EXPERIENCE

HAND MADE IN ITALY SINCE 1990

SOFTLIVING

Il trendy quotidiano

Da Felis... un nuovo insieme di collezioni.
Un progetto di gusto altoborghese, elegante,
di personalità forte, di carattere... Ma senza esibizioni.
Interessanti possibilità progettuali per spazi privati
come per grandi soluzioni contract.
Per il design di ambienti living, a misura delle diverse
individualità e del diverso sentire di ognuno.
Per definire gli spazi e lo stile del nostro quotidiano
abitare nel modo più confortevole...
Per dare la giusta atmosfera oltre la dittatura delle mode.

The daily trendy

From Felis... a new set of collections.
An upper-class taste project, elegant,
with strong personality and character...
But without exhibitionism. Interesting design
possibilities for private spaces and large
contract solutions. To design living environments,
tailored to different individuals with different taste.
To define the space and the style of
our daily living in the most comfortable way...
To create the right atmosphere beyond fashion.

Le branché au quotidien

Chez Felis... une nouvelle série de collections.
Un projet au goût bourgeois, élégant, avec
une forte personnalité et du caractère... Mais sans
s'imposer. D'intéressantes possibilités conceptuelles
pour des espaces privés ou pour le contrat.
Pour la conception d'espaces de vie,
adaptés à chaque individualité et aux différentes sensations
de chacun. Pour définir l'espace et le style de notre
vie quotidienne de la façon la plus confortable...
ou la juste atmosphère au-delà du dictat des modes.

Kendal

Un contemporaneo classico. Linee essenziali, sostegni leggeri, funzionale, ma accogliente e morbido.

A contemporary classic.
Clean lines, light supports,
functional, but warm and soft.

Un contemporain classique.
Des lignes minimalistes,
des supports légers,
un style fonctionnel,
mais accueillant et moelleux.

Kendal

Kendal

**Divani diversi,
poltrona e
grandi pouf per
un programma living
ricco e completo.**

Several sofas,
an armchair and
a large ottoman for a
rich and comprehensive
living program.

Des canapés différents,
un fauteuil et de grands
poufs pour une solution
riche et complète.

Kendal

**La pulizia formale e la apparente
semplicità come scelta di
identità e di stile.**

The clean lines and the
apparent simplicity as a
choice of identity and style.

Une netteté formelle
et une apparente
simplicité comme choix
d'identité et de style.

Caratteristiche tecniche

Technical characteristics

Struttura - Realizzata con masselli portanti in legno massiccio di abete in vari spessori. Fianchi e parti strutturali in multistrato di abete da 18 mm, parti di tamponamento in agglomerato di legno di spessore 18mm e 4 mm. Il tutto trattato al naturale in classe E1, pertanto a bassa emissione di formaldeide. Il telaio è completamente rivestito con vellutino 100% poliammire termo accoppiato ad espanso 100% polietere e/o ovatta resinata da 200 gr di 100% poliestere.

Imbottitura - Cuscino seduta in poliuretano espanso flessibile e indeformabile in densità D35 SR rivestito in falda termolegata da 300 gr in poliestere 100%. Cuscino schiena in poliuretano espanso flessibile e indeformabile in densità D18 morbido, rivestito in falda termolegata da 300 gr in 100% poliestere. Tamponi in espanso indeformabile D21,DPK40, bracciolo in D30 indeformabile rivestito in resina da 200 gr in 100% poliestere.

I materiali corrispondono alle normative europee 91/156/etc.

etc. Informazioni ambientali sulla sicurezza: la deperibilità del prodotto, secondo la sua composizione, è praticamente nulla. Le resine non sono contenute nella lista della normativa di classificazione dei rifiuti per materiali soggetti a particolare sorveglianza. Le resine espanso sono esenti da freon e solventi clorurati. Le resine espanso non contengono sostanze che danneggiano l'ozonosfera e non vengono fabbricate con prodotti menzionati nel protocollo di Montreal e Regolamento (CE) n° 3093/94.

Poggiatesta a cilindro e a cuscinetto totalmente rivestiti in tessuto.

Piedini ed accessori - Piedini in metallo, di forme diverse, verniciati con polveri epossidiche e cromati.

Molleggio - Il molleggio è realizzato in nastri da 80 mm tesi meccanicamente, composta da fili di nylon avvolto a spirale.

Caractéristiques techniques

Structure - Made with bearing parts in solid fir wood in various thicknesses. 18mm fir plywood sides and structural parts, 18mm and 4 mm thick particle wood infill parts. All treated naturally in Class E1, thus with low formaldehyde emissions. The frame is completely covered with 100% polyamides velvetean thermo-coupled with 100% polyether foam and/or 100% polyester 200 g. wadding resin.

Padding - Flexible and non-deformable polyurethane foam seat cushion, density D35 SR, coated with 300 gr layer-bonded 100% polyester. Flexible and non-deformable polyurethane foam back cushion, density D35 SR, coated with 300 gr layer-bonded 100% polyester. Non-deformable polyurethane foam pads, D21, DPK40; non-deformable armrest, D30, coated with 200 gr layer-bonded 100% polyester. **The materials meet the European standards 91/156/etc.**

Environmental information on safety: The perishable nature of the product, according to its composition, is practically nil. Resins are not included in the list of standards for the classification of waste materials subject to special surveillance. Resin foams are free from freon and chlorinated solvents. Resin foams do not contain substances that damage the ozone layer and are not manufactured with products mentioned in the Montreal Protocol and (CE) Regulation no. 3093/94.

Cylinder and pad headrest completely coated with fabric.

Feet and accessories - Metal feet of different shapes, epoxy coated and chrome.

Springing - The springing is made of 80 mm mechanically stretched strips, composed of nylon wires wound in a spiral.

Caractéristiques techniques

Structure - Réalisée avec des éléments porteurs en bois massif de sapin de différentes épaisseurs. Panneaux latéraux et éléments structuraux en bois de sapin stratifié de 18 mm, élément de remplissage en agglomérat de bois de 18 mm et 4 mm. Le tout traité au naturel en classe E1, soit à faible émission de formaldéhydes. Le cadre est entièrement recouvert de velours 100% polyamines couplé à chaud avec de la résine expansée 100% polyéther et/ou ouate de 200 g 100% polyester.

Rembourrage - Coussin d'assise en mousse de polyuréthane souple et indéformable densité D35 SR revêtu en couche collée de 300 g 100% polyester. Coussin de dossier en mousse de polyuréthane souple et indéformable densité D18 moelleux, revêtu en couche collée de 300 g 100% polyester. Éléments de remplissages en mousse indéformable D21, DPK40, accoudoir en D30 indéformable revêtu de résine 200 g 100% polyester.

Les matériaux sont conformes aux normes européennes 91/156/etc.

Informations environnementales sur la sécurité: la nature périsable du produit, sur la base de sa composition, est pratiquement nulle. Les résines ne figurent pas dans la liste établie par la norme de classification des déchets de matériaux soumis à une surveillance particulière. Les résines expansées ne contiennent pas de fréon ni de solvants chlorés. Les résines expansées ne contiennent pas de substances nuisibles à la couche d'ozone et ne sont pas fabriquées avec des produits figurant dans le Protocole de Montréal et le Règlement (CE) n° 3093/94.

Cylindre et repose-tête complètement revêtus de tissu.

Pieds et accessoires - Pieds en métal, de différentes formes, peints avec peinture époxy et chromés.

Suspension - La suspension est réalisée avec des bandes de 80 mm tendues mécaniquement, composées de fils de nylon enroulés en spirale.

Proporzioni importanti, seduta profonda, appoggio extralarge, schienale di grandi dimensioni.

Major proportions, deep seat, extralarge support, large backrest.

D'importantes proportions, une assise profonde, un appui extra-large et un dossier de grandes dimensions.

Ajar

Ajar

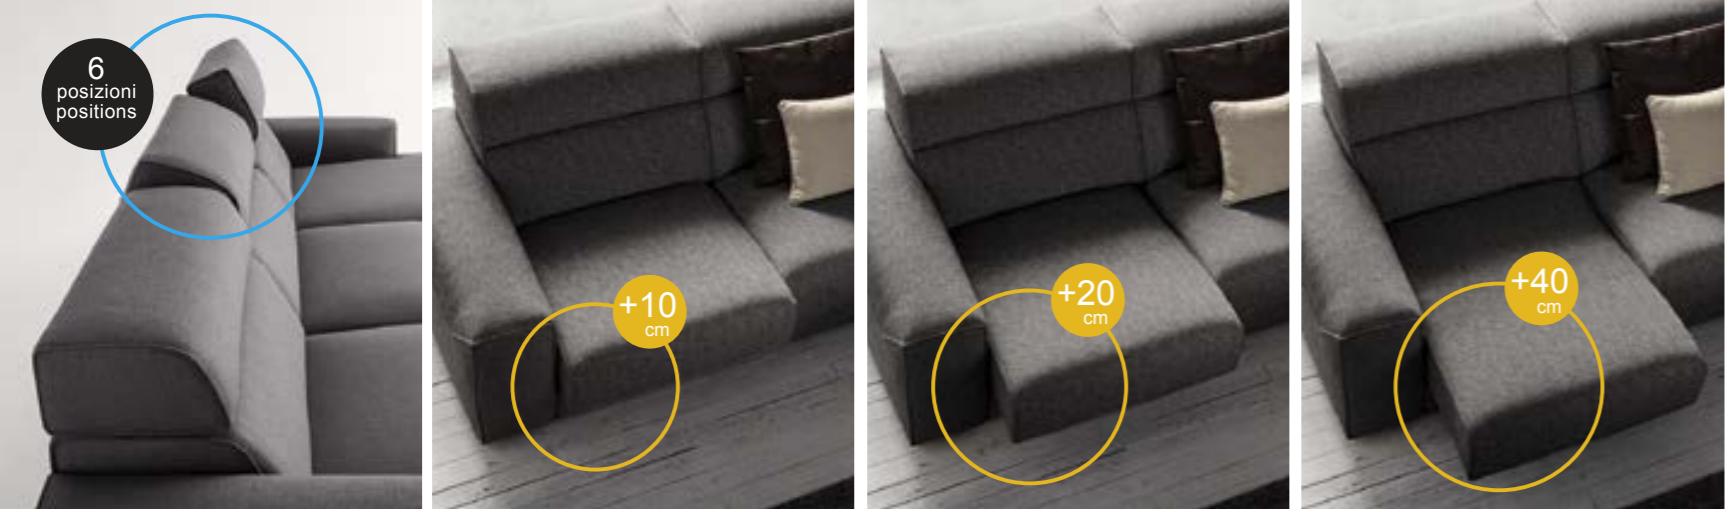

**Total comfort.
Lo schienale può diventare decisamente più alto grazie all'utilizzo del poggiatesta regolabile: consente l'appoggio e il sostegno anche completo di collo e testa per un relax veramente totale.**

Total comfort.
The backrest can be made much higher thanks to the adjustable headrest: it allows complete support of neck and head for total relax.

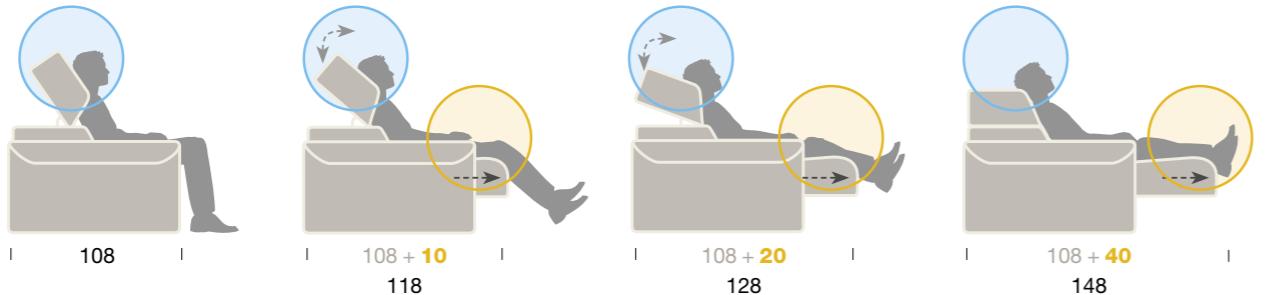

Un confort total.
Le dossier peut être largement relevé grâce à l'utilisation de l'appui-tête réglable : permet également l'appui et le soutien du cou et de la tête pour une détente complète.

Ajar total comfort versione con poggiapiedi e sedute regolabili

- + POSIZIONI
- + SPAZIO
- + RELAX

Per le sedute meccanismi a scivolamento brevettato per allungare le sedute. Con un semplice movimento la seduta avanza in tre diverse posizioni per aumentare la profondità (+ 10/20/40). Facile e confortevole appoggiare le gambe. Per lo schienale più altezza e sostegno grazie al poggiapiedi ergonomico regolabile manualmente in 6 diverse posizioni per un maggiore appoggio. Comfort totale, relax, salute.

Ajar total comfort optional headrest and adjustable chairs. More positions, more space, more RELAX. Patented sliding mechanisms to lengthen the seats. With a simple movement the seat moves forward in three different positions to increase the depth (+ 10/20/40). Stretch your legs easily and comfortably. More height and support for the backrest, thanks to the manually adjustable headrest in 6 different positions for greater support. Total comfort, relaxation, health.

Ajar confort total version avec appui-tête et sièges réglables + positions, + espace, + RELAX Pour les assises, des mécanismes à coulissolement brevetés pour allonger le siège. Avec un simple mouvement, le siège avance dans trois positions différentes pour augmenter la profondeur (+ 10/20/40). Facile et confortable pour allonger les jambes. Une majeure hauteur et un plus grand soutien pour le dossier grâce à l'appui-tête ergonomique réglable manuellement dans 6 positions différentes. Confort total, détente, santé.

Per il rivestimento i doppi bordi in evidenza risultano da una cucitura doppia ribattuta, a bordi pizzicati. Il segno evidente disegna la sezione laterale delle cuscinerie e allarga il lato d'appoggio degli ampi braccioli.

For the cover, the clearly visible double borders result from a double flat fell seam, pinched at the edges. The obvious mark outlines the side of the cushions and widens the support side of the wide armrests.

Concernant le revêtement, les doubles bords mis en évidence sont le résultat d'une double couture rabattue, à bords pincés. Le signe évident dessine la section latérale des coussins et élargit la partie de support des vastes accoudoirs.

Ajar

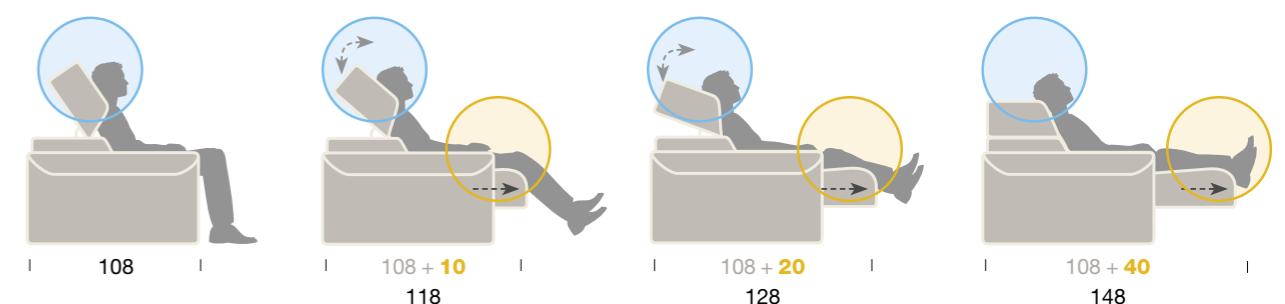

Ajar

Anche la versione 2 posti, contenuta e compatta, è importante, comoda, accogliente... Nella versione con seduta mobile e poggiapiede regolabile per un comfort più "riposante".

Even the 2-seater sofa, contained and compact, is prominent, comfortable and cozy... In the version with movable seat and adjustable headrest, for a more "restful comfort".

La version 2 places, compacte, reste néanmoins importante, confortable et chaleureuse... Dans la version avec siège mobile et appui-tête réglable, pour un plus confort encore plus «reposant».

Caratteristiche tecniche

Struttura - Realizzata con masselli portanti in legno massiccio di abete in vari spessori. Fianchi e parti strutturali in multistrato di abete da 18 mm, parti di tamponamento in agglomerato di legno di spessore 18mm e 4 mm. Il tutto trattato al naturale in classe E1, pertanto a bassa emissione di formaldeide. Il telaio è completamente rivestito con vellutino 100% poliammine termo accoppiato ad espanso 100% polietere e/o ovatta resinato da 200 gr di 100% poliestere.

Imbottitura

Cuscino seduta: doppia densità in poliuretano espanso flessibile 35 softy/40 indeformabile con bombatura in espanso flessibile in D40 indeformabile applicato a telaio in metallo, nella versione con seduta mobile a tre posizioni, e rivestito completamente con vellutino in poliammine 100% accoppiato a resina di poliestere da 200g.

Schiene in poliuretano espanso flessibile e indeformabile in D23HS.

Poggiatesta in poliuretano espanso flessibile e indeformabile, sagomato in D16S più fianchi in D40, rivestito in resina di poliestere da 300 g.

Braccioli in poliuretano espanso flessibile e indeformabile sagomato in D26NY più fianchi interni in D18 più resina di poliestere 100% da 300g.

Informazioni ambientali sulla sicurezza: la pericolosità del prodotto, secondo la sua composizione, è praticamente nulla. Le resine non sono contenute nella lista della normativa di classificazione dei rifiuti per materiali soggetti a particolare sorveglianza. Le resine espanso sono esenti da freon e solventi clorurati. Le resine espanso non contengono sostanze che danneggiano l'ozonosfera e non vengono fabbricate con prodotti menzionati nel protocollo di Montreal e Regolamento (CE) n. 3093/94.

Black abs 4 cm **feet**, not visible.

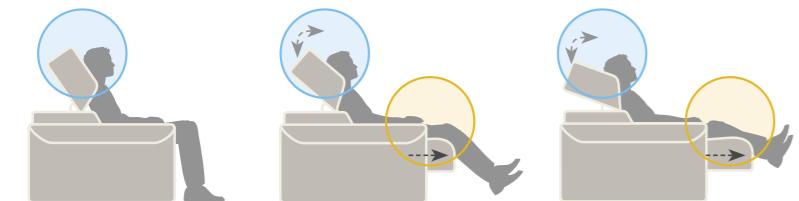

Spring
Mobile seat version: epoxy powder coated metal frame, with counter-frame sliding on ball bearings, strapped with braided elastic straps. The headrest is assisted by a 6-position ratchet inserted into the "bayonet structure".

Fixed version: the springing is made of 80 mm mechanically stretched strips, composed of nylon wires wound in a spiral. **Ajar** (straight armrest) and **Winston** (tilted armrest) with removable seat and headrest with ratchet. **Note:** the Ajar and Winston models have removable seats with metal frames and headrests with 6-position ratchet inserted into the "bayonet structure." Ajar and Winston can also be supplied with non-mobile, or "fixed", seat and headrest.

N.B. les modèles Ajar et Winston présentent une assise amovible sur un cadre métallique et un appui-tête à cliquet à 6 positions inséré dans une structure à « baïonnette ». Ajar et Winston peuvent également être fournis avec assise et appui-tête non mobiles ou « fixes ».

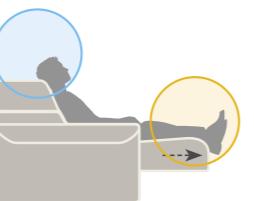

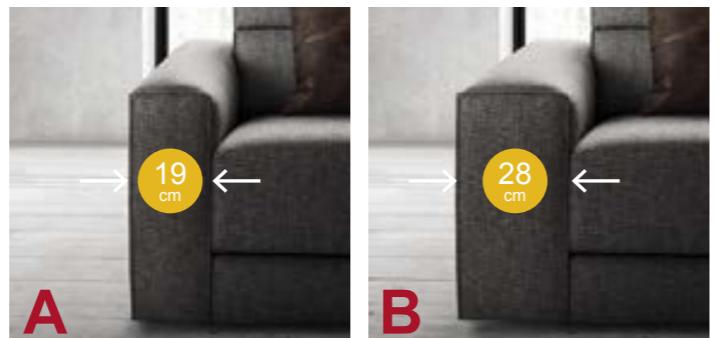

Optional: seduta estraibile e cricchetto

Optional: removable seat and ratchet / En option: assise amovible et système à cliquet

MADE IN ITALY
QUALITY PRODOTTI IN ITALIA

Caratteristiche tecniche

Struttura - Realizzata con masselli portanti in legno massiccio di abete in vari spessori. Fianchi e parti strutturali in multistrato di abete da 18 mm, parti di tamponamento in agglomerato di legno di spessore 18mm e 4 mm. Il tutto trattato al naturale in classe E1, pertanto a bassa emissione di formaldeide. Il telaio è completamente rivestito con vellutino 100% poliammine termo accoppiato ad espanso 100% polietere e/o ovatta resinato da 200 gr di 100% poliestere.

Imbottitura

Cuscino seduta: doppia densità in poliuretano espanso flessibile 35 softy/40 indeformabile con bombatura in espanso flessibile in D40 indeformabile applicato a telaio in metallo, nella versione con seduta mobile a tre posizioni, e rivestito completamente con vellutino in poliammine 100% accoppiato a resinato di poliestere da 200g.

Schiene: in poliuretano espanso flessibile e indeformabile in D23HS. Flexible and non-deformable polyurethane foam **headrests**, D16S profiled with D40 sides, covered with 300g polyester resin. Flexible and non-deformable polyurethane foam **armrests**, D26NY profiled with D18 internal sides, covered with 100% 300g polyester resin.

Environmental information on safety: The perishable nature of the product, according to its composition, is practically nil. Resins are not included in the list of standards for the classification of waste materials subject to special surveillance. Resin foams are free from freon and chlorinated solvents. Resin foams do not contain substances that damage the ozone layer and are not manufactured with products mentioned in the Montreal Protocol and (CE) Regulation no. 3093/94.

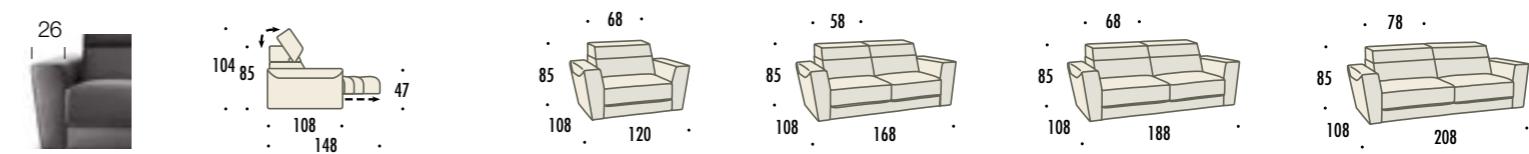

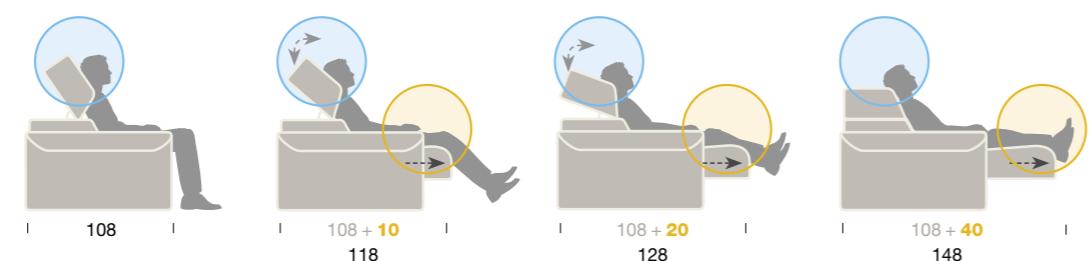

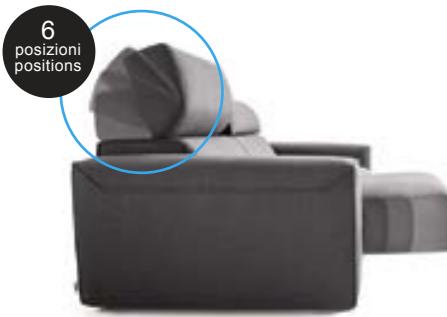

Black abs 4 cm **feet**, not visible.

Spring
Mobile seat version: epoxy powder coated metal frame, with counter-frame sliding on ball bearings, strapped with braided elastic straps. The headrest is assisted by a 6-position ratchet inserted into the "bayonet structure."

Caratteristiche tecniche

Struttura - Realizzata con masselli portanti in legno massiccio di abete o pino da 18 mm, parti di tamponamento in agglomerato di legno di spessore 18mm e 4 mm. Il tutto trattato al naturale in classe E1, pertanto a bassa emissione di formaldeide. Il telaio è completamente rivestito con velluto 100% poliammone termo accoppiato ad espanso 100% polietere e/o ovatta resinato da 200 gr di 100% poliestere.

Imbottitura - Cuscino seduta in poliuretano espanso flessibile e indeformabile in densità D35 SR rivestito in falda termolegata da 300 gr in poliestere 100%. Cuscino schiena in poliuretano espanso flessibile e indeformabile in densità D18 morbido, rivestito in falda termolegata da 300 gr in 100% poliestere. Tamponi in espanso indeformabile D21,DPK40, bracciolo in D30 indeformabile rivestito in resintato da 200 gr in 100% poliestere.

I materiali corrispondono alle normative europee 91/156/etc. Informazioni ambientali sulla sicurezza: la deperibilità del prodotto, secondo la sua composizione, è praticamente nulla. Le resine non sono contenute nella lista della normativa di classificazione dei rifiuti per materiali soggetti a particolare sorveglianza. Le resine espanso sono esenti da freon e solventi clorurati. Le resine espanso non contengono sostanze che danneggiano l'ozonosfera e non vengono fabbricate con prodotti menzionati nel protocollo di Montreal e Regolamento (CE) n. 3093/94.

Poggiatesta a cilindro e a cuscinetto totalmente rivestiti in tessuto e fissati su telaio in metallo.

Piedini ed accessori - Piedini in metallo a "slitta" modello ICE.

Molleggio - Il molleggio è realizzato in nastri da 80 mm tesi meccanicamente, composta da fili di nylon avvolto a spirale.

Technical characteristics

Structure - Made with bearing parts in solid fir wood in various thicknesses. 18mm fir or pine plywood sides and structural parts, 18mm and 4 mm thick particle wood infill parts. All treated naturally in Class E1, thus with low formaldehyde emissions. The frame is completely covered with 100% polyamides velvet and thermally-coupled with 100% polyether foam and/or 200 g. 100% polyester wadding resin.

Padding - Flexible and non-deformable polyurethane foam seat cushion, density D35 SR, coated with 300 gr layer-bonded 100% polyester. Flexible and non-deformable polyurethane foam back cushion, density D35 SR, coated with 300 gr layer-bonded 100% polyester. Non-deformable polyurethane foam pads, D21, DPK40; non-deformable armrest, D30, coated with 200 gr layer-bonded 100% polyester.

Non-deformable polyurethane foam pads, D21, DPK40; non-deformable armrest, D30, coated with 200 gr layer-bonded 100% polyester.

The materials meet the European standards 91/156/etc. Environmental information on safety: The perishable nature of the product, according to its composition, is practically nil. Resins are not included in the list of standards for the classification of waste materials subject to special surveillance.

Resin foams are free from freon and chlorinated solvents. Resin foams do not contain substances that damage the ozone layer and are not manufactured with products mentioned in the Montreal Protocol and (CE) Regulation no. 3093/94. Cylinder and pad headrest completely coated with fabric and fixed on a metal frame.

Feet and accessories - "slide" metal feet, ICE model.

Springing - The springing is made of 80 mm mechanically stretched strips, composed of nylon wires wound in a spiral.

Caractéristiques techniques

Structure - Réalisée avec des éléments porteurs en bois massif de sapin de différentes épaisseurs. Panneaux latéraux et éléments structuraux en bois de sapin stratifié de 18 mm, élément de remplissage en agglomérat de bois de 18 mm et 4 mm. Le tout traité au naturel en classe E1, soit à faible émission de formaldéhydes. Le cadre est entièrement recouvert de velours 100% polyamides couplé à chaud avec de la résine expansée 100% polyéther et/ou ouate de 200 g 100% polyester.

Rembourrage - Coussin d'assise en mousse de polyuréthane souple et indéformable densité D35 SR revêtu en couche collée de 300 g 100% polyester. Coussin de dossier en mousse de polyuréthane souple et indéformable densité D18 moelleux, revêtu en couche collée de 300 g 100% polyester. Éléments de remplissages en mousse indéformable D21, DPK40, accoudoir en D30 indéformable revêtu de résine 200 g 100% polyester.

Les matériaux sont conformes aux normes européennes 91/156/etc. Informations environnementales sur la protection: la nature périssable du produit, sur la base de sa composition, est pratiquement nulle. Les résines ne figurent pas dans la liste établie par la norme de classification des déchets de matériaux soumis à une surveillance particulière. Les résines expansées ne contiennent pas de fréon ni de solvants chlorés.

Les résines expansées ne contiennent pas de substances nuisibles à la couche d'ozone et ne sont pas fabriquées avec des produits figurant dans le Protocole de Montréal et le Règlement (CE) n° 3093/94. Cylinder and pad headrest completely coated with fabric and fixed on a metal frame.

Appui-tête cylindrique et en forme de coussin totalement revêtus de tissu et fixés au cadre métallique

Pieds et accessoires - Pieds en métal « coulissants » modèle ICE.

Suspension - La suspension est réalisée avec des bandes de 80 mm mécaniquement tendues, composées de fils de nylon enroulés en spirale.

Aspen

**Forma moderna, compatta e decisa. Ma insieme morbido e accogliente per sedute e appoggi di comfort.
Piedini di sostegno evidenti in legno naturale massiccio.
Molto caratterizzanti ed eco-green emotion.**

An advanced, compact and strong shape. But soft and cozy for comfortable seats and supports. Support feet in view made of solid natural wood. Very characteristic and eco-green emotion.

Forme moderne, compacte et forte. Mais également moelleuse et chaleureuse pour une assise et un soutien confortable. Pieds de soutien en bois massif naturel, pour une émotion écologique.

Aspen

**Forme di un moderno
ormai classico, aggiornate
dal design zoomorfo
e dalla particolare
lavorazione dei piedini
in legno naturale
massiccio. Inclinati
all'esterno e svasati danno
emozione e uno stile
eco-fashion.**

Modern classic shapes, made contemporary by the zoomorphic design and the special processing, of the support feet made of solid natural wood. Tilted on the outside and flared, they provoke emotions with their eco-fashion style.

Formes modernes désormais classiques, actualisées par un design zoomorphe et un traitement spécial, pour les pieds de support en bois massif naturel. Inclinés à l'extérieur et évasés, ils confèrent une émotion et un style actuel.

Caratteristiche tecniche

Technical characteristics

Caractéristiques techniques

Struttura - Realizzata con masselli portanti in legno massiccio di abete in vari spessori. Fianchi e parti strutturali in multistrato di abete da 18 mm, parti di tamponamento in agglomerato di legno di spessore 18mm e 4 mm. Il tutto trattato al naturale in classe E1, pertanto a bassa emissione di formaldeide. Il telaio è completamente rivestito con vellutino 100% poliammire termo accoppiato ad espanso 100% polietere e/o ovatta resinata da 200 gr di 100% poliestere.

Imbottitura - Cuscino seduta in poliuretano espanso flessibile e indeformabile in densità D35 SR rivestito in falda termolegata da 300 gr in poliestere 100%. Cuscino schiena in poliuretano espanso flessibile e indeformabile in densità D18 morbido, rivestito in falda termolegata da 300 gr in 100% poliestere. Tamponi in espanso indeformabile D21,DPK40, bracciolo in D30 indeformabile rivestito in resina da 200 gr in 100% poliestere.

The materials meet the European standards 91/156/

etc. Environmental information on safety: The perishable nature of the product, according to its composition, is practically nil. Resins are not included in the list of standards for the classification of waste materials subject to special surveillance. Resin foams are free from freon and chlorinated solvents. Resin foams do not contain substances that damage the ozone layer and are not manufactured with products mentioned in the Montreal Protocol and (CE) Regulation no. 3093/94. Cylinder and pad headrest completely coated with fabric and fixed on a metal frame.

Feet and accessories - Natural oak, tobacco and open pore painted grey feet, galvanized steel plate assembled.

Piedini ed accessori - Piedini in rovere naturale, verniciato tabacco e grigio a poro aperto, assemblati a piastra in acciaio zincata.

Molleggio - il molleggio è realizzato in nastri da 80 mm tesi meccanicamente, composta da fili di nylon avvolto a spirale.

Dati Tecnici

Emperador Dark
- Peso volumetrico 2,720 Kg/m3

- Resistenza a compressione 1126 Kg/cm2
- Resistenza a flessione 106 Kg/cm2
- Resistenza ad abrasione 0,55 mm
- Imbibizione 0,31 % per peso

Carrara

- Peso volumetrico 2742 Kg/m3
- Resistenza a compressione 1298 Kg/cm2
- Resistenza a flessione 207 Kg/cm2
- Resistenza ad abrasione 0,64 mm
- Imbibizione 0,15 % per peso
- Coeff. di dilatazione termica 0,0073 mm./m.

Consigli per la manutenzione

Come pulire un ripiano in marmo - Per pulire un ripiano in marmo utilizzate prima di tutto un panno morbido per rimuovere la polvere. Se non sono presenti particolari macchie, vi basterà passare le superfici da pulire con un panno in microfibra inumidito d'acqua tiepida, che vi aiuterà ad eliminare eventuali tracce di sporco. In caso di macchie o di residui da eliminare, utilizzate una spugnetta morbida dopo averla insaponata con qualche goccia di sapone liquido ecologico o con una saponetta naturale (mai utilizzare sul marmo prodotti per la pulizia dal pH acido).

Le sostanze e i prodotti da evitare - Per la pulizia del marmo dovrete evitare tutte le sostanze acide che invece possono risultare utili per la pulizia ecologica di altre parti della casa. Per il marmo non dovete utilizzare succo di limone, acido citrico, aceto di vino o aceto di mele, detergenti aggressivi ed altre soluzioni che risultino acide o corrosive, dato che il marmo è molto delicato. Evitate i prodotti abrasivi e tutti gli strumenti che potrebbero graffiare il marmo e rovinarlo in modo irrimediabile.

Technical Data

Emperador Dark
- Bulk density 2,720 Kg/m3
- Compressive strength 1126 Kg/cm2

- Flexural strength 106 Kg/cm2
- Abrasion resistance 0.55 mm
- Absorption 0.31 % per weight
Carrara
- Bulk density 2742 Kg/m3
- Compressive strength 1298 Kg/cm2
- Flexural strength 207 Kg/cm2
- Abrasion resistance 0.64 mm
- Absorption 0.15 % per weight
- Thermal expansion coefficient 0.0073 mm./m.

Instructions for maintenance

How to clean a marble top - To clean a marble top, first use a soft cloth to remove dust. If there are no special stains, the surfaces can be cleaned with a microfiber cloth dampened with warm water, which will help remove any dirt. In case of stains or residues, use a soft sponge after having soapy with a few drops of ecological liquid soap or natural soap (never use detergents with acid pH on marble products).

Substances and the products to avoid - When cleaning marble, avoid acidic substances, which, on the other hand, may be useful for the ecological cleaning of other parts of the house. Lemon juice, citric acid, vinegar or apple cider vinegar, strong detergents and other solutions that are acidic or corrosive should never be used with marble, because it is very delicate. Avoid abrasive cleaners and tools that could scratch the marble and ruin it beyond repair.

Données techniques

Emperador Dark
- Poids volumétrique 2,720 Kg/m3
- Résistance à la compression 1126 Kg/cm2

- Résistance à la flexion 106 Kg/cm2
- Résistance à l'abrasion 0,55 mm
- Absorption 0,31 % par poids
Carrara

- Résistance à la flexion 207 Kg/cm2
- Résistance à l'abrasion 0,64 mm
- Absorption 0,15 % par poids
- Coeff. de dilatation thermique 0,0073 mm./m.

Conseils d'entretien

Comment nettoyer une étagère en marbre - Pour nettoyer une étagère en marbre, utiliser tout d'abord un chiffon doux pour retirer la poussière. En absence de taches particulières, passer simplement un chiffon en microfibre humidifié avec de l'eau chaude sur la surface afin d'éliminer les éventuelles traces de saleté. En présence de taches ou de résidus à éliminer, utiliser une éponge douce imbibée de quelque goutte de savon liquide écologique ou de savon de savonnette naturelle (ne jamais utiliser de produits à pH acide sur le marbre).

Substances et produits à éviter - Pour nettoyer le marbre, toujours éviter les substances acides lesquelles peuvent cependant être utilisées pour le nettoyage écologique d'autres parties de la maison. Pour le marbre, ne pas utiliser de jus de citron, acide citrique, vinaigre de vin ou de pomme, détergents agressifs et autres solutions acides ou corrosives, car le marbre est très délicat. Éviter les produits abrasifs et tous les outils susceptibles de rayer le marbre ou de l'abîmer de façon irrémédiable.

Pouf

Caratteristiche tecniche

Struttura - Realizzata in agglomerato di legno di spessore 10mm. Il tutto trattato al naturale in classe E1, pertanto a bassa emissione di formaldeide. Il telaio è completamente rivestito con vellutino 100% poliammine termocoppia a ovatta resinato da 200 gr di 100% poliestere.

Imbottitura

Seduta: lastra in poliuretano espanso flessibile e indeformabile in densità D30TL fresato tondo sul perimetro, totalmente rivestito in vellutino in poliammine 100% accoppiato a falda di resinato in poliestere da 200 gr.

Parti di tamponamento perimetrale: lastre sagomate di poliuretano indeformabile in D16S. I materiali corrispondono alle normative europee 91/156/etc. Informazioni ambientali sulla sicurezza: la deperibilità del prodotto, secondo la sua composizione, è praticamente nulla . Le resine non sono contenute nella lista della normativa di classificazione dei rifiuti per materiali soggetti a particolare sorveglianza . Le resine espansse sono esenti da freon e solventi clorurati. Le resine espansse non contengono sostanze che danneggiano l'ozonosfera e non vengono fabbricate con prodotti menzionati nel protocollo di Montreal e Regolamento (CE) n. 3093/94.

Piedini in abs nero da 20mm

Technical characteristics

Structure - Made of 10 mm thick chipboard. All treated naturally in Class E1, thus with low formaldehyde emissions. The frame is completely covered with 100% polyamines velvetean thermo-coupled with 200 g. 100% polyester wadding resin.

Padding

Seat: sheet of flexible and non-deformable polyurethane foam, D30TL, milled around the perimeter, completely covered with 100% polyamine velvet coupled with a layer of 200g polyester resin.

Perimeter structural parts: D16S polyurethane foam sheets. The materials meet the European standards 91/156/etc. Environmental information on safety: The perishable nature of

the product, according to its composition, is practically nil. Resins are not included in the list of standards for the classification of waste materials subject to special surveillance. Resin foams are free from freon and chlorinated solvents. Resin foams do not contain substances that damage the ozone layer and are not manufactured with products mentioned in the Montreal Protocol and (CE) Regulation no. 3093/94. 20mm high black ABS feet.

Caractéristiques techniques

Structure - Réalisée en aggloméré de bois de 10 mm d'épaisseur. Le tout traité au naturel en classe E1, soit à faible émission de formaldéhydes. Le cadre est entièrement recouvert de velours 100% polyamines couplé à chaud à une ouate résinée de 200 g 100% polyester.

Rembourrage

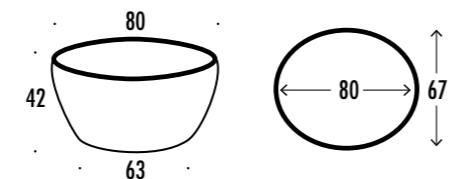

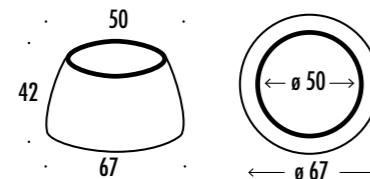

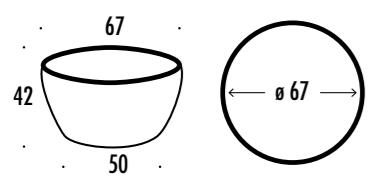

Siège: plaque en mousse de polyuréthane souple et indéformable densité D30TL fraisée ronde sur le pourtour et totalement recouverte de velours 100% polyamines couplé à chaud à une couche de résine de polyester de 200 g.

Éléments de remplissage de contour : plaques découpées en polyuréthane indéformable en D16S. Les matériaux sont conformes aux normes européennes 91/156/etc. Informations environnementales sur la protection : la nature périsable du produit, sur la base de sa composition, est pratiquement nulle. Les résines ne figurent pas dans la liste établie par la norme de classification des déchets de matériaux soumis à une surveillance particulière. Les résines expansées ne contiennent pas de freon ni de solvants chlorés. Les résines expansées ne contiennent pas de substances nuisibles à la couche d'ozone et ne sont pas fabriquées avec des produits figurant dans le Protocole de Montréal et le Règlement (CE) n° 3093/94.

Made in Italy.

La qualità garantita, che mi rende sicuro.

Tutti i modelli presentati in questo catalogo sono prodotti nella sede dell'azienda in Italia, con materiali certificati, da maestranze qualificate. Le tecnologie costruttive sono di ultima generazione e nei casi in cui la lavorazione manuale si renda indispensabile per un migliore risultato qualitativo essa è impiegata senza riserve. L'Italia vanta una lunga e nobile tradizione nel mondo dell'arredamento e dei mobili imbottiti, che la nostra azienda si prege di proseguire e tutelare.

Made in Italy.

Guaranteed quality, which gives you assurance.

All the models presented in this catalogue are manufactured on the company's premises in Italy, with certified materials, by qualified workers. Latest-generation constructional technologies are implemented and, when considered essential for higher-quality results, manual processing is used without reservation. Italy boasts a long and distinguished tradition in the furnishing and upholstered furniture sector, which our company is pleased to continue and protect.

Made in Italy.

Une qualité garantie qui me conforte.

Tous les modèles présentés dans ce catalogue sont produits dans le siège de l'entreprise en Italie, avec des matériaux certifiés, par un personnel qualifié. Les technologies de fabrication sont de dernière génération et si le travail manuel est indispensable pour un meilleur résultat qualitatif, il est utilisé sans réserves. L'Italie vante une longue et noble tradition dans le monde de l'ameublement et notamment des meubles rembourrés, que notre société est heureuse de poursuivre et de protéger.
