The image shows a close-up of a fabric with a complex, textured pattern. The primary colors are various shades of red and pink, ranging from light, dusty pinks to deep, vibrant reds. The pattern consists of large, irregular, overlapping shapes that resemble stylized flowers or petals. The texture of the fabric is visible, showing a fine, woven or knitted structure. In the upper left corner, there are small, distinct patches of green and blue, suggesting a multi-colored design. The lighting is even, highlighting the subtle variations in the fabric's texture and color.

Lastre in Kerlite come una tela bianca su cui Cotto d'Este ha dipinto bellezza e suggestione. Una creazione mai vista, Wonderwall è la prima collezione in cui la decorazione artistica da parati incontra il gres porcellanato ceramico ultrasottile: tante idee e suggestioni grafiche per trasformare in modo magico ed emozionante gli spazi in cui viviamo.

Meravigliose decorazioni dalla profonda matericità e dal design elegante, stampate con una nuova esclusiva tecnologia che permette di raggiungere risultati estetici e cromatici di altissimo livello, assolutamente superiori alle tradizionali tecnologie usate nel settore ceramico.

Lastre grandi, in gres porcellanato rinforzato con fibra di vetro, sottili e leggere come carta da parati ma resistenti, che non temono l'umidità, sicure e garantite nel tempo, perfette per i progetti di interior design che ambiscano a dare agli spazi architettonici un'atmosfera unica e prestigiosa.

Wonderwall, opere d'arte in Kerlite.

Kerlite slabs like a blank canvas on which Cotto d'Este has painted beauty and elegance.

A creation never seen before, Wonderwall is the first collection where artistic wallpaper decoration meets ultra-thin ceramic porcelain stoneware: countless ideas and design suggestions to reinvent the spaces in which we live in a magical and exciting way.

Fabulous decorations with great texture and elegant design, printed using a new and exclusive technology which achieves very high quality aesthetic and chromatic results, far superior to those achieved by the standard technology used in the ceramic industry.

The large porcelain stoneware slabs with fibreglass mesh are thin and light like wallpaper yet strong, resistant to humidity, safe and guaranteed to last over time, making them perfect for interior design projects which seek to give architectural spaces a unique and prestigious feel.

Wonderwall, works of art in Kerlite.
