

PARLA^o

Design & Contract

**At Parla Design, we want to become
your 'Solution Partner'.**

We want to offer you the widest
variety of loose & fitted furniture, designed
with practicality, longevity, technology and
the latest trends in mind.

We want to offer you a high quality service that
eliminates all distribution and logistics issues.

And mostly, we want to make sure
you feel we add value to your project...

**Get in touch to find out
how we can help you realise your project!**

WHO WE ARE

An established Turkish furniture designer & manufacturer,

Parla is a third generation family owned business.

Seriously committed to supplying the best quality loose & fitted furniture, case goods and joinery.

Parla achieves this with a beautiful blend of very experienced traditional handcraft masters working with hi-tech Italian machinery.

Based in Istanbul, the 10.000 sq m factory is a hive of activity, producing over 30 containers of furniture a month.

MESSAGE FROM THE OWNERS

At Parla we not only believe in what we do, we also love what we do. As a family business in its 3rd generation, our ethos is to continue what our grandfather started and keep on pushing the boundaries to make it better. Our father taught us that we must take care of the customers and employees equally, and everyday we strive to achieve this... We have had occasions where we will not send the customer their order if we are not happy about one small detail, even if the customer says it is ok. For us it is so important to get the job done well, and work as a team to make that happen. We love to find out that customers are happy with the service and quality we offer and are telling others 'Parla is a reliable brand that gets everyone in their company.'

WHAT IS IMPORTANT TO US

EFFICIENCY & GREAT CUSTOMER SERVICE

Our efficient and dedicated customer service has allowed us to become a well respected 3rd generation furniture company. We pride ourselves to be dynamic, on point and able to become a dedicated solution partner to all of our customers.

QUALITY

We have stringent quality control systems in place. We use the finest quality materials and very high quality craftsmanship and Italian machinery to achieve an excellent finish that has a 2 year warranty. We also make sure we stay informed of current trends, work with well known British and International designers to create products that have style and substance.

ECO CREDENTIALS

We make our products from locally sourced materials that are produced in the most responsible manner. We believe in sustainability and take steps to lead the way in environmentally friendly manufacturing in Turkey.

PARLA ETHOS

We believe in delivering affordable luxury that is beautiful and robust. We have a young, dynamic and forward thinking team that become the client's partner from day one, making the journey with Parla a pleasure.

SOCIAL RESPONSIBILITY

We believe in youth, and the fact that they are the future. We support young and upcoming individuals by giving them training and jobs. We also get involved in projects that support disadvantaged groups of people in each country we do work in.

THE FACTORY

Combining state of the art Italian machinery with the highest quality bespoke craftsmanship, the factory spans 10.000 sq m, and has highly qualified and skilled in house teams that take on metalwork, woodwork and upholstery.

The factory has a great mix of age groups with the older generation handing down their skills to the apprentices, and the young designers guiding the makers to create contemporary pieces of furniture.

D

Every new design produced by Parla has to pass through stringent quality control tests. The physical durability of the products, such as 100,000 seatings for a chair are tested by specialized machines at the test centre in our factory. Also, the finishing and visual quality of the products are tested in detail by our Quality Control Team.

PARLA IN ACTION

Meetings

1 Choose a Parla Design Representative

Either from Turkey, Dubai or the UK, who can come and meet you face to face or invite you to the factory in Istanbul to experience Parla's impeccable customer service in well spoken English.

2 Brief Your Parla Design Representative

Including all details, the design scope and the vision.

Analysis of Requirements & The Design Process

3 Select Your Items

Select items from Parla's own collections or request bespoke items. From sketch to final product Parla are able to offer alternatives and can also design and craft bespoke products.

4 Evaluate Your Quote

Parla Design sends you a design proposal & quotation.

Value Engineering & Prototyping

5 Approve Your Order Sample

In fabric and wood finish samples are required they are sent to you for approval.

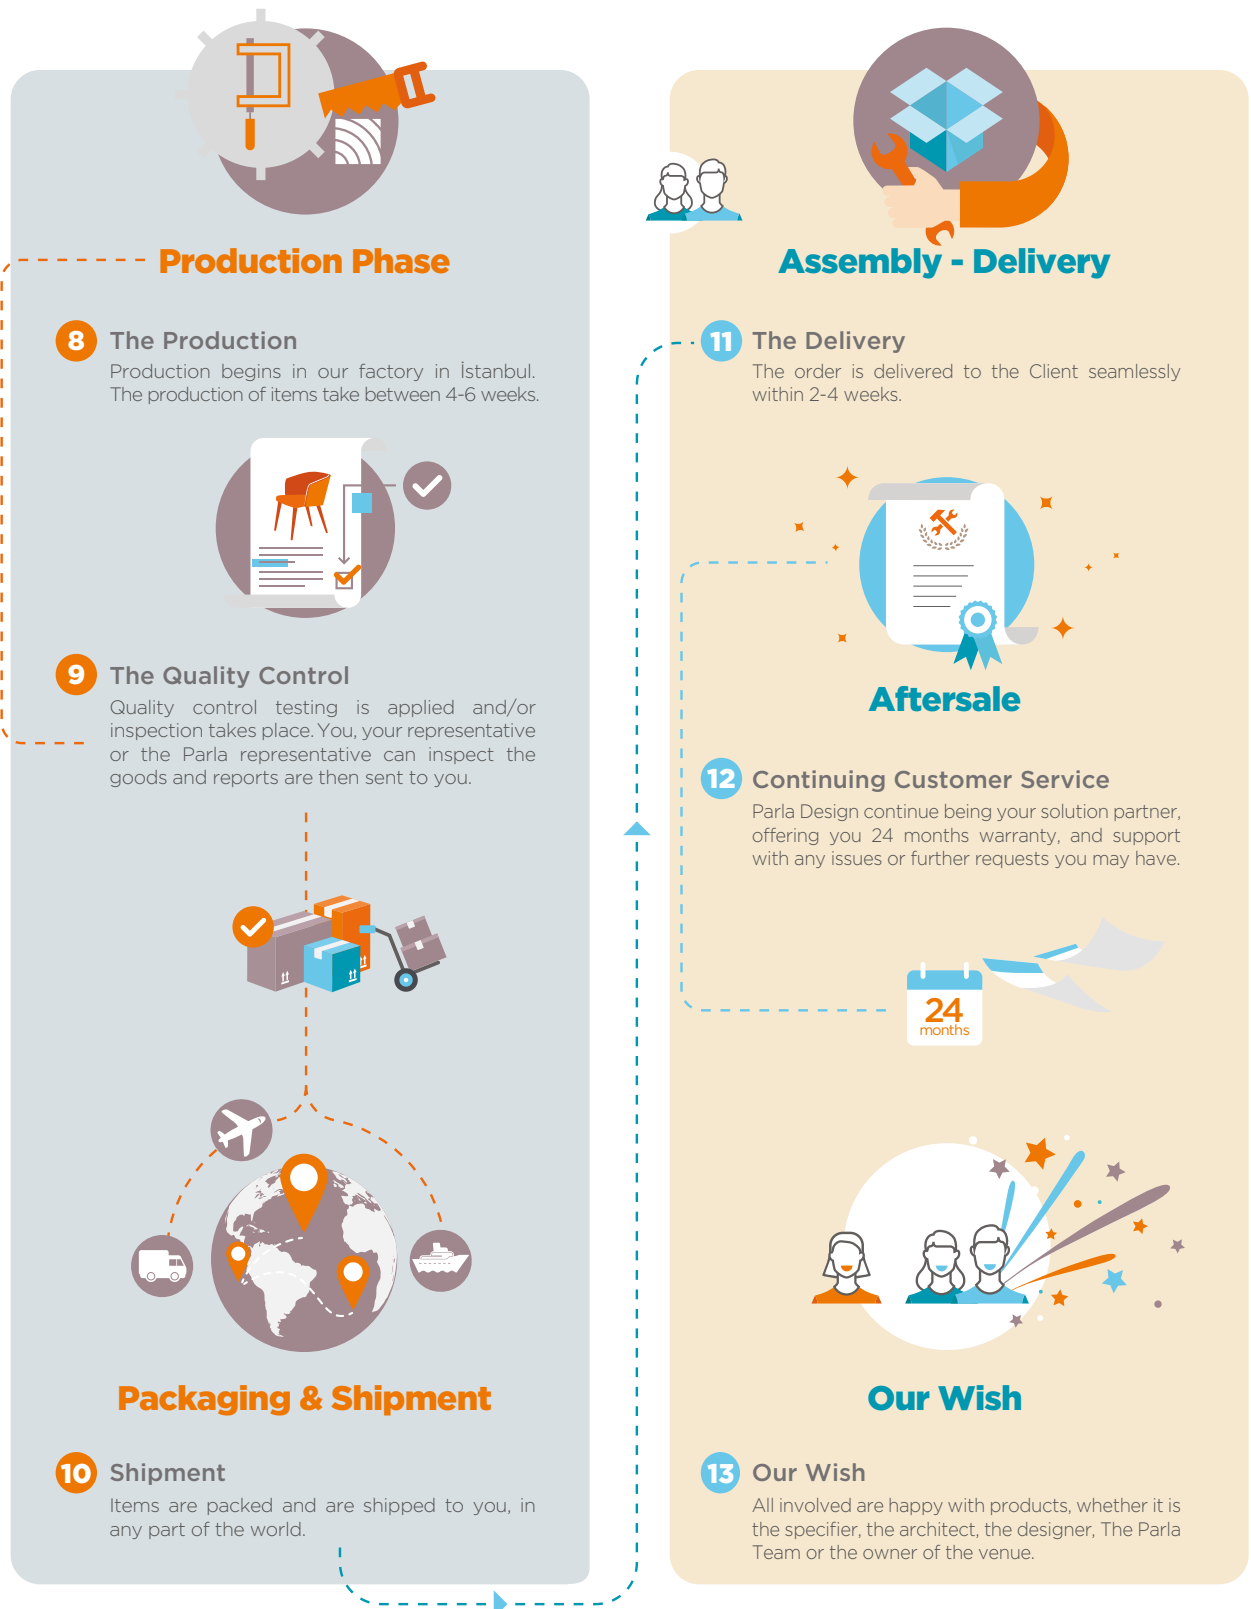

6 Approve Your Prototype

If the project requires it, a prototype is created and sent to you for approval.

7 Approve Your Order

By accepting Parla's drawings and/or order confirmation documents that you have received by email.

Parla Design becomes your 'solution partner' from the first day of meeting you and make sure all aspects of the service they deliver is of the highest quality and efficiency. Parla Design is proud to be a young, dynamic and efficient team of designers, craftsmen and sales people who are easy to communicate with, make you their priority and get things sorted fast.
