

Towel warming. Time for a (timeless) change.

Revolutionary. And evolutionary.

Towel warming may be a new venture for VOLA, but we have followed our established, proven principles.

Our classic design, created 40 years ago, remains the basis of each VOLA product. We embrace change. We hold onto continuity.

Image: Chrome towel rail with six bars.

Opening up opportunities.

As the boundary of the bathroom becomes blurred, we bring more design options. Our towel rail's modular system allows any number of bars to be fitted in almost any position.

Three bars? Ten bars? The choice is yours.

Image: Towel rail with 4, 6, 8 and 10 bars fitted with different examples of spacing and tile specification.

VOLA built-in modular heated towel rail for individual design solutions.

A modular system of bars to be positioned according to customer requirements.

Individual number of bars with centre distance between 100 and 300 mm.

With thermostat.

For central heating installations.

Available in chrome, brushed chrome and brushed stainless steel.
