

TOLIX®

TOLIX®

MADE IN FRANCE

When we talk about color at TOLIX, blue, white and red are naturally the most important of all! Handmade for close to a century in the middle of Burgundy, France, in Autun, TOLIX collections stand for the colors of a unique skill: the color of passion, creativity, perfectionism.

In this document, we suggest you some ideas of association of colors to guide you according to your desires, your mood and the emotion you wish to give.

Nothing is fixed, you can add, replace, remove a color because in the end, we all have a part of creativity within us and the finality is that we feel good with the colors we like.

Good inspiration...
