**Cemento grigio** / Grey cement / Grauer Zement / Cemento gris / Béton gris

IT Nel tavolo Boiaccia, le lievi imperfezioni formali del cemento, la sua superficie porosa e gli angoli non perfettamente squadri, contribuiscono a infondergli una matericità che dura ed al tempo stesso cambia nel tempo. Ogni tavolo è unico, oltre che per il numero segnato sotto il piano che lo contraddistingue, anche per le leggere variazioni di colore che si verificano, al momento della colata, a causa dell'umidità e della temperatura dell'aria. / **EN** The Boiaccia table has slight formal imperfections in its cement, a porous surface and corners that are not perfectly square, all contributing to its material quality, which is longlasting yet changes over time. Each table is unique, not only with a number marked under the top but also with slight variations in colour, which arise at the time of casting due to humidity and air temperature. / **DE** Beim Tisch Boiaccia tragen die leichten formalen Imperfektionen des Zements, seine poröse Oberfläche und die nicht perfekt quadratischen Kanten dazu bei, ihm eine Kompaktheit zu verleihen, die der Zeit standhält und sich dennoch mit ihr verwandelt. Jeder Tisch ist einzigartig, und zwar nicht nur wegen der unter der Platte angeführten kennzeichnenden Seriennummer, sondern auch wegen der leichten Farbvarianten, die aufgrund der Feuchtigkeit und der Temperatur der Luft beim Gießen des Zements entstehen. / **ES** En la mesa Boiaccia, las leves imperfecciones formales del cemento, su superficie porosa y las esquinas imperfectamente escuadradas contribuyen a infundirle una materialidad que dura y al mismo tiempo cambia a lo largo del tiempo. Cada mesa es única, tanto por el número distintivo que lleva marcado debajo del sobre, como por las ligeras variaciones de color que se producen en el momento de la lechada a causa de la humedad y de la temperatura del aire. / **FR** Sur la table Boiaccia, les légères irrégularités du béton, la surface poreuse et les angles qui ne sont pas parfaitement à l'équerre, contribuent à lui conférer un aspect matérielle qui, à la fois, dure et change au fil du temps. Chaque table est une pièce unique, non seulement à cause du numéro marqué sous son plateau, mais également grâce aux légères nuances de couleur, dues aux variations d'humidité et de température de l'air, qui surviennent lors de la coulée du béton.
