

PRODUCT CATALOG 2020

Why choose TreCe?

We are one of the leading Nordic suppliers of storage furniture. We have reached this position by developing continuously. With over forty years of experience we have together with our customers managed to collect a lot of knowledge, and through the years we have learned what works. Our long experience together with a strong innovation drive drives us forward and creates the conditions for continuously developing new storage and recycling solutions.

Sustainability and Design

We manufacture our products in Sweden. It's a choice we made for several reasons. One of the reasons is that we want full control over how our products are produced, and that our high demands on the environment, quality and social responsibility are met. During manufacture, we use design solutions and materials with minimal environmental impact. Most of our products are environmentally certified according to Möbelfakta.

Another reason is that we can adapt the furniture to our customers' wishes, or customize individual products to meet the specific needs of our customers.

We work with design as a method for developing new solutions and products. In our development work we look at design from a further perspective that includes both aesthetics and sustainability as function and usability.

Working together

Our customers' opinions are important to us because they give us valuable insights into which products we need to develop to meet the market demand. When we start a project we listen and investigate what needs exist and develop a plan to solve them together. By working together, we can make sure that our customers' thoughts and ideas are included from the first call to the completed project.

Storage experts

We are pleased to share our knowledge with our customers, whether it's flexibility and functionality in the modern office or smart solutions for tomorrow's activity based offices. With our combined experience and knowledge, we create an optimal solution.

Please contact us for a presentation, to learn more about how we can create a working solution together.

Space

Design | TreCe

Doors with seamless fronts in MDF as standard, choose your preferred NCS color after taste and preferences. The frames are also available in any NCS color. Choose between different frame and door heights.

Doors are available with cabinet locks (incl. 2 keys), padlock fittings (excluding padlock) or RFID locks. Doors are also available with mail-inlets. As accessories, there are movable shelves, clothes rail, mirror, hooks, carpets and the cork box Stuff.

Complete the look with cover panels and worktops, perfect for when placed back to back. See modules and other accessories on pages 48 to 54.

Fjäll

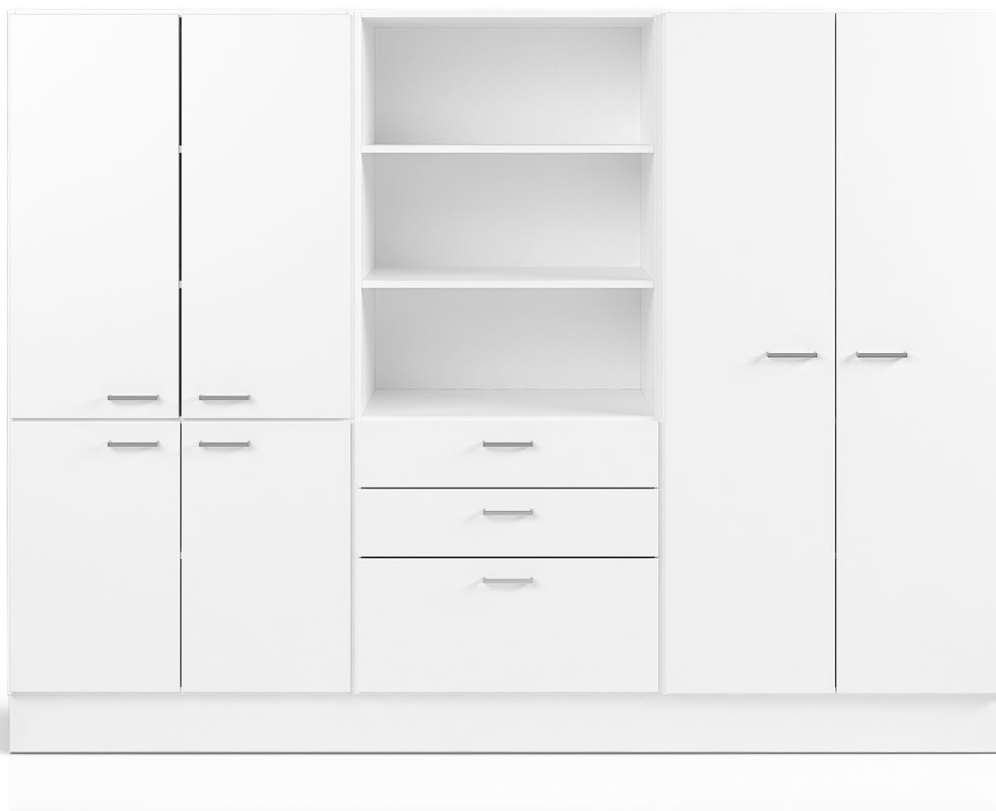

Design | **Elisabeth Ulander**

Fjäll is a stylish storage piece that can be placed on both small and large surfaces through its modular composition. Fjäll has a stable and minimalist design, inspired by Scandinavia. Fjäll is based on a basic module with a straight, or diagonal long side.

Fjäll is a concept that is based on honest, solid and environmentally friendly materials. All the frames and fronts are in the basic version painted MDF. Fjäll is a high quality piece of furniture where the greatest possible weight has been placed on a combination of aesthetics, function and smart storage, all the time with the user in focus.

More info →

CombiLine

Kite mini

Design | **Annica Doms**

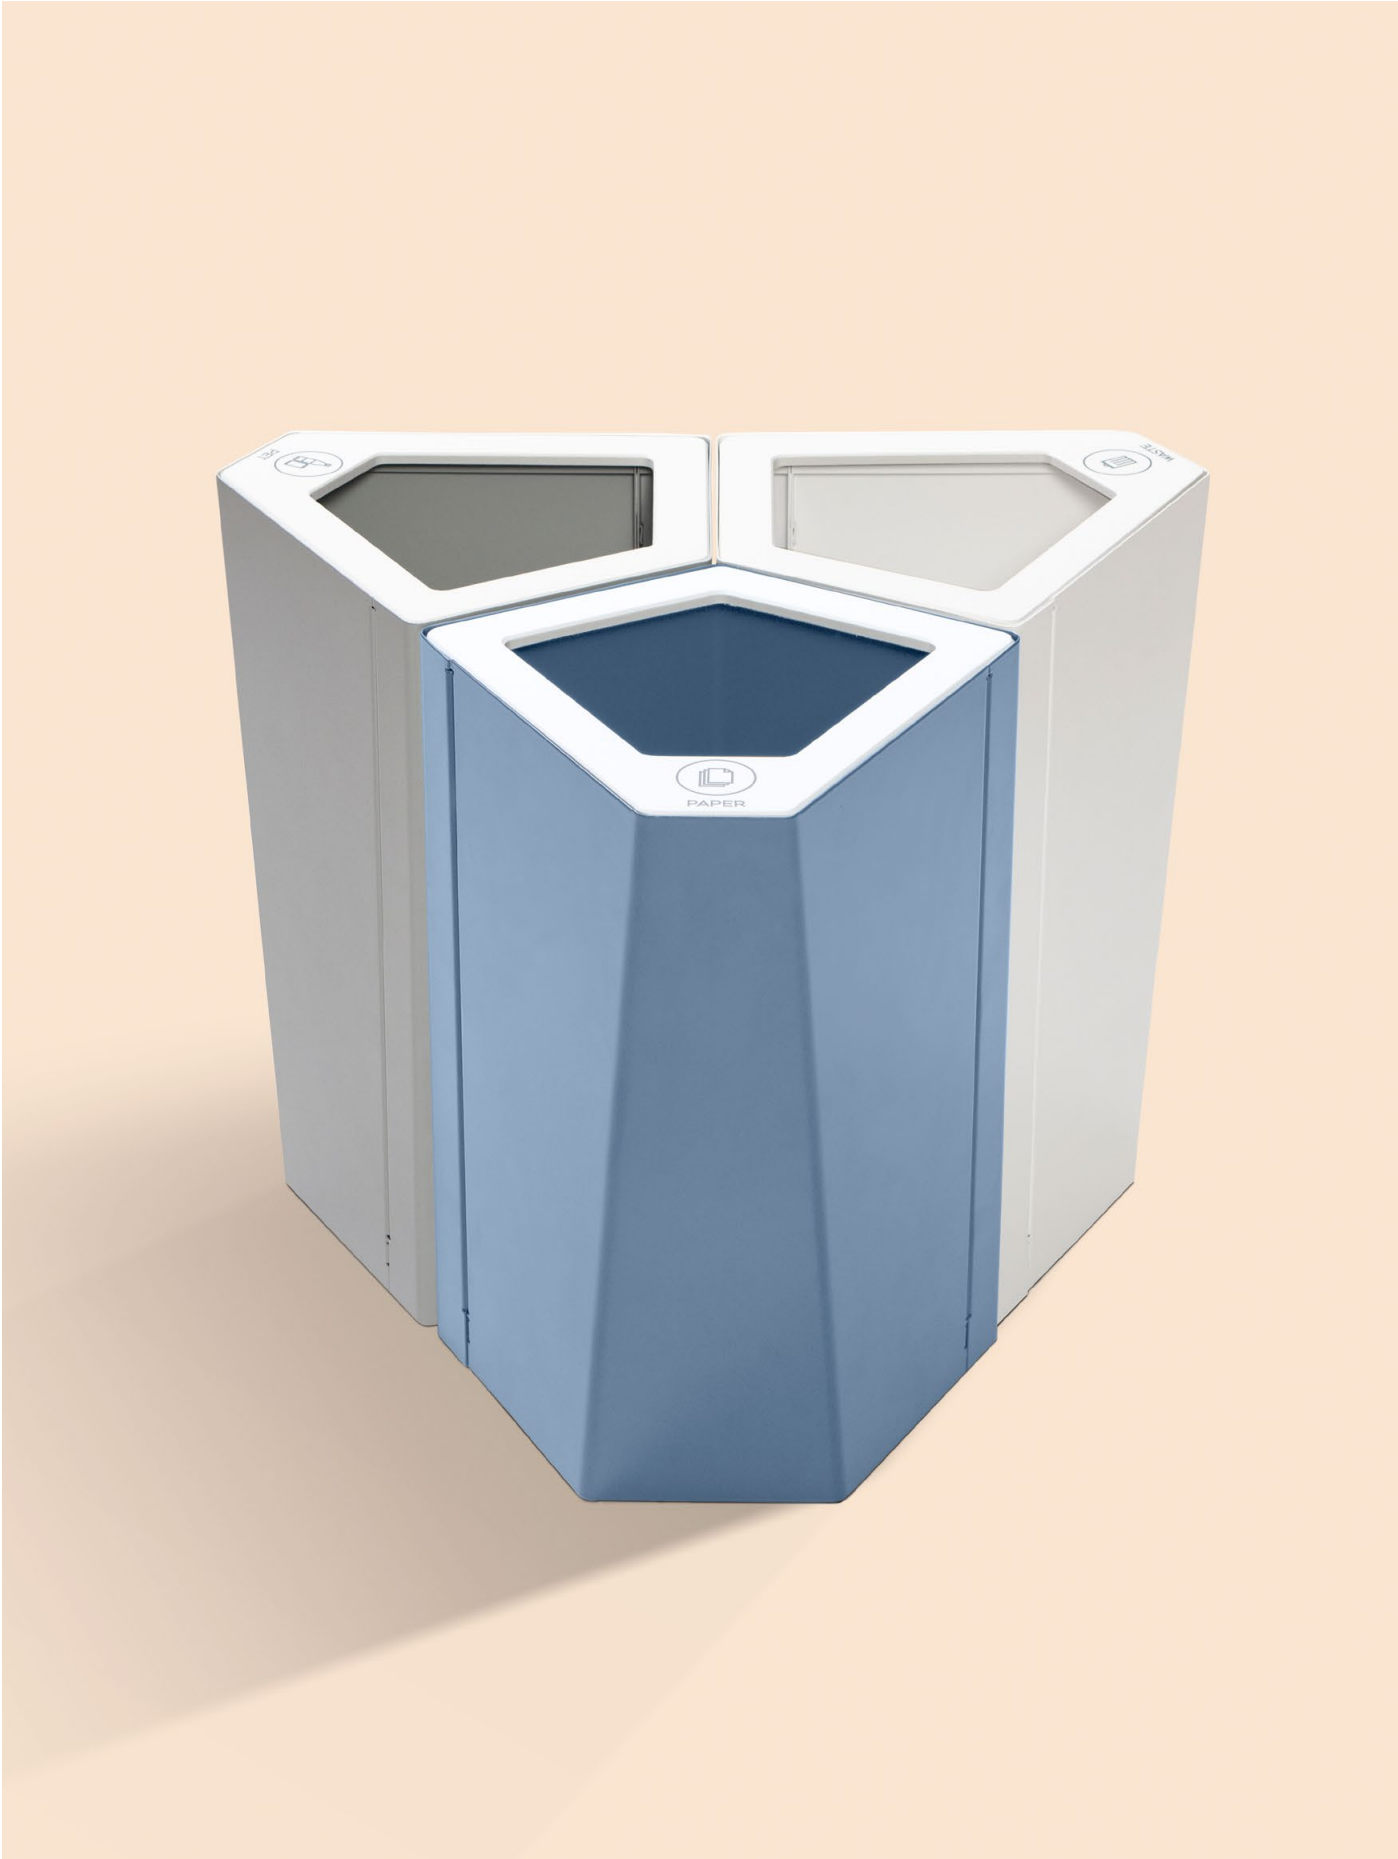

Kite, has retrieved both its name and its appearance from the geometric shape of a kite.

The straight angles give a bold and exciting expression, and at the same time harmonize with the room and its shape. The unique form holds angles of 60 °, 90 ° and 120 ° which makes it ideal to place in corners with varying angles. Kite mini has on the same shape and is an exact copy of Kite, but in a reduced size. This gives a clear "family feeling" and a uniform expression.

Kite mini is intended for smaller spaces like under desks, hotel rooms or smaller conference rooms. There is also a wall mount for Kite mini, which means that it can be placed on the wall. As single or in pairs to free floor space. Kite mini is available in 11 RAL colors with lids in two standard colors.

More info →

Hold

Design | **Tengbom**

TreCe, together with Tengbom architects, have developed the recycling bin Hold.

A collaboration that started with Tengbom seeing a need for a different and functional recycling bin that could meet the needs of smaller spaces. Conference rooms, hotel rooms, smaller meeting rooms, etc. TreCe was contacted and the result was Hold.

A small and functional bin with a lid that is available in 7 different profiles. There is also a wall mount for Hold, which means that it can be placed on the wall. Hold is available in 11 RAL colors.

More info →

Ridge

Design | **Studio Doms**

Ridge, with its special expression, becomes a different and expressive feature in the modern office. It gives the impression of an interior detail, not just a recycling station. Standing together Ridge creates a feeling of a city skyline. Details such as bevelled outer edges and a slight distance between the frame and top shows a feel of quality and detail.

A very stable construction that is built of 22 mm MDF and lacquered in 11 standard colors. The stainless steel ramp for easy access of a 140 liter waste bin is not only a practical detail, but also a part of the design that stands out. Ridge is also available in two heights, low and high. What distinguishes low and high is the slope of the upper frame.

Both versions are easily emptied with the door's aximate hinges, 135° opening. Ridge can be ordered with different recycling symbols depending on the purpose and waste.

More info →

CombiLine

Recycling station

Design | TreCe

Ready combined recycling stations that cover the entire waste sorting for both large and small offices. Stainless steel handles are standard.

There are four ready combined recycling stations. Recycling station 2 is shown in the picture above.

If you would rather combine your own station, see Recycling units on page 95.

More info →

Drawing cabinet

Design | TreCe

White laminated frame with white lacquered fronts with stainless steel handles. Drawers have rails with integrated hubs that make them easy to handle which makes the storage more functional and versatile.

More info →

Archive shelf

Pine

Design | **TreCe**

Archive shelf in massive lacquered pine.
Stable construction that is easy to move and adjust.

Archive shelf pine is available as a complete start section
which then can be supplemented with add-on sections.
Max load 100 kg / shelf.

More info →

Archive

Steel/Pine

Robust, flexible archive for efficient storage of large quantities. Gables and shelves in steel can hold high loads, 50-120 kg per shelf at distributed load. It's also possible to customize the archive so it can hold even more weight. Choose between steering wheel, power steering or handle.

Lacquered sheet steel as shown above or with side panels and shelves in solid varnished pine.

Can be adapted to different archive formats, for example landscape A4 or portrait A4. The height, width or length of the system can be easily adjusted as required.

More info →

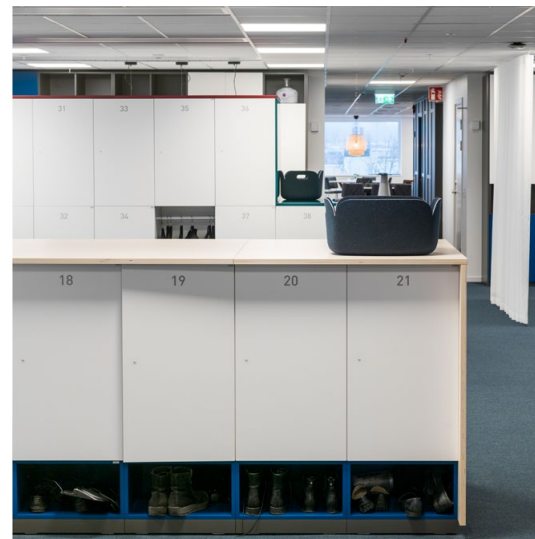

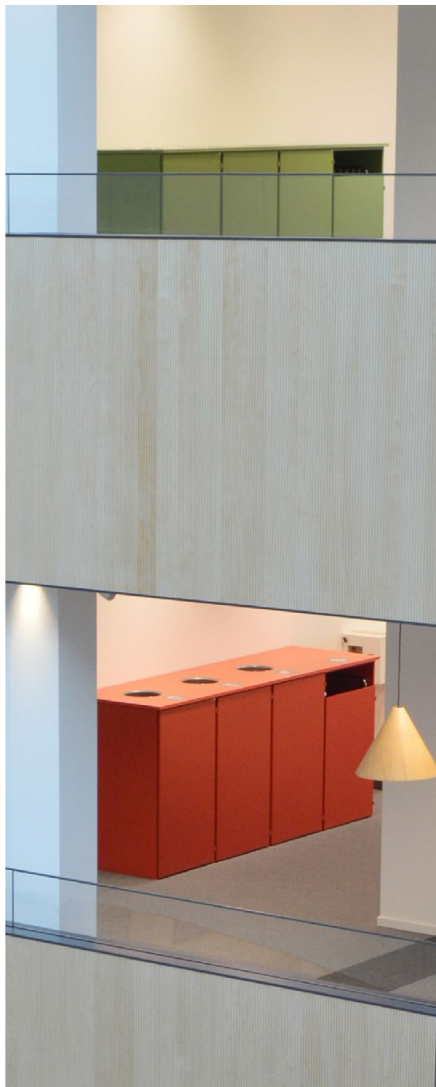

Wall-mounted storage

Design | TreCe

Build your own wall-mounted storage from shelves, rails and brackets.

Maximum length of shelves without joints is 2400 mm. Remember to include mounting brackets when dividing a shelf.

More info →

Dimensions: Width x Height (incl. plinth). x Depth. **Frame and front:** 16 mm. **Plinth:** 143 mm.

Office

Personal storage

Office is a product family designed to meet the needs of the modern office. Smart solutions that focus on function and with a low environmental impact. Made from needled blanket with 7% wool, 93% polyester, and with details in untreated leather.

Sustainability & Material

- The felt meets OekoTex 100, class I (Products for children up to 3 years)
- Untreated leather
- Free from prohibited azo dyes, carcinogenic and allergenic dyes, phthalates, formaldehyde, pesticides, heavy metals, certain chlorine and tin organics, biologically active products and flame retardants.

Office Bag

Available in two colors, anthracite and light gray. Made of needled felt with 7% wool and 93% polyester. Leather details. Several compartments. Shoulder strap.

- Business card holder in leather
- Pen holder in leather

Name	Size	Anthracite	Light gray
Office Bag	360x310x170	830808	830818

Office Backpack, 15 liter

Needled felt with 7% wool, 93% polyester and leather details.

- Handle
- Magnetic closure with 2 positions, hidden in the lining
- Business card holder in leather
- Adjustable shoulder straps with details in leather
- Push buttons on the side for adjusting the depth
- Water resistant bottom
- Integrated rain cover hidden in the bottom with zipper.
- Holds 15L
- Laptop compartment
- Pen holder in leather for 3 pens
- Pocket for accessories

Name	Size	Anthracite
Office Backpack, 15 L	310x400x135	830500

Dimensions: Width x Height x Depth.

Office Sleeve

Laptop case suitable for most laptop computers. Needed felt with 7% wool and 93% polyester. Leather details and top opening with velcro close.

Name	Fits	Size	Anthracite	Light gray

CombiLine

Combi shelf

Combi shelf is our most adaptable storage furniture. Build from floor to ceiling. Standard widths: 310 mm, 605 mm and 900 mm.

Take advantage of wall surfaces with a wall mounted Combi shelf and create a unique module by combining accessories. Accessories like leg and wheel sets, doors, see pages 101–103. Worktops for the lower modules on page 98.

Specifications →

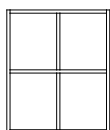

Add a worktop to low modules for a more integrated look.

ABOUT COMBILINE:

MFC laminated and lacquered surfaces within CombiLine have a chip core, with the exception of some shelves. Back, frame, doors and edge strips have the same color/wood as other parts as standard, unless otherwise stated.

Frame: Thickness 19 mm, 0,8 mm straight ABS-lipping.

- MFC laminate white, beech, birch and oak.
- Lacquered available in any NCS-color.

Back: Thickness 12 mm, laminate inside and outside.

Plinth: Every module has its own front and back plinth with 4 adjustable feet (does not apply to recycling units with loading ramps). Plinth 157 mm. Can be replaced with:

- Bottom plate with adjustable stainless steel legs, height 157 mm.
- Bottom plate with lockable wheels, height 104 mm.

Doors: Thickness 16 mm, with 2 mm straight ABS-lipping.

- White lacquered UV-treated MFC laminate (NCS S 0500-N), or MFC laminate in beech/birch/oak.
- Lacquered in any NCS color.
- Self closing concealed hinges with integrated soft closing (does not apply to products with aximat hinges with 180° opening).
- Single doors are right-hung as standard.

Drawer front: Thickness 16 mm. Med 2 mm straight ABS-lipping.

- White lacquered UV treated MFC laminate (NCS 0500-N) and MFC laminate in beech/birch/oak.
- Lacquered available in any NCS-color.

Drawers: Drawers with depth 570 mm are soft-closing.

- Extension capacity of 70%, max load 30 kg.
- Extension capacity of 100%, max load 35 kg (excl. recycling units).
- Extension capacity of 100%, max load 50 kg.

Shelves: All shelves are adjustable and mounted with milled-in shelf support. Drill division c/c 32 mm.

- 310 – 605 mm have a chip core.
- 800 – 900 mm have a pine lamellar core.

Recycling unit MDL60/MD60/MDH60/MD65/MD70:

The bottom plate is equipped with an access ramp in stainless steel.

- Doors with aximat hinges for 180 degree opening for easy access to recycling containers.

Mail shelves: Adjustable with pull-out function and mounting strip, subdivision c/c 96 mm.

- Mail shelves in acrylic have integrated name slots.
- Mail shelves in powder coated steel white or black are available as an addition.

Steel doors mail sorting: White powder coated steel. Shelves inside in the same material as frame, 19 mm.

- Incl. lock and 2 keys with individual lock number.
- Inlet 22 mm. Open door gives a free space of 90 mm.

Wall modules: White lacquered mounting strip in steel is included for all wall modules.

Lock types: Cabinet locks, padlock fitting, code locks and RFID-lock (EM & Mifare).

Fitting pieces /Cover panels: Available as accessories in the same color/material as frame. Width, height and depth adapted to your requirements.

Handles: Stainless steel bow handles as standard, if you would like black or white handles, please not on order.

- Standard handles c/c 128 mm.
- Grip handles 40 mm.

Dimensions: Width x Height x Depth. **Frame:** 19 mm. **Front:** 16 mm.

Mounting strip is included in all wall-mounted products.

NCS refers to product lacquered in one optional NCS color.

CombiLine

Wall shelving/cupboards

Wall-mounted shelves and cabinets serve as space saving alternatives or complements to our floor standing modules. Standard heights: 371 mm, 723 mm and 1075 mm.

Note! Write on your order if the handles are to be placed at the bottom or top of the cabinets.

Sail

Clothes hanger

Clothes stand for several types of hanging traditionally on the knobs, hanging over the rods or with a coat hanger.

Sail is available as floor standing or as a wall mounted module, with matching wall mounts.

Sail Floor comes in two parts, Sail Wall is delivered as one unit with matching wall mounts. Both are delivered in a flat package and are easy to assemble.

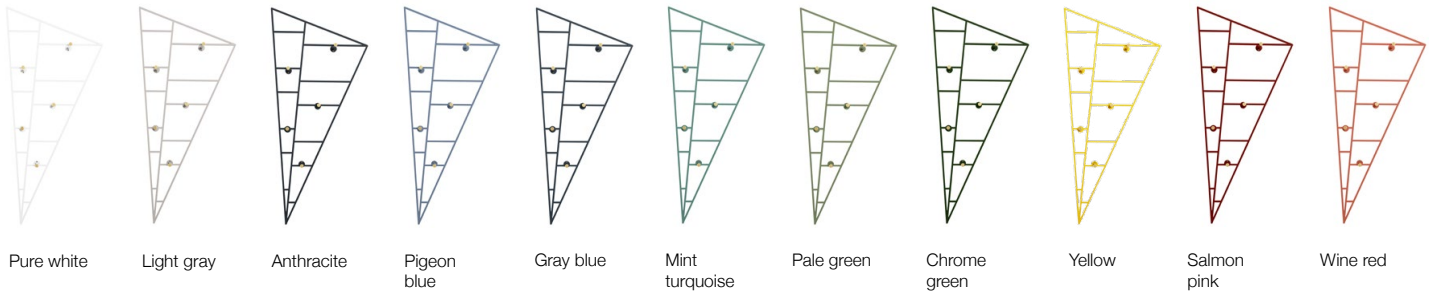

- Laser cut-out from one whole piece
- No welding joints
- Powder-coated steel
- 11 selected RAL colors
- Accented knobs in brass

Frame: Powder-coated steel plate. **Lid:** Powder-coated aluminum.

Shaft, wall mount and footplate: Powder-coated steel plate.

Birdie

Recycling

Birdie is made in two sizes and holds 43 L (Birdie 500) and 63 L (Birdie 750). Both have soft closing lids and inlets in stable quality plastic.

Sustainability & Material

Frame in powder coated steel made in Sweden, consists of 20% recycled materials. The steel is 100% recyclable. The powder coating is a good environmental choice as no solvents are used.

The lid inlet is in plastic and marked according to ISO 11469 for recycling. It can easily be removed for cleaning and is dishwasher safe. The lid in the closed position prevents odor and works in an upright position as a splash protection. Birdies thought through design makes it easy to empty.

How to order your Birdie:

Always start from the left and repeat steps 1–2 for each new unit. Finish each combination by selecting step 3. (For Birdie wall – skip step 3).

- 1 Choose unit (size, color, floor or wall).
- 2 Choose a symbol.
- 3 Choose a footplate.

Wall-mounted Birdie.

Cloud Recycling

Cloud is equipped with doors for easy emptying. Doors and backs are equipped with specially designed recycling symbols, and with the possibility to choose color and labeling, Cloud can be adapted to different types of environments and needs. The high quality wheels are swivel and lockable.

White pull-out bag holders are included in the frame. Load capacity per wheel: 80 kg. Black wheels with rubber surface, height: 100 mm. Two of the wheels have a brake. Inlet from two directions, front (door) and rear (back). Fitted lip on the inside of doors lead waste into the bag. Back is fixed. Designed for 85–125 liter bags.

Frame: Powder-coated steel plate.

Lid: Vacuum-foiled MDF with screen print.

Kite

Recycling

Designed for modularity in different constellations. Kite can be placed against a wall or as a free-standing accent in a room.

The many possible combination challenges the imagination and inspires creativity. Lids come in 8 different designs with screen-printed symbols for different types of waste. Kite holds 70 liters, suitable for standard bags of 85–125 liters.

Sustainability & Material

The lid's MDF meets E1 requirements for formaldehyde. MDF from certified forestry. The frame in powder-coated steel plate is manufactured in Sweden and consists of 20% of recycled material. The steel is 100% recyclable. The powder coating of the frame is a good environmental choice as no solvents are required.

Hold

Recycling

TreCe, together with Tengbom architects, have developed the recycling bin Hold. A collaboration that started with Tengbom seeing a need for a different and functional recycling bin that could meet the needs of smaller spaces. Conference rooms, hotel rooms, smaller meeting rooms, etc. TreCe was contacted and the result was Hold.

A small and functional bin with a lid that is available in 7 different profiles. There is also a wall mount for Hold, which means that it can be placed on the wall.

Sustainability & Material

Frame in powder coated steel plate made in Sweden and consists of 20% recycled materials, The steel plate is 100% recyclable. The powder coating is a good environmental choice as no solvents are used. Container bin in 100% recycled plastic. The container bins are dishwasher safe.

How to order Hold:

- 1 Choose frame (floor or wall) & color
- 2 Choose lid & color
- 3 Choose container bin or a bag holder

Wall mount included.

Bag holder:	Art no
1x Hold bag holder for Lid 7	471010

Add Hold bag holder.

This only applies to Lid 7 due to the form of the inlet.

Containers/Bag holder

Name	Art no
Hold container small	471001
Hold container large	471002
Hold bag holder for Lid 7	471010

Bag holder for waste bags is neatly concealed by lid. Only for Lid 7.

Dimensions: Width x Height x Depth.
Bottom/Gable/Top: 22 mm lacquered MDF. **Door/Back:** 16 mm lacquered MDF.

Ridge

Recycling

Ridge, with its special expression, becomes a different and expressive feature in the modern office. It gives the impression of an interior detail, not just an recycling station. Ridge is available in two heights. The difference between Low and High is the slope of the upper part of the frame.

A very stable construction that is built of 22 mm MDF and lacquered in 11 standard colors. Stainless steel ramp for easier access of a 140 liter container is not only a practical detail, but also a design-prominent part.

Ridge can be ordered with different symbols depending on the purpose.

- Bag holder, door protection and loading ramp all in stainless steel
- Rubber mat included
- Adjustable feet
- Doors with aximate hinges, 135°

Recycling station

Ready combined recycling stations that cover the entire recycling for both large and small offices. Stainless steel handles are standard.

Frame and fronts in white, worktops in F2297**. Stainless steel handles are standard. If you'd prefer black or white, please let us know when ordering. All of the drawers have 100% expansion and withstand up to 35 kg. Complete with containers and symbols, see page 97.

Specifications →

Recycling station 1. Ready module (1020x1174x760 mm) with inlets. 350x350* mm in the worktop. The station is adapted for 190 L recycling containers/cardboard cart and 19 + 10 liter recycling containers. Recycling containers and cardboard cart are not incl. Stainless steel handles are included as standard.

Recycling station 3. Ready module (970x1174x600 mm) with inlets 250x250* mm in the worktop. The station is adapted for 140 L recycling containers/cardboard cart/bag holder and 19 + 10 L recycling containers. Containers, bag holders and cart are not incl. Stainless steel handles are included as standard.

*Worktop and inlets are included in the recycling station.

**High pressure laminate, Formica F2297, Anthracite.

Worktops

High pressure laminate 23 mm standard work tops coated with high pressure laminate and 2 mm airtec-lipping*.

MFC laminate 22 mm standard worktops have an outer paper layer coated with an impregnated paper and a finish of aluminum particles for extra protection against wear. 2 mm matching airtec-lipping*.

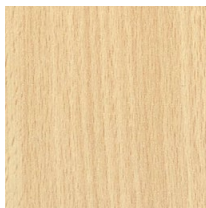

Veneer Alternatively 22 mm clear lacquered beech, birch and oak veneered chipboard with 2 mm solid edging.

Airtec-lipping, also known as laser edging, provides an almost invisible joint between the worktop and edging strip. Thus provides a higher protection against water and heat. This new technology is glue-free, which results in a lower environmental impact.

Place

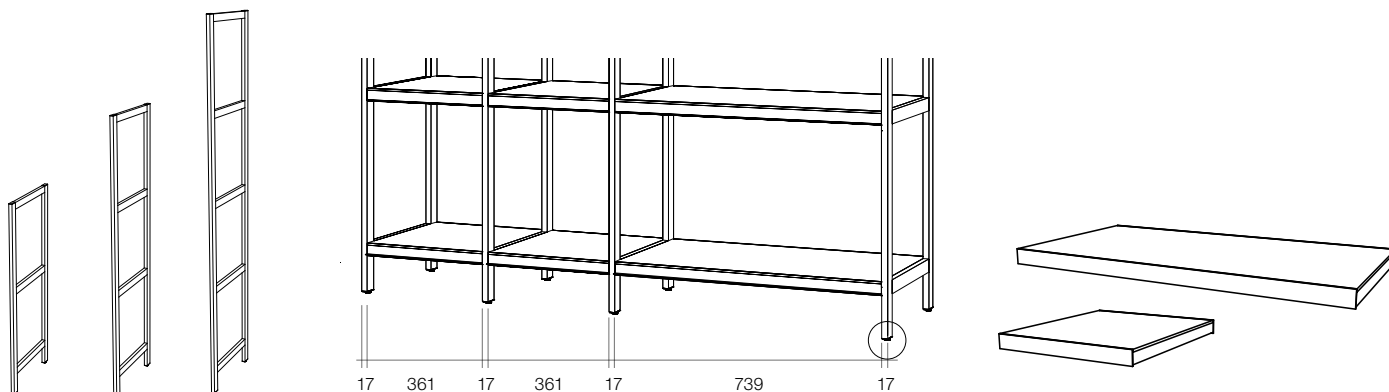

Shelf

Place is available in two shelf widths (361 and 739 mm, excluding end gables) and three different heights (1003, 1433 and 1863 mm) that can be easily assembled and adapted as needed.

As a step in TreCe's continuous environmental work, Place is delivered in flat packages and can be mounted easily on site.

The gables are pre-assembled and the shelves mounted with cam lock screws from above.

The decor shelf, which is put in place after the supporting shelf is mounted, conceals the fittings and gives a neat finish.

Outer gables, thickness 17 mm

Archive

Steel/Pine

Robust archive for efficient storage of large volumes. Compact, robust and easy-working. Gables and shelves in steel can handle high loads, 50–120 kg per shelf at widened load. If necessary, the archive can be customized for even greater weight. Choose between steering wheel, power steering or handle.

Compact Archive with steering lock and back panels for added security.

Steering wheel-driven compact archive with pull-out filing for different folder sizes.

A flexible compact archive in lacquered steel sheet that can be customized to the different formats archived, ex A4 or standing A4.

The height, width or length can be adjusted and designed as needed.

Complete archive for efficient storage of large volumes. Compact, robust and easy to work.

Gables and shelves in lacquered solid pine.

Archives withstand very high loads – 100 kg per shelf. If necessary, the archive can be adapted to hold greater loads.

Choose between the wheel operation or handles.
