

PASINI

Touch the Pasini style

made in Italy

Since 1967

Quattro anni sono passati dall'ultimo catalogo della Pasini. I 4 anni che più di tutti hanno cambiato l'economia mondiale e il mondo del lavoro in Europa come mai successo prima.

Anche la nostra azienda in questi quattro anni è cambiata molto, per non perdere le nuove opportunità del mercato e per continuare il suo percorso di crescita in tutto il mondo.

Oggi presentiamo il **nuovo catalogo** con la collezione completa dei prodotti Pasini.

L'eleganza, il calore e lo stile dei nostri prodotti, costituiscono ormai una firma di qualità nel panorama delle maniglie Made in Italy. In questo momento difficile, ancora più di prima, continuiamo a investire in innovazione, in creatività e in idee per migliorare la nostra competitività e qualificare sempre più il marchio Pasini nel mondo.

Un grazie a tutti i nostri collaboratori che hanno contribuito in maniera determinante in questi anni a sostenere il nostro progetto e a tutti quelli che si apprestano a sfogliare questo nuovo catalogo. Oggi ci presentiamo con una gamma tra le più complete a livello internazionale di maniglie e accessori di alta qualità, che esprime al meglio il lavoro che da due generazioni siamo orgogliosi di offrirvi.

Four years have passed since the last Pasini Catalogue. The four years that have changed more than any others in an unprecedented way the world's economy and the world of work in Europe.

Our firm has also changed dramatically these last four years, so as not to miss the new opportunities the market offers and to continue its trend towards greater growth all over the world.

*Today we are presenting our **new catalogue** with the complete collection of the Pasini products.*

The elegance, the warmth and the style of our products constitute a sign of quality in the world of handles made in Italy. At these times of great difficulty, in which all is harder than it has been ever before, we continue to invest in innovation, creativity and new ideas with an aim to improve our competitiveness and qualify more and more the Pasini trademark all over the world.

A big thank you to all our collaborators who have greatly contributed during these last years to sustaining our project and to all those who are willing to leaf through this new catalogue.

Today we are presenting a new range of high quality handles and accessories which figures among the most complete on an international level. It shows at its best the work done through two generations which we are proud to offer you.

Storia

History

I prodotti PASINI PFS esprimono il lavoro che ci appassiona e che da due generazioni siamo lieti di offrirVi.

Our PASINI PFS products are expressions of the work that constitutes our life-long passion and that we are glad to offer our clients generation after generation.

1967 OFFICINA SIDERURGICA

La PASINI, nasce nel 1967 dalla fatica, dall'intelligenza e dalla lungimiranza dei suoi fondatori, i fratelli Giuseppe e Florido. Nati come artigiani della pulitura del metallo, instancabili lavoratori, attenti osservatori dell'evoluzione commerciale, non tardarono ad organizzare una produzione originale ed a commercializzarla sul mercato.

1967 SIDERURGICAL WORKSHOP

PASINI came to being in 1967 as a fruit of the effort, the intelligence and foresightedness of its founders, brothers Giuseppe and Florido. Originally craftsmen in the field of metal polishing, indefatigable workers and careful observers of commercial processes, they did not take long to organize an original production and to launch their creations on the market.

1974 FONDERIA

Ieri come oggi, la fusione e lo stampaggio della barra di ottone forgiata a caldo, sono attività del processo produttivo altamente monitorate. Supportate dall'esperienza personale e da moderni macchinari, oggi ancora più di ieri, queste attività sono garanzia di una resistenza maggiore e una buona durata nel tempo delle nostre maniglie.

1974 FOUNDRY

Yesterday, like today, smelling and stamping of the heat-forged brass bar are all closely monitored activities that make up the production process. Sustained by personal experience as well as modern equipment, today, even more than in the past, these activities provide further guarantee of the great resistance and long durability of our handles.

2010 VISTA ESTERNA DEL CAPANNONE

Lo stabilimento si trova a Sabbio Chiese, in provincia di Brescia a metà strada tra il lago di Garda (Salò) ed il lago d'Ildro (Idro).

2010 OUTSIDE VIEW OF THE FACTORY

The factory is located in Sabbio Chiese, in the province of Brescia halfway between Lake Garda (Salò) and Lake Idro (Idro).

2012 FOTOVOLTAICO

In una epoca dove l'inquinamento industriale rischia di rovinare il nostro ambiente e il nostro benessere viene sempre più compromesso, noi stiamo producendo energia pulita con un impianto fotovoltaico.

Il rispetto per l'ambiente è il rispetto per il nostro futuro!!

2012 PHOTOVOLTAIC SYSTEM

In an era in which industrial pollution risks spoiling our environment and our well-being is more and more seriously compromised, we are producing clean energy by means of a photovoltaic system.

This is respect for the environment and for our future!!

General Manager & Planning and Production
Manager

Creare è la nostra filosofia, **Serietà** è la nostra priorità,
Dinamismo è la nostra forza.

Distinguersi, è l'opportunità che vi diamo...

Creating is our philosophy, **Professionalism** is our top priority,
Dynamism is our strength.

Distinguishing yourselves, is the chance we are offering you...

Pasini Philosophy

Valori

1. SIAMO FELICI

Siamo felici perché ci piace quello che facciamo.

2. SIAMO LOCALI E GLOBALI

La nostra azienda si trova in mezzo alle valli bresciane, nel distretto produttivo della lavorazione dei metalli. Le nostre maniglie sono presenti in oltre 30 paesi nel mondo.

3. SIAMO PICCOLI CREATIVI

La nostra è una piccola impresa e questo ci permette di rispondere velocemente ai bisogni dei nostri clienti lavorando a stretto contatto con i nostri creativi.

4. ABBIAMO UNA STORIA

Siamo la seconda generazione d'impresa, la nostra famiglia lavora nel settore dell'ottone da oltre 40 anni.

5. IL RISPETTO PER L'AMBIENTE È UN NOSTRO VALORE

La valle pedemontana che ospita la nostra produzione è prima di tutto la nostra casa. Vogliamo preservarla intatta per i nostri figli e per la nostra comunità. Per questo siamo sempre alla ricerca di nuove soluzioni dove la bellezza delle forme dona piacere ai sensi rispettando l'ambiente e il territorio da dove prendiamo ispirazione.

6. VOGLIAMO COSE BUONE

I nostri prodotti sono tutti certificati e la nostra faccia è la migliore garanzia di qualità.

7. CI RIVOLGIAMO PROPRIO A VOI

I nostri prodotti spaziano dallo stile più sofisticato a quello più sobrio, da prodotti di lusso e alto di gamma a soluzioni più economiche di facile installazione.

Values

1. WE ARE HAPPY

We are happy because we love what we do.

2. WE ARE LOCAL AND GLOBAL AT THE SAME TIME

Our company is located in the valleys of the province of Brescia, in the industrial estate noted for the manufacture of metals. Our handles are present in over 40 countries all over the world.

3. WE ARE SMALL BUT CREATIVE

Ours is a small company and this is what enables us to give prompt responses to all our clients working side by side with the people involved in the creation of items.

4. WE HAVE A STORY TO TELL

We are the second generation in the company and our families have worked in the brass segment for over 40 years.

5. THE ENVIRONMENT IS A PRECIOUS VALUE

The piedmont valley which hosts our production is, above all, our home. We want to preserve it intact and uncontaminated for our children and for our community. It is for this reason that we are always in search of new articles where the beauty of shape gives pleasure to the senses and respects the environment and the territory where we draw on all our inspiration.

6. WE WANT GOOD THINGS

Our products are all certified and our faces are the best guarantee of good quality.

7. WE ARE HERE JUST FOR YOU

Our products range from the most sophisticated to the more sober style, from luxury items ranking highest on the scale to more economical articles which are easier to fit.

I nostri Designers

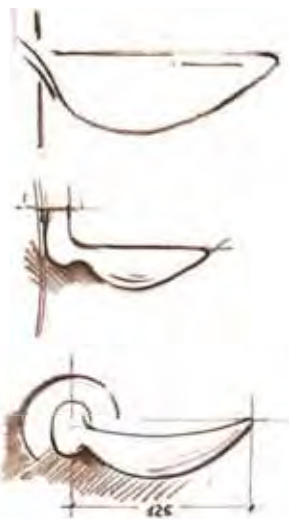

Angiolino Dolcetti, Designer

Angiolino Dolcetti si diploma al Liceo Artistico V. Foppa di Brescia. Frequenta l'Istituto Europeo di Design e da subito inizia a progettare e realizzare prototipi di nuove forme nel settore della maniglieria, del casalingo e regalo, dell'illuminazione di interni ed esterni, del mobile d'arredo in legno, resine, metallo e vetro; collabora con le aziende alla ricerca di nuove tecnologie per la lavorazione, il trattamento del metallo e di altri materiali impiegati nella produzione dei suoi progetti.

Angiolino Dolcetti è un designer che da sempre trasferisce negli oggetti da lui creati l'amore per l'arte e la competenza tecnica, connubio che rende le sue creazioni apprezzate e richieste ovunque.

Da quasi 20 anni ha legato il suo sodalizio di collaborazione con la famiglia Pasini e più di tutti ha contribuito a creare lo "Stile Pasini" firmando le maniglie che hanno portato al successo il marchio "PFS Pasini" in tutto il mondo.

Angiolino Dolcetti obtained his diploma from the High School Liceo Artistico V. Foppa in Brescia. He attended the European Institute of Design and almost immediately started designing and making prototypes with novel shapes in the segment of handles, household goods and gifts, from interior and exterior lighting, to furniture in wood, resins, metal and glass. He worked in conjunction with companies in his constant search for new working techniques, for the treatment of metals and of other materials used in the production of his projects.

Designer Angiolino Dolcetti has always transferred to the objects of his creation his love of art and technical competence, a blend which makes his creations greatly appreciated and widely requested everywhere.

For nearly 20 years he has worked in collaboration with the Pasinis and has given his all-important contribution to the conception of the "Pasini Style", signing the handles which have earned the company the success of the trademark "PFS Pasini" all over the world.

Pasini Backstage

Our Designers

Daniela Seminara, Designer

Daniela Seminara, PhD in Design & Comunicazione Multimediale, svolge l'attività di designer a 360° con particolare attitudine per lo sviluppo di nuovi prodotti. In continua sperimentazione tra arte, design e ricerca, Daniela si dedica al mondo del progetto in modo personale e originale, sempre cercando coerenza tra reali bisogni, estetica e producibilità.

Laureata al Politecnico di Milano, Facoltà de Design nel 2004, ha lavorato con Paola Bucciarelli, architetto in Hbgroup, progetto per l'Utenza Ampliata, Gianni Arduini, industrial designer, provvisti ADI (Associazione Disegno industriale Italiano) e fondatore de EIDD. Supporto alla docenza dal 2005-2010 con prof. Francesco Zurlo, Emmanuel Gallina (designer), Carlo Magistretti (industrial director), prof. Giuliano Simonelli, prof. Venanzio Arquilla. Ha svolto progetti di ricerca sul design strategico per Poli.design e per il dipartimento INDACO del Politecnico di Milano dal 2007 al 2009.

Nel 2007 con Pasini lancia il marchio 'PASS move into design' per promuovere la linea di maniglie e maniglioni Plus, presentata al Fuorisalone del Salone del Mobile di Milano nel 2007.

Vincitrice di numerosi premi e riconoscimenti internazionali, dal 2011 vive a Barcellona, dove ha fondato con Marta Gordillo e Manel Durò IN-TENTA creative design group, studio creativo che intrecciando idee tra design di prodotto, architettura e fotografia offre da piccole produzioni semiartigianali a microarchitetture urbane, sempre privilegiando un cammino dove sostenibilità, produzione locale e usabilità trovano una opportunità produttiva.

Daniela Seminara holds a PhD in Design & Multimedia Communication and works as an all-round designer, focusing on the creation and development of new products.

Constantly experimenting in art, design and research activities, Daniela works in the context of projects and designs in her own personal and innovative way with a view to seeking coherence between the actual needs, aesthetics and feasibility of the product.

She graduated from the School of Design at the Milan Polytechnic in 2004 and boasts collaborative experiences with Paola Bucciarelli, architect of Hbgroup, a project for wide-target market, with Gianni Arduini, industrial designer, as an arbitrator for ADI (Association for Italian Industrial design) and is the founder of EIDD.

From 2005 to 2010 she worked as an assistant to Prof. Francesco Zurlo, Emmanuel Gallina (designer), Carlo Magistretti (industrial director), Prof. Giuliano Simonelli and Prof. Venanzio Arquilla. From 2007 to 2009, she also conducted research projects on strategic design for Poli.design and for the INDACO, a department of the Milan Polytechnic.

In the year 2007, in conjunction with Pasini, she launched the trademark 'PASS move into design' so as to promote the line of handles and pull handles known as Plus, presented at Fuorisalone at Salone del Mobile held in Milan in 2007.

Daniela has won numerous awards and international recognition prizes and has lived in Barcelona since 2011, where she has set up together with Marta Gordillo and Manel Durò the creative design group IN-TENTA. The group blends various ideas related to product design, architecture and photography and offers small urban micro-architectural semi handcrafted productions choosing a line of action which makes for better opportunities for product creation combining sustainability, local production and usability.

Ignazio Bonusi+Francesco Tocchella, Designers

Materico il primo, di una riservata creatività sempre incisiva. Poliedrico e volubile il secondo. Ignazio è architetto, formatosi nel campo dell'architettura pura. Francesco ha assorbito l'eccentricità e l'irriverenza di Vivienne Westwood durante l'esperienza lavorativa dalla regina del punk. Si "scontrano" a Milano, dove subito nasce un incontro di anima e mente spesso in conflitto. Sono l'uno il completamento dell'altro. Dal disordine dei loro scontri nasce l'ordine dei loro progetti.

Lo studio Atelier Due architettura e design è il braccio delle loro menti, supportate da altre menti diversamente creative. Spaziano dall'architettura pura, all'interior design fino al design di prodotto.

www.atelierdue.it - www.youtube.com/user/AtelierDue - info@atelierdue.it - press@atelierdue.it

Inclined to the art of matter the former, with a reserved and always incisive creativity. Multifaceted and voluble the latter.

Ignazio is an architect trained in the segment of pure architecture. Francesco has absorbed the eccentricity and irreverence of Vivienne Westwood during his working experience with the queen of punk.

They "come face to face" with each other in Milan, and they immediately click in soul and mind, two spheres which are often in conflict.. One represents the completion of the other and the disorder of their confrontations gives rise to the order of their projects.

The studio Atelier Due Architettura e Design carries out the ideas conceived by their minds, in turn supported by other minds of a different creativity.

They cover the range which goes from pure architecture through interior design up to the product design.

Elements

...Distinction

Elements

Delfino, Pantera, Airone
Dolphin, Panther, Heron

La lavorazione dei metalli
esprime un tributo continuo a
uno dei quattro elementi della
natura: IL FUOCO.

Con la serie 'Elements'
abbiamo voluto dare forma anche
agli altri tre elementi.

Il 'Delfino': simbolo d'ACQUA

La 'Pantera': simbolo di TERRA

L'Airone': simbolo dell'ARIA.

*Metalwork pays a permanent
tribute to one of the elements
that compose the universe,
according to ancient
traditions: THE FIRE.*

*Our line 'Elements'
represents the need to evoke
also the other three elements.*

*We have reproduced
the 'Dolphin' as a WATER symbol
the 'Panther' as a EARTH symbol
the 'Heron' as a AIR symbol.*

IL DELFINO

é il nostro simbolo dell'acqua: é uno degli animali più intelligenti.

Forte e coraggioso é dotato di notevole curiosità, mansueto e disponibile é uno degli animali più amabili.

La dolcezza delle linee, la forma elegante e snella fanno di questo maniglione il giusto compendio architettonico per case sobrie abitate da persone veramente amabili.

THE DOLPHIN

is our symbol of water. It is one of the most intelligent animals.

Strong and courageous it has an outstanding curiosity. It is tame, helpful and friendly.

The sweetness of its lines and its elegant and slender shape causes this pull handle to be the proper architectural compendium of sober houses inhabited by truly goodnatured people.

Peso - kg 2,85
Weight - kg 2,85

L'AIRONE

é il nostro simbolo dell'aria.
Vive in ambienti sani, ama l'acqua, ha una straordinaria capacità ed eleganza nel volo.

La grazia e la bellezza dell'animale sono trasferite nell'oggetto in modo deciso e ne fanno un maniglione particolarmente adatto a porte di case eleganti e raffinate.

THE HERON

*is our symbol of air.
Lives in a healthy environment and loves water.
It has an extraordinary flying capacity and it is remarkably elegant.*

The charm and beauty of this animal are indisputably materialised in this product and give rise to the creation of a pull handle which is particularly suitable for doors of really elegant and refined houses.

LA PANTERA

È il nostro simbolo della Terra.

È un animale di grande forza ma soprattutto dall'agilità e dalla velocità straordinarie; grande cacciatore sa bene proteggere la prole.

È adatto per una casa ben protetta i cui abitanti sono assai dinamici e grintosi.

THE PANTHER

is our symbol of earth.

It is an animal of great strength and chiefly of an extraordinary agility and velocity.

It is an expert hunter that knows perfectly well how to protect its offspring.

It is the right pull handle for a well-protected house whose inhabitants are extremely dynamic and energetic.

CERTIFICATO DI QUALITÀ

Noi della **PASINI METALS PRODUCTIONS S.R.L.** certifichiamo che i nostri prodotti sono completamente ideati, progettati e realizzati in Italia.

Tutte le nostre maniglie sono sottoposte ad esigenti test di qualità, rispondendo pienamente alle vigenti norme europee quali la **PrEN 1906:2007 "Building hardware – Lever handles and knob furniture – Requirements and test methods"** che prende in esame separatamente le prestazioni e l'impiego delle maniglie a leva e a pomolo rispetto alle chiusure anti effrazione e tagliafuoco secondo le norme EN 1634-1, EN1634-2, EN 1634-3 ed ottenendo una certificazione non inferiore al **grado 3**.

Lungo tutto il processo produttivo garantiamo una continua supervisione del prodotto soprattutto nelle fasi di finitura ed assemblaggio, per assicurare così ai nostri collaboratori una eccellente qualità, in linea con le richieste dei clienti.

Infine tutti i nostri articoli sono stati testati anche per misurare eventuali cambi di tono o decadimenti cromatici dovuti a fenomeni ambientali, superando pienamente severissimi cicli artificiali di invecchiamento in laboratorio.

QUALITY CERTIFICATE

We, **PASINI METALS PRODUCTIONS S.R.L.**, certify that our products are completely projected and manufactured in Italy. All our handles are quality tested according to **PrEN 1906:2007 "Building hardware – Lever handles and knob furniture – Requirements and test methods"** All our handles respect the minimum **grade 3** according to **prEN 1906:2007** test.

Regarding the lacquering of our products. All our items respect the minimum **grade 4** according to **EN 1670:2007/AC "Building hardware – Corrosion resistance – Requirements and test methods"** dated March 2008, which is part of **prEN 1906:2007** test.

Moreover all our items passed very strong tests to measure the colour's tone change producing the decay due to environmental phenomena with artificial and quick ageing cycles.

MANIGLIE E ACCESSORI BAGNO IN OTTONE - HANDLES AND BATHROOM FITTINGS IN BRASS

PVD FINISH

Finitura in PVD Rivestimento metallico sottovuoto in zirconio denominato PVD (Physical Vapor Deposition)

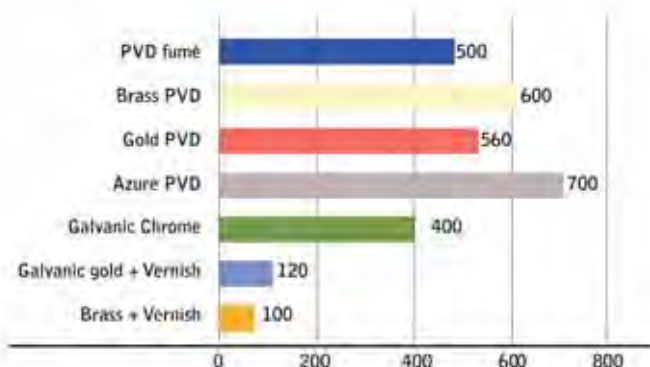

Incrementa notevolmente la resistenza all'usura e all'abrasione assicurando una più lunga durata del prodotto e il mantenimento di brillantezza e stabilità del colore nel tempo.

PVD Finishing Metallic zirconium vacuum coating named PVD (Physical Vapor Deposition) increases the resistance to wear, abrasion and rubbing action, granting a longer life, better brightness and colour stability to our products.

PVD FINISH TEST

Resistenza all'abrasione: La prova di sfregamento comparata è eseguita con detersivi comuni applicato su un panno strofinando sulla superficie metallica fino all'usura della stessa.

Rubbing resistance: Comparative rubbing test made with common domestic usage detergent on a cloth which has been rubbed on metallic treated surface until spoiling it.

STAINLESS STEEL TEST

MANTENANCE TIPS

The ordinary cleaning of our accessories must be effectuated every 4-6 weeks using a smooth cloth.
For cleaning and maintenance of PVD surfaces we suggest you to use a smooth cloth with alcohol.

CONSIGLI DI MANUTENZIONE

La pulizia ordinaria dei nostri accessori deve essere effettuata ogni 4-6 settimane utilizzando un panno morbido.
Per la pulizia ed il mantenimento delle superfici in PVD suggeriamo l'utilizzo di un panno morbido inumidito con alcool.

Pasini Metals Productions Srl

MANIGLIE, MANIGLIONI E ACCESSORI IN OTTONE E ACCIAIO INOX

Condizioni generali di vendita

- 1- Gli ordini diretti oppure assunti dai nostri agenti o rappresentanti sono subordinati alla nostra approvazione.
- 2- I prezzi si intendono IVA esclusa e FRANCO FABBRICA.
- 3- La merce viaggia sempre a rischio e pericolo del compratore anche se venduta franco destino. In mancanza di particolari accordi la spedizione verrà effettuata con mezzi a scelta della venditrice e senza responsabilità alcuna da parte di questa. Le eventuali assicurazioni concernenti i trasporti devono essere assunte dal compratore e gli oneri relativi saranno a carico dello stesso, salvo diversa pattuizione.
- 4- Decorsi otto giorni dal ricevimento della merce, il compratore decadrà da qualsiasi diritto di reclamo per vizio o mancanza di qualità o di peso delle cose compravendute. In caso di tempestivo reclamo, le merci dovranno essere tenute integralmente a disposizione della venditrice per eventuali controlli; la compratrice non potrà farne uso o manometterle, neppure in minima parte, sotto pena di decadenza del diritto di reclamo.
Ove la venditrice riconosca fondato il reclamo, la stessa non avrà altro obbligo che quello di sostituire le merci, le quali dovranno essere preventivamente restituite nell'originale stato di presentazione. Ogni ammanco od avaria saranno ad esclusivo carico del compratore.
- Le misure dei nostri articoli, espresse in millimetri, devono intendersi approssimative e pertanto la venditrice declina ogni responsabilità in ordine alla loro esattezza per eventuali contestazioni.
- 5) Pagamento: Il pagamento delle fatture deve essere effettuato direttamente alla nostra sede in Sabbio Chiese, Via dei Montini 1 entro la scadenza stabilita. In caso di ritardato pagamento verranno applicati gli interessi di mora. La merce rimane di proprietà della Pasini Metals Productions Srl, fino al completo pagamento.
- 6) Ci riserviamo il diritto di modificare le caratteristiche dei nostri articoli o di correggere eventuali difetti in ogni momento senza preavviso ai clienti.
- 7) Per qualunque contestazione resta espressamente convenuta la competenza esclusiva del Foro di Brescia.
- 8) Il committente, sottoscrivendo ordinazione, dichiara di conoscere ed accettare integralmente tutte le condizioni suesposte, come pure quelle manoscritte o dattiloscritte sul contratto.

HIGH QUALITY STAINLESS STEEL and BRASS HANDLES, PULL HANDLES AND ACCESSORIES.

General sales conditions.

- 1- All direct orders and those placed by our agents, are subject to our approval.
- 2- Prices are intended ex-works and V.A.T. excluded.
- 3- Goods are forwarded at the buyer's own risk, even when the sale is carriage free. Unless otherwise stated, the means of transport for the forwarding will be chosen by the seller without any responsibility whatsoever on his part. Unless otherwise agreed, all possible insurance regarding transport must be contracted by the buyer and all expenses deriving from it will be at the buyer's own charge.
- 4- Eight days after receipt of the goods, the buyer will decline every right to any claims for defects, shortcomings in quality or in weight of the object of the sale. In the event of claims promptly placed, the goods will have to be kept at the seller's complete disposal for any checks that may be required. The buyer is not entitled to make use of or tamper with these goods - not even slightly - as this may cause invalidation of any right of claims or complaints.
In the event of the seller recognizing the validity of the claim, he will be obliged to replace the goods, and these will have to be returned in their original state and condition. Any expenses deriving from damage (e.g. battering, denting, etc) found in the goods will be at the buyer's entire charge.
In the event of any contention arising for possible inexactness in the measures of our items, which are expressed in millimetres, the seller declines every responsibility as these must be intended only as approximate.
- 5- Payment: payment of invoices must be effected directly to our registered office in Sabbio Chiese, Via dei Montini, 1 within the established deadline. Delayed payments will involve the application of interests. Until payment has been effected in full, property of the goods will lie with Pasini Metals Productions S.r.l.
- 6- We reserve the right to alter the features of our items or of correcting possible defects at any moment and without any prior notice.
- 7- In case of contentions that might arise, it is expressly established that the competent authority is that of the Court of Brescia.
- 8- By placing orders, the buyer declares that he knows and completely accepts all the above conditions as well as those handwritten or typed in the order(s).

LA DIREZIONE SI RISERVA IL DIRITTO DI NON CONSEGNARE A TERZI, ARTICOLI PRESENTI A CATALOGO COPERTI DA CONTRATTI DI ESCLUSIVA.
