# Introducing LinenMe

My name is Inga Lukauskiene, and I am a Lithuanian- born interior designer. I have a real passion for textiles, particularly linen. I love absolutely everything about it: its strength, texture and durability; the way it ages beautifully; and - I have to admit - even its natural crumples.

Over past centuries, in many cultures worldwide, one of the most important heirlooms a loving mother could give to her daughter on her wedding day was linen passed down from previous generations. Now, linen has become a key must-have for stylish homes with a pared back aesthetic and a focus on quality.

Lithuania, and my family, have strong traditions of flax growing and linen production, and I have always felt that more could be done to represent the beauty of Lithuanian linen and fine craftsmanship. With this idea in mind, I graduated from London's KLC School of Design, and decided to focus on creating beautiful home accessories from linen. LinenMe is the result.

I am excited to introduce you to LinenMe, the brand you can trust for one of the widest ranges of simple, sustainable and stunning linen homewares. I hope you enjoy exploring our edit of home textiles and clothes.

Yours,

# What's Our Story?

LinenMe is a small yet rapidly growing business. We design, manufacture and deliver probably the widest range of linen home textiles to more than sixty countries around the world. Our aim is to ensure that each and every item we carry in our collection, or make specially for you, is simple, sustainable and stunning. We can help you offer your customers high quality, beautiful homewares that are designed to last and to enhance any interior.

## EXTENSIVE COLLECTION

We offer a wide ranging yet carefully curated collection. We are proud to offer customers high quality textiles for every room and every season. Driven by an understanding of how our customers live, we have created an ever-expanding edit of beautiful products in a range that would be hard to find elsewhere.

## SUSTAINABILITY

At LinenMe we are committed to ensuring our products are sustainably produced. Linen itself is an environmentally-friendly fabric as it requires fewer resources to grow and process, and is biodegradable. We use every last inch of fabric in our production process to minimise waste, and we craft products that are made to last, in keeping with our slow-living aesthetic.

## UNDERSTATED LUXURY

All our product designs are inspired by what our customers need and are meticulously developed by myself. My family has worked in the flax industry for two generations, and I bring a wealth of knowledge and expertise to my designs. I know how to make linen look and perform its best. This kind of personal approach offers our clients the individual attention to detail of a bespoke luxury brand, without the price tag. We are simply great at what we do.

## CRAFTED TO LAST

We have our own manufacturing unit in Lithuania, with more than forty years of linen production experience. Using raw linen materials grown in Baltic region and Europe we can ensure product authenticity and high quality. From a stock of over 1000 different linen fabrics we craft all your items to order using a combination of traditional and cutting-edge technologies. We understand linen - how it cuts, how it sews and how to bring out the best in each piece of fabric. Every product has a bespoke feel, and is hand-checked to make sure it meets the highest quality standards.

# LinenUs

At LinenMe we work hard to be an environmentally friendly business: we use only green energy in our production process and we rework leftover fabric into linen tote bags. We don't believe in fast fashion, and we create textiles and homewares that are designed to look and feel amazing for years.

To further our commitment to sustainability, we are proud to launch our new LinenUs collection of homeware basics made from linen offcuts and unused scrap material. This range aims to further reduce our carbon footprint and achieve a zero-waste target for newly manufactured products. We are also offering our customers a complementary linen shopping bag if they choose plastic-free wrapping for their products.

## ZERO WASTE PRODUCTION

We use up very last piece of fabric, resulting in a zero-waste our production process. The new LinenUs range makes clever use of offcuts, scraps and remnants to create beautiful homewares with nothing left over.

## USE ONLY GREEN ENERGY

Our production process is powered by solely renewable energy, purchased from green suppliers who care about the planet.

## LINEN IS MORE SUSTAINABLE THAN COTTON

Choosing linen is already a great way to be more sustainable as it uses fewer resources to grow and process than cotton. It is also biodegradable, so once a product comes to the end of its use it won't contribute to landfill.

# Linen Cushion Covers

## Stone Washed

A delicate yet practical addition to any sofa or bed, the Stone washed cushion cover is your go-to for a stylish accessory. Whether you like your cushions the same colour or love to mix things up, we have a range of more than 20 shades for you to choose from, and we can make the cushion to fit any size filling. The cushion is made with back flap closure which keeps the insert neatly tucked inside the cushion. A tiny 1cm edging gives shape and structure to the soft fabric. Not only is the cushion gorgeous to look at, it is also brilliantly simple to care for. It can be machine washed and dried in a drier at low temperatures. No ironing needed – the true beauty of this linen fabric is in its natural crumples. Fabric density is 165 g/m<sup>2</sup>.

# Fabrics

LinenMe has probably one of the widest range of fabrics. We keep more than 1000 different linen fabrics in stock. LinenMe fabrics are ideal for light and heavy upholstery, table linen, cushions, bed spreads, curtains and lamp shades, as well as clothing. From distinctive stripes to patterns, from various natural shades to radiant colours, there is something to suit any style. Fabrics are sold min 10 meters per color, per style. Fabrics ordered up to 10 meters are folded and shipped in the box. More than 10 meters shipped on rolls. Most of fabrics except Lara can be purchased as prewashed or not prewashed. We recommend to order sample books from current lot.
