aluform\_3

### ***aluform\_3*. The innovative classic.**

1983 – the beginnings of one of the most successful ranges of contract furniture for Wiesner-Hager: a high-quality design with a timeless look, top-quality seating comfort and stability. The *aluform* series was born. Originally launched as a chair for use in cafeterias, the design has undergone many improvements over the years.

The latest version, *aluform\_3*, is a contemporary redesign that moves away from the severity of the classic towards a more modern aesthetic without losing the important features of the original. *aluform\_3* is the ideal seating option, whether used individually or in rows, for meeting and conference rooms, canteens and large halls.

Due to the extensive range of finishes and details, *aluform\_3* can be specified to suit many different interior settings, a determining factor for optimum seating use.

This innovative classic is characterised by straight lines, ultra-comfortable seating, robustness, an interesting aesthetic, and most importantly, the best price/performance ratio.

Design: arge2

# Rich in detail.
