B-1040 KAMPIONA 110

- Unire minimo impatto estetico ed efficienza meccanica: questo l'obiettivo e il risultato ottenuto con la Pensilina KAMPIONA, che garantisce una resistenza eccezionale ai carichi, pur in assenza di supporti o tiranti. Un profilo in alluminio studiato appositamente per permettere una salda presa del vetro e una tenuta solidissima una volta fissato al muro, sono il segreto di questa soluzione assolutamente innovativa. Il risultato estetico è da vedere: estrema pulizia e assoluta linearità del disegno, fanno in modo che il vetro sembri sospeso al muro per virtù propria. Questa è la magia della ricerca tecnologica che sta alla base della Pensilina KAMPIONA.
- The aim was to bring together aesthetic impact and mechanical efficiency and this was achieved with the KAMPIONA Canopy, which guarantees an exceptional level of resistance to loads even though there are no supports or stay rods. The secret of this highly innovative solution is an aluminium frame that has been especially designed to have a strong grip on the glass and to give a very firm hold once it is fixed to the wall. The aesthetic result is unmissable; extremely clean and a design that is absolutely linear making the glass seem attached to the wall on its own. This is the magic of the technical research that is the foundation of the KAMPIONA Canopy.
- Geringe Beeinträchtigung der Optik kombiniert bei wirksamer Mechanik: das ist das Ziel und Ergebnis des Vordaches KAMPIONA, das trotz des Fehlens von Halterungen oder Zugstangen maximale Tragfähigkeit garantiert. Ein eigens entwickeltes Alu-Profil, das eine sichere Glasaufnahme und einen perfekten Halt nach der Wandmontage garantiert, ist das Geheimnis dieser absolut innovativen Lösung. Die Optik ist sehenswert: die klare Linien führen dazu, dass das Glas von allein an der Wand befestigt erscheint. Dies ist die Faszination der technologischen Forschungsarbeit, die hinter dem Vordach KAMPIONA steht.
