

Flûtes

Quest'anno, il **plissettato** irrompe nelle nostre case: la **tridimensionalità** delle pieghe sottili e il gioco che creano con la **luce**, danno una sensazione di **movimento** e di **leggerezza** senza rinunciare all'**equilibrio**. Il **vetro cannettato** dà **originalità**, un tocco chic e di **charme** al vostro bagno che sarà dinamizzato da una **texture** tutta in **rilievo**.

This year the **fluted finish** has burst into our houses. The **tridimensionality** of the **fluted glass** and its trick of the **light** give **movement** and **lightness** to the collection, even though it remains **balanced**. Fluted glass is the **original** and **chic touch** for your bathroom that will be dynamized by a **texture** in **relief**.

il vetro cannettato Flutes è disponibile in tutti i rimanenti colori lucidi della cartella colori Artelinea.

Fluted glass is also available in all the finishes of the Artelinea sample box upon request.

Il flutes nasce come vetro decorativo stampato che si caratterizza per il motivo impresso in rilievo sulla superficie ottenuto tramite laminazione del nastro di vetro caldo tra due cilindri metallici. Questa trama a righe applicata in tutti i colori della nostra cartella è retrò e attuale allo stesso tempo, con un respiro classico trasversale ai vari stili grazie alle geometrie di chiaro scuri che danno una percezione dello spazio frammentato e moltiplicato.

The fluted glass was created as a printed decorative glass characterized by a surface with a pattern in relief. This special surface is obtained thanks to rolling the hot sheet of glass between two metal cylinders. This fluted pattern combined with the finishes of our sample box is vintage and contemporary at once. The effect we obtain is classical and beyond the styles thanks to geometrical light and dark contrasts that give the impression of a fragmented, but increased space.

Monolite rivolge un'attenzione costante alla moda pur riservando una grande importanza alla funzionalità: l'ampia componibilità, la varietà dei moduli, i dettagli interni e la possibilità di realizzare mobili su misura, sottolineano la capacità di adattamento e lo studio attento volto al comfort di utilizzo. Monolite racchiude in sé cura dei dettagli, qualità dei materiali e della meccanica, valore delle finiture, design senza tempo.

Monolite range pays special attention to style, even though it also attaches great importance to functionality. Great modularity, variety of the vanities, inner details, and possibility to manufacture custom vanities highlight the ability to adapt and the meticulous study aiming to reach comfort in use. Monolite is a synonym for attention to detail, quality of materials and mechanisms, value of the finishes, timeless design.

Monolite

Sintesi tra rigore formale e movimento morbido delle onde, il vetro cannettato Flûtes, è un materiale nobile che si ispira ai drappeggi delicati del periodo classico con un accenno alla tradizione degli anni '50.

A unique combination of rigorous shapes and the soft movement of waves, the fluted glass, also called cannelé, is a noble material that borrows from the past, inspired by the delicate drapery of the classical age with an allusion to the tradition of the 50's.
