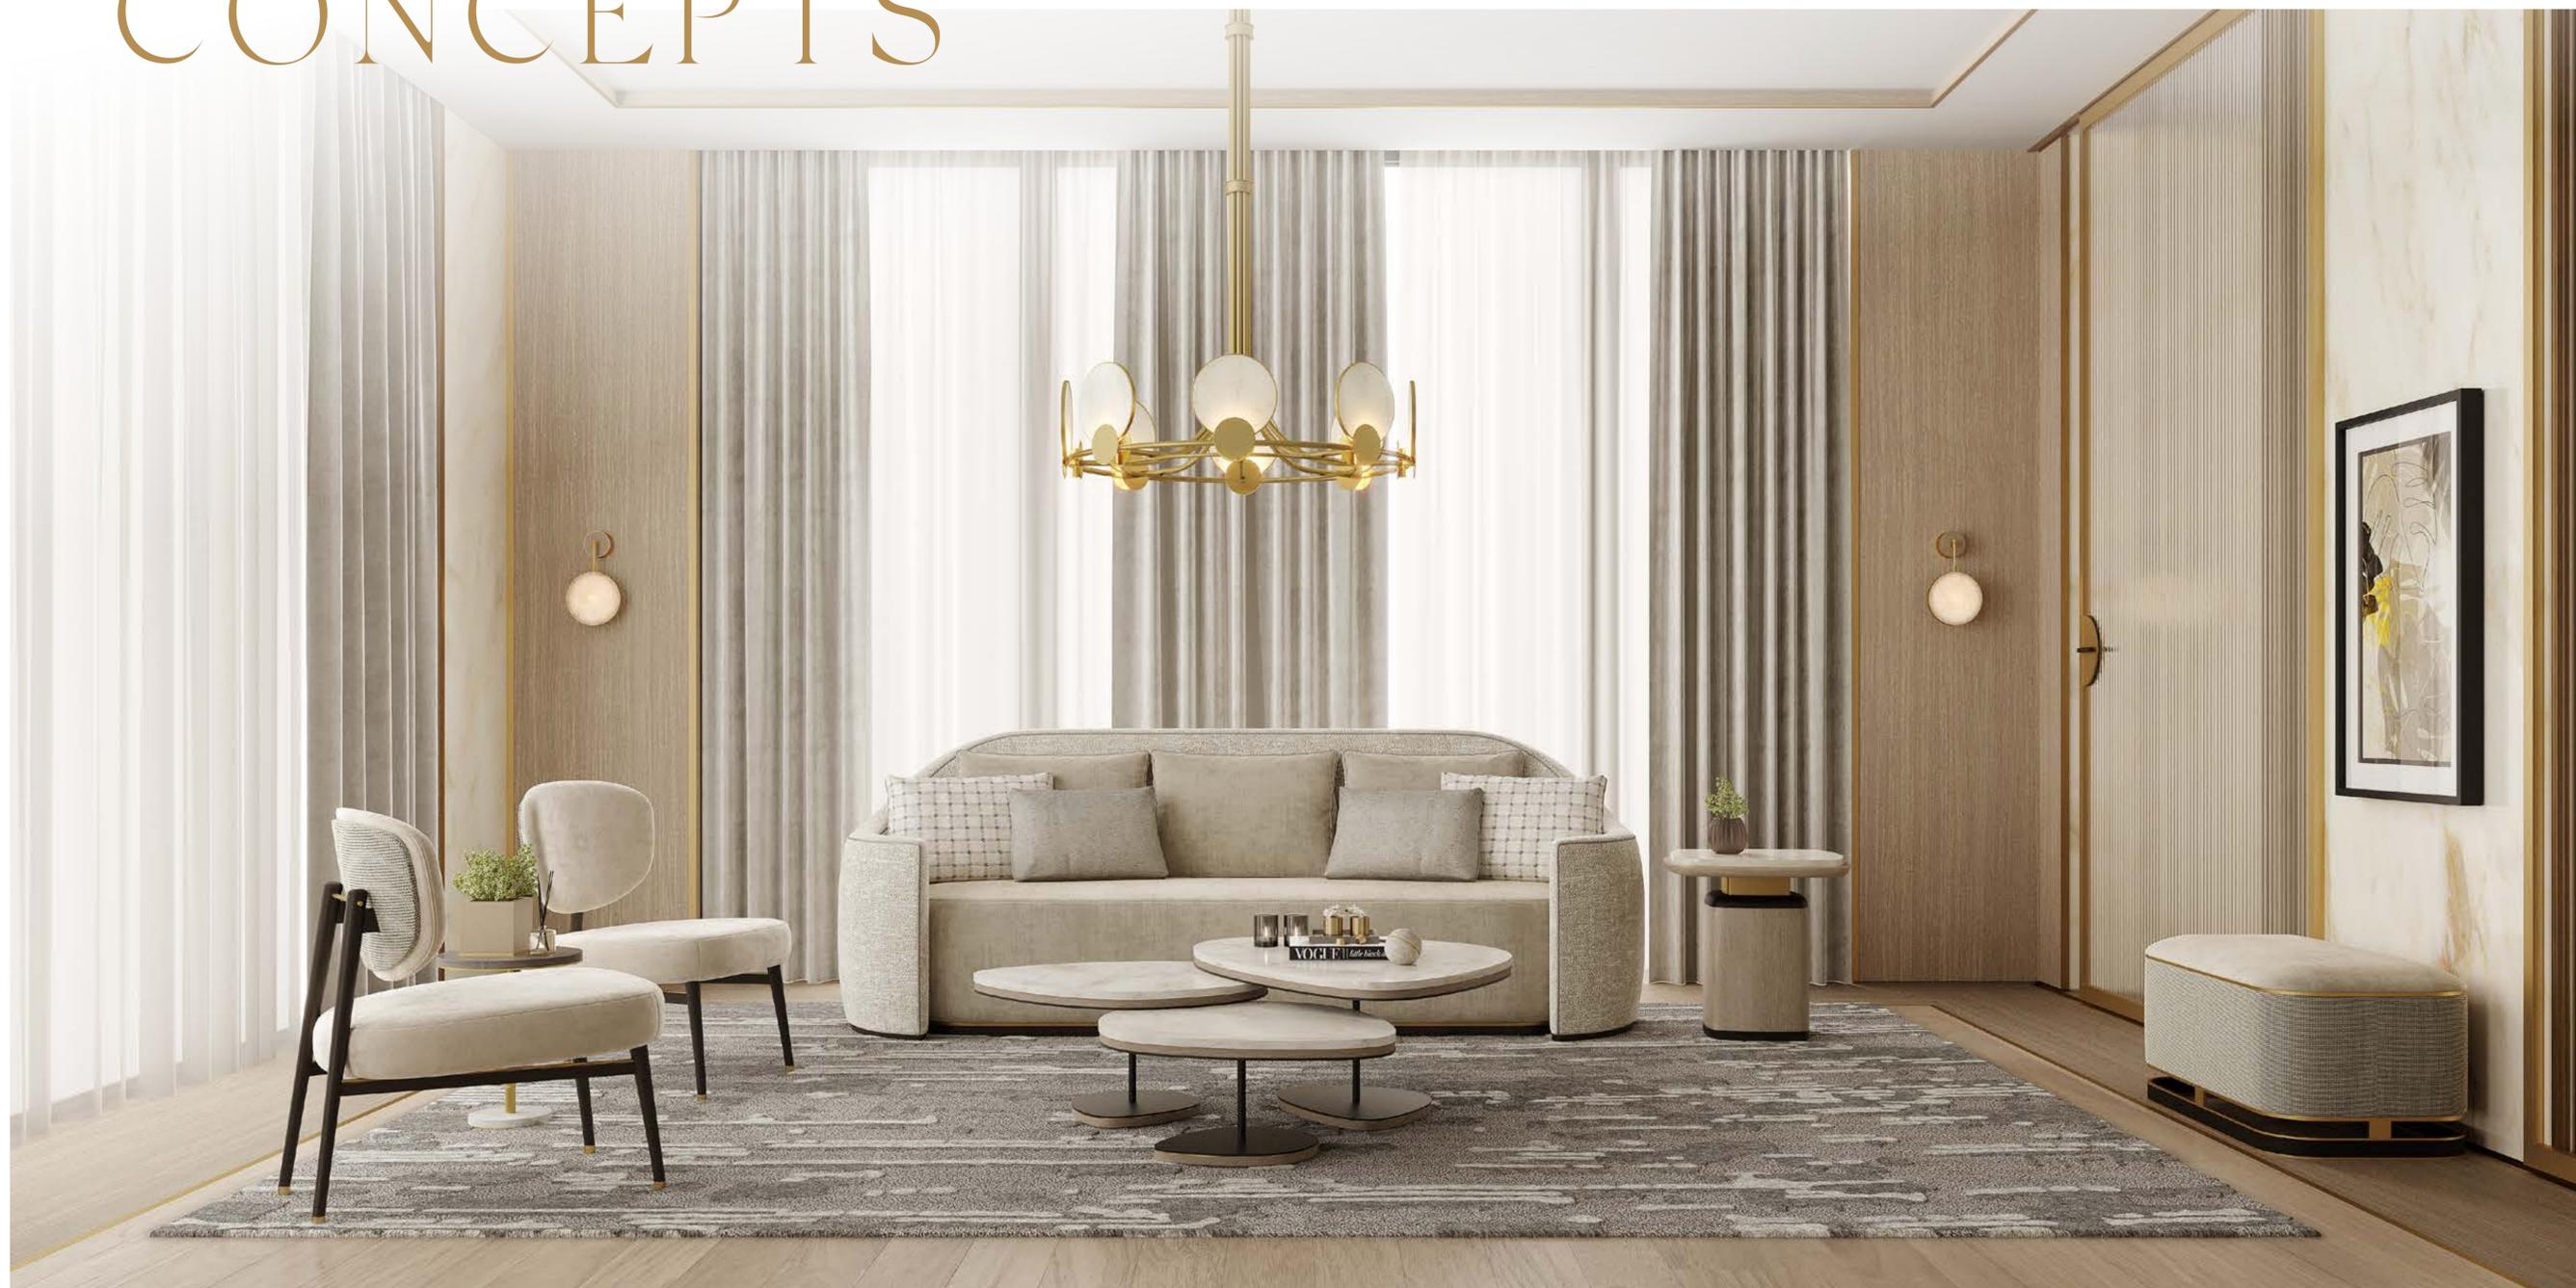

VERSATILITY

Understanding that one size doesn't necessarily fit all, FRATO also allows for considerable personalisation across its catalogue. Each masterpiece can be customised according to our library of different materials and finishes, while proportions can be precisely altered to suit individual spaces and lifestyles. Whether you're looking for something unique or designing an entire scheme, FRATO offers complete creative freedom and an intriguing world of possibility.

This level of versatility is part of our DNA and what truly sets FRATO apart. By combining the knowledge of master craftsmen with ingenious technical innovations at our state-of-the-art manufacturing facilities in Portugal, we retain total control of production, from design to upholstery, carpentry, metalwork and more. This inherent flexibility allows us to meet the demands of projects large and small, while always ensuring the superior finish that is synonymous with the FRATO name.
