

Our creatives

Bart Lens

Through his architecture and design, Bart Lens hopes to have an impact on our living environment. Bart Lens transforms things which already exist. As a part of the creative process, he observes how people experience their environment and how they occupy space. He is drawn ever closer to the materials, with the traditional ways of working them becoming ever more important. With this emphasis, Bart Lens brings sensitivity and atmosphere to a substantial part of the overall living environment.

Eden Design

Being active in the installation market for more than 35 years, Eden Design has built up a long history. Gradually turning to building automation, a significant know-how has been gathered.

When entering the path of design, this know-how has played a large role.

Creating innovative products, integrating technology and design is the main thought behind the Eden Design lighting.

Etre Moderne

Designers Philippe Vermeersch and Caroline Gielen are specialized in lighting, furniture and object design. Their style is no-nonsense, straightforward & unpretentious. At first sight simple, but sophisticated in detail. Different materials and techniques are like a red thread through the designs. They produce local (Belgium), wanting to preserve the work of craftsmen and to make their talent last.

Rubens-Frederix Architects

Strives for tactile and experimental design. At different scales, various issues such as spatial experience, materialization, relationships, etc. are questioned in interaction with the client in order to convert functional expectations into inspiring answers.

Stan Maes

Stan Maes is a product designer, having worked throughout Europe in the past. "Creating outstanding products; together" is his motto. This, with an initial strategic approach and a customized design process, to let his interior objects and lighting find their way to the market. A well balanced equilibrium between technology and design is very often the starting point.
