

FIRE DESIGN SOLUTIONS

ecosmart[™]
Fire

WHAT IS ECOSMART FIRE?

An EcoSmart Fire is a bespoke piece of industrially designed fire furniture that exudes warmth, burns cleanly, and defines a space without dominating it.

From luxury resorts to commercial showrooms and residential settings, EcoSmart is embraced by the world's leading architects, designers, developers, landscapers – and style savvy homeowners.

WHY CHOOSE ECOSMART FIRE?

Independently certified safety features; endorsed by design, construction and landscape professionals; free from utility or flue restrictions; loved by homeowners; kind to the environment – there are countless reasons why choosing an EcoSmart Fire is the smartest fireplace option.

Architecturally designed to enhance contemporary living and commercial spaces, EcoSmart Fire adds warmth and ambiance with a clean-burning, flickering flame that is free from soot, smoke or ash. Now that's what we call EcoSmart.

WE HAVE YOUR FIRE DESIGN SOLUTION

Whether you're creating a custom fireplace feature, renovating an existing hearth, or looking for an out-of-the-box system, we have a stylish solution to suit your needs.

The EcoSmart Fire collection of bioethanol fireplaces is incredibly versatile and gives you absolute installation flexibility to create exactly what you want, without any hassles or restrictions.

From hand crafted freestanding pieces of fire furniture, to built-in custom designs for bespoke settings - EcoSmart Fire offers a complete collection of versatile and award-winning fireplace solutions that make having an open flame incredibly easy, whatever the setting, at the same time as being good for the environment.

Built-in

Elegantly designed and robustly constructed, EcoSmart's bespoke built-in fireplaces add a dramatic showpiece to residential and commercial premises.

Offering optimum heat output, flame enhancement and safety, their high quality, stainless steel and toughened glass construction complements a wide range of building materials and finishes.

Free from traditional installation restrictions such as plumbing, roof work, and gas or electricity connections, they provide unlimited design options for builders, architects, interior designers and homeowners.

Freestanding

Freedom, flexibility and eco-friendly functionality – EcoSmart's freestanding bioethanol fireplaces add warmth, style and ambiance to indoor living and outdoor entertaining spaces.

Cleverly refashioning the traditional fireplace concept into a piece of flexible fire furniture means that you can now enjoy the simple pleasures of an open fire whenever and wherever you want it.

From classic designs to see-through centrepieces, this collection of freestanding fireplaces is defined by its streamlined construction, sophisticated ignition system and sustainable fuel source. Boasting minimalist chic and maximum functionality, EcoSmart's fire solutions create an architectural focal point even when they are not in use.

Built-in

Bioethanol Burners

The core of all of our fireplaces, offering the ultimate in design and installation flexibility.

The residential and commercial creative design possibilities are endless when you use a flueless, vent-free ethanol burner.

Fireplace Inserts

Elegantly designed and robustly constructed, our fireplace inserts are available in a range of styles and finishes. Choose from six versatile styles in our Flex Fireplace Series, or our Curved Fireplaces.

Our fireplaces do not require any flashing, roof work or plumbing, which significantly reduces installation costs and time. Installed with ease, these fireplaces can be integrated within cabinetry or a fireplace setting, EcoSmart fireplaces offer the perfect blend of functionality and design aesthetics.

Freestanding

Fire Tables

Create a stunning yet soothing indoor or outdoor atmosphere with the help of an ethanol fire table. Our multi-functional tables are a truly remarkable portable heat source. More than accents, our versatile fire tables provide a welcoming destination and make entertaining ever so easy.

Fire Pits

A cosy and warm fireplace will perfectly complement your contemporary indoor or outdoor space. Available in different shapes, sizes and finishes, you're guaranteed to make memories around our ethanol fires.

Designer Fireplaces

Enrich the contemporary aesthetics of today's residential and commercial environments with a relocatable piece of fire furniture. With no installation or building works required, simply unpack, put the fireplace into position, and off you go.

Accessories

Our clean and simple fireplace screens, fixing systems, fireplace covers and accessories have been designed to improve the safety of operating an open fireplace without compromising the view to the flame.

Longitude 131°, Australia
Model: XL700

This luxury resort overlooking Uluru in Outback Australia incorporates EcoSmart's fire features in its elevated tents, enabling guests to stay warm while soaking up the celestial serenity.

Built-in

BIOETHANOL BURNERS

Midorinokaze Resort Kitayuzawa, Japan
Model: XL900

The Noguchi Collection Relaxation Library at the Midorinokaze Resort features ultra-comfortable sofas arranged to put your mind and body at ease and while EcoSmart's mesmerising, flickering flame creates an enticing atmosphere.

“The fireplace is the center element of the lounge, creating a focal point that divides the seating groups. It’s the feature that can be seen from all areas of the space and enhances the warmth of the walnut panelled room.”

MEAGHAN WREN,
MEYER DAVIS STUDIO

AKA Hotel, New York USA
Model: XL700

The intimate lounge artfully complements the traditional warmth of New York’s AKA Sutton Place with a relaxing yet of-the-moment ambiance. Numerous cozy seating areas, a spectacular marble bar and open fireplace created with an XL Burner completes the stylish scene.

Private Residence, Australia
Model: XL700

A minimal design approach subtly highlights a flame making it the focal point of the space. In this installation in the Mornington Peninsula, the use of neutral colours of black, white and grey offers an inviting yet simple setting where a warm flame can be enjoyed in all areas of the room.

Private Residence, Australia
Model: XL700

A beautiful installation executed by Webbs Joinery and designed by Connors & Co for a client in Tamarama, Sydney Australia. This project features the EcoSmart XL700 Burner in black including Twin Feet Fixings supporting a custom made fire screen.

Floreat Residence, Perth Australia
Model: XL900 x 2

Pairing multiple burners creates an elongated flame that provides a visual counterbalance to particularly large spaces and rooms with high ceilings.

Churchlands Residence, Perth Australia
Model: XL900

At the centre of this custom built home is a fire design that inspires and encourages family gathering without a TV in sight.

Scott Salisbury Homes, Australia
Model: 1200DB with XL900 Burner
Achieve similar look with the XL900 Burner

A great example of connecting the indoor and outdoor spaces. This two-way Fireplace can be seen and experienced from the lounge and outdoor areas simultaneously.

Photo: Scott Salisbury Homes

Private Residence, Japan
Model: XL900 x 3

This fireplace showpiece featuring three EcoSmart XL900 Burners positioned side-by-side creates a captivating living room entrance. Stacked stone surrounds are softened by the smoke- and soot-free flickering flame, which is fuelled by eco-friendly e-NRG bioethanol.

“The fire needed to offer both visual and physical comfort so patrons can sit around the fire pit with a glass of wine. The fire works well with the pit design and natural stone pebbles to create a gathering space.”

VICTOR CHEUNG,
ARCHITECT

Junction Moama, Victoria Australia
Model: XL500 x 3

Hospitality creates an ideal environment for guests, and accounts for how the food, drink and aesthetics shape mood. In this case, EcoSmart's atmospheric fire feature further enhances the restaurant's reputation as a "gathering place that celebrates the region's finest."

ecosmartfire.com

Private Residence, Japan
Model: XL900

Drawing the gaze towards traditional Japanese seiza-style furniture placement is EcoSmart's low-slung fire feature, which showcases a rectangular XL900 Burner that's ideal for showroom settings. Its flue-less construction provides endless installation freedom for merchandising professionals and trade show designers.

Rising Glen, USA
Model: XL900 x 2

For acclaimed Los Angeles architect Michael Parks, the vision behind 'Rising Glen' – a striking home in the Hollywood Hills – was to create a warm, liveable, inviting paragon of modern architecture.

Toca Madera, USA
Model: XS340 x 2

Located in a Los Angeles restaurant “conceived around a communal dining philosophy”, EcoSmart’s twin bioethanol burners create a captivating see-through effect between eating and entertainment spaces. Enhancing Hollywood’s latest hotspot is a series of flickering flames that work well with the earthy colour tones.

St Regis Hotel, Istanbul Turkey

Model: XL500 x 2

Opposite Page: XL900 x 3

Istanbul's modernist Art Deco-influenced St. Regis uses EcoSmart's stunning fire feature in its Petit "O" Bar (above), which offers a formal setup during the day before transforming into a relaxed lounge area when the sun goes down.

Located next door is the hotel lobby (right), which greets guests with a wall of flickering flame courtesy of three XL900 Burners. EcoSmart's longest linear burner creates a stunning horizontal piece of architecture when grouped for maximum effect.

Fujiya Mansions, Hong Kong
Model: XL900 x 2

You know you've 'arrived' when you walk into a home and see this masterpiece. Captivating from both sides, EcoSmart's hero of the room also houses an entertainment system behind its beautiful folding doors.

ecosmartfire.com

Restaurant La Cave, Japan
Model: XS340 x 2

Transforming a simple table top into a dynamic design feature is seamless with EcoSmart's discreet bioethanol burner, which has been cleverly incorporated into a non-combustible platform. The 2.5L ethanol burner delivers a beautifully long-lasting flame - perfect for busy bars and restaurants.

Rising Glen, USA
Model: XL900

A functional room divider becomes a stunning design feature with a peninsular fireplace that helps define the space without dominating it. Glass screens protect the flame from breezes without obstructing the view while the smoke-free flame ensures the white walls and chic furnishings remain unsullied.

The Ghost Fire Screen attaches seamlessly to the front face of the Ghost Portable Fireplace.

The C Fire, Australia
Accessories: Twin Feet Fixings & Custom Fireplace
Model: BK5

Available in a variety of shapes and sizes, EcoSmart's stylish Fire Screens reduce fuel consumption by minimising the impact of wind on the flame.

Moama Bowling Club, Australia

Accessory: Loft 8

Model: AB8

The sumptuous setting in this popular community hotspot is complemented by EcoSmart's stainless steel indoor fire feature, which works beautifully with the circular conversation pit.
(Image indicative only)

Merkmal Showroom, Japan

Accessory: Loft 3

Model: AB3

This minimalist table top installation was achieved through the use of a Top Tray, which provides a compulsory barrier between the burner itself and the timber of the table. The Loft Fire Screen adds to the reflective beauty of the flame at the same time as enhancing flame stability.

(Image indicative only)

WHY e-NRG FUEL?

BEST FLAME

CLEAN BURNING

LOWEST ODOUR

LONGEST BURN TIME

ORDER ONLINE

Achieving a beautiful, vibrant flame in your ethanol fireplace is easy when you use the right fuel.

Bioethanol is pure alcohol. The combustion of bioethanol is clean, which makes it an efficient and effective source of heat because there is no soot, ash or harmful emissions that need to be extracted through a flue - meaning all the heat stays in your room.

Specifically packaged and labelled for use in liquid ethanol fireplaces, e-NRG Bioethanol is formulated with the perfect blend of ingredients to give you a brilliant orange flame in your flue-less fireplace.

Fire up your bioethanol fire with the highest quality, cleanest burning bioethanol available, visit e-NRG.com

Clean Burning

e-NRG produces no harmful emissions - just heat, steam and carbon dioxide, which is reabsorbed by plants.

Fast Refilling

e-NRG bottles pour 8 times faster than the competition.

Packaged to Perform

e-NRG offers the safest and most efficient fueling process on the market.

Flame Arrester

The bottles are fitted with a flame arrester for safe refilling.

e-NRG is supported by an operational procedure to ensure it's used in the safest way.

FLUID™ CONCRETE TECHNOLOGY

STAIN RESISTANT

UV RESISTANT

CUSTOM FINISH

DURABLE SURFACE

LIGHTWEIGHT

Timeless Pieces from EcoSmart Fire

EcoSmart fire features are synonymous with quality, substance and enduring style and now those same qualities can be applied to our extensive concrete collection.

Incredibly strong yet relatively lightweight, EcoSmart's concrete products incorporate revolutionary Fluid™ Concrete Technology, which is eight times the tensile strength of common Portland concrete. Fluid features a stain and impact-resistant barrier that protects the concrete from environmental weathering – even under extreme conditions and long UV exposure.

Fluid's customised curing process allows each EcoSmart piece to rest and set in quality controlled conditions, producing a consistently beautiful indoor and outdoor collection of designer concrete that last longer than traditional composites.
