Recycled polyester fiber
Fibra di poliestere riciclata

Feet / Piedini

Thermoplastic materia
Materiale termoplastico

Waterproof Covering / Telo Impermeabile

Coated fabric in PU
Tessuto monospalmato PU

- Industrial processes with laser cutting, use of aluminum extrusions and punching of custom sheets.
- The parts are assembled manually and mechanically, using stainless steel bushings.
- The materials of the structural components (aluminum, stainless steel and galvanized steel) and their relative finishes make the product very resistant to atmospheric agents.
- Teak is carefully selected to best express its technical and aesthetic qualities.
- The handmade mats have a lateral band that enriches the product.
- The modular sofa has large cushions made with a various-densities padding and a layer of viscoelastic material that embrace the seat with softness.
- The fabrics are resistant to atmospheric agents and can be comfortably cleaned of any stain without having to be unlined.

- *Lavorazioni industriali con taglio laser, utilizzo di estrusi di alluminio e punzonature delle lamiere custom.*
- *Le parti vengono assemblate manualmente in modo meccanico, tramite utilizzo di bussole in acciaio inox.*
- *I materiali delle componenti strutturali (alluminio, acciaio inox e acciaio zincato) e le relative finiture rendono il prodotto molto resistente agli agenti atmosferici.*
- *Il teak viene attentamente selezionato per esprimere al meglio le proprie qualità tecniche ed estetiche.*
- *I materassini, di fattura artigianale, presentano una fascia laterale che arricchisce il prodotto.*
- *Il divano componibile presenta una cuscinatura di grande dimensioni realizzata con imbottiture di varie densità ed uno strato di materiale viscoelastico che accoglie nella seduta con morbidezza.*
- *I tessuti sono resistenti agli agenti atmosferici e possono comodamente venire puliti da qualsiasi macchia senza dover essere sfoderati.*

Waterproof Covering / Telo Impermeabile

Coated fabric in PU
Tessuto monospalmato PU

- Artisanal finishes of the steel tube with hand-made weldings and attention to detail.
- External powder coating with galvanizing base, after sandblasting.
- Coatings and finishes are made with the utmost care, as per the Italian artisan-sartorial tradition, directly from Brianza design district.
- Nautical quality ropes, carefully wrapped by hand.
- The product does not keep production compromises and expresses the required design.
- The sofa is made with outdoor straps and different density padding, thus offering comfort equal to an indoor sofa, but with technical characteristics suitable for the outdoor environment.
- The fabrics are resistant to atmospheric agents and can be comfortably cleaned of any stain without having to be unlined.

- *Finitura artigianale del tubo in acciaio con saldature fatte a mano e curate nei dettagli.*
- *Verniciatura a polveri da esterno con fondo zincante, previa sabbiatura.*
- *Rivestimenti e finiture realizzati con la massima cura, come da tradizione artigianale-sartoriale Italiana, di estrazione brianzola.*
- *Corde di qualità nautica, avvolte attentamente a mano.*
- *Il prodotto non porta compromessi produttivi ed esprime il design richiesto.*
- *Il divano è realizzato con cinghie da esterni e imbottiture a densità diversificate, offrendo così un comfort pari ad un divano da interni, ma con caratteristiche tecniche adeguate all'ambiente esterno.*
- *I tessuti sono resistenti agli agenti atmosferici e possono comodamente venire puliti da qualsiasi macchia senza dover essere sfoderati.*
