GAUTIER
Kids

FRENCH MANUFACTURER
— SINCE 1960 —

#GautierKids

60 years ago, Gautier had a mad idea: design and produce a bedroom especially for children. At the time, nobody cared about providing specific comfort for kids.

Since then, millions of children and teenagers all over the world have created fond memories of sleeping in a Gautier bed.

We are proud to say that the gamble we took on day one has now become our passion and expertise. To this day, love is what drives us forward.

✓ Love for our friends and family, our teams, suppliers, customers who reward us with their loyalty.

✓ Love for our country which makes us strong advocates of the MADE IN FRANCE initiative and French style of living.

✓ Love for our environment that we aim to protect, for our children, exclusively using wood from sustainably managed forests within the vicinity of our workshops.

✓ And, of course, love for our collections which are designed to be generous, comfortable, practical, healthy, safe, robust and welcoming - right down to the smallest detail.

We know that the bedroom you are creating for your child will become their own small world, a journey, safe haven, adventure, theatre and refuge.

It also demonstrates our love, giving allowing us to share it with you.
