As one of the founders, Francois Champsaur is the inspiration at the core of HC28 unique style.

Christophe Delcourt is not only a committed and daring designer, he also is an ardent defender of French craft industry. He launches his own furnishing company in the late 90's and soon stands out with his pieces of furniture combining elegant lines and raw materials.

To him, every new furniture collection is like an opportunity to reconsider his work through a slightly different point of view. Yet, the story always begins the same way, with the same passion and the same belief : everything comes from the material, the gesture and the know-how.
