Curiosity

Daide Oppizzi

↪ 2019

Curiosity is a portable lamp whose shape reveals its natural vocation for showcasing, but at the same time for relations. It highlights spaces where people gather or the objects it can accommodate within the footprint of its base.

Neutral and essential in its light structure, it becomes functional by enhancing the content.

It is a frame for displaying objects, with its base providing the element that accommodates whatever items you wish to display, illuminated by the small spotlight on the top.

Curiosity brings its illuminated space anywhere, and thanks to its long running time (up to 32 hours without mains electricity) it allows you to reinvent everyday lightscapes.

It designs freedom dedicated to the individual, adapting to the domestic space, but above all it enables original new scenarios in public spaces.

Adept at creating flexible and mobile displays, it is also a perfect tool for retail spaces, for exhibitions or for restaurants, where it creates an intimate and elegant atmosphere able to follow the changing organisation of spaces.

↗ Curiosity

Curiosity Focus concentrates a precise light beam on the base, putting the chosen object in the spotlight.

Curiosity Ambience offers a more diffused light emission, for softer mood lighting.

The 36 version can be available also as Curiosity Sphere. It adds a white glass sphere with amber light that recreates a cosier, more intimate atmosphere, perfect for cultivating feel-good relationships.

Innovation goes Portable

- USB-C Port
- 3 Intesity levels
- up to 32 hours Autonomy
- up to 2,5 W
- 3 hours fast charge

↳ Focus

"We all have that one object that tells the story of a life, of a journey, or of a collection of objects that we would like to underline with light. Curiosity, inspired by the universe of the "cabinet of curiosities", stems from the desire to offer a small display to all those who wish to showcase an object under its light. Everyone is free to imagine their own presentation on the stage created by the lamp. Who said curiosity is an undesirable character flaw?"

Davide Oppizzi

↗ Curiosity 36 Sphere

"By nature, it is intended for all sectors, both private and professional: museums, the display of private collections or of objects on restaurant tables. Thanks to its battery, it is nomadic by nature and easy to move around, finding a place anywhere in any interior living space."

Davide Oppizzi

↗ Two Sizes

Curiosity 36: 360 mm x 180mm x 150 mm
Curiosity 45: 450mm x 210mm x 180 mm

↗ Three Finishes

- Black
- White
- Green

Curiosity

Materials:

metal body, blown glass diffusing sphere.

Colours:

Powered coated body in green, black and white.
Diffuser sphere in white opal glass.

Curiosity 36:

Total Power: 1,7W
Delivered Luminous Flux: 210lm

Curiosity 45:

Total Power: 2,4W led
Delivered Luminous Flux: 300lm
