Drawings, bas-reliefs, tapestries, murals: walls have always been an open invitation to expression, experimentation and fun. On their surfaces, boundaries are blurred between past and present, distance and proximity, reality and imagination.

It is here that the luminous effects of Dedar handcrafted moiré wallcoverings collection transposes a sense of freedom and magic to the walls which come to life in many colours: from an intense blue or deep red to a fresh yellow.

With the Tableaux Vivants wallpapers collection, the perception of the wall is no longer merely visual, but tactile too. The delicacy of the sculptural effect results in a lively relief that gives walls the typical character of marble inlays, oriental porcelains or refined ceramics. Drawings of Far Eastern landscapes, mysterious alphabets and wild natural environments whisk us off to times remote and distant continents. A timeless space, the wall surface assumes different colours and motifs to enter into a playful dialogue with the surrounding architectural elements.
