

ROSS GARDAM

Experiential Objects
that Elicit Joy & Defy
Convention.

All Ross Gardam™ products are driven by a distinct desire to defy the conventions of our relationship with and connection to contemporary design.

Designed for public and private spaces, every product is informed by a deep fascination in the layered experiences that exists between object and self.

This experiential understanding combined with a unique outlook on form and function underpins each collection.

Ross Gardam™ products are hand-crafted in Melbourne, Australia, by local artisans and manufacturers with an unrivalled level of finish and expertise. The studio's methodology combines innovative technology with traditional craft, resulting in products imbued with subtle historical and ritualistic references. This closeness to the maker and understanding of material is central to the obsessive process of development involved in every Ross Gardam™ product.

PROCESS ⁰¹

PROCESS ⁰¹

Ross Gardam™ is a team of designers, engineers and makers, who work collaboratively from ideation to realisation, producing contemporary lighting, furniture and objects.

Ross Gardam™ products are designed to endure, each product being the output of our high calibre, ethical Australian manufacturing process.

To maintain this, high quality standards apply to everything we do, from ideation and design, material selection and manufacturing through to packaging and owner support.

Our material selection and use methodology informs our design and manufacturing process and is paramount to the measure of success of all products.

Each of our lighting pieces is meticulously assembled, wired and packaged in our Melbourne based studio with the upmost care. All our lighting products utilise the most contemporary energy efficient technologies and our upholstered products carry EcoSpecifier™ certification.

LIGHTING ⁰²

NEBULAE VERTICAL CHANDELIER

The Nebulae collection takes its name from the natural phenomena of interstellar clouds and their dynamic layered lighting effects. The geometric machined forms coupled with the fluid glass discs creates a balance between the elements. Designed for use in larger open spaces, working in modular configurations, the Nebulae Vertical Chandelier Collection is inspired by the diffusion of natural light.

Available in several configurations (including a Horizontal Chandelier), several glass finishes, the Nebulae Vertical Chandelier is both dynamic and sculptural in its linear form.

NEBULAE WALL LIGHT

The Nebulae collection takes its name from the natural phenomena of interstellar clouds and their dynamic layered lighting effects. The geometric machined forms coupled with the fluid glass discs creates a balance between the elements. The Nebulae Wall Light is a statement in any space and supplies a beautiful adjustable light level. The wall light can be specified with a single glass disc or layered with an additional disc to create expansive light dispersion options.

The body is manufactured from machined aluminium white champagne or black anodised. Nebulae's discs come in a fluted clear, bubbled black, rippled blue or white pearl glass, in singular or doubled.

HEMERA DESK LAMP

Like the brutalist architecture of 60 years ago that it references, the Hemera Desk Lamp is powerful in its simplicity of form. Designed for the New Volumes™ collection, the two solid circular volumes intersect with no overtly visible light source, creating a striking desktop monolith and a lighting device of refined functionality.

IMAGE /

THE LIGHT SOURCE IS HIDDEN, ILLUMINATING THE ELBA MARBLE CONE WHICH REFLECTS LIGHT IN THE SHADE.

POLAR DESK LAMP

A circular motif is used throughout the Polar collection defining its minimal operative form. The Polar Desk Lamp utilises a unique magnetically attached arm to allow the disc to rotate around the body directing or shadowing light. A friction disc in combination with magnets molded into the ceramic body allows the arm to snap into place and function.

Polar's ceramic base is handcrafted using traditional slip casting and the surface is bisque fired and presented unglazed. The face side of the disc is available in polar white, or matt black with custom colours available on request.

POLAR WALL LIGHT

A circular motif is used throughout the Polar collection defining its minimal operative form. The Polar Wall Light utilises a unique hinge joint allowing the disc to pivot up or down, softly directing the light output. Polar's anodised gold wall canopy provides a beautiful base for the light to mount onto the wall and houses the fully dimmable LED module.

The wall light is available in a pivot or fixed variation. The disc is available in two sizes and various painted finish options.

A close-up photograph of the Ora Desk Lamp. The image shows the base and two vertical stems of the lamp, which are made of a brushed metal material. The stems are positioned on a circular base. The lighting is soft, highlighting the texture of the metal.

ORA DESK LAMP

The Ora collection reflects a desire for purity and honesty in materials and manufacturing.

Completely precision-milled from aluminium and available in either brushed anodised black or white champagne, the Ora Desk Lamp features an adjustable shade thanks to a clever magnetic joint. This allows the user to interact with a shade that can fully orbit in 360° and tilt-adjust in numerous positions.

SILHOUETTE DESK LAMP

Silhouette's reductive fluted form is inspired by the archetype of a torch, where the materiality defines the luminance. The Silhouette Desk Lamp's bent metal stand is a playful continuation of the black cloth cord, which threads right up through and back down into the shade.

Available in anodised black or white champagne aluminium as standard finishes, the gently fluted shade will complement any space.

IMAGE /
SILHOUETTE DESK LAMP AVAILABLE IN EITHER
BLACK OR WHITE CHAMPAGNE

SILHOUETTE PENDANT

Silhouette's reductive fluted form is inspired by the archetype of a torch, where the materiality defines the luminance. The Silhouette Pendant offers flexibility in function and materiality. The gently fluted shade is available in glass or aluminium, designed to be used individually or in clusters, in both residential and contract settings.

Each glass light is mouth blown in Australia and has a natural variation which is only present in mouth blown glass. To create a chandelier, simply choose the number in your hanging and then select the colour mix.

SILHOUETTE WALL LIGHT

Silhouette's reductive fluted form is inspired by the archetype of a torch, where the materiality defines the luminance. Designed to provide versatile solutions for interior settings, the Silhouette Wall Light combines the form of the Silhouette Pendant, with its library of beautiful and varied material options, with a minimalist, low-profile mounting bracket.

Silhouette Wall Light can be mounted at any angle and in clusters, providing up-light, side-light and down-light options.

FURNITURE 03

PLACE LOUNGE

Place offers the most functional, modular platform to connect, experience and create. At the heart of the collection is the desire to bring people together. Place Lounge features the unique ability to connect modules by dropping and zipping them together. The simple connecting system allows any module to connect to form a wide variety of configurations, and then easily disconnect to reconfigure as space requirements evolve.

The Place Lounge's distinctly detailed set of modular configurations are designed to complement any given space, enabling a creative environment which is smart, agile and intuitive.

ADAPT SOFT

Flexible, inviting and productive, the Adapt collection of lounges and accessories are designed to evolve with the dynamic needs of today's workspace. The new Adapt Soft brings a more relaxed aesthetic combined with a residential level of comfort. The non-fixed cushions are made from a foam/feather composite paired with a quilted feather overlay to the seat. The clean lines and subtle surfaces of the Adapt bring a softness and sense of the familiar into the workspace. Designed to sit alone or combine in module configurations - arms, backs, desks and tables can be added simply and easily.

Adapt Soft is available in the full range of low-back lounge configurations, when that extra level of comfort and luxury is required.

ADAPT PIVOTING TABLE

Flexible, inviting and productive, the Adapt collection of lounges and accessories are designed to evolve with the dynamic needs of today's workspace. Designed to interconnect with the Adapt Lounges and Ottomans, the Adapt Pivoting Table can be easily installed on the underside of the lounge to provide a working table-top surface, perfect for laptop use. The table can pivot horizontally allowing the user to position the table as desired, as well as providing easy ingress/egress.

For effortless application the Pivoting Table can be mounted on any Adapt Lounge module variation, either on the left- or right-hand side or specific locations along the longer lounges.

NOON LOUNGE

Noon is a modular collection of upholstered products which softly arc at the edges. Noon's arm allows the cushion to flow over the arc, creating an extra level of comfort and softness to the product. Noon Lounge softly arcs, evoking a relaxed harmony. The lounge's arm allows the cushion to flow over the arc, creating an extra level of comfort and softness to the product.

Tension is created in the product between the stitching detail on the inner and outer surface which run in parallel, framing and outlining the design. The collection is designed specifically for residential spaces with a commercial cross over.

DUET STOOL

The Duet Stool represents the harmony and beauty of two. The Duet Stool is a blend of inviting timber or upholstery seat with a gracefully slender base, providing the option of both indoor and outdoor settings. The gently radiused curve of the seat provides a consistent element throughout the range. It is available in either a solid white oak, upholstered top for indoor use, or black recycled for outdoor durability.

Available in three heights to suit a range of different contexts, the bases can be powder coated to any of our house colours.

HALF FULL STOOL

Half Full is a sustainably sourced oak timber collection of products. The central feature of the range is the use of a half turned leg, which gives the tables, benches and stools their unique appearance and playful nature. The name Half Full refers as much to optimism and the term 'glass half full', as to the common half leg that supports each product. An exposed tennon joint is also a common characteristic of the collection and references the handcrafted nature of the products.

The stool is made from oak and available in a number of standard sizes with custom sizes available on request.

UNIQUE APPEARANCE

ASYMMETRY TABLE

The Asymmetry Table is an expression of minimal material use to achieve maximum functionality. The range provides rectangular and circular-topped options for dining, meeting, outdoor and indoor tables on a non-traditional base. The geometric frame has been designed to give strength, durability and personality, resulting in a versatile table which is available in a range of powder coat colours.

All bases are fitted with adjustable feet for levelling on the ground while the tops are available in laminate, veneer and marble for indoors, and zinc plating bases and compact laminate tops for outdoors.

POLAR DESK LAMP

POLAR

WALL LIGHT

A circular motif is used throughout the Polar collection defining its minimal operative form. The Polar Wall Light utilises a unique hinge joint allowing the disc to pivot up or down, softly directing the light output. Polar's anodised gold wall canopy provides a beautiful base for the light to mount onto the wall and houses the fully dimmable LED module.

The wall light is available in a pivot or fixed variation. The disk is available in two sizes and various painted finish options.

ORA
DESK LAMP

The Ora collection reflects a desire for purity and honesty in materials and manufacturing. Completely precision-milled from aluminium and available in either brushed anodised black or white champagne, the Ora Desk Lamp features an adjustable shade thanks to a clever magnetic joint. This allows the user to interact with a shade that can fully orbit in 360° and tilt-adjust in numerous positions.

SILHOUETTE

DESK LAMP

Silhouette's reductive fluted form is inspired by the archetype of a torch, where the materiality defines the luminance. The Silhouette Desk Lamp's bent metal stand is a playful continuation of the black cloth cord, which threads right up through and back down into the shade.

Available in anodised black or champagne aluminium as standard finishes, the gently fluted shade will complement any space. Please note: Silhouette is non-adjustable and features a bracket which is bent at a fixed angle.

SILHOUETTE DESK LAMP

SILHOUETTE

PENDANT

Silhouette's reductive fluted form is inspired by the archetype of a torch, where the materiality defines the luminance. The Silhouette Pendant offers flexibility in function and materiality. The gently fluted shade is available in glass or aluminium, designed to be used individually or in clusters, in both residential and contract settings.

Each glass light is mouth blown in Australia and has a natural variation which is only present in mouth blown glass. To create a chandelier, simply choose the number in your hanging and then select the colour mix.

PLACE

LOUNGE

Place offers the most functional, modular platform to connect, experience and create. At the heart of the collection is the desire to bring people together. Place Lounge features the unique ability to connect modules by dropping and zipping them together. The simple connecting system allows any module to connect to form a wide variety of configurations, and then easily disconnect to reconfigure as space requirements evolve.

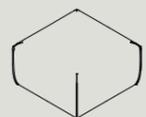

The Place Lounge's distinctly detailed set of modular configurations are designed to complement any given space, enabling a creative environment which is smart, agile and intuitive.

ADAPT
LOUNGE

Flexible, inviting and productive, the Adapt collection of lounges and accessories are designed to evolve with the dynamic needs of today's workspace. The clean lines and subtle surfaces of the Adapt Lounge bring a softness and sense of familiarity into the workspace. Designed to sit alone or combine in module configurations - arms, backs, screens, desks and tables can be added simply and easily.

A truly modular system with functionality at its core, Adapt caters for offices, receptions, universities, airports and hospitality spaces.

Also available as a High-Back and Adapt Soft.

*R or L refers to Right or Left arm location. Arm location is defined while sitting on lounge.
#High-Back modules should be supported from both ends, achieved through joining to other modules in an 'L' or linear configuration. Alternatively, angled rear legs will need to be used
Dimensions shown are indicative. For projects requiring specific dimensions, please get in contact.

FOR MORE DETAILS ON THE ADAPT LOUNGE PLEASE SEE THE ADAPT LOUNGE CATALOGUE

ADAPT SOFT

LOUNGE

Flexible, inviting and productive, the Adapt collection of lounges and accessories are designed to evolve with the dynamic needs of today's workspace. The new Adapt Soft brings a more relaxed aesthetic combined with a residential level of comfort. The non-fixed cushions are made from a foam/feather composite paired with a quilted feather overlay to the seat. The clean lines and subtle surfaces of the Adapt bring a softness and sense of the familiar into the workspace. Designed to sit alone or combine in module configurations - arms, backs, desks and tables can be added simply and easily.

Adapt Soft is available in the full range of low-back lounge configurations, when that extra level of comfort and luxury is required.

NOON
LOUNGE

Noon is a modular collection of upholstered products which softly arc at the edges. Noon's arm allows the cushion to flow over the arc, creating an extra level of comfort and softness to the product. Noon Lounge softly arcs, evoking a relaxed harmony. The lounge's arm allows the cushion to flow over the arc, creating an extra level of comfort and softness to the product.

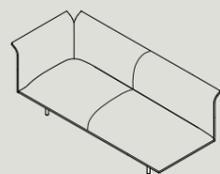

Tension is created in the product between the stitching detail on the inner and outer surface which run in parallel, framing and outlining the design. The collection is designed specifically for residential spaces with a commercial cross over.

COFFEE TABLE

Bringing lightness and balance to a collection of rich, cohesive materials and graphic in nature, the Noon Tables offer striking material combinations confined within an outer ring. The top is contained within half-milled legs creating a tension and lightness between the surfaces.

The Noon Tables are available in two sizes and a plethora of top surfaces including tri-cut material inlays. The Tri-Cut configuration is referenced throughout the Noon Collection, showcasing different finishes seamlessly in unity.

TAILORED 21

COFFEE TABLE

Tailored 21 Tables are a collection of low height tables designed for commercial, residential and hospitality sectors. The oak leg with its geometric shape is a shared characteristic of the Tailored collection, providing a strong visual connection between the tables, couches and coffee tables. The Tailored 21 comprises sustainably sourced oak legs and a spun metal top.

The product is available in three standard sizes with the top finished in either white or black textured powder-coat.

DIMENSIONS

DUET

STOOL

The Duet Stool represents the harmony and beauty of two. The Duet Stool is a blend of inviting timber or upholstery seat with a gracefully slender base, providing the option of both indoor and outdoor settings. The gently radiused curve of the seat provides a consistent element throughout the range. It is available in either a solid white oak, upholstered top for indoor use, or black recycled for outdoor durability.

Available in three heights to suit a range of different contexts, the bases can be powder coated to any of our house colours.

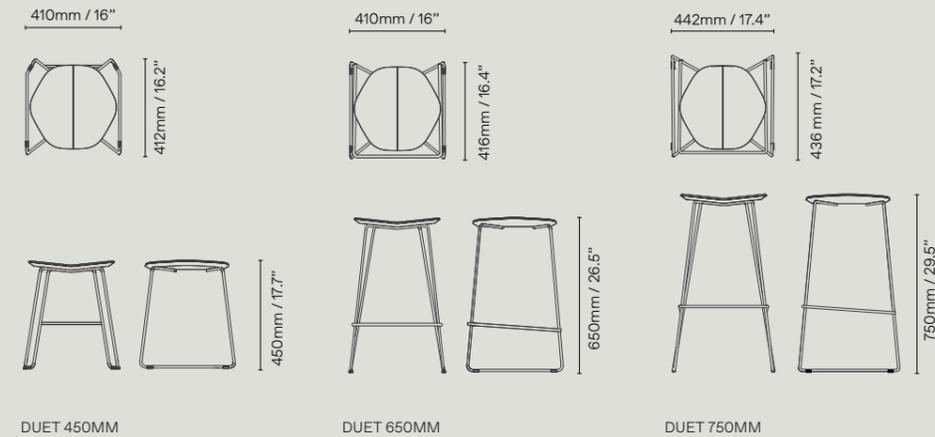

AVAILABLE TOP FINISHES

AVAILABLE LEG FINISHES

DIMENSIONS

HALF FULL

STOOL

Half Full is a sustainably sourced oak timber collection of products. The central feature of the range is the use of a half turned leg, which gives the tables, benches and stools their unique appearance and playful nature. The name Half Full refers as much to optimism and the term 'glass half full', as to the common half leg that supports each product. An exposed tennon joint is also a common characteristic of the collection and references the handcrafted nature of the products.

The stool is made from oak and available in a number of standard sizes with custom sizes available on request.

HALF FULL STOOL

ASYMMETRY

TABLE

The Asymmetry Table is an expression of minimal material use to achieve maximum functionality. The range provides rectangular and circular-topped options for dining, meeting, outdoor and indoor tables on a non-traditional base. The geometric frame has been designed to give strength, durability and personality, resulting in a versatile table which is available in a range of powder coat colours.

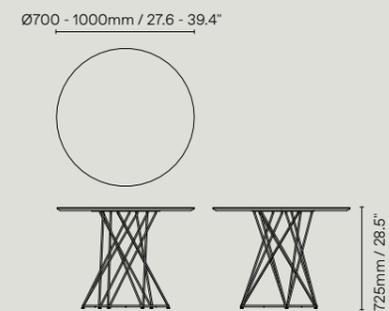

All bases are fitted with adjustable feet for levelling on the ground while the tops are available in laminate, veneer and marble for indoors, and zinc plating bases and compact laminate tops for outdoors.

ASYMMETRY STANDARD HEIGHT 1800 - 2400 X 1000MM

NOON MIRROR

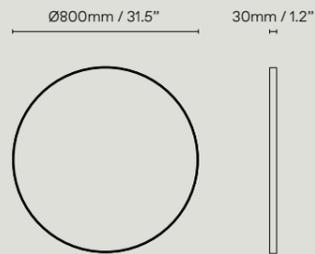

The Noon Mirror is set back slightly from the frame separating the two forms and defining a tension between two surfaces. Framed in three alternating rings of timber in a walnut, rock maple and walnut combination. The timber defines a rich finish partnered with the highlight of the center rock maple ring.

The mirror is available in three finishes, clear, bronze and black and a combination of all these finishes in the Noon Tri-Cut configuration. Each mirror is Ø800mm and is supplied complete with a strong, easy to assemble wall-mounting system.

AVAILABLE MIRROR FINISHES

DIMENSIONS

NOON MIRROR

FLINT TABLE AND BENCH

The Flint table and bench collection is available in an indoor and an outdoor range. The leg detail was inspired from the principles of a lever and explores the idea of supporting the table using its own stabilising weight.

The tabletop is available in sustainably sourced Spotted Gum and stained Accoya for indoor and outdoor use. The zinc plated steel legs are available in the full range of powder coat colours.
