PASINI 50TH ANNIVERSARY

50 years of history turned us from a small local producer to an international handles manufacturer company with its own brand.

Nowadays the door handles PFS Pasini are sold in more than 30 countries all over the world.

Our family has been working in the brass field for over 50 years and since then we always propose new solutions born from the combination of tradition and innovation.

OUR MAJOR STEPS

The company Pasini was founded in 1967 as a siderurgical workshop and today in 2017 in the middle of a very complicated and changeable economic situation, we achieved many important goals like the building of a strong network in four different continents. In 2008 PFS Pasini becomes partner of i-Design which is a manufacturer of door handles, pulls and accessories for doors and windows, very well placed on the Italian market. At present i-Design brand is owned by Pasini together with the PFS Pasini brand. They complete each other and offer a wide choice of door handles, pull handles, knobs and accessories for doors and windows. Pasini Group, created in 2009, is specialized in the contract sector and in the development of custom made products in order to satisfy every special request coming from all over the world.

OUR VALUES

ENVIRONMENT RESPECT

The valley where we are situated is a source of inspiration: we want to preserve it. For this reason we are always looking for new environmentally-friendly solutions.

LOCALITY & GLOBALITY

Our company is situated in the middle of the Brescia valley, near Lake Garda, in the district of the metals working. Today our door handles are sold in over 30 countries all over the world.

CERTIFICATIONS

Our products are certified and reach the highest quality standard according to the European law PrEn 1906:2007. All our products are completely **MADE IN ITALY**.

CREATIVITY

Our door handle company is very dynamic and this allows us to satisfy the needs of our clients. Our engineers and designers work with you to understand every request and realize it.

OUR ORIGINS

Our family works in the brass field for over 50 years and since then we always propose a production between tradition and innovation.

DYNAMISM AND ATTENTION TO THE CLIENT

Our products suit every client request, from the high line of luxury handles and pull handles to the easy to install solutions, from the most sophisticated style to the more minimal design.

CERTILOGO AUTHENTIC PFS PASINI PRODUCTS

Pasini is the first door handle company worldwide to certify the authenticity of its products, thanks to a partnership with CERTILOGO, specialized company used by the most prestigious brands in the world.

Nowadays more than 50 brands use this certification to ensure their customers the authenticity of their products and helping fight counterfeits

Thanks to a secure seal, every single piece of our production is marked and tracked, creating a real Identity card of the product.

To fully assure that the article you purchased is an authentic PFS Pasini product, it is enough to follow these steps:

- Look for the Certilogo tag on our products with the CGL code of 12 numbers;
- Scan the QR code with your smartphone or visit the Certilogo web site and enter the code associate to the product.

A close-up, artistic photograph of a gold watch case. The watch features a circular dial with a fine, pebbled texture. The case is adorned with elaborate engravings, including a large, stylized floral or leaf-like motif on the right side and a smaller, intricate design on the left. The lighting is warm and focused, highlighting the metallic sheen and the depth of the engravings against a dark background.

Two white, rectangular door handles are shown against a dark, textured background. One handle is positioned vertically, and the other is positioned horizontally, overlapping the first. A small, square logo is visible on the horizontal handle.

i-Design

Design that stands out

i-Design is a Pasini brand of door handles, pull handles and accessories for doors and windows where the innovation meets the design

FILO! DK and FILO! BK are a new way to see the window handles.

Filo!_{DK}

Filo!_{BK}

These two patented systems are an innovative and technological window handles fixing system. **T**hey reduce to only 6 mm the thickness of the rosette giving your handle a modern, slim and elegant design. **T**he new system Filo! BK is also equipped with an internal block mechanism that is always activated. **T**he self block works in every position and can only be unlocked through a pin. **SECURITY:** to unlock the window handle you always have to use two hands, in this way you are sure that the window is always blocked and the children safe.

WHY SHOULD YOU CHOOSE THE NEW FILO!50 SYSTEM?

ROSE FILO!50

Designed by PFS Pasini, FILO!50 is the new low-profile system for rose, 5 mm thickness and 50 mm diameter. Available on round and square design, FILO!50 rose and escutcheon are only 5 mm thick. All the components are made of iron, ensuring excellent resistance over time. Thanks to the innovative fixing system this new rose and escutcheon is ready to install, there is no need of further drilling or milling on the door.

- MODERN DESIGN • 5 MM THICKNESS • 50 MM DIAMETER
- BACK TO BACK SCREWS – 38 MM CENTER TO CENTER • GUARANTEE OVER TIME
- EASY AND FAST INSTALLATION
- ROSES PRE-FITTED WITH NO RISK OF SCRATCHING DURING INSTALLATION

HOW WE MAKE YOUR IDEAS COME TRUE

YOUR DREAM

Tell us your desire, your idea, the style and the materials to use, together we create a preliminary draft. It is enough to tell us which material you want to use and the style you prefer. We take care of the rest.

DESIGN

Our idea is carefully examined from our engineers and designer that make it become possible. The design phase is the most important step, where all the entire process is planned. It is at this stage that what it was only a dream comes to life.

PROTOTYPE

Thanks to a 3-D printer or handmade in clay from our sculptor, we realize a prototype of your desire object.

THE PRODUCT

Once the prototype is ready, our designer optimizes the final drawing of your idea that will be followed in every details during the production phase.

YOUR CREATION

This is the latest phase, that makes your dreams come true.
