

MARE

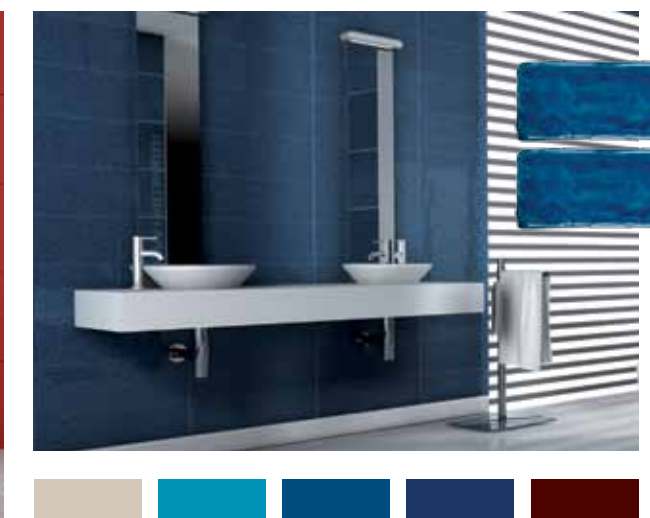

Il fascino e la seduzione del mare come principio creativo. Lo sguardo rivolto alla superficie dell'acqua lucente e increspata. In questa atmosfera trasognata nasce il desiderio di realizzare una ceramica strutturalmente carica di colore ed emozione, nei toni dell'azzurro e del corallo creando ambienti incantevoli e affascinanti.

The charm and seduction of the sea as a creative inspiration. Fixing our gaze on the shiny and rippled water surface. A dive into the coral reef. In this dreamy Atmosphere rises the will to create a ceramic structurally filled with colour and emotion, where shades of blue, green and coral create attractive and charming living spaces.
