client

client connects.

A table is a table? Far from it!

At least as regards the multiple quick-change abilities of the table range *client*. After all, a range of various configurations can be combined and numerous applications planned. *client* impresses with flexible technology and a great variety of different shapes and features: the innovative slot-in leaf *wave*, for instance, which allows tables of different heights to be connected with each other; or the choice between metal and solid wood legs.

Design: Dustin A. Tusnovics

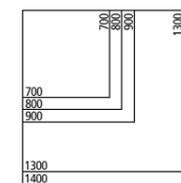

Communicative in meetings and seminars, elegant for catering, company restaurants and bistros, robust in recreation areas and break zones or suitable for wheelchairs in the care living sector – *client* offers tailor-made solutions for every purpose. The tables can be easily and safely linked to each other. And a cable box for power and data outlets provides for the appropriate electric cabling for any media equipment.

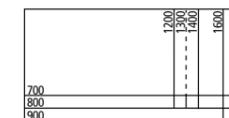

Rich in detail.

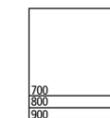

Optional.

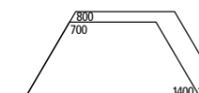

Square table

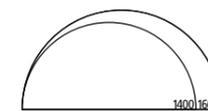

Rectangular table

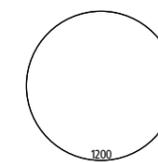

Slot-in leaf wave

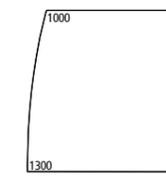

Trapezoid table

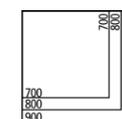

Half-round table

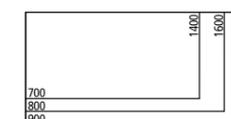

Round table

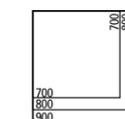

Boat shaped table

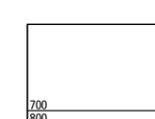

Square high table

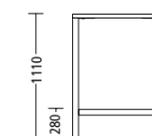

Rectangular high table

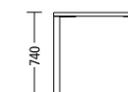

Square lounge table

Rectangular lounge table

Lounge tables

Linking with slot-in leaf wave

Dimensions in mm.

Stacking.

All tables can be stacked. Stacking protection will prevent damage to the table top.

Leg connection and fittings for linking devices.
Stable fittings for legs as well as lateral and cross linking devices.

Slot-in leaf wave.

wave connects tables of different heights, e.g. for catering lines or podiums.

Configurations.

client tables can be linked easily and firmly to form various configurations.

Features:

Table tops

Choice of laminate (MFC) or HPL top with seamless, moisture resistant laser edge (ABS edge), veneered with laminated wood edge. Stained wood surfaces.
Exception: square table 1400/1400 mm only available with standard laminate (DKS).

Frame

Either round (Ø 50 mm) metal leg, square (leg A/F 50 mm) metal leg or square solid wood leg in beech or oak (leg A/F 52 mm). High tables with round or square metal leg. Metal surfaces powder-coated, wood surfaces stained. Leg connection: aluminium die-cast plate with leg connection (screw thread) and fittings for lateral linking and cross linking.

Slot-in leaf wave

HPL light weight board. Edges: either ABS edge or laminated wood edge. ABS-edge with moisture resistant PU glueing. Stained wood surfaces. For linking, 4 linking devices are needed.

Optional

Modesty panel sheet steel perforated, powder-coated. Linking device black plastic. Electric cabling: cable box metal, powder-coated, with flap. Tables with cable box are not stackable.

Perfect Partners.
