Functional and versatile, the Artek essentials serve the small needs of daily life and bring beauty to the everyday.

Artek was founded in Helsinki in 1935 by four young idealists: Alvar and Aino Aalto, Maire Gullichsen, and Nils-Gustav Hahl. Their goal was »to sell furniture and to promote a modern culture of living by exhibitions and other educational means.«

In keeping with the radical spirit of its founders, Artek today remains an innovative player in the world of modern design, developing new products at the intersection of design, architecture, and art. The Artek collection consists of furniture, lighting, and accessories designed by Finnish masters and leading international designers. It stands for clarity, functionality, and poetic simplicity.

The Artek Essentials are a selection of products that are made to last and bring joy to the everyday. Picked from the Artek collection, they range from stools and side tables to benches, shelves, storage, lighting, textiles and stationery. Made essentially of natural materials and impervious to fashion, the Artek essentials age beautifully through everyday use and are often passed on from one generation to the next.

Stools, chairs and benches

Made not only for sitting, Artek stools, chairs and benches support a wide range of functions and may be used for working, dining or resting, for short periods or long durations. Aesthetically appealing, durable, and adaptable, they rise to the challenges of contemporary living.

Tables and low tables

The table is a place for many social interactions, from eating to playing. A meeting place, it can also be a site of concentration – for working, reading, or drawing. The Artek collection of tables and low tables carries the values of craftsmanship, durability, and timelessness while offering a multitude of shapes, dimensions and materials.

Lighting

Lighting is integral to Artek. For Alvar Aalto, the interplay of natural and artificial light was of central importance, and many of his original lighting designs still form part of the Artek collection today. Beyond their function, Artek's lights are united by their sculptural presence.

Patterns and textiles

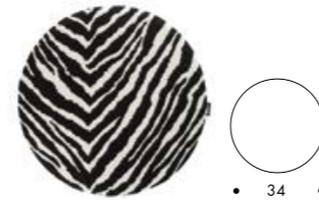

Artek founders Aino and Alvar Aalto were just as interested in small design elements as they were in grand architectural projects. Artek textiles are a continuation of their ideals, embodying the Aaltos' design values and displaying their famous affinity with natural materials.
