AGO

Articolo: AGO4
Materiale: Ceramilux lucido
Troppo pieno: SI
Portata: l/s 0,63
Peso lordo: kg 115 ca.
Peso netto: kg 97,5 ca.
Dimensione imballo: cm 185 x 91 x 68
Capacità*: l 345 ca.
**Considerando il limite di capienza al troppo pieno*

Descrizione: Vasca da bagno ovale in Ceramilux lucido, completa di piletta con sistema di scarico a pressione klik-clak, sifone e tubo flessibile.

Article: AGO4
Material: Glossy Ceramilux
Overflow: YES
Flow rate: l/s 0,63
Gross weight: kg 115 ca.
Net weight: kg 97,5 ca.
Packing dimensions: cm 185 x 91 x 68
Capacity*: l 345 ca.
**Considering the capacity of water to the overflow*

Description: Oval glossy Ceramilux bathtub complete with drain and pressure plug, siphon and flexible hose.

SIFONE PER VASCHE

SIPHON FOR TUBS

SCHEDE PRODOTTO PRODUCT DESCRIPTION

MATERIALI IMPIEGATI

CERAMILUX®

Ceramilux® è un materiale composito, formato da cariche minerali naturali/carbonati di calcio triidrati di alluminio) e resina poliestere. Il film di gelcoat che riveste la superficie del materiale è di tipo poliestere iso/neopentilico che consente di avere ottime caratteristiche di resistenza superficiale.

ISTRUZIONI PER L'USO E MANUTENZIONE

PULIZIA

Per rimuovere le macchie, il calcare e lo sporco che si depositano sulla superficie è sufficiente pulire Ceramilux® con acqua saponata o comuni detergenti non abrasivi, avendo cura di risciacquare bene la superficie. I prodotti consigliati sono: ACE crema gel, CIF in gel, AIA, utilizzati con spugna non abrasiva o panno di cotone.

Evitare l'uso di detergenti abrasivi e spugne abrasive.

Si sconsiglia l'uso di prodotti chimici aggressivi quali acetone, trielina, acidi e basi forti (acido cloridrico e soda caustica). Alcune sostanze come inchiostro, cosmetici e tinte, a contatto prolungato col materiale possono rilasciare coloranti sulla superficie di Ceramilux®.

Non appoggiare sulla superficie sigarette accese ed oggetti roventi.

Non tagliare direttamente sulla superficie di Ceramilux®.

Come rimediare ad eventuali danneggiamenti

Alcuni usi impropri possono provocare dei difetti visibili sulla superficie, rimediare a graffi profondi, lievi scheggiature, macchie ostinate è spesso possibile con una semplice manutenzione. Se il film di gelcoat non è stato danneggiato in tutto lo spessore è sufficiente carteggiare con carta abrasiva finissima (grana 800 - 1000) fino ad uniformare completamente la superficie.

Per ripristinare la lucentezza originaria utilizzare pasta lucidante o polish (vanno bene i prodotti impiegati per lucidare la carrozzeria delle auto), secondo le indicazioni del produttore stesso.

ATOSSICITÀ

Il prodotto non risulta tossico o nocivo all'uomo, agli animali o all'ambiente.

ECOLOGIA

Alla fine della sua utilizzazione non disperdere l'oggetto nell'ambiente, ma smaltirlo secondo le modalità previste dall'azienda comunale di smaltimento rifiuti.

Avvertenza

La presente scheda prodotto ottempera alle disposizioni della legge del 10 aprile 1991 n. 126 "Norme per l'informazione del consumatore" e al Decreto del 8 febbraio 1997 n.101 "Regolamento d'attuazione".

MATERIALS USED

CERAMILUX®

Ceramilux® is a material composed of natural mineral charges (calcium carbonates and aluminium trihydrates) and polyester resin. The gelcoat film that covers the surface of the material is of the iso/neopentilic polyester type which allow excellent characteristics of resistance to be obtained. Its appearance and its mechanical and chemical characteristics make this material perfectly suitable for furnishing bathrooms and public rooms.

USAGE AND MAINTENANCE INSTRUCTIONS

CLEANING

To remove stains such as from hard water and dirt from the surface use non abrasive common detergents and rinse well. Products we suggest are: ACE gel cream, CIF gel, AIA, apply with a soft sponge or cotton cloth. Avoid the use of abrasive detergents or abrasive sponges. Do not use aggressive chemical products such as acetone, trichloroethylene nor strong acids. Some products such as ink, cosmetics and dye, if in contact with the material for long periods of time, can stain the Ceramilux® surface. Avoid cigarette burns and do not cut on the surface.

Remedies for incidentally occurred damages

Improper use can cause visible defects on CERAMILUX surface

It is often possible to eliminate scratches, stains or splinters easily at home. If the gelcoat isn't damaged totally in its depths, it will be possible to uniform the surface by using very fine sandpaper (800 - 1000 grain). To regain original brilliance use polish products (i.e. car bodies polish will be ok).

TOXICITY

The product does not appear toxic to humans, animals or to the environment.

ECOLOGY

Only discard in appropriate disposals according to rules and regulations in your area.

Warning

The current product information complies with law n.126 of the 10th of April 1991 "Regulations for consumer information" and to ordinance n.101 of the 8th of February 1997 "Fulfillment Regulations".

SCHEDE PRODOTTO PRODUCT DESCRIPTION

MATERIALI IMPIEGATI

CERAMILUX OPACO

Ceramilux opaco è un materiale composto per il 70% da cariche minerali naturali (carbonati di calcio e triidridati di alluminio) e 30% da resina poliestere. Il film di gelcoat (800 – 1000 µm) che riveste la superficie del materiale è un poliestere acrilato e conferisce una finitura ad effetto opaco. La particolarità di questo coating è la possibilità di ripristinare la superficie, come un prodotto Solid Surface.

Ceramilux opaco è un materiale molto versatile che permette di realizzare svariate tipologie di articoli: lavandini, piatti doccia, piani, in molteplici colori.

ISTRUZIONI PER L'USO E MANUTENZIONE

PULIZIA

Prendersi cura del Ceramilux opaco è semplice e veloce. È sufficiente pulire la superficie con acqua saponata o comuni detergenti per rimuovere la maggior parte delle macchie e dello sporco che si possono depositare. Sono in particolare consigliati detergenti in gel, o abrasivi, utilizzati con una spugna abrasiva tipo Scotch Brite®, avendo cura di risciacquare bene l'area trattata; in questo modo verrà mantenuta la finitura opaca originale, caratteristica distintiva del Ceramilux opaco.

Come prevenire i danneggiamenti

La superficie ha una buona resistenza alle macchie in genere; ciò nonostante si sconsiglia l'utilizzo di prodotti chimici aggressivi quali acetone, trielina, acidi o basi forti. Alcune sostanze come inchiostro, cosmetici e tinte, a contatto prolungato con il materiale, possono rilasciare coloranti sulla superficie di Ceramilux opaco e analogamente per le sigarette accese; il tutto può venire facilmente rimosso seguendo i consigli sotto riportati.

Rimuovere macchie ostinate, graffi e bruciature

Ceramilux opaco può essere riparato da danneggiamenti superficiali, quali graffi, bruciature di sigaretta e macchie ostinate riportando la superficie alla bellezza originale semplicemente seguendo queste indicazioni: per piccoli deterioramenti è possibile ripristinare la superficie utilizzando una spugna abrasiva Scotch Brite® (marchio registrato 3M) e un comune detergente abrasivo. Se il difetto è ancora visibile ripassare rifinendo con carta abrasiva molto fine.

ATOSSICITÀ

Il prodotto non risulta tossico o nocivo all'uomo, agli animali o all'ambiente.

ECOLOGIA

Alla fine della sua utilizzazione non disperdere l'oggetto nell'ambiente, ma smaltirlo secondo le modalità previste dall'azienda comunale di smaltimento rifiuti.

Avvertenza

La presente scheda prodotto ottempera alle disposizioni della legge del 10 aprile 1991 n. 126 "Norme per l'informazione del consumatore" e al Decreto del 8 febbraio 1997 n.101 "Regolamento d'attuazione".

MATERIALS USED

CERAMILUX OPACO

Ceramilux opaco is a 70% natural mineral charges (calcium carbonates and aluminium trihydrates) composite blended with 30% polyester resin. The matt gelcoat film that covers the surface of the material (800 – 1000 µm) is of the acrylate polyester type. This kind of coating can be restored, as a Solid Surface material, with a Scotch Brite® abrasive sponge.

Ceramilux opaco is a very versatile material which allows the development of a lot of shapes: wash basins, shower trays, tabletops, in many colours.

USAGE AND MAINTENANCE INSTRUCTIONS

CLEANING

Daily maintenance

Looking after Ceramilux opaco is quick and easy.

Simply clean the surface with soapy water or any common detergent in order to remove most of the stains and dirt that may be deposited. Gel or abrasive detergents in particular are recommended, together with an abrasive sponge such as a Scotch Brite® one, making sure to properly rinse the area treated. The original mat finish, the distinguishing mark of Ceramilux opaco, will thus be maintained.

How to prevent damage

The surface has a good resistance to stains in general; nonetheless, the use of harsh chemical products such as acetone, trichloroethylene or strong acids or bases is not recommended. Some substances such as ink, cosmetics and dyes may, under extended contact with Ceramilux opaco, release colouring onto its surface. The same applies for lit cigarettes. All of these can easily be removed by following the suggestions below.

Removing stubborn stains, scratches and burns

Ceramilux opaco can be repaired of surface damage such as scratches, cigarette burns and stubborn stains, restoring the surface to its original splendour, by following these simple instructions: for minor damage, the surface can be repaired using an abrasive Scotch Brite® sponge (3M registered trademark) and any common abrasive detergent. If the defect is still visible, repeat the operation this time using very fine-grain sanding paper.

TOXICITY

The product does not appear toxic to humans, animals or to the environment.

ECOLOGY

Only discard in appropriate disposals according to rules and regulations in your area.

Warning

The current product information complies with law n.126 of the 10th of April 1991 "Regulations for consumer information" and to ordinance n.101 of the 8th of February 1997 "Fulfillment Regulations".

SCHEDE PRODOTTO

MATERIALI IMPIEGATI

CORIAN®

Corian® è un materiale compatto e non poroso, composto in modo omogeneo da ± 1/3 di resina acrilica (conosciuta anche come Metracrilato di Polimetile o PMMA) e da ± 2/3 di sostanze minerali. Il componente principale è il Tri-idrato di Alluminio (ATH), un minerale derivato dalla bauxite, da cui viene estratto l'alluminio. Corian® è il materiale originale prodotto dalla DuPont per superfici solide.

Essendo solido ed omogeneo è facilmente riparabile. Molti danni dovuti da urti, calore o prodotti chimici possono essere riparati solitamente sul luogo ridando integralmente alla superficie il suo aspetto originale, regolare, igienico.

ISTRUZIONI PER L'USO E MANUTENZIONE

PULIZIA

Pulire con panno umido o comuni detergenti liquidi per la pulizia domestica. Sono particolarmente consigliati detergenti liquidi, quali CLEANSURFACE utilizzati con spugna abrasiva tipo SCOTCH BRITE®. Non utilizzare prodotti chimici aggressivi quali acetone, trielina, cloruro di metilene, diluenti di smalto per unghie, acidi e basi forti.

ATOSSICITÀ

Il prodotto non risulta tossico o nocivo all'uomo, agli animali o all'ambiente.

ECOLOGIA

Alla fine della sua utilizzazione non disperdere l'oggetto nell'ambiente, ma smaltirlo secondo le modalità previste dall'azienda comunale di smaltimento rifiuti.

AVVERTENZA

I lavabi, piatti doccia e vasche vanno posati in bolla.

PRODUCT DESCRIPTION

MATERIALS USED

CORIAN®

Corian® is a solid, non-porous surfacing material homogeneously composed of ±1/3 acrylic resin (also known as PolyMethyl MethAcrylate or PMMA), and ±2/3 natural minerals. These minerals are composed of Aluminium TriHydrate(ATH) derived from bauxite, an ore from which aluminium is extracted. Being inherently “renewable” because it is solid and homogeneous all the way through. Most damage, including severe impact, heat or chemical damage, can usually be repaired on site to restore the original, smooth, hygienic solid surface integrity.

USAGE AND MAINTENANCE INSTRUCTIONS

CLEANING

Clean with a damp cloth or with common liquid detergents for domestic use. Particularly recommended are liquid detergents such as CIF® used with an abrasive sponge such as a SCOTCH BRITE® pad. Do not use aggressive chemical products such as acetone, trichloroethylene nor strong acids. Warning: Level sinks, shower trays and tubs.

Cleaning of wood covering
Avoid using common products for cleaning the wood which can damage the matt finish. Use exclusively the CLEANWOOD product provided by our company. Use a damp cloth with this product and distribuite evenly over the surface to clean. Avoid the use of abrasive sponges.

TOXICITY

The product does not appear toxic to humans, animals or to the environment. Only discard in appropriate disposals according to rules and regulations in your area.

ECOLOGY

Only discard in appropriate disposals according to rules and regulations in your area.

WARNING

The sinks, shower trays and tubs must be installed levelled.

Warning

The current product information complies with law n.126 of the 10th of April 1991 “Regulations for consumer information” and to ordinance n.101 of the 8th of February 1997 “Fulfilment Regulations”.

SCHEDE PRODOTTO PRODUCT DESCRIPTION

MATERIALI IMPIEGATI

CRISTALPLANT®

Il Cristalplant® è un materiale brevettato composto da un'alta percentuale di carica minerale naturale di idrato di alluminio e da una bassa percentuale di resina poliestere acrilata.

ISTRUZIONI PER L'USO E MANUTENZIONE

PULIZIA

Pulire con panno umido o comuni detergenti liquidi per la pulizia domestica. Sono particolarmente consigliati detergenti liquidi, quali CLEANSURFACE utilizzati con spugna abrasiva tipo SCOTCH BRITE®.

Non utilizzare prodotti chimici aggressivi quali acetone, trielina, acidi a basi forti.

Come rimuovere macchie ostinate, graffi e bruciature

Cristalplant® è un materiale omogeneo in tutto il suo spessore, può quindi essere riparato dalle aggressioni superficiali, quali graffi, bruciature di sigarette e macchie ostinate riportando la superficie alla bellezza originale semplicemente seguendo queste indicazioni:

Per piccoli danneggiamenti è possibile ripristinare la superficie adoperando una spugnetta abrasiva Scotch Brite® (marchio registrato 3M) e un comune pulitore abrasivo. Levigare superficialmente la parte danneggiata. Se il difetto è ancora visibile ripassare levigando con carta abrasiva molto fine.

ATOSSICITÀ

Il prodotto non risulta tossico o nocivo all'uomo, agli animali o all'ambiente.

ECOLOGIA

Alla fine della sua utilizzazione non disperdere l'oggetto nell'ambiente, ma smaltirlo secondo le modalità previste dall'azienda comunale di smaltimento rifiuti.

Avvertenza

La presente scheda prodotto ottempera alle disposizioni della legge del 10 aprile 1991 n. 126 "Norme per l'informazione del consumatore" e al Decreto del 8 febbraio 1997 n.101 "Regolamento d'attuazione".

MATERIALS USED

CRISTALPLANT®

Cristalplant® is a patented composite material comprising mainly of natural minerals of aluminum hydrate bonded with a small percentage of resins.

USAGE AND MAINTENANCE INSTRUCTIONS

CLEANING

Clean with a damp cloth or with common liquid detergents for domestic use. Particularly recommended are liquid detergents such as CIF® used with an abrasive sponge such as a SCOTCH BRITE® pad.

Do not use aggressive chemical products such as acetone, trichloroethylene nor strong acids.

Removing stubborn stains, scratches and burns

Cristalplant® is a material homogeneous throughout its thickness and scratches, cigarette burns and stubborn stains can be removed returning the surface to its original beauty by following these instruction: For light superficial damage, the surface can be restored by using an abrasive Scotch-Brite® pad (trade mark of 3M) and household abrasive cleaner. For more deeper damage one can sand the damaged area. If the defect is still visible, repeat the sanding using very fine grain abrasive paper.

TOXICITY

The product does not appear toxic to humans, animals or to the environment.

ECOLOGY

Only discard in appropriate disposals according to rules and regulations in your area.

Warning

SCHEDE PRODOTTO **PRODUCT DESCRIPTION**

MATERIALI IMPIEGATI

PIETRA NATURALE

Data la caratteristica naturale della pietra, ogni singolo pezzo può presentare venature, differenze di tonalità, intrusioni minerali, avvallature, stuccature.

MATERIALS USED

NATURAL STONE

Given the natural characteristics of the stone, each piece can present veins, tonality differences, mineral intrusion or stucco-work.

ISTRUZIONI PER L'USO E MANUTENZIONE

PULIZIA

Al momento della posa in opera consigliamo un trattamento idrorepellente al fine di saturarne la porosità senza modificarne l'aspetto originario. Per il trattamento utilizzare il prodotto "Clean Stone", da noi fornito (vedi scheda prodotto).

Utilizzare il prodotto con un panno morbido o un pennello, trattare tutta la superficie interessata e lasciarlo agire per 30 minuti, ripetere l'operazione una seconda volta. Rimuovere eventuali residui di polvere con un panno asciutto.

Pulire con normali detergenti di tipo neutro a basso contenuto alcalino.

Si sconsiglia l'uso di prodotti aggressivi quali anticalcare, acidi, abrasivi, sgrassanti forti, alcool.

ATOSSICITÀ

Il prodotto non risulta tossico o nocivo all'uomo, agli animali o all'ambiente.

ECOLOGIA

Alla fine della sua utilizzazione non disperdere l'oggetto nell'ambiente, ma smaltirlo secondo le modalità previste dall'azienda comunale di smaltimento rifiuti.

USAGE AND MAINTENANCE INSTRUCTIONS

CLEANING

Once installed, we advise a waterproofing treatment without modifying the original aspect. For treatment use product Clean Stone provided (see spec sheet).

Apply with a soft cloth or brush, treat the entire surface and wait 30 minutes for the product to have taken effect after which apply the second coat. Remove eventual residue of dust with a dry cloth.

Not advisable are strong abrasive cleaners, grease or calcareous removers, acids and alcohol.

TOXICITY

The product does not appear toxic to humans, animals or to the environment.

ECOLOGY

Only discard in appropriate disposals according to rules and regulations in your area.

Avvertenza

La presente scheda prodotto ottempera alle disposizioni della legge del 10 aprile 1991 n. 126 "Norme per l'informazione del consumatore" e al Decreto del 8 febbraio 1997 n.101 "Regolamento d'attuazione".
