## MOMENTI

### MOMENTI D'ARTE APPLICATA

Nel 2005, Matteo e Alexander Bagnai iniziano un percorso fra imprenditorialità e inventiva, dedicato alla casa e ai suoi elementi. Si avvicinano al mondo del design imparando sul campo le prime regole, per poi crescere man mano e maturare un proprio percorso di formazione artistica. La passione per la creatività si esprime sin da subito con l'ideazione di una serie di complementi e la prima produzione è una linea di specchi, realizzata con un mix fra materiali semplici e lavorazioni preziose, come il mosaico.

**Il risultato è un'alchimia suggestiva che caratterizza oggetti unici.**

In un'ottica di apertura mentale - ma anche imprenditoriale - Matteo e Alexander decidono successivamente di coinvolgere altri artisti nell'ideazione di complementi, quadri, carte da parati e ceramiche. Questo per ampliare il concept di prodotto, così da assecondare un mercato internazionale sempre più esigente e selettivo che costantemente richiede emozioni, ma al tempo stesso è attento alla qualità di tutto il percorso creativo: dall'idea alla produzione, dalla comunicazione alla commercializzazione.

Gli elementi per proporsi al mercato internazionale ci sono tutti: sensibilità estetica, arte, tecnica, cura del dettaglio, visione internazionale, Made in Italy.

### OGGI E DOMANI

**MOMENTI**, l'azienda creata dai fratelli Bagnai, è forte oggi di numerose collaborazioni fra designers e artisti, fra grafici, illustratori e artigiani. Per **MOMENTI** lavorano su progetti condivisi personalità e competenze diverse, con lo sguardo rivolto a un futuro che intende divulgare la qualità del Made in Italy, un'eccellenza desiderata in tutto il mondo da chi ricerca prodotti altamente personalizzabili e perfettamente coordinati.

È nel DNA di **MOMENTI** ricercare, sperimentare, creare... se da un lato non è semplice, poiché la creatività non segue un percorso netto, dall'altro l'idea di marchio voluta da Matteo e Alexander consente di intraprendere percorsi eterogenei, andando ad attingere fra aspirazioni in costante movimento. È come se ogni volta si partisse per un nuovo viaggio con destinazioni tutte da scoprire - e nel corso di questo viaggio può capitare di trovare una piccola boutique nascosta che vende abiti su misura, ma confezionati prima di tutto per l'anima.

E a proposito di anima e di sentimento, ecco che **MOMENTI** propone oggi l'idea di "Italian Custom Design" per oggetti/soggetti e superfici, anche tattili e tridimensionali, attraverso quattro collezioni per la casa, l'ufficio e il settore contract.

### MOMENTS OF APPLIED ART

In 2005, Matteo and Alexander Bagnai began a journey between business and creativity, dedicated to the home and its elements. They approached the world of design by learning its rules directly on the field, to a consequent growth that led to ripen a personal artistic path. The passion towards creativity emerges since the very beginning with the conception of a series of accessories and the first production concerns a line of mirrors, realized with a mixture of simple basic materials and precise handwork such as mosaic.

**The result is a sort of evocative alchemy that permeates these unique objects.**

With an open-minded - but also an entrepreneurial - spirit, Matteo and Alexander later decide to involve other artists in the creation of accessories, paintings, wallpapers and ceramic tiles. This to broaden the concept of their products, so to indulge in an international market that is more and more demanding and selective, constantly asking for more emotions, but also pays a particular attention to the quality of the whole creative process: from the idea to its production, from communication to sales.

The elements for an international business approach are all in line: aesthetic sensibility, art, technique, love for details, international vision and Made in Italy features.

### TODAY AND TOMORROW

**MOMENTI**, the business created by the Bagnai Brothers collects various collaborations with artists, designers, graphic artists, illustrators and artisans. In the name of **MOMENTI**, different personalities with different abilities are working on shared products, glancing to a future that could spread the quality of Made in Italy, a worldwide excellence desired by who looks for customizable products perfectly coordinated.

Creating, experimenting, researching all reside in **MOMENTI's** DNA... Whether it's not simple, since creativity doesn't follow a straight path, or not, the Brand idea desired by Matteo and Alexander allows undertaking mixed paths, suggested by ever-changing ambitions. It feels just like starting a new journey with unknown destinations to discover - and during this itinerary it may happen to spot a small boutique selling custom-tailored clothing, mostly made for the soul.

It's all about soul and feelings, that's why today **MOMENTI** suggests the idea of "Italian Custom Design" for objects and subjects and surfaces, both tactile and tridimensional, through four collections for the house, the office and the contract industry.

## MOMENTI

“

L'esigenza di creare e di mettersi in gioco sono le carte vincenti di **CRAZY HOME - CRAZY PAPER - CRAZY TILE**, un nuovo modo di pensare, di vedere e concepire l'ambiente per renderlo più tuo.

Non vogliamo essere un prodotto del nostro ambiente, ma l'ambiente che ci circonda deve essere un nostro prodotto.

Insieme al nostro team, bellissima banda di "artisti pazzi", abbiamo dato vita, materia e colore a superfici lavorate ad arte.

Le nostre collezioni nascono da prove di materiali liquidi e materici; nella continua ricerca di una finitura diversa, ecologica, indistruttibile e allo stesso tempo entusiasmante, come una dolce tortura.

Con il disegno siamo riusciti a comunicare sensazioni ed emozioni che diversamente non saremmo riusciti a dare.

Nascono così quadri, mobili, rivestimenti e oggetti d'arredo dalla forte impronta artistica e vestiti d'immagini forti, dolci, tenebrose e toccanti.

**Il risultato è ARTE applicata al DESIGN QUOTIDIANO.**

The need to create and be involved are **CRAZY HOME - CRAZY PAPER - CRAZY TILE's** trump cards, a new way of thinking, seeing and conceiving the habitat to make it yours.

We don't want to be a product of our habitat, but the habitat that surrounds us must be our product.

Together with our team, a wonderful gang of "crazy artists", we gave life, substance and colour to surfaces worked to perfection. Our collections born from tests on liquid and tactile materials; from the continuous research of a different finishing: ecological, indestructible and exciting at the same time, like a sweet torture. With these drawings we were able to communicate sensations and emotions that we wouldn't be able to give in any other way.

This is how paintings, furnitures and decorative objects are born, distinguished by a strong artistic mark and coated with powerful, sweet, dark and impressive images.

**The result is ART applied to the EVERYDAY DESIGN.**

## CRAZY HOME PAINTINGS COLLECTION

Il brand **CRAZY HOME** è stato ideato e progettato con l'utilizzo di una semplice "esplosione di materia".

È noto che viene sempre più sentita, da parte degli utilizzatori finali, la necessità di creare ambienti più rigidamente conformi a regole ecologiche volte a salvaguardare la salute degli utilizzatori. **Momenti** mette a punto un procedimento che consente di realizzare elementi di arredo che riportino immagini, figure, astrattismi o simili e che, pur mantenendo le proprie caratteristiche funzionali nonché di resistenza meccanica e durata nel tempo, siano, tuttavia, attuati con tecniche e materiali biocompatibili ed ecologicamente sostenibili.

I supporti utilizzati per l'applicazione del composto elaborato da Momenti possono essere di vario genere:

- **PANNELLI COMPOSITI IN LEGA DI ALLUMINIO** con interposto un core di polietilene che è il più semplice dei polimeri sintetici e il più presente in natura, sul quale vengono applicate resine.

- **ECOPANNELLI IN CELLULOSA** riciclata e riciclabile al 100% con kraft bianco di cellulosa. Questo tipo di supporto è ecologico, riciclato, riciclabile, leggero ed economico.

- **PANNELLI IN PMMA.** Il polimetilmetacrilato (in forma abbreviata PMMA) è una materia plastica formata da polimeri del metacrilato di metile. Di norma è molto trasparente, più del vetro, al punto che possiede caratteristiche di comportamento assimilabili alla fibra ottica per qualità di trasparenza, e con la proprietà di essere più o meno in percentuali diverse, infrangibile a seconda della sua "mescola". Momenti utilizza esclusivamente PMMA prodotto in Italia, riciclato, riciclabile al 100% e certificato dagli enti preposti.

- **PANNELLI IN PARTICELLE DI LEGNO** realizzati mediante l'utilizzo di materiale legnoso di recupero, evitando l'abbattimento di nuovi alberi. Per questo prodotto sono stati utilizzati collanti a basso contenuto di formaldeide.

Il processo di lavorazione avviene nel massimo rispetto delle norme ambientali vigenti. A questi supporti viene poi applicato il composto di resine idrorepellenti atossiche prive di odori e di facile pulizia.

Le resine sono conosciute fin dalla antichità e hanno sempre trovato un vasto impiego, soprattutto per le loro proprietà filmogene, adesive e idrorepellenti. Da sole o più spesso in mescolanza con altre sostanze, compaiono in antichi ricettari per creare prodotti utilizzati come film protettivi, trasparenti, isolanti e per preparare stucchi e opere d'arte.

Tutti i prodotti della collezione sono stampati con sistema certificato GREENGUARD. Il Greenguard Environmental Institute (GEI) dirige e amministra il programma di certificazione prodotti GREENGUARD.

GEI è una organizzazione indipendente senza scopo di lucro, fondata per creare ambienti interni più sani, migliorando così la salute pubblica e la qualità della vita. Un comitato consultivo, formato da esperti nel campo della qualità dell'aria degli interni, della salute pubblica e di architettura ecosostenibile, sottopongono a revisioni il programma di certificazione GREENGUARD e ne garantiscono l'accettazione.

Essere certificato da GREENGUARD significa che il prodotto e l'inchiostro con il quale è stato stampato sono stati testati contro le emissioni inquinanti all'interno degli edifici seguendo severi metodi di laboratorio.

Oggi **CRAZY HOME** usa questa tecnica per produrre opere d'arte dei nostri giorni, grazie a esperti artigiani e alla conoscenza e all'uso del colore, dell'immagine e del gusto di arredare ed emozionare.

Questa è la vera essenza ed espressione del **MADE IN ITALY**.

The **CRAZY HOME** collection has been conceived and planned by the use of a simple "material outburst".

It is well-known that end users feel an increasing need to create rooms which are strictly in line with the ecological rules aiming at safeguarding the users' health.

**Momenti** defines a procedure which allows to realize furnishing elements reproducing images, figures, abstract art or similar, which, while maintaining their functional features as well as their mechanical resistance and long life, are also created by the use of biocompatible and sustainable techniques and materials.

The supports employed for the application of the compound elaborated by Momenti can be of different types:

- **COMPOSITE ALUMINUM ALLOY PANEL** with an interposed core of polyethylene, which is the simplest of the synthetic polymers and the most present in nature, on which resins are applied.

- 100% recycled and recyclable **CELLULOSE ECO-PANELS** with white cellulose kraft. This kind of support is ecological, recycled, recyclable, lightweight and economical.

- **PMMA PANELS.** The polymethyl methacrylate (shortened in PMMA) is a plastic material composed by methyl-methacrylate polymers. Normally it is extremely transparent, more than glass, at the point that it features behaviours similar to those of the optic fiber for what concerns transparency and owns the property of being, in different percentages, unbreakable, depending on its base mixture.

Momenti uses exclusively PMMA panels manufactured in Italy, recycled, 100% recyclable and certified by the authorities in charge.

- **WOODEN PARTICLES PANELS** created by the use of salvaged wooden material, thus avoiding the cutting of new trees. Low-formaldehyde glues have been used for this product.

The working process takes place in full respect of the current environmental regulations. Our compound is then applied to these supports, which is made of non-toxic, odor-free, water-repellent and easy to clean resins.

Resins have been known since antiquity and have always found a wide application, especially for their film-forming, adhesive and water-repellent properties. Alone, or more often mixed with other substances, the resins appear in ancient recipes to create products used as protective, transparent, insulating films and to prepare stucco and works of art.

All products of the collection are printed with GREENGUARD certified system.

The Greenguard Environmental Institute (GEI) manages the GREENGUARD Product Certification Program. GEI is an independent non-profit organization founded to create healthier indoor environments, thus improving public health and life standards. An advisory committee, consisting of experts in the field of quality of indoor air, public health and eco-friendly architecture, submits to revision the GREENGUARD Certification Program and ensures its acceptance. Being certified by GREENGUARD means that the product and the ink with which it was printed were both tested against the emission of pollutants inside the buildings following, strict laboratory methods.

Nowadays **CRAZY HOME** uses this technique to produce works of art of our days, thanks to skillful artisans and to the knowledge and use of colour, images and taste to furnish and excite.

This is the true essence and expression of **MADE IN ITALY**.

## GIULIO IURISSEVICH

Italy

Illustratore, grafico specializzato in fashion, lifestyle, beauty. È anche artista urbano. Giulio si concentra sulla figura umana e soprattutto sulle lievi sfumature di espressione in ritratti di volti femminili. Le sue eroine sono fragili e sensibili e la bellezza delle sue immagini non sta nella precisione dell'esecuzione, ma nell'espressione delle emozioni.

Illustrator, graphic and urban artist since 1998.

Based on - and inspired by - the tradition of figurative art, Giulio Iurissevich focuses on the human figure and especially on the slight nuances of expression in the portraiture of girls faces.

Sensitive and fragile Giulio Iurissevich's heroines seem vulnerable and troubled, yet intensely sensual.

## DALEK

USA

James Marshall, meglio conosciuto come Dalek, è un pittore Americano conosciuto principalmente per essere il creatore del personaggio della Space Monkey.

È conosciuto anche per le sue fotografie, murales e illustrazioni.

L'artista ha trovato la sua voce e la sua identità nella subcultura dei graffiti, del punk rock e dello skateboarding. Disegnata per la prima volta su un muro del Connecticut nel 1995, la Space Monkey che è diventata sinonimo del nome Dalek, è cresciuta e si è evoluta dall'amore di Marshall per la cultura pop giapponese, la "vibrazione" derivante dalla scena punk, dalla street art e dai cartoon. Marshall spiega che la Space Monkey non è affatto una scimmia, ma un topo - il suo concetto di essere umano perso in un mare crescente di tecnologia e comodità. La Space Monkey diventa l'alter ego di Dalek, un mezzo attraverso il quale esprime le sue emozioni, idee e preoccupazioni.

Marshall continua ad esplorare la dinamica del tira e molla tra forze opposte - lo spazio tra rigidità e fluidità. C'è un'abbondanza di lampi di colori e piani multipli, sotterranei e quasi impercettibili momenti che lavorano in armonia per definire spazio e movimento.

James Marshall, better known as Dalek, is an American painter best known for his Space Monkey character. He is also known for his photography, murals and illustrations.

The artist found his voice and identity in the subcultures of graffiti, punk rock and skateboarding. First rendered on a wall in Connecticut in 1995, the Space Monkey that has become synonymous with his name grew and evolved from Marshall's love for Japanese pop culture, the "vibe" of the punk scene, street art and cartoons. Marshall maintains that the Space Monkey is not a monkey at all, but a mouse—his concept of a human being lost in a growing sea of technology and convenience. Space Monkey became Dalek's alter ego, a medium through which he expressed his emotions, ideas and concerns.

Marshall continues to explore the push and pull dynamics of opposing forces—the space between rigidity and fluidity. There is an abundance of flashing colours and multiple planes, subtle and almost unperceived moments working in harmony to define space and movement.

## MARCO GRASSI

Italy

Marco Grassi è nato a Milano nel 1966. Artista di livello mondiale, vive e lavora a Mariano Comense, Como.

“La cultura pittorica di Marco Grassi si è sempre mossa nell'alveo di una tradizione figurativa che lui ha orientato e rivoltato, con risolutezza e determinazione, all'ambito – non facile – del ritratto. Protagonista delle sue tele o delle sue carte sono le persone o, in generale, l'uomo. In queste predomina, su tutti gli altri soggetti, principalmente la bellezza eterea e sfuggente, delicata e perfetta di giovani donne.”

Marco Grassi was born in Milan in 1966. He's a world class Artist. He lives and works in Mariano Comense, Como.

“The pictorial culture of Marco Grassi has always been that of the figurative tradition that he has plotted and addressed with resolution and determination in the notably difficult area of portraiture. The characters in his canvases and works on paper are persons, or humankind in general. Of the subjects of the portraiture, what predominates is the ethereal and fleeting and the delicate and perfect beauty of young women.”

## HONET

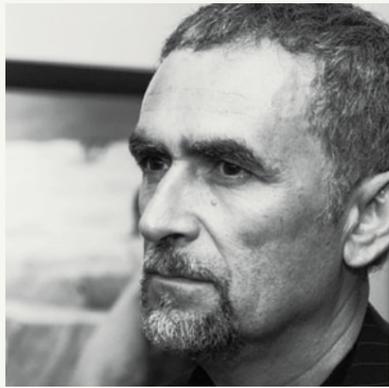

France

Honet aveva 15 anni quando scoprì e si innamorò dei graffiti e ben presto divenne un punto di riferimento nella scena parigina prima di divenire riconosciuto a livello mondiale per il suo approccio eccentrico.

È dopo qualche tempo che passa dalla bomboletta al pennello e passa dai muri della città alle gallerie.

Il suo lavoro è profondamente ispirato dalla sua vita in costante movimento insieme alla sua romantica esplorazione del mondo – dall'Europa all'Asia. Il suo tratto inconfondibile così come le sue composizioni grafiche attira marchi di lusso tanto quanto la street fashion e le istituzioni globali.

Honet was 15 when he discovered and fell in love with graffiti and quickly became a reference in the Parisian scene before gaining worldwide recognition for his leftfield approach. It is later on that he add a brush on top of his can of spray-paint and moved from city walls to galleries. His work is deeply inspired by his life in constant movement together with his romantic exploration of the world - from Europe to Asia. His unmistakable sharp lines and graphic compositions appeal just as much to luxury brands, street fashion and global institutions.

## CARLO RAVAIOLI

Italy

Carlo Ravaioli nasce nella campagna ravennate e, già a 10 anni, dipinge i suoi primi quadri a olio dell'ambiente agreste in cui vive. La sua formazione artistica spazia per un lungo periodo alla ricerca della propria dimensione tra molteplici linguaggi e discipline. Si interessa di fumetto, illustrazione, fotografia, si iscrive per qualche anno alla facoltà di architettura, si diploma come illustratore anatomico e negli anno '80 apre uno studio di grafica pubblicitaria. Dopo pochi anni decide di sposare la pittura come principale forma di espressione artistica. Le sue mostre, in tutta Italia e all'estero, risalgono alla fine degli anni '70 ed è presente con le sue opere, oltre che in prestigiose gallerie d'Italia, su importanti pubblicazioni d'arte e case d'asta. Alcune sue illustrazioni compaiono in un testo di educazione artistica e in una mostra al British Museum di Londra.

Carlo Ravaioli was born in the countryside around Ravenna and, at 10 years old, starts painting his first oil landscapes of the farmland he lives in. His artistic formation encompasses a long research of its own dimension between many languages and disciplines. He shows interest in comics, illustration, photography and enrolls for a few years at the university, choosing the Architecture branch. He graduates as an anatomical illustrator and in the eighties opens a graphic advertising studio. His exhibitions, all across Italy and abroad, start at the beginning of the seventies and his works are featured in prestigious Italian galleries as well as on many art publications and auction sales. Some of his illustrations appear on an educational text and in a permanent exhibition at the London British Museum.

## REVE+

Italy

Reve artista Italiano, inizia nel 2011 a fare i primi disegni in strada ed avvicinarsi al mondo della street art disegnando animali di piccolo formato firmandoli con un +. Successivamente inizia con le affissioni con carta che gli permettono di raggiungere misure fino ai 5 metri di altezza, così da essere visibili a tutti. Di lì a poco inizia a pitturare con Asta e Rullo, metodo che gli permette di disegnare animali di grandi dimensioni, come su case, ed edifici abbandonati.

Reve, Italian artist, starts painting in the street in 2011 and approaches the world of street art by drawing small animals and signing them with a +.

He later begins practicing billposting, allowing him to reach 5 mt in height, so to be publicly visible. He then starts painting with pole and roll, a method that permits painting huge animals on houses and abandoned buildings.

## GWER

Netherlands

Rutger Paulusse (Gwer) è un illustratore che si focalizza principalmente su design web e stampabili, giocando con forme grafiche, forti colori, dimensioni e spazialità.

Iniziò tutto in giovane età con i graffiti. Il giovane Gwer realizzò immediatamente il potere che una bomboletta, un pennello o una penna potessero sprigionare. L'ossessione per i graffiti si manifestò rapidamente in una transizione naturale verso la calligrafia.

Dopo essersi laureato alla St.Joost Art School, ha realizzato che lo stile e la creatività sono più importanti nel mestiere di designer di tutto quello che aveva imparato in classe. Si trasferisce quindi a New York, per assaporare come davvero funziona il mondo del design. Ha lavorato per la rinomata agenzia Vault49, dove ha migliorato le sue capacità di illustrazione e grafica. Dopo aver accresciuto la propria esperienza a New York, ha sentito di dover riportare il suo stile di nuovo in Olanda. Negli ultimi anni è stato abbastanza fortunato da espandere rapidamente il proprio portfolio con clienti come: KLM, LG, Nuon, Ford, Flexa, Citroën, KPN, Tommy Hilfiger, Spinawards e ADCN per citarne alcuni.

Rutger Paulusse (Gwer) is an illustrator focusing on designs for online and print, playing around with graphic shapes, bold colours, dimensions and space. It all started back in the day with the graffiti wall. A youth who realized the creative power that a spray can, paint brush or pen could hold. This obsession with graffiti quickly manifested itself into a natural transition to Typography. After graduation at the St. Joost Art School he quickly realized that personal style and creativity were more important to a designer's work than anything he learned in the classroom. He then moves to NYC to get a taste of how the real design world operates. He worked for the highly regarded Vault49 agency where he got his groove on improving his illustration and CGI skills. When he had broadened his skills in NYC and knew he had to bring his funky style back to the homies.

In recent years he's been lucky enough to rapidly expand his portfolio counting in his clients: KLM, ING, Nuon, Ford, Flexa, Citroën, KPN, Tommy Hilfiger, Spinawards and ADCN to name a few.

## DARREN HOPES

UK

Dopo aver conseguito un Bachelor's Degree in Design e Fotografia con Orificenza, Darren ha lavorato con illustrazioni e produzioni artistiche per gli ultimi 18 anni. Ha prodotto lavori per centinaia di clienti, incluso il logo per le Olimpiadi Londinesi, un libro per la Folio Society e pubblicità per conto di BMW, il Mayfair Hotel di Londra e il Southbank Centre per citarne alcuni. Ha creato molte copertine di libri per clienti internazionali e attualmente si concentra sull'editoria, musica e pubblicazioni.

Nel 2002 è stato nominato finalista per il premio di Fotografo Erotico dell'Anno con la sua serie Spiral Studio. Ha una passione per le complessità della natura ed è interessato nella nostra convivenza con essa. Il suo lavoro è stato descritto come emozionante, surreale e lievemente dark.

“L'ineffabile intersezione con il fisico, lo scientifico che perfora l'impossibile; il classico che trasmuta per la modernità” è una delle recenti recensioni dei suoi lavori.

After graduating with a 1st in BA (Hons) in Design Photography Darren has worked in illustration and art for the last 18 years. He has produced art for hundreds of clients including a stamp for the London olympics, a book for the Folio Society, Advertising for BMW, The Mayfair Hotel London and Southbank Centre amongst many others. He has created many book covers for international clients and currently concentrates his illustration on editorial, music and publishing.

In 2002 he was shortlisted as a finalist for erotic photographer of the year for his Spiral Studio series. He has a passion for the complexities of nature and is interested in our place in it. His work has been described as emotional, surreal and slightly dark. “The ineffable intersecting with the physical; the scientific smashing through the impossible; the classic mutating for the modern age” was one recent review of his work.
