Concrete lighting solutions by Lucifero's

Real concrete, up to 80% less in weight!

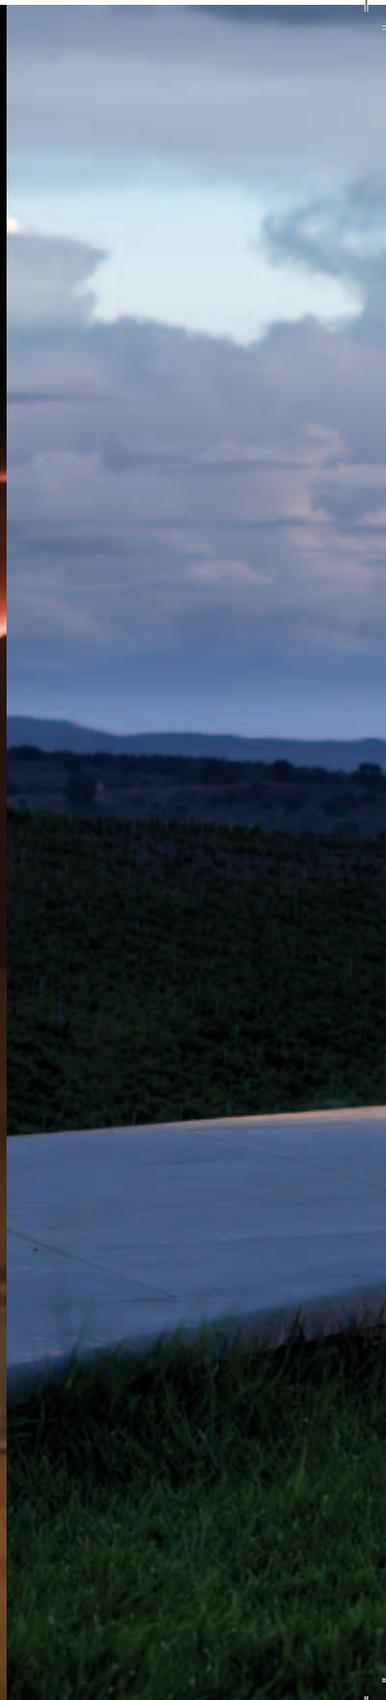

Lucifero's architectural lighting showcases its latest outdoor and indoor contemporary lighting made out of concrete up to 80% less in weight, thanks to a special innovative technological process.

Real cement touch, texture and durability.

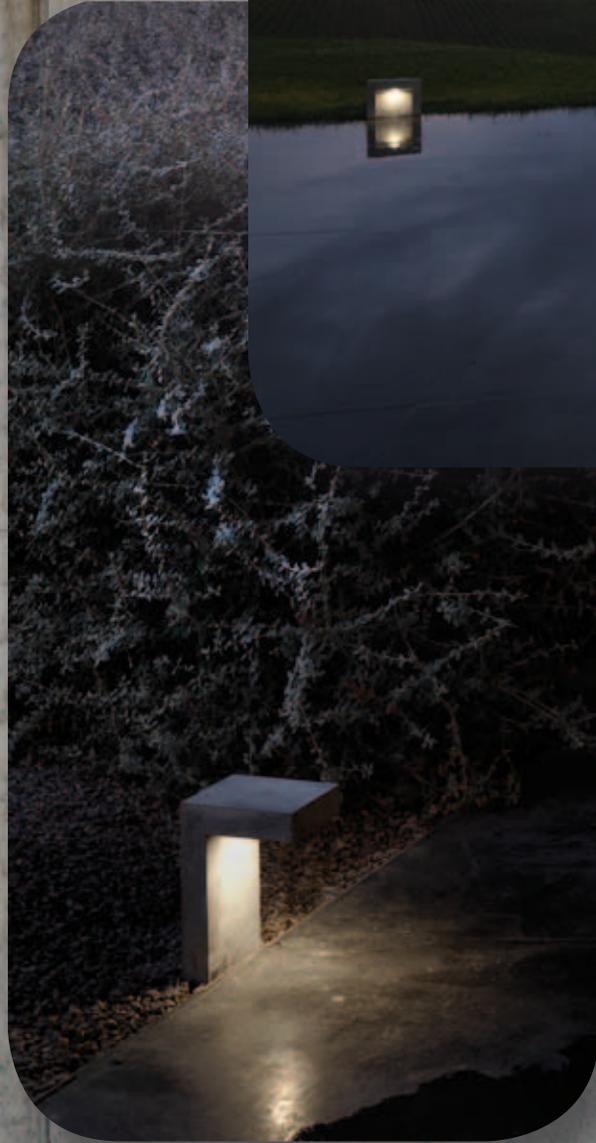

The I Cementi collection includes illuminated benches, planted ground, free standing, suspended donuts and wall mounted fixtures all LED.

Visit www.luciferos.it for further info and to request a complete catalog available this October.
