

A close-up, high-contrast photograph of a metallic mechanical component, possibly a part of a glass door or window system. The component is cylindrical with a flat top surface featuring two small, circular holes. The lighting creates strong highlights and shadows, emphasizing the metallic texture and the precision of the manufacturing.

Qualità e design da sempre contraddistinguono i prodotti Nuova Oxidal, un'azienda dinamica che negli anni è riuscita a diventare un'importante realtà nel mondo degli accessori per vetro temperato e non solo. L'attenzione prestata alle necessità del mercato ed alle nuove tendenze architettoniche ha infatti contribuito all'inserimento di nuove serie di prodotti.

Nuova Oxidal, grazie alla vasta esperienza maturata negli anni, si pone come **project partner** con il cliente per affiancarlo in tutte le fasi di sviluppo e progettazione dell'idea, fino alla realizzazione di un prodotto personalizzato su specifiche esigenze.

Nuova Oxidal svolge quindi un importante ruolo consulenziale ed è in grado di fornire **assistenza tecnica** sui prodotti, sul tipo vetro, sulle lavorazioni da effettuare e sulla posa in opera per raggiungere **soluzioni all'avanguardia** nella realizzazione di qualsiasi struttura vetrata.

I prodotti garantiscono elevate performance tecniche e alta qualità completamente **Made in Italy**.

Quality and design are the basic principles of Nuova Oxidal's products, a dynamic company that over the years has gained a significant role in the sector of accessories for tempered glass and other fields as well. Close attention to market needs and to new architectural trends have contributed to the creation of new series of products.

Nuova Oxidal, thanks to the wide experience gathered over the years, plays the role of **project partner** with its customers, supporting them at every stage of development and conception of an idea, up to the manufacturing of a customised project, meeting specific requirements.

Nuova Oxidal thus carries out a paramount role as consultant, providing **technical support** on products, types of glass, processes to carry out and implement so as to achieve the **best solutions** for every type of glass structure.

Products guarantee high technical performance and high quality completely **Made in Italy**.

Oxidal ponendosi come **project partner** è in grado di fornire, oltre alla gamma di prodotti standard, **accessori personalizzati** atti a soddisfare le specifiche esigenze architettoniche e di progetto.

Lo staff tecnico, grazie al suo **know-how**, è in grado di seguire il cliente sia nella fase di progettazione generale che nelle fasi di studio e realizzazione di componenti specifici.

Oxidal, acting as a **project partner** is in the position to provide, in addition to the standard range of products, **customized accessories** "tailor made" to meet the specific architectural requirements and the specific needs of the project.

The technical staff, thanks to its **know-how**, can assist the customer both during the general project phase and the general study and realization phases of specific components.
