

PIERO
LISSONI
WARM
COLLECTION

Piero Lissoni Warm Collection è un progetto integrato di materie innovative – resine, cementi, legni lavorati a mano, microrivestimenti, pitture e smalti – coordinate in un'unica palette colori. Un nuovo stile di design, studiato per interni, in cui i diversi elementi architettonici degli ambienti sfumano gli uni negli altri: pavimenti, rivestimenti, pareti, infissi, complementi di arredo, corpi illuminanti e riscaldanti diventano una superficie unica e continua. Superando la tradizionale divisione degli spazi come insieme di superfici disgiunte, Piero Lissoni Warm Collection consente di progettare con sicurezza ogni tipo di ambiente grazie al rigore formale che la contraddistingue. —

Piero Lissoni Warm Collection is an integrated project involving innovative materials – resins, cements, handcrafted woods, micro-coatings, paints and glazes – coordinated in a single color palette. A new design style conceived for interiors, where each of the different architectural elements blends with the other: floors, coatings, walls, fixtures, furnishing accessories, lighting and heating elements all become one single and continuous surface. Going beyond the traditional division of spaces as a set of disjointed surfaces, Piero Lissoni Warm Collection possesses a formal simplicity that makes it possible to design any type of environment in total confidence. —

WARM COLLECTION

→ Piero Lissoni Warm Collection prende ispirazione dalle più avanzate esperienze del design contemporaneo, per rispondere alle nuove esigenze dell'abitare. Ideata per ridefinire e valorizzare gli spazi in modo innovativo, consente la creazione di ambienti che a uno stile di gusto internazionale associano il calore e la freschezza di scelte fortemente personali, distinguendosi per caratteristiche tecniche, ecologiche ed estetiche d'eccellenza.

→ Piero Lissoni Warm Collection is inspired by the most advanced understanding of contemporary design to satisfy the new requirements of the today's home. Designed to redefine and enhance spaces in an innovative fashion, it enables the creation of interiors that combine an international style with the warmth and freshness of highly personal choices, all distinguished by outstanding technical, ecological and aesthetic characteristics.

WARM COLLECTION

PIERO LISSONI

WARM COLLECTION

Warm Collection nasce da un'attenta ricerca di Piero Lissoni su texture, finiture e colori. È un elegante percorso cromatico che dal bianco porta al nero attraverso la ricchezza dei toni neutri e naturali, in cui l'identità di ogni colore prende vita dalla vicinanza con gli altri. È un'esplorazione tattile e materica: dalle superfici lisce come seta a quelle irregolari di grana naturale. E, infine, è una raffinata esperienza visiva: dalle ricercate irregolarità hand made ai suggestivi effetti di rifrazione della luce. —

Warm Collection is the result of the painstaking research of Piero Lissoni into textures, finishes and colors. It is an elegant pathway of colors leading from white to black through the richness of neutral and natural tones, where the identity of each color is enhanced by the presence of the others. It is a voyage of tactile and materic exploration: from smooth, silk-like surfaces to the irregular textures of natural grains. And finally, it is a refined visual experience: from the elegant handcrafted irregularities to the striking effects of the refracted light. —

WARM COLLECTION

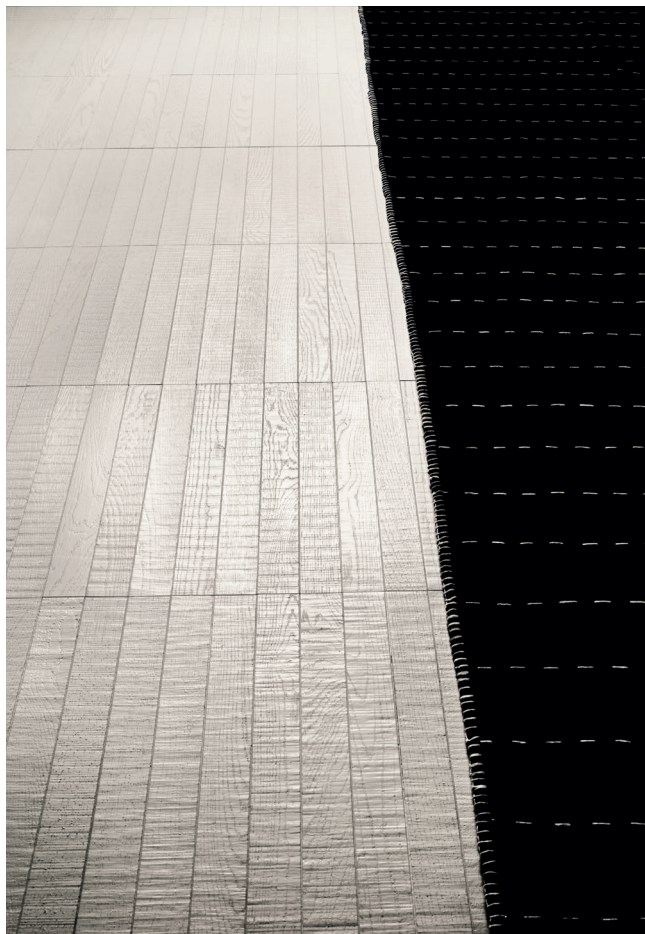

PIERO LISSONI

→ Create da lavorazioni manuali di artigiani specializzati, le superfici di Piero Lissoni Warm Collection sono inimitabili, non riproducibili industrialmente e connotate da segni distintivi che nascono dai gesti degli artigiani decoratori e che ne attestano naturalezza, ricercatezza ed esclusività.

→ Created by the manual work of specialized artisans, the surfaces of the Piero Lissoni Warm Collection are unique and impossible to produce industrially. They are characterized by distinctive markings that arise from the actions of these artisan decorators and that attest to their naturalness, refinement and exclusivity.

Pavimenti continui 3 strati

Cementoresina (CR)

Pavimento continuo, spessore 3,5 mm.
Texture resina cementizia spatolata.

Cementoflex (CF)

Pavimento continuo, spessore 3,5 mm.
Texture cemento vibrato.

Cementocrudo (CC)

Pavimento continuo, spessore 3,5 mm.
Texture calce tadelakt.
Indicato per ambienti bagno.

Pavimenti continui in legno 3 strati

Legno+Color Large (LCL)

Elementi di legno multilayer lavorati artigianalmente e decorati in opera, formato 70x1250 mm, spessore 10 mm.

Legno+Color Medium (LCM)

Elementi di legno massiccio lavorati artigianalmente e decorati in opera, formato 50x400 mm, spessore 10 mm.

Legno+Color Small (LCS)

Elementi di legno massiccio lavorati artigianalmente e decorati in opera, formato 42x300 mm, spessore 10 mm.

Re-design

Microresina (MR)

Microresina per il re-design di pavimenti esistenti.
Finitura extra matt ed effetto silk-touch.

Rivestimenti continui 3 strati

Cementoresina Wall (CRW)

Rivestimento continuo, spessore 3,5 mm.
Texture resina cementizia spatolata.

Cementocrudo Wall (CCW)

Rivestimento continuo, spessore 3,5 mm.
Texture calce tadelakt.
Indicato per ambienti bagno.

Rivestimenti continui 2 strati

Wallcrete (WCR)

Rivestimento continuo, spessore 3 mm.
Texture cemento materico spatolato.

Wallpaper (WP)

Rivestimento continuo, spessore 2 mm.
Texture superflat ed effetto silk-touch.

Re-design

Microresina Wall (MRW)

Microresina per il re-design di rivestimenti esistenti.
Finitura extra matt ed effetto silk-touch.

Decorazione

Paint (P)

Pasta grassa decorativa minerale altamente traspirante. Texture effetto Velatura, Microriga o Tessuto.

Patina (PA)

Intonaco delabr  naturale altamente traspirante, batteriostatico e fungistatico naturale.

Decor (DC)

Smalto eco-compatibile universale, decorativo e protettivo. Finitura extra matt ed effetto silk-touch.

Invisibile (I)

Listello battiscopa formato 30x10 mm, in coordinato al colore delle pareti.

Continuous, 3-layer floorings

Cementoresina (CR)

Continuous flooring, thickness 3.5 mm.
Trowelled cement-based resin texture.

Cementoflex (CF)

Continuous flooring, thickness 3.5 mm.
Vibrated cement texture.

Cementocrudo (CC)

Continuous flooring, thickness 3.5 mm.
Tadelakt lime texture.
Suitable for bathrooms.

Continuous, 3-layer wood floorings

Legno+Color Large (LCL)

Handcrafted, multilayer wood elements
decorated on site, size 70x1250 mm,
thickness 10 mm.

Legno+Color Medium (LCM)

Handcrafted, solid wood elements
decorated on site, size 50x400 mm,
thickness 10 mm.

Legno+Color Small (LCS)

Handcrafted, solid wood elements
decorated on site, size 42x300 mm,
thickness 10 mm.

Re-design

Microresina (MR)

Micro resin for redesigning existing floors.
Extra matt finish and silk-touch effect.

Continuous, 3-layer coatings

Cementoresina Wall (CRW)

Continuous coating, thickness 3.5 mm.
Trowelled cement-based resin texture.

Cementocrudo Wall (CCW)

Continuous coating, thickness 3.5 mm.
Tadelakt lime texture.
Suitable for bathrooms.

Continuous, 2-layer coatings

Wallcrete (WCR)

Continuous coating, thickness 3 mm.
Trowelled materic cement texture.

Wallpaper (WP)

Continuous coating, thickness 2 mm.
Superflat texture and silk-touch effect.

Re-design

Microresina Wall (MRW)

Micro resin for redesigning existing coatings.
Extra matt finish and silk-touch effect.

Decoration

Paint (P)

Highly breathable and decorative oily
mineral paste.
Glaze, Ultrafine lined and Textile effect.

Patina (PA)

Highly breathable, naturally bacteriostatic
and fungistatic natural 'worn-out' look' plaster.

Decor (DC)

Universal, decorative and protective eco-friendly
glaze. Extra matt finish and silk-touch effect.

Invisibile (I)

Skirting board 30x10 mm, coordinated with
the color of the walls.
