azienda / company

La storia di Dnd nasce dall'antica dedizione industriale diffusa nella Val Sabbia, dove nel 1968 nacque la FMN Martinelli sotto la guida di Angelo Martinelli. In questa valle della provincia di Brescia la vocazione siderurgica trova tracce risalenti all'età dei metalli nei numerosi reperti preistorici rinvenuti: resti che hanno dato un fondamentale impulso produttivo al settore della lavorazione dei metalli, divenuto poi industriale e apprezzato a livello internazionale. Da oltre cinquant'anni, il successo di Dnd si colloca in questo distretto speciale, unico nella storia del Made in Italy.

Nel tempo, l'azienda si è specializzata nella lavorazione e nella rifinitura dei diversi metalli destinati alla produzione delle maniglie e oggi Dnd, guidata nel segno della continuità familiare da Vilma Martinelli con i figli Pietro e Simona, è un'azienda solida e di stima internazionale, in grado di coniugare la lunga esperienza acquisita con la migliore creatività contemporanea. Dnd, infatti, mette la sua sapienza produttiva al servizio di designer e architetti di grande valore per disegnare e arricchire la gamma dei prodotti e per soddisfare al meglio la progettazione degli interni contemporanei. I progettisti e i consulenti sono parte attiva e preziosa dell'anima di Dnd, che si impegna a produrre maniglie in cui siano evidenti la ricerca, l'originalità e la qualità del progetto, dal disegno alle finiture, dai dettagli alla realizzazione.

Dnd ha inoltre acquisito il marchio Poggi & Mariani, al fine di completare la sua vocazione e la sua specializzazione nel settore di competenza. Le maniglie Poggi & Mariani – dallo stile classico e dalla realizzazione artigianale di comprovata qualità – sono presentate in un catalogo a loro dedicato e vanno ad ampliare l'esperienza industriale di Dnd e a unire due mondi di riferimento, quello del design e quello classico.

Se inizialmente è stato il territorio ad aver ispirato la creazione dell'azienda, oggi è l'azienda che restituisce alla Val Sabbia un ruolo chiave per lo sviluppo dei prodotti, incoraggiando e sostenendo una rete di realtà artigianali a cui demandare specifici passaggi di produzione e finitura: un indotto che costituisce l'ideale estensione di un processo che garantisce l'eccellenza dei prodotti che Dnd, con la sua ricerca, mira a realizzare.

Dnd, con fiducia e curiosità, si pone come una fucina di idee per il design contemporaneo e come solido punto di riferimento – a livello italiano e internazionale – per progettisti e progetti architettonici di qualità.

The history of Dnd comes from the industrial tradition of Val Sabbia, where in 1968 FMN Martinelli was founded under the leadership of Angelo Martinelli. In the valley, near Brescia, metalworking prowess dates back to the Metal Ages as documented by many prehistoric relics. This past has laid the groundwork for productive expertise in the metalworking sector, which has become industrial in character and sought-after on an international level. For over 50 years, the success of Dnd has its base in this special district, the only one of its kind in the history of Made in Italy.

Over time the company has specialized in the shaping and finishing of various metals for the production of handles. Today Dnd, guided in a context of continuity and helmed by Vilma Martinelli with son and daughter Pietro and Simona, is a solid corporation with an outstanding international reputation, able to combine its extensive experience with the best contemporary creativity. Dnd puts its production know-how at the service of outstanding designers and architects to formulate and expand the range of products and to adapt to the evolution of the world of contemporary interiors. Designers and consultants are seen as precious, active resources for Dnd, which is committed to producing handles that clearly reflect in-depth research, inventiveness and the pursuit of quality, from design to finishes, details to realization.

Furthermore, Dnd has acquired the brand Poggi & Mariani, with the aim of completing its mission and specialization in the sector of expertise. The handles of Poggi & Mariani, with their classic style and proven quality craftsmanship, are presented on a dedicated, distinct catalogue, and they offer an opportunity to widen the industrial experience of Dnd and unite two worlds of reference, that of design and that of classic style.

While at first it was the territory that drove the creativity of the company, today it is the company that plays a key role in Val Sabbia for the development of products, encouraging and supporting a network of crafts firms from which to order specific phases of production and finishing: a chain of manufacture that represents an ideal extension of a process that ensures the excellence of the products that Dnd, through its research, sets out to create.

Dnd, with confidence and curiosity, strives to be a forge of ideas for contemporary design and a solid reference point – in Italy and the world – for designers and architects and their valuable projects.

Una costruzione formale palindroma: il profilo della vista superiore è identico a quello della vista frontale, ribaltato di 180 gradi. Una forma elegante ed essenziale, un volume mutevole che suggerisce all'utente la presa con il suo profilo frontale.

A palindromic structural form: the profile in the view from above is identical to that of the frontal view, but reversed by 180 degrees. An elegant and essential form, a mutable volume that suggests the proper grip with its frontal profile.

fluke

Una forma
dinamica che nasce
dall'incontro di due
volumi troncoconici
contrapposti: il segno
forte di un design
riconoscibile e
riconosciuto.

*A dynamic form
that arises from
the meeting of two
opposing cones:
the vivid impact of a
recognizable design.*

luce

La maniglia come fatto scultoreo, dove la luce evidenzia morbidezze e taglia i volumi in modo netto per restituirci l'idea stessa di un concetto plastico fuori dal tempo.

The handle as sculpture, where light brings out softness and volumes with clarity, conveying the idea of a timelessly shaped object.
