

ARTE DI TAPPETI
FROM 1980

Monochrome Rugs

ARTE DI TAPPETI We started in 1980 with our gallery in Tehran, old Persia, today known as Iran, and we now have over 39 years of experience in the direct import of Oriental rugs. The Gallery was officially founded in Persia by my father but was already active at the time of my grandfather.

we have been carrying out our business in the multifaceted world of carpets for many years and we live the daily adventure of our profession with great enthusiasm, always looking for new ideas, methods and the finest rugs to offer to our clientele.

Who are we? We are artisans with a strong passion for rugs, a passion that we inherited from the previous generation.

Over these years of activity we have developed a solid know-how on everything about rugs: from the meticulous search for high-quality old and contemporary carpets for selling, to the production of customised pieces, from specialised cleaning to rugs and old tapestries restoration, trying to best preserve their high aesthetic value. We then expanded our business to the appraisals sector, using all of our passion and expertise and founding our Gallery in Milan.

ARTE DI TAPPETI Dal 1980, il nostro galleria sito a Tehran, nell'antica Persia e attuale Iran, vanta oltre 35 anni di esperienza nell'importazione diretta di tappeti orientali. La Galleria è stata ufficialmente fondata in Persia da mio padre, ma era già attiva ai tempi di mio nonno. Da anni portiamo avanti la nostra attività nel variegato mondo dei tappeti e viviamo con entusiasmo l'avventura quotidiana del nostro lavoro, sempre alla ricerca di idee, metodi innovativi e tappeti sempre più pregiati da proporre alla nostra clientela.

Chi siamo? Siamo artigiani con la passione dei tappeti, passione che abbiamo ereditato dalla generazione precedente.

In questi anni di attività abbiamo sviluppato un solido know-how su tutto ciò che riguarda il mondo del tappeto: dalla ricerca meticolosa di tappeti di alta qualità, antichi e moderni, destinati alla vendita, alla produzione di pezzi su misura; dal lavaggio specializzato al restauro di tappeti e arazzi antichi, preservandone al massimo l'alto valore estetico. Ci siamo poi allargati nel settore delle perizie mettendo in gioco la nostra esperienza e passione, aprendo la nostra galleria a Milano.

some simple tips to choose an appropriate rug.

DINING ROOM

LIVING ROOM

Guide on choosing a proper rug size and covered area by the rug in some spaces, presented by the following schemes.

About dining, recommended the rug extends 60cm from the perimeter of the dining table thus when you pull out the chair it will remain on the rug confine.

In the Living room is recommended to remain all the furniture or anterior sofa legs on the rug area. thus the confine of the floor in front of the furniture will be covered by the rug.

In the bedrooms considered three main tips, first covering all parts of beds including bedside tables - second, the rug covers lower parts of bed - third as bedside rugs that place on both sides of the bed.
