

# Systematic ACTA.CLASSIC order for an efficient workstation.

Freiräume für Leistung.

**Intelligently organised, effectively stored and beautifully packaged.**

Our ACTA.CLASSIC cupboard system has become a real classic. And still brings more structure to your work and to the room.

**The idea:** a storage solution that fulfils all the functional requirements and looks good in any workplace at the same time. The reality: a cabinet system in a classic straight-lined design with an intelligent, versatile compartment layout. ACTA.CLASSIC is available in a selection of heights, with different fronts and high-grade finishes to provide a customised solution for any office. It can also be used free-standing as a room divider.

**Creative chaos is yesterday's news, now creative order prevails.** Things that disturb the concentration vanish into an organised state – for instance behind classic hinged doors. The finishes can be coordinated with any décor: they are available in high-grade melamine or plastic in many colours and patterns, and can be set off perfectly with classy veneer tops as an option. There is a wide selection of handles and bases.

**ACTA.CLASSIC means order – wherever it is.** Sliding doors mean you can use the available space effectively. At the same time the cabinet system fits harmoniously into its surroundings with its clear-cut lines, uncluttered finishes and subtle details – but it can be made into a feature thanks to the huge range of colours. It's simply concentrating on the basics that makes ACTA.CLASSIC such a classic.

**Always different, always ACTA.CLASSIC.** Thanks to the great variety, the fronts fit in with any scheme and into any room. Hinged doors, shelves, sliding doors, side tambours and drawers can be combined as required: ACTA.CLASSIC is always an eye-catcher. The cabinets are available with two to six filing levels – which means a workstation can be easily organised with all the storage you need.

**Stay on good terms with colleagues:** used as a room divider in an open-space office, the ACTA.CLASSIC cabinet system is a room divider and a cupboard in one. Used in this way it creates not only order, but also privacy. The room can be structured entirely around your individual requirements; for instance you can choose fronts with side tambours where hinged doors would take up too much room. An elegant solution.

**It's nice if you can concentrate on work instead of always searching for something.** In ACTA.CLASSIC there's a place to store everything that isn't needed on your desk. Cupboards are available in depths 400 mm und 600 mm – depending on how much space you need. Whether you keep your files in filing drawers or behind hinged doors: you will find the perfect spot for everything in ACTA.CLASSIC.

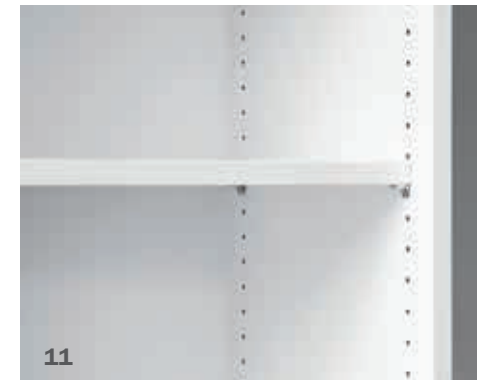

**Work in peace in an open-plan office – you can with ACTA.CLASSIC.** The usual background noise can be positively influenced by using acoustic materials and finishes for doors: this reduces reverberation time and insulates the sound effectively. Chatting at the next desk or the clatter of keyboards around the room are no longer perceived as stress factors, and everyone is completely relaxed at work.

# Simply well-organised – right down to the last detail.

- 1 | Practical:** the handle with locking function for doors and drawers.
- 2 | Subtle:** the fold-away key for cupboard doors and drawers.
- 3 | Secure:** the safe protects documents and other valuables.
- 4 | Flexible:** the pull-out tablet can only be seen when you need it.
- 5 | Crease-free:** the right place for coats and jackets (depth 600 mm).
- 6 | Accommodating:** the pull-out wardrobe rail saves space (depth 420 mm).

- 7 | Stable:** plinths and bases are available in various styles.
- 8 | Clearly arranged:** filing frames behind hinged doors or as suspension file drawers.
- 9 | Supporting:** books stay in tidy rows thanks to bookends.
- 10 | Pleasant:** closing with cushioned stops.
- 11 | Variable:** shelf heights are individually adjustable.

For any room, for any taste.  
ACTA.CLASSIC always shows its  
best side.

**12 | Versatile:** functional handles are available in different styles.  
**13 | Exact fit:** Concealed internal hinges (110°) with spring closer, as option, with hinges visible from outside (180°). Soft-close feature can also be specified.
