

Look where you are walking, love what you are walking on; beneath your feet we have created a whole world of experiences.

Welcome to NOW CARPETS

*Mira por donde pisas, ama por donde pasas,
porque debajo de ti hemos creado todo un
mundo para vivirlo.*

Bienvenido a NOW CARPETS.

*Regardez où vous marchez, aimez là où vous
marchez car sous cet endroit, nous avons inventé
tout un monde à découvrir.*

Bienvenue chez NOW CARPETS

Miguel Paracuellos

I am delighted to present our new catalogue with our brand's latest creations: Collections by the designers Francesc Rifé and Anna Muravina as well as Shally-Nepal, a new proposal by our in-house creative team. You will also find some of our most recent projects such as NeueHouse (Los Angeles), Mercer Sevilla GL Hotel or the headquarters of Coca-Cola in Madrid...

Over this period we have participated in international shows and events such as ICFE New York, I Saloni Moscow... once again demonstrating the quality of our work.

We were presented with the Residential Flooring award at the "NYCxDesign Awards" for Arik Levy's Brazil design rug and I had the honor of personally receiving the award from Cindy Allen, chief editor of the prestigious magazine Interior Design of New York.

Our firm's philosophy continues revolve around design and our "à la carte" carpets service. The aim of NOW Carpets and my personal aim too is to shorten delivery times. We have taken this challenge on board and have invested in new looms and a permanent stock of materials.

We continue to focus special attention on logistics; not only do we offer our door-to-door service but also carry out the fitting of all of our products.

Our rugs and carpets are certified by first-class companies. We guarantee the quality and authenticity of our materials and offer specific certification of projects pursuant to the technical requirements of prescribers, architects and interior designers.

Over the years we have amassed great experience and expertise which makes Now Carpets a reliable, trustworthy partner.

Leading architecture and design studios entrust us with their projects worldwide and we are always able to come up with ideal solutions and options.

Another important aspect to be highlighted is our ethical commitment to RUGMARK, certifying that we do not use child labor in the production of our rugs and carpets.

Finally, I would like to thank our customers, friends and partners and, in particular, the team that makes up NOW Carpets.

We will continue our commitment to design, quality and service.

See you soon.

Os quiero presentar el nuevo catálogo con las últimas novedades de nuestra marca: Colecciones de los diseñadores Francesc Rifé y Anna Muravina, así como Shally-Nepal, una propuesta de nuestro equipo creativo interno. Dónde, además, incluimos algunos proyectos recientes tales como NeueHouse Hollywood (Los Ángeles), Mercer Sevilla GL Hotel o las oficinas centrales de Coca-Cola en Madrid...

En este tiempo hemos participado en Ferias y Eventos Internacionales como ICFE Nueva York, I Saloni Moscú... demostrando una vez más nuestra buen hacer.

Fuimos premiados con el "NYCxAwards", en la categoría de Alfombras Residenciales con el diseño Brazil de Arik Levy. Además tuve el honor de recoger personalmente de manos de Cindy Allen, editora-jefe de la prestigiosa revista Interior Design de Nueva York, el galardón.

Nuestra filosofía como firma sigue girando en torno al diseño y a nuestro servicio de "alfombras a la carta". El objetivo de NOW Carpets y también el mío personal es reducir tiempos de entrega de entrega. Reto que hemos aceptado. Y con este fin hemos invertido en nuevos telares y en tener un permanente stock de materiales.

Seguimos prestando especial atención a la logística, por lo que, no solo ofrecemos nuestro servicio de puerta a puerta sino también la instalación de nuestros productos.

Nuestras alfombras cuentan con certificados aprobados por compañías de primera línea. Garantizamos así la calidad y veracidad de nuestros materiales. Ofrecemos la certificación concreta del proyecto conforme a los requisitos técnicos que exigen prescriptores, arquitectos e interioristas.

Atesoramos ya una vasta experiencia que hace de NOW Carpets un partner serio y fiable. Grandes estudios de arquitectura e interiorismo nos confían sus proyectos alrededor de todo el mundo, a los que ofrecemos siempre respuestas y alternativas.

Y no quisiera dejar de poner énfasis en nuestro compromiso ético con RUGMARK, que certifica la no utilización de mano de obra infantil en la elaboración de nuestras alfombras.

Quiero dar las gracias a nuestros clientes, amigos y partners. Y especialmente al equipo que conforma NOW Carpets.

Y seguiremos apostando por el diseño, la calidad y el servicio.

Hasta pronto.

Je désire vous présenter le nouveau catalogue comprenant les dernières nouveautés de notre marque: Les Collections de nos designers Francesc Rifé et Anna Muravina, ainsi que Shally-Nepal, une proposition de notre équipe créative interne. Par ailleurs, quelques projets récents, comme NeueHouse Hollywood (Los Angeles), Mercer Sevilla GL Hotel ou les bureaux centraux de Coca-Cola à Madrid y sont également inclus.

Durant tout ce temps, nous avons participé à des Salons et des Evénements Internationaux, ICFE New York, I Saloni Moscou... , par exemple, pour y montrer, une nouvelle fois, notre savoir faire.

Nous avons reçu le prix "NYCxDesign Awards", dans la catégorie des Tapis Résidentiels avec le design Brazil d'Arik Levy. J'ai, par ailleurs, eu l'honneur de recevoir ce prix personnellement remis par Cindy Allen, éditeur en chef du prestigieux magazine Interior Design de New York.

Notre philosophie en tant que firme est toujours axée sur le design et sur notre service de "tapis à la carte". L'objectif de NOW Carpets et aussi le mien personnel est d'écourter les délais de livraison. Un challenge que nous avons accepté. C'est à cette fin que nous avons investi dans nos métiers à tisser et dans un stock de matériaux disponible en permanence.

Nous portons toujours une attention particulière à la logistique et par conséquent, nous n'offrons pas uniquement notre service porte à porte mais aussi l'installation de nos produits.

Nos tapis disposent de certificats agréés par des sociétés de premier ordre. Nous garantissons ainsi la qualité et l'authenticité de nos matériaux. Nous offrons la certification concrète du projet conformément aux exigences techniques des prescripteurs, des architectes et des designers d'intérieur.

Nous avons acquis une très vaste expérience, un trésor qui fait de NOW Carpets un partenaire sérieux et fiable. De grands bureaux d'architecture et de design d'intérieur nous confient leurs projets dans le monde entier et nous leur offrons toujours des solutions et des alternatives.

Je ne saurais oublier de mettre l'accent sur notre engagement éthique avec RUGMARK, qui certifie le non recours au travail des enfants dans l'élaboration de nos tapis.

Je souhaite remercier nos clients, nos amis et nos partenaires, et en particulier, l'équipe qui compose NOW Carpets.

Notre enjeu sera encore et toujours le design, la qualité et le service.

À bientôt.

Our team. How and where.
Nuestro equipo, cómo y dónde.
Notre équipe. Comment et où.

We have a team that has over 30 years of experience and that has undertaken major projects, offering solutions and an optimal service for our customers. Our staff at source keeps direct close control on quality.

Our moral commitment: RUGMARK certifies that child labour is not used to produce our rugs and carpets.

Contamos con un equipo de trabajo de más de 30 años de experiencia que ha realizado grandes proyectos, acercando nuestra firma y dando soluciones y un mejor servicio a nuestros clientes. Nuestro personal en origen ejerce directamente un estrecho control de calidad.

Compromiso ético: RUGMARK, que garantiza la no utilización de mano de obra infantil en la elaboración de nuestras alfombras.

Notre équipe de travail qui a réalisé de grands projets est dotée d'une expérience de plus de 30 ans et rapproche notre entreprise de nos clients, en leur donnant toutes solutions et une grande qualité de service. Sur le lieu d'origine, nos employés réalisent directement un contrôle rigoureux de la qualité.

Engagement éthique: RUGMARK qui certifie la non-utilisation de main d'œuvre infantile dans l'élaboration de nos tapis.

Système de fabrication.
Matériaux et certificats.***

We work on a joint venture basis with our own looms with widths of up to 20 m. We use different production systems and various materials such as wool, silk, bamboo, linen, etc. according to our customers' requirements.

Centexbel (Belgian Institute of Technology) and SGS certify the quality of our materials and the technical requirements demanded by professionals. We use Scotchguard™ which helps to repel and clean stains. And with the guarantee of NOW Carpets.

Trabajamos en Joint Venture con telares propios de hasta 20m de ancho. Utilizamos diferentes sistemas de producción y materiales diversos como lana, seda, bambú, lino, etc en función de las necesidades de nuestros clientes.

Centexbel (Instituto Tecnológico de Bélgica) y SGS certifican la calidad de nuestros materiales y requisitos técnicos que demandan los profesionales. Usamos Scotchguard, que ayuda a repeler y limpiar las manchas. Y la garantía de NOW Carpets.

Nous travaillons en joint venture avec nos propres métiers à tisser de plus de 20 m de large. Nous utilisons différents systèmes de production et des matériaux aussi divers que la laine, la soie, le bambou, le lin, etc. en fonction des besoins de nos clientes.

Centexbel (Institut technologique de Belgique) et SGS certifient la qualité de nos matériaux et caractéristiques techniques exigées par les professionnels. Nous utilisons Scotchguard™, qui aide à repousser l'humidité et à nettoyer les taches mais aussi la garantie de NOW Carpets.

Hand Knotted

This is a manual weaving technique on vertical looms that consists of hand tying knots. The greater the number of knots the better defined the design is. This system allows detailed creations to be produced and the carpets last longer.

Técnica de tejido manual en telar vertical que se lleva a cabo mediante nudos realizados a mano. A mayor número de nudos, mayor definición de los diseños. Este sistema permite una creatividad al detalle y mayor durabilidad.

Technique de tissage manuel sur métier vertical réalisée à l'aide de nœuds tissés à la main. Plus il y a de nœuds, plus la définition de nos créations est imposante. Ce système permet une créativité reposant sur les moindres détails et une plus grande durabilité.

Hand Tufted

This is a manual technique in which an artisanal tool is used to punch strands of wool into a stretched cotton or jute canvas to create different definitions and pile heights.

Esta técnica manual se realiza mediante una herramienta artesanal que sobre un boceto en tela de algodón o yute tensada se insertan hilos de lana permitiendo crear definiciones y conseguir alturas de pelo distintas.

Cette technique est possible grâce à un outil artisanal sur lequel un croquis en tissu coton ou en jute est tissé de fils de laine afin de créer les définitions et de permettre une densité de tissage plus importante.

Some of the systems. *Algunos sistemas. Certains des systèmes.*

Hand Loom Knotted

Using a manually operated loom, warp and weft threads are interwoven to achieve different finishes and textures produced with different materials.

Es un telar operado manualmente donde se entrelazan los hilos de la urdimbre y trama, permite diferentes acabados y texturas elaborados con diferentes materiales.

Il s'agit d'un métier à tisser manuel où sont mêlés entre eux les fils de chaîne et les fils de trame afin d'obtenir différentes finitions et textures élaborées avec divers matériaux.

Woven / Kilim

A system of interwoven threads on a flat surface and which is popularly known as kilim. Some of our outdoor carpets have been produced with this system using recycled polyester.

Sistema de hilos cruzados sin nudos sobre una superficie plana y que popularmente se conoce como kilim.. Algunas de nuestras alfombras outdoors han sido elaboradas en este sistema en poliéster reciclado.

Système de fils croisés sans nœuds sur une surface plane populairement connu sous le nom de kilim. Certains de nos tapis outdoors ont été élaborés grâce à ce système en polyester recyclé.

Custom carpets for projects. *Alfombras a la carta para proyectos.* *Tapis à la carte pour vos projets.*

Because every project is unique and worthy of special attention, we have increased our CUSTOM CARPET service to offer personalized carpets tailored to each customer's needs, either for individual projects or contract projects. Personalisation down to the very last detail to suit your needs and tastes. And with very short delivery times.

Porque cada proyecto es único y merece una atención especial, hemos reforzado nuestro servicio de ALFOMBRAS A LA CARTA, ofreciendo la posibilidad de realizar alfombras personalizadas y a la medida de cada cliente ya sea para proyectos individuales como para contract. Personalización hasta el último detalle según sus necesidades y gustos. Y con un plazo de entrega muy breve.

Car chaque projet est unique et mérite une attention spéciale, nous avons renforcé notre service de TAPIS À LA CARTE et proposons la possibilité de créer des tapis personnalisés et sur mesure pour chacun de nos clients, pour leurs projets individuels ou leurs contrats. Personnalisation jusqu'au moindre détail en fonction de vos besoins et vos goûts. Avec des délais de livraison très courts.

Added value *Valor añadido* *Valeur ajoutée*

Prestigious international designers give our carpets added value, offering a more cosmopolitan, cutting-edge vision and aesthetic appearance, whilst maintaining the warmth and comfort which are the essential elements of our brand.

Dan valor añadido a nuestras alfombras, reconocidos diseñadores internacionales, quienes aportan su visión más cosmopolita, con una estética más actual, sin olvidar la calidez y el confort, imprescindibles en nuestra marca.

Ils donnent une grande valeur ajoutée à nos tapis, ces créateurs de renom international qui apportent leur vision plus cosmopolite, reposant sur une esthétique plus moderne, sans toutefois oublier la chaleur et le confort, valeurs indispensables de notre marque.

Logistics and distribution *Logística y distribución* *Logistique et distribution*

WORLDWIDE DISTRIBUTION

Our door-to-door logistics service allows our customers to optimize their time and to concentrate on their work. We are fully aware that our commitment is not over until the carpet reaches its recipient.

DISTRIBUCIÓN MUNDIAL

Nuestro servicio logístico de puerta a puerta, permite a nuestros clientes optimizar su tiempo y concentrarse en su trabajo. Somos conscientes de que nuestro compromiso no finaliza hasta que la alfombra llega a su destinatario.

DISTRIBUTION MONDIALE

Notre service logistique porte à porte, permet à nos clients d'optimiser leur temps et de se concentrer sur leur travail. Nous savons que notre engagement ne s'achève que lorsque le tapis est livré à son destinataire.

Cleaning

We protect our carpets by treating them with Scotchgard™, which helps repel and clean stains.

We produce our carpets using the best fibres but they require **certain care to guarantee a longer life:**

- Vacuum the carpet regularly at medium power and always in the direction of the pile.
- Never use the brush attachment as it will damage the wool strands.
- Vacuum clean without rubbing so that any surplus fibres or fluff disappear.
- Check that the vacuum cleaner bag is clean.
- We recommend rotating the carpet to ensure that normal wear occurs uniformly.
- Do not use chemical products or dry clean the carpet as this will damage its colours.
- Every so often take the carpet to a specialized carpet-cleaning establishment.

Cleaning care:

- When a stain occurs take action as quickly as possible. Wipe the stained area with a damp, white cloth to get rid of most of the stain, especially if the carpet has an anti-stain treatment.
- Never rub a liquid stain, try to soak it up using a clean cloth, absorbent cardboard or sponge.
- Always use cold or warm water, never hot water as this fixes the stain
- If the stain is a solid or gooey product it should be removed first using a spatula or damp spoon before applying a stain remover.
- This operation should be performed from the outside to the inside.
- Try to get rid of all remains of the stain before applying a stain remover.
- Before using a product read the instructions carefully and check that it will not discolour the carpet.

Limpieza

Protegemos nuestras alfombras con el tratamiento Scotchgard™, que ayuda a repeler y limpiar las manchas.

Fabricamos nuestras alfombras utilizando las mejores fibras, pero es necesario aplicar ciertos **cuidados para garantizar una vida más larga:**

- Aspirar la alfombra regularmente a media potencia y siempre en el sentido del pelo.
- No utilizar nunca el aspirador en cepillo, ya que perjudicará los hilos de la lana.
- Aspirar sin frotar para que la pelusilla y el exceso de fibras desaparezcan.
- Vigilar que la bolsa esté limpia.
- Conviene rotar la alfombra para que el lógico desgaste sea uniforme.
- No utilizar productos químicos ni limpiar en seco, ya que perjudicaremos los colores de la alfombra.
- Llevarla cada cierto tiempo a una tienda especializada en la limpieza de alfombras.

Cuidados en limpieza:

- Hay que intervenir lo antes posible, pasando un paño blanco humedecido ligeramente en agua para eliminar la mayor parte de la mancha, especialmente si la alfombra tiene un tratamiento anti-manchas.
- Nunca hay que frotar una mancha líquida. Hay que tratar de absorberla con un paño limpio, un cartón absorbente o una esponja.
- Debemos utilizar siempre agua fría o templada, nunca agua caliente, porque fija la suciedad.
- Si la mancha es pastosa o sólida, hay que quitarla previamente con la ayuda de una espátula o una cucharilla humedecida antes de aplicar un quitamanchas.
- Esta operación debe llevarse desde el exterior hacia el interior.
- Procurar quitar todos los restos de mancha antes de aplicar cualquier quitamanchas.
- Antes de usar cualquier producto, leer detenidamente las indicaciones y comprobar que no va a ocasionar decoloración.

Entretien

Nous protégeons nos tapis grâce au traitement Scotchgard™ qui repousse l'humidité et nettoie les taches.

Nous fabriquons nos tapis avec les meilleures fibres mais certains **soins pour garantir une durée de vie plus longue** sont nécessaires :

- Aspirer le tapis régulièrement à mi puissance et toujours dans le sens des poils.
- Ne jamais utiliser la brosse de l'aspirateur qui risquerait d'endommager les fils de laine.
- Aspirer sans frotter pour que les peluches et l'excès de fibre disparaissent.
- S'assurer que le sac est propre.
- Il est préférable de faire pivoter l'aspirateur afin que l'usure normale soit uniforme.
- Ne jamais utiliser de produits chimiques ou nettoyer à sec car nous endommagerions les couleurs du tapis.
- Emmener le tapis à intervalles réguliers dans une boutique spécialisée en entretien de tapis.

Soins de nettoyage :

- Il faut intervenir dès que possible, en passant un chiffon blanc légèrement humidifié pour éliminer grossièrement la tache et notamment si le tapis a subi un traitement antitaches.
- Ne jamais frotter une tache liquide. Il faut l'absorber avec un chiffon propre, un carton absorbant ou une éponge.
- Toujours utiliser de l'eau froide ou tiède, en aucun cas chaude car elle fixerait les saletés.
- Si la tache est pâteuse ou solide, il faudra préalablement l'ôter à l'aide d'une spatule ou d'une cuillère humidifiée avant d'appliquer un produit antitaches.
- Cette opération doit être réalisée de l'extérieur vers l'intérieur.
- Tenter d'ôter tous les restes de tache avant d'appliquer le produit antitaches.
- Avant d'utiliser n'importe quel produit, veuillez lire avec soin les indications et vérifier qu'il n'y a aucun risque de décoloration.
