**Elements** è il nuovo progetto di Wall&decò che amplia l'offerta di prodotto rispondendo alla sempre crescente tendenza all'immediatezza: si propone come un prodotto pronto per la spedizione, che declina il modello creativo di Wall&decò su un formato a pattern.

Vengono così reinterpretati motivi iconici del mondo dei macro-soggetti di Wall&decò, ora dedicati al formato ready-made: un avvicinamento alla categoria della carta da parati classica, ma con un'importante novità: nuove proposte sulla modalità di installazione, che scardinano proprio il concetto di 'rapporto' standard, per confermare la natura creativa di Wall&decò.

Le grafiche possono essere installate seguendo schemi differenziati, che si allontanano dal presupposto di pattern ripetitivi, a riprova della volontà di conferire una identità creativa al prodotto e quindi al progetto stesso.

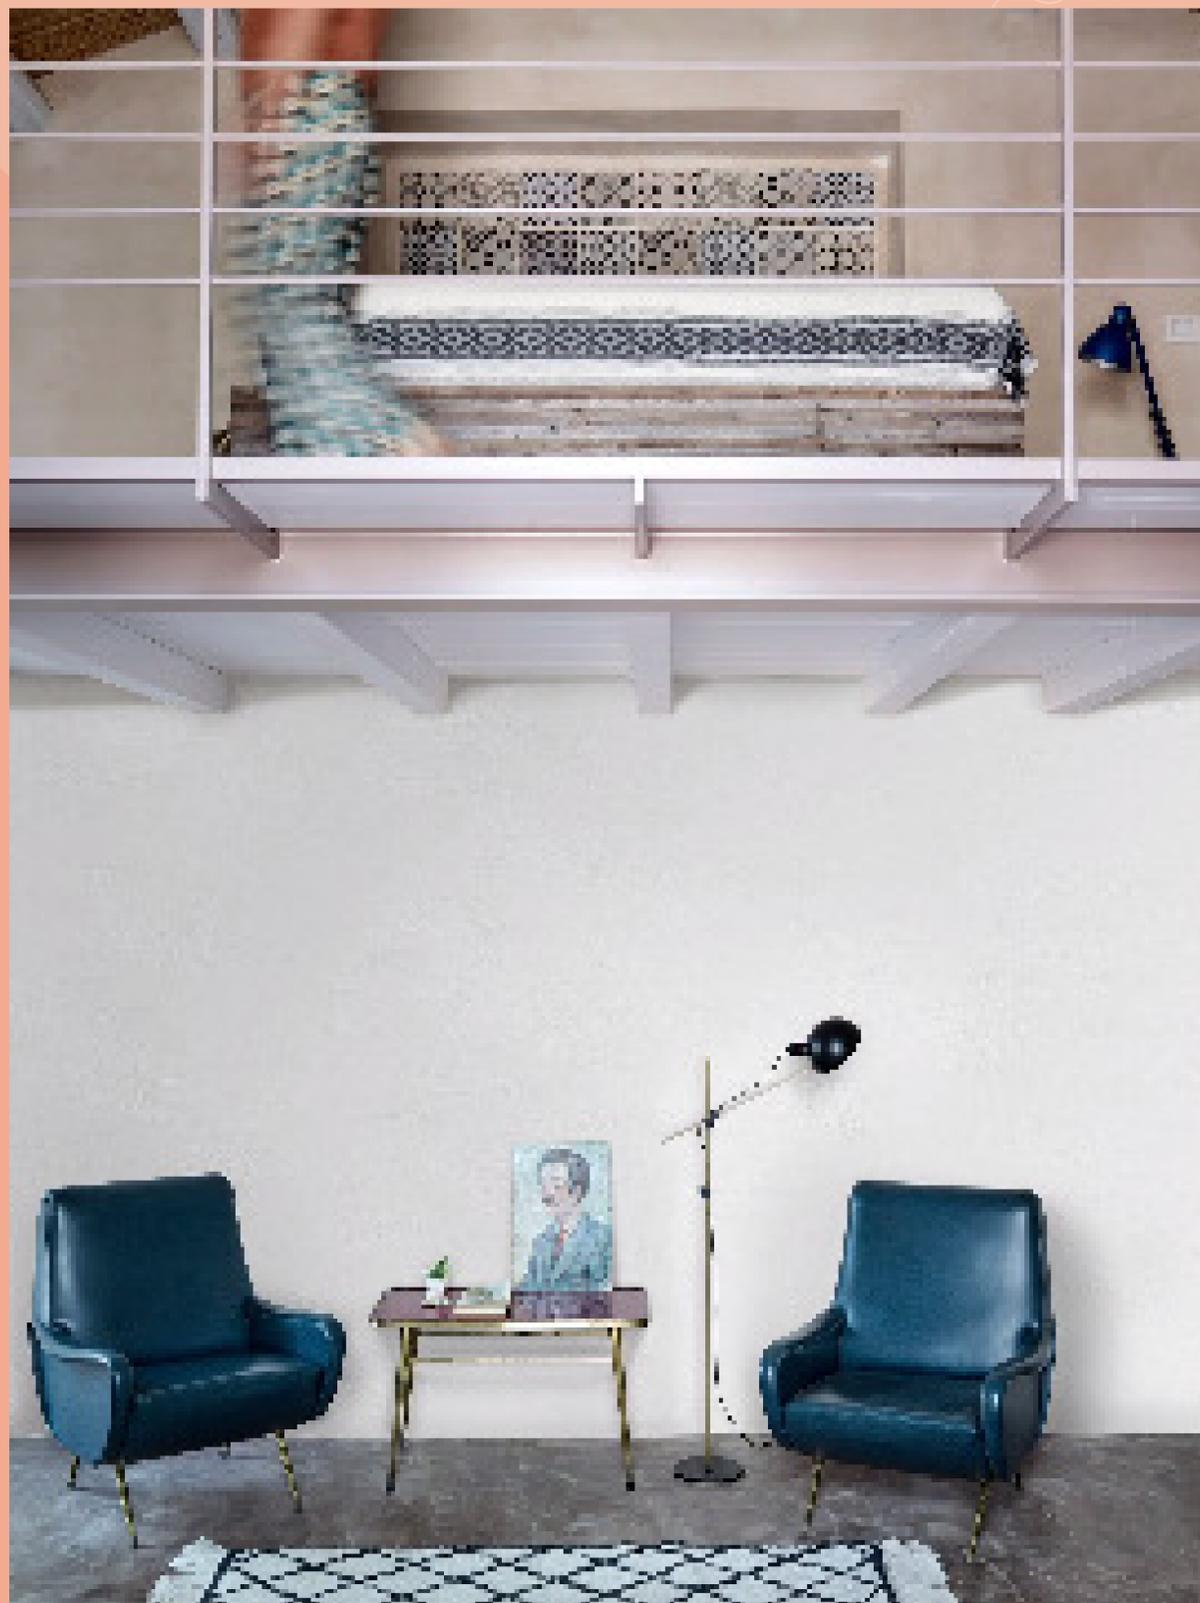

**Wall&decò Elements:** un prodotto in pronta consegna, di impronta più tradizionale, ma che non tradisce le aspettative nella ricerca creativa, da sempre tratto distintivo del brand.

**Elements** is the new project by Wall&decò that expands the product range in response to the growing trend towards immediacy: it comes as a ready-to-ship product, which declines Wall&decò's creative model on a pattern format.

In this way, iconic motifs from the world of Wall&decò's macro-subjects are reinterpreted, now dedicated to the ready-made format: an approach to the classic wallpaper category, but with an important novelty, new proposals on the installation method, which undermine the concept of the standard 'pattern repeat', to confirm the creative vision of Wall&decò.

The graphics can be installed following unconventional schemes, which move away from the assumption of repetitive patterns, as proof of the desire to give a creative identity to the product and therefore to the project itself.

**Wall&decò Elements:** a product in prompt delivery, with a more traditional approach, but that does not betray the expectations of creative research, which has always been a distinctive feature of the brand.
