ACCESSORI che fanno la differenza
/ ACCESSORIES that make the difference.

De Rosso si avvale di una collezione di accessori di design per corredare e armonizzare i suoi arredamenti.

De Rosso uses a design-accessories collection to supply and harmonize its furnishings.

Il repertorio di GAMBE IN METALLO è in grado di creare tavoli aventi forme, dimensioni e altezze diverse. Belle da vedere e tecnicamente perfette, sono previste per l'utilizzo con piani HPL o per piani in vetro.

The metal leg repertoire is able to create tables of different shapes, dimensions and various heights. Beautiful to see and technically perfect, they are organized for the use of Hpl and glass tops.

LE MENSOLE IN ALLUMINIO, DALLE LINEE NITIDE E RIGOROSE, creano scaffalature dove collocare oggetti e libri. Sono proposte nelle versioni a parete, in due profondità, o riposizionabili su montanti verticali.

THE ALUMINIUM SHELVES, WITH CLEAN AND STRINGENT LINES, create shelvings where can be placed objects and books. Proposed in the wall version, with two different depths, or repositionable on upright vertical columns.

GLI SPECCHI, disponibili in una varietà di dimensioni, sono incorniciati con eleganza da un sottile bordo di Alluminio.

MIRRORS available in different dimensions, are framed with elegance by a thin Aluminium frame.
