Consigli per la vendita

SALES ADVICE

CONSIGLI PER LA VENDITA

1 CUSCINI IN PIUMA E CUSCINI IN GOMMA

Il divano è un prodotto che ha una sua vita e il suo aspetto cambia in base all'utilizzo che ne viene fatto. Un utilizzo intenso del divano implica una deformazione dei cuscini, deformazione decisamente più contenuta nel caso di cuscini in gomma e più accentuata nei cuscini in piuma, soprattutto se non vengono osservate le indicazioni per la manutenzione della piuma presenti sul nostro catalogo.

A chi non desiderasse un divano dall'aspetto più "vissuto" raccomandiamo la scelta di cuscini in gomma. Informiamo infatti i gentili clienti che non verranno più effettuate sostituzioni di cuscini in piuma con cuscini in gomma a titolo gratuito. I cuscini in piuma già utilizzati verranno d'ora in poi sostituiti solo con addebito.

2 TESSUTI IN CINIGLIA

I tessuti di ciniglia vengono spesso scelti per la loro piacevole caratteristica di morbidezza, conferita al tessuto dalla presenza del pelo della ciniglia, che con l'utilizzo tende a schiacciarsi e creare delle zone in cui questa caratteristica è maggiormente evidente, rendendo l'aspetto del divano più "vissuto". Per ravvivare il pelo schiacciato della ciniglia si può vaporizzare l'area in cui il pelo è schiacciato o procedere con un lavaggio a secco del tessuto. Se il cliente non desiderasse agire in questo modo, raccomandiamo vivamente la preferenza di tessuti dall'aspetto più uniforme.

SALES ADVICE

1 FEATHER AND FOAM CUSHIONS

The sofa has its own life and the sofa look changes according to the use you make of it. An intense use causes a change in the shape of the cushions; this is not so evident in case of foam cushions and much more marked in case of feather cushions, especially if you do not follow the feather maintenance instructions expressed in our catalogue. We recommend to choose foam cushions to those who do not wish to have a sofa with a more "used look". We inform our clients that we will no longer substitute feather cushions with foam cushions for free. Substitutions of used feather cushions will be charged.

2 CHENILLE FABRICS

Chenille fabrics are often chosen for their pleasant soft touch, which is typical for chenille fabrics due to the presence of the pile. The chenille pile tends to become flat with use and to create areas where this characteristic is more marked, thus making the sofa look more "used". In order to revitalize the chenille pile, you can vaporize the area where the pile has become flat with iron or dry clean the fabric. If the customer does not wish to follow these care instructions, we recommend to choose fabrics with a more uniform look.

3 MODIFICHE E DIFFERENZE TRA MODELLI IN TEMPI DIVERSI

Nel corso dei mesi e degli anni, la Giulio Marelli si riserva il diritto e il dovere di apportare delle seppur minime modifiche ai modelli per migliorare la costruzione e i materiali utilizzati. Divani, poltroncine o tavolini acquistati in un secondo tempo per accompagnare merce precedente, non potranno mai essere completamente identici. Ciò vale anche per i tessuti e le pelli utilizzati per i rivestimenti che, appartenendo a lotti di produzione diversi, presentano delle piccole differenze tollerate per legge.

4 TESSUTI E PELLI CLIENTE

La Giulio Marelli non si assume alcuna responsabilità in merito a problemi derivanti da caratteristiche tecniche di tessuti e/o pelli inviati dal cliente, quali durabilità, qualità, alterazioni del materiale nel tempo o altro. Invitiamo i nostri clienti ad inviarci preventivamente un campione del materiale selezionato per verificarne l'idoneità al taglio e alla realizzazione delle cuciture del modello prescelto. Tuttavia, anche in questo caso non possiamo essere ritenuti responsabili e non accetteremo reclami per qualsiasi problema legato al materiale.

La stessa cosa vale per pelli e tessuti specificati da clienti che non appartengono alle nostre collezioni e che acquistiamo su loro richiesta.

3 CHANGES AND DIFFERENCES BETWEEN MODELS PURCHASED IN DIFFERENT TIMES

Over the months and the years, Giulio Marelli reserves the right and the duty to make some changes to the models, in order to improve the construction and the materials they are built with. Sofas, armchairs or coffee tables delivered afterwards to accompany previously delivered goods cannot be identical to the previous ones. Also fabrics and leathers will present some small differences tolerated by law, because they belong to different batches.

4 CUSTOMER'S OWN FABRICS AND LEATHERS

Giulio Marelli does not take any responsibility concerning problems arising from the technical characteristics of customer's own fabrics and/or leathers, such as durability, quality, changes of the material over time or anything else.

We kindly ask our customers to send us a sample of the selected material beforehand, in order to check if it is suitable to be cut and to make the stitches of the model you choose. However, also in this case we are not responsible and we will not accept any complaint for any problem concerning the customer's own material.

This is also valid for fabrics and leathers specified by customers that do not belong to our collections and that we supply on customer's demand.

5 MARMO

Il marmo è un materiale naturale, poroso, delicato e che non è mai uniforme. Tutti i marmi dei nostri tavoli sono stati sottoposti al trattamento antimacchia Xstone che agisce depositandosi nei micro-pori della superficie non permettendo la penetrazione di agenti esterni e lasciando la superficie al naturale senza creare una pellicola lucida. Questo trattamento non è illimitato nel tempo, si consiglia di ripeterlo dopo 1-2 anni. Gli agenti macchianti, come vino e caffè, non devono rimanere a lungo sulla superficie, si consiglia pertanto di pulire il prima possibile. Da tenere presente che un antimacchia non ha molta efficacia su alimenti acidi, come ad esempio il limone, che intaccherebbero sia il trattamento, sia il marmo. Per la manutenzione ordinaria si consiglia di utilizzare un panno in microfibra e un detergente neutro. A richiesta è disponibile il trattamento al poliestere antimacchia, che può essere lucido oppure opaco. Il costo di tale trattamento è pari al 20% del prezzo del tavolo con top in marmo Emperador marrone con base nella finitura specificata nell'ordine. A richiesta è inoltre possibile avere un servizio "nesting", ovvero la foto della lastra di marmo prima del taglio, per un costo netto di 60 euro per ciascun top in marmo.

6 VETRO

Anche la finitura satinata del vetro retro verniciato è delicata. Coloro che la ordinano espressamente devono esserne consapevoli per evitare problemi futuri.

5 MARBLE

Marble is a natural, porous and easily stained material, which is never uniform. All the marbles used for our tables undergo the Xstone anti stain treatment which settles into the micro-pores of the surface and prevents the penetration of external agents, leaving the surface with a natural look, without creating a polished coating. This treatment is limited in time and should be repeated after 1-2 years. The staining agents, such as wine and coffee, should not remain on the surface for a long time, therefore we recommend to clean the marble as soon as possible. Please note that anti-stain treatments are not so effective with acidic foods, such as lemon, which would damage both the treatment and the marble. For routine cleaning we recommend to use a microfibre cloth and a neutre cleaner. Anti stain polyester treatment, shiny or matt, is available on demand. The cost of this treatment is 20% of the price of the table with Emperador brown marble top and with base in the finish indicated in the order. On demand it is also possible to have a "nesting service", that is to say to get the picture of the marble slab before being cut, for a net price of 60 euro for each marble top.

6 GLASS

Also the satinated finish of the back-painted glass is delicate. Those who order it expressly must be aware of it in order to avoid any problem in the future.

CONSEILS POUR LA VENTE

1 COUSSINS EN DUVET ET COUSSINS EN MOUSSE

Un canapé ou un fauteuil est un produit qui a sa vie à lui et son aspect change à base de l'utilisation qui en est faite. Une utilisation intensive du canapé ou fauteuil implique une déformation des coussins, déformation plutôt limitée dans le cas de coussins en mousse et plus prononcée dans le cas de coussins en duvet, surtout si les directives en matière d'entretien de coussins en duvet que l'on peut trouver dans notre catalogue ne sont pas respectées. A ceux qui ne souhaitent pas de canapé ou fauteuil à l'aspect "vécu", nous recommandons de choisir des coussins en mousse. Nous vous informons qu'en effet, nous ne remplacerons plus gratuitement des rembourrages en duvet par des rembourrages en mousse. Le remplacement de rembourrages en duvet déjà utilisés devra désormais être payé.

2 TISSUS DE CHENILLE

Les tissus de chenille sont souvent choisis pour leur agréable caractéristique de douceur, que la présence du poil de la chenille donne au tissu. Lors de l'usage, ce poil tend à s'écraser et à créer des zones dans lesquelles cette caractéristique se montre davantage, ce qui donne au canapé ou fauteuil un aspect plus "vécu". Pour faire revivre le poil écrasé de la chenille, on peut nettoyer à la vapeur la zone dans laquelle le poil est écrasé ou passer au nettoyage à sec du tissu. Si le client ne souhaite pas agir de telle manière, nous

EMPFEHLUNGEN ZUM VERKAUF

1 KISSEN IN DAUNE UND KISSEN IN SCHAUM

Das Sofa hat sein eigenes Leben und sein Aussehen ändert sich wegen Benutzung. Eine intensive Benutzung des Sofas führt zu einer Verformung der Kissen; dies ist bei Daunenkissen unzweifelhaft viel sichtlicher als bei Schaumkissen, vor allem wenn die Wartungsanleitungen fuer Daunenkissen in unserem Katalog nicht berücksichtigt werden. Kunden, die kein Sofa mit solchem "gebrauchten" Aussehen haben moechten, empfehlen wir Schaumkissen. Wir moechten unsere Kunden informieren, dass Daunenkissen nicht mehr durch Schaumkissen frei ersetzt werden. Schon benutzte Daunenkissen werden ab sofort nur gegen Berechnung ersetzt werden.

2 CHENILLESTOFFE

Chenillestoffe werden oft aufgrund ihres angenehmen weichen Gefühls gewählt. Ihre Weichheit ist auf das Flor der Chenille zurückzuführen, das aber wegen Benutzung flach werden kann. Auf diese Weise können Druckstellen, die sogenannten Sitzspiegel entstehen, aber dabei handelt es sich um eine warentyische Erscheinung, nicht um einen Qualitätsmangel. Um das Flor wieder zu erheben, kann der Stoff gedämpft oder trocken gereinigt werden. Wenn Kunden solche Pflegeanleitungen nicht befolgen möchten, empfehlen wir, Stoffe mit gleichmässigem Aussehen auszusuchen.

recommandons vivement de choisir des tissus qui ont un aspect plus uniforme.

3 MODIFICATIONS ET DIFFÉRENCES ENTRE

MODÈLES ACHETÉS À DES MOMENTS DIFFÉRENTS

Marelli se réserve le droit, et le considère aussi son devoir, d'appliquer de petites modifications, quelque minimes qu'elles soient, aux modèles au cours des mois et des années afin d'améliorer la construction et les matériaux utilisés. Des canapés, fauteuils ou tables basses achetés dans un second temps pour être assortis à meubles existants ne pourront jamais être complètement identiques. Ceci vaut aussi pour les tissus et les cuirs utilisés pour les revêtements: puisqu'ils viennent de lots différents de production, ceux-ci présentent de petites différences juridiquement acceptées.

4 TISSUS ET CUIRS CLIENT

Giulio Marelli décline toute responsabilité pour problèmes provenant des caractéristiques techniques des tissus ou cuirs envoyés par le client, comme durabilité, qualité, altérations du matériel dans le temps ou autre.

Nous invitons nos clients à nous faire parvenir préalablement un échantillon du matériel sélectionné pour en vérifier l'aptitude au coupage et à la réalisation des coutures du modèle choisi. Toutefois, ici également nous ne sommes pas responsables et nous n'acceptons aucune plainte concernant des problèmes liés au matériel client. Cela s'applique également aux cuirs et tissus

3 VERÄNDERUNGEN UND UNTERSCHIEDE

ZWISCHEN MODELLEN, DIE IN VERSCHIEDENEN ZEITEN GEAUFT WERDEN

Im Laufe der Monate und der Jahre behält sich Giulio Marelli das Recht und die Verpflichtung vor, alle zu Verbesserung der Konstruktion und der Materialien der Modelle notwendigen Veränderungen anzubringen. Nachbestellungen können vorigen Bestellungen nicht identisch sein. Das gilt auch fuer Stoffe und Leder, die zu verschiedenen Partien gehören und aus diesem Grund kleine gesetzlich tolerierten Verschiedenheiten aufweisen.

4 KUNDENSTOFFE UND LEDER

Giulio Marelli übernimmt keine Verantwortung für Probleme, die auf technische Eigenschaften der Kundenstoffe und/oder Leder zurückzuführen sind, wie Haltbarkeit, Qualität, Änderungen des Materials im Laufe der Zeit oder andere.

Wir ersuchen undere Kunden, uns ein Muster des Materials vorab zukommen zu lassen, damit wir überprüfen können, ob das Kundenmaterial für das Zuschneiden und für die Nähte des ausgewählten Modells geeignet ist. Allerdings sind wir auch in diesem Falle für die Probleme nicht verantwortlich, die auf das Kundenmaterial zurückzuführen sind, und wir werden keine Reklamationen akzeptieren.

Das gilt auch für von Kunden ausgesuchten Stoffen und Ledern, die nicht zu unseren Kollektionen gehören, und die wir auf deren Antrag besorgen.

spécifiés par les clients, qui n'appartiennent pas à nos collections, et que nous fournissons à leur demande.

5 MARBRE

Le marbre est une matière naturelle, poreuse, délicate et qui n'est jamais uniforme. Tous les marbres de nos tables ont été soumis au traitement anti-taches Xstone, qui agit en se déposant dans les micropores de la surface, ainsi que les agents extérieurs ne puissent pas pénétrer. Ce traitement laisse la surface au naturel, sans créer une pellicule brillante, mais a une durée limitée. On recommande donc de le répéter après 1 – 2 ans. Les agents tachants, comme vin ou café, doivent être nettoyés dès que possible. Il faut aussi considérer que les traitements anti-taches ne sont pas efficaces dans le cas des aliments surs comme les citrons, qui attaqueraient le traitement ainsi que le marbre. Pour le nettoyage ordinaire, on recommande d'utiliser un linge en microfibre et un détergent neutre. Traitement au polyester anti-taches disponible sur demande dans la finition brillante ou mate. Le coût de ce traitement est de 20% du prix de la table avec tablette en marbre Emperador brun avec base dans la finition spécifiée dans la commande. Sur demande il est aussi possible d'avoir un service de "nesting", c'est-à-dire d'avoir la photo de la plaque de marbre avant de la tailler pour un coût net de 60 euro pour chaque tablette en marbre.

6 VERRE

La finition satinée du verre laqué de dessous est également délicate. Qui la commande, doit bien s'en rendre compte pour éviter de futurs problèmes.

5 MARMOR

Marmor ist ein natürliches, delikates, poröses Gestein, das niemals homogen ist. Alle Marmore unserer Tische werden der Xstone fleckabweisenden Behandlung unterzogen, die sich in die Mikorporen der Oberfläche ablagert und das Eindringen von äusseren Wirkstoffen behindert. Die Oberfläche sieht natürlich aus und weist keine glänzende Beschichtung auf. Diese Behandlung ist zeitlich begrenzt, deshalb ist es zu empfehlen, sie nach 1 – 2 Jahren zu wiederholen. Fleckende Stoffe, wie Wein und Kaffee, sollten so rasch wie möglich entfernt werden. Bitte auch beachten, dass eine fleckabweisende Behandlung gegen saure Lebensmittel wie Zitronen keine Wirkung hat, denn diese würden sowohl die Behandlung als auch den Marmor beschädigen. Für die Alltagsreinigung ist es empfohlen, ein Mikrofaser Tuch und ein neutrales Reinigungsmittel zu benutzen. Fleckabweisende Polyester-Behandlung, glänzend oder matt, auf Anfrage erhältlich. Der Preis dafür ist 20% des Preises vom Tisch mit Emperador braun Marmorplatte mit Gestell in der in der Bestellung angegebenen Ausführung. Auf Anfrage ist es auch möglich, einen "Nesting Service" zu haben, das heisst das Photo der Marmorplatte, bevor sie geschnitten wird, für einen Ek-Preis von 60 Euro für jede Marmorplatte.

6 GLAS

Auch die satinierte Ausführung des von hinten lackierten Glases ist delikat. Kunden, die diese Ausführung ausdrücklich bestellen, sollen sich davon bewusst sein, um künftige Probleme zu vermeiden.

Fusto in legno massello e legno multistrato con cinghie elastiche intrecciate. Imbottitura in poliuretano espanso rivestito in vellutino bianco. Cuscini di schienale in Piumafib, una speciale miscela ipoallergenica di vera piuma e fibra poliestere siliconata con inserto in gomma con densità 30 kg/m³*. Cuscini di seduta costituiti da un inserto in poliuretano con densità di 30 Kg/m³ ricoperto da un trapuntino di vera piuma imbottito a scomparti*. Completamente sfoderabile in tessuto, non sfoderabile in pelle e finta pelle. Kit letto disponibile. Disponibile con profondità di seduta 100/110/120 cm

*Manutenzione dei cuscini contenenti piuma:

I cuscini contenenti piuma tendono a deformarsi con l'utilizzo. Per mantenerne la forma è necessario, anche dopo un breve utilizzo, battere e sprimacciare ripetutamente i cuscini. Non utilizzare mai battipanni o aspirapolvere. A coloro che non desiderassero seguire queste indicazioni o che volessero un divano dall'aspetto meno vissuto, raccomandiamo di preferire dei cuscini in gomma.

Carcasse en bois massif et multiplis muni de bandes élastiques entrecroisées et finie de mousse polyuréthane couverte de dacron. Coussins de dossier en Piumafib, un mélange hypoallergénique spécial de véritable duvet et fibre polyester siliconisée avec un noyau en mousse polyuréthane d'une densité de 30 kg/m³. Les coussins d'assise sont composés d'un noyau en mousse polyuréthane d'une densité de 30 kg/m³ couvert de véritable duvet broché en compartiments*. Revêtement complètement déhoussable en tissu, fixe en cuir et cuir look.*

Disponibile in canapé-lit. Profondeurs d'assise disponibles: cm 100/110/120

*Entretien de coussins en duvet:

Coussins en duvet ont tendance à perdre leur forme dû à l'usage. Pour en conserver la forme il est nécessaire, aussi après un usage court, de régulièrement battre les coussins. Ne jamais utiliser la tapette ou l'aspirateur. A ceux qui ne désirent pas suivre ces indications ou qui souhaitent un canapé qui ait l'air moins "usé", nous conseillons vivement de choisir des coussins en mousse polyuréthane.

Frame made of solid wood and multi-ply wood with interwoven elastic straps. The upholstery is made of polyurethane foam, covered with dacron. The back cushions are filled with Piumafib, a special hypoallergenic mixture of feathers and siliconised polyfibre with a foam insert with density of 30 kg/m³. The seat cushions are made of a foam insert with density of 30 Kg/m³, covered with a feather compartments quilt*. Fully removable fabric covers, fixed leather and artificial leather covers.*

Sofa-bed is available. Available seat depths: 100/110/120 cm

*Maintenance of feather cushions:

Cushions filled with feathers tend to change their shape with use. In order to keep their shape it is necessary, even after a short use, to plump up the cushions repeatedly. Never use carpet beater or vacuum cleaner. We recommend to choose foam cushions to those who do not wish to follow these instructions or to have a "used look" sofa.

Для производства каркаса используется массив дерева и многослойная фанера в сочетании с перекрещивающимися эластичными ремнями. Наполнение из полиуретана, обернутого в белый бархат. Наполнение подушек спинки выполнено из материала Piumafib – специальной, не вызывающей аллергии смеси из натурального пуха и полиэфирных силиконовых волокон со вставкой из полиуретана плотностью 30 кг/м³. Подушки сиденья: стеганые по отсекам, наполнение из натурального пуха с вставками из полиуретана плотностью 30 кг/м³ *. Полностью съемные чехлы из ткани, несъемные чехлы из кожи.*

Исполнение дивана в версии со спальным местом: возможно

Возможные варианты по глубине: 100/110/120см

**Эксплуатация подушек с пуховым наполнением:*

В процессе эксплуатации подушки с пуховым наполнением могут деформироваться, во избежание чего их необходимо слегка взбивать вручную даже после непродолжительного нахождения на диване. Использование в этих целях пылесоса или выбивалки для одежды категорически запрещено. Если клиент не планирует следовать данным инструкциям и хочет, чтобы подушки сиденья и спинки проминались по минимуму, посоветуйте выбрать наполнение только из полиуретана, полностью исключив натуральный пух.

Das Gestell besteht aus Massiv- und Schichtholz, mit geflochtenen Gummigurten, gepolstert mit Polyurethanschaumstoff, mit Dacron bezogen. Rueckenkissen aus Piumafib, einer hypoallergischen speziellen Mischung aus echter Daune und silikonisierter Polyesterfaser mit einem Schaumkern mit Dichte 30 kg/m³. Die Sitzkissen bestehen aus einem Schaumkern mit Dichte 30 Kg/m³ mit einer gekammerten Daunenaufflage*. Stoffbezüge alle abziehbar, Leder und Kunstleder festbezogen.*

Als Bettsofa verfuegbar. Lieferbare Sitztiefen: 100/110/120 cm

Wartungsanleitungen fuer Daunenkissen:

Die Kissen, die Daunen enthalten, neigen dazu, sich durch Gebrauch zu verformen. Um die urspruengliche Form zu halten, ist es notwendig, auch nach kurzem Gebrauch, die Kissen wiederholt aufzuschuetteln. Keinen Auskloepfer oder Staubsauger verwenden. Unseren Kunden, die diese Anweisungen nicht befolgen moechten, oder die kein Sofa mit solchem "gebrauchten" Aussehen haben moechten, empfehlen wir Polyurethan-Kissen.

Fusto in legno massello e legno multistrato con cinghie elastiche intrecciate. Imbottitura in espanso rivestito in vellutino bianco. Cuscini di schienale in Piumafib, una speciale miscela ipoallergenica di vera piuma e fibra poliestere silconata*. Cuscini di seduta in poliuretano espanso con densità di 30 Kg/m³ (su richiesta è possibile avere densità 40 Kg/m³ medio o 40 Kg/m³ morbido), rivestito in fibre termo legate e in tessuto di puro cotone. Completamente sfoderabile in tessuto, non sfoderabile in pelle e finta pelle.

*Manutenzione dei cuscini contenenti piuma: I cuscini contenenti piuma tendono a deformarsi con l'utilizzo. Per mantenerne la forma è necessario, anche dopo un breve utilizzo, battere e sprimacciare ripetutamente i cuscini. Non utilizzare mai battipanni o aspirapolvere. A coloro che non desiderassero seguire queste indicazioni o che volessero un divano dall'aspetto meno vissuto, raccomandiamo di preferire dei cuscini in gomma.

Carcasse en bois massif et multiplis muni de bandes élastiques entrecroisées et finie de mousse polyuréthane couverte de dacron. Coussins de dossier en Piumafib, un mélange hypoallergénique spécial de véritable duvet et fibre polyester silconisée. Coussins d'assise en mousse polyuréthane d'une densité de 30 kg/m³ (sur demande, il est possible d'avoir une densité de 40 kg/m³ medium ou 40 kg/m³ souple), couverte de dacron. Revêtement complètement déhoussable en tissu, fixe en cuir et cuir look.*

* Entretien de coussins en duvet: Coussins en duvet ont tendance à perdre leur forme dû à l'usage. Pour en conserver la forme il est nécessaire, aussi après un usage court, de régulièrement battre les coussins. Ne jamais utiliser la tapette ou l'aspirateur. A ceux qui ne désirent pas suivre ces indications ou qui souhaitent un canapé qui ait l'air moins "usé", nous conseillons vivement de choisir des coussins en mousse polyuréthane.

Frame made of solid wood and multi-ply wood with interwoven elastic straps, upholstered with polyurethane foam, covered with dacron. The back cushions are filled with Piumafib, a special hypoallergenic mixture of feathers and siliconised polyfibre.*

The seat cushions are made of polyurethane foam with density of 30 Kg/m³ (on demand it is possible to have 40 Kg/m³ medium or 40 Kg/m³ soft), covered with dacron and pure cotton fabric. Fully removable fabric covers, fixed leather and artificial leather covers.

*Maintenance of feather cushions: Cushions filled with feathers tend to change their shape with use. In order to keep their shape it is necessary, even after a short use, to plump up the cushions repeatedly. Never use carpet beater or vacuum cleaner. We recommend to choose foam cushions to those who do not wish to follow these instructions or to have a "used look" sofa.

Для производства каркаса используется массив дерева и многослойная фанера в сочетании с перекрещивающимися эластичными ремнями. Наполнение из полиуретана, обернутого в белый бархат. Наполнение подушек спинки выполнено из материала Piumafib – специальной, не вызывающей аллергию смеси из натурального пуха и полиэфирных силиконовых волокон*. Наполнение подушек сиденья: пенополиуретан плотностью 30 кг/м³ (по запросу - 40 кг/м³ средней мягкости или мягкий), покрытый термосвязанным волокном и обернутый в ткань из натурального хлопка. Полностью съемные чехлы из ткани, несъемные чехлы из кожи (искусственной или натуральной)

Das Gestell besteht aus Massiv- und Schichtholz, mit geflochtenen Gummigurten, gepolstert mit Polyurethanschaumstoff, mit Dacron bezogen. Rueckenkissen aus Piumafib, einer hypoallergischen speziellen Mischung aus echter Daune und silikonisierter Polyesterfaser. Die Sitzkissen bestehen aus Polyurethan-Schaumstoff 30 Kg/m³ (auf Anfrage kann man 40 Kg/m³ medium oder 40 Kg/m³ weich haben), bezogen mit Dacron und reinem Baumwollstoff. Stoffbezüge alle abziehbar, Leder und Kunstleder festbezogen.*

*Wartungsanleitungen fuer Daunenkissen: Die Kissen, die Daunen enthalten, neigen dazu, sich durch Gebrauch zu verformen. Um die urspruengliche Form zu halten, ist es notwendig, auch nach kurzem Gebrauch, die Kissen wiederholt aufzuschuettern. Keinen Ausklopfen oder Staubsauger verwenden. Unseren Kunden, die diese Anweisungen nicht befolgen moechten, oder die kein Sofa mit solchem "gebrauchten" Aussehen haben moechten, empfehlen wir Polyurethan-Kissen.

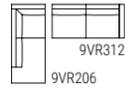

*Эксплуатация подушек с пуховым наполнением: В процессе эксплуатации подушки с пуховым наполнением могут деформироваться, во избежание чего их необходимо слегка взбивать вручную даже после непродолжительного нахождения на диване. Использование в этих целях пылесоса или выбивалки для одежды категорически запрещено. Если клиент не планирует следовать данным инструкциям и хочет, чтобы подушки сиденья и спинки проминались по минимуму, посоветуйте выбрать наполнение только из полиуретана, полностью исключив натуральный пух.

The Oliver and Slide collection is characterized by its flexibility, versatility and variety of possible combinations, thanks to the wide range of available measures, paddings, covers, feet and bases, thus satisfying every demand of taste, space and comfort.

Standard technical sheet:

Frame made of solid wood and multi-ply wood with interwoven elastic straps, upholstered with polyurethane foam, covered with dacron. The back cushions are filled with Piumafib, a special hypoallergenic mixture of feathers and siliconised polyfibre.*

The seat cushions are made of polyurethane foam with density of 30 Kg/m³ (on demand it is possible to have 40 Kg/m³ medium or 40 Kg/m³ soft), covered with dacron and pure cotton fabric. Fully removable fabric covers, fixed leather and artificial leather covers.

Sofa-bed is available.

**Maintenance of feather cushions:*

Cushions filled with feathers tend to change their shape with use. In order to keep their shape it is necessary, even after a short use, to plump up the cushions repeatedly. Never use carpet beater or vacuum cleaner. We recommend to choose foam cushions to those who do not wish to follow these instructions or to have a "used look" sofa.

Основными преимуществами коллекции диванов Oliver и Slide являются широта и многообразие возможных комбинаций, что обеспечивается богатым выбором элементного ряда, типа наполнения, предлагаемых вариантов отделки, а также видов ножек и оснований и отвечает самым разнообразным требованиям по вкусу, комфорту и параметрам помещения. Для производства каркаса используется массив дерева и многослойная фанера в сочетании с перекрещивающимися эластичными ремнями. Наполнение из полиуретана, обернутого в белый бархат. Наполнение подушек спинки выполнено из материала Piumafib – специальной, не вызывающей аллергии смеси из натурального пуха и полиэфирных силиконовых волокон*. Unseren Kunden, die diese Anweisungen nicht befolgen moechten, oder die kein Sofa mit solchem "gebrauchten" Aussehen haben moechten, empfehlen wir Polyurethan-Kissen.

**Эксплуатация подушек с пуховым наполнением:*

В процессе эксплуатации подушки с пуховым наполнением могут деформироваться, во избежание чего их необходимо слегка взбивать вручную даже после непродолжительного нахождения на диване. Использование в этих целях пылесоса или выбивалки для одежды категорически запрещено. Если клиент не планирует следовать данным инструкциям и хочет, чтобы подушки сиденья и спинки проминались по минимуму, посоветуйте выбрать наполнение только из полиуретана, полностью исключив натуральный пух.

*Manutenzione dei cuscini contenenti piuma: I cuscini contenenti piuma tendono a deformarsi con l'utilizzo. Per mantenerne la forma è necessario, anche dopo un breve utilizzo, battere e sprimacciare ripetutamente i cuscini. Non utilizzare mai battipanni o aspirapolvere. A coloro che non desiderassero seguire queste indicazioni o che volessero un divano dall'aspetto meno vissuto, raccomandiamo di preferire dei cuscini in gomma.

*Entretien de coussins en duvet: Coussins en duvet ont tendance à perdre leur forme dû à l'usage. A ceux qui ne désirent pas suivre ces indications ou qui souhaitent un canapé qui ait l'air moins "usé", nous conseillons vivement de choisir des coussins en mousse polyuréthane.
