THE ITALIAN STYLE DOOR

Dierre

YOUR HOME, YOUR LIFE

M A S S E L L O A N T I C O

UN COLORE NON È MAI UGUALE A SE STESSO

Le porte Dierre possono anche essere personalizzate (a seconda del modello) con i colori RAL.

La cartella colori RAL è una scala normalizzata molto utilizzata in ambito produttivo, soprattutto nel settore delle finiture e delle vernici. È stata creata nel 1925 dal Reichsausschuss für Lieferbedingungen e i codici RAL sono composti da 4 cifre, raggruppati per migliaia in base alla famiglia di colori.

Il sistema RAL cataloga un insieme arbitrario e ristretto di sfumature ben definite e standardizzate,.

A COLOUR NEVER FULLY RESEMBLES ITSELF.

The Dierre doors can also be customized (depending on the model) with RAL and NCS colours.

The RAL colour card is a normalized scale very used in manufacturing, especially in the field of finishes and paints. It was created in 1925 by Reichsausschuss für Lieferbedingungen and the RAL codes are composed of 4 digits, grouped by thousands based on the colour group.

The RAL system orders an arbitrary and narrow set of well-defined and standardised shades.

Le informazioni presenti in questo catalogo possono subire variazioni.

I materiali rappresentati sono puramente indicativi: per la verifica dei colori si rimanda al campionario.

The information contained in this catalogue may undergo variations.

The materials shown are a bare example: for the verification of colours please refer to the sample collection.

M A S S E L L O
A N T I C O

Le porte in legno massiccio della linea **Dierre Massello Antico**, eleganti nella forma e nelle proporzioni, mettono in mostra uno stile classico che si manifesta con personalità e caratteristiche diverse.
Le mode passano, ma lo stile resta.
E una porta in legno massiccio Dierre è sempre una scelta di stile.

*The solid wood doors of the **Massello Antico Dierre** line of doors, elegant in shape and proportions, showcase a classic style that comes up with different personalities and characteristics.
Fashions go by, style remains.
And a Dierre solid wood door is always a choice of style.*

GUARINI

Porte d'ispirazione tradizionale, che sanno colpire gli occhi e il cuore con le loro linee importanti. Piattabanda perimetrale spessa oltre quattro centimetri, fascia larga e con rilievo maggiorato: in Guarini forme e volumi si accordano per esaltare la forte e preziosa matericità del legno massiccio. Anta, telaio e coprifili sono realizzati interamente da legno massello in essenza dichiarata.

Doors inspired from tradition, able to strike the eyes and heart with their remarkable lines. Perimeter plate band over four centimeters thick, wide and with raised relief: in the Guarini doors shapes and volumes come together to enhance the strong and precious material of solid wood. Leaf, frame and architraves are entirely in the stated solid wood types.

Guarini 1 nocinwood

Anta di spessore 44 mm: tutti gli elementi portanti sono realizzati con due strati di legno massello incollati con bironi di giunzione ed uniti in controsagoma al fine di conferire alla porta una migliore stabilità e durata.

44 mm thick door: all load-bearing items are made with two solid wood layers glued with joining pins and joined in counter-shape in order to give the door greater stability and durability.

I coprifili sono forniti di serie nel modello Barocco con larghezza 70 mm e aletta ad incastro regolabile fino a 10 mm.

The architraves are supplied as standard in the 70 mm wide Barocco model and adjustable interlocking flap up to 10 mm.

Il battente è completo di serratura magnetica Patent con quadro 8 mm.

The leaf includes a Patent magnetic lock with 8 mm spindle.

La porta è ferrata con 3 cerniere tipo Anuba doppio gambo regolabili.

The door is equipped with 3 adjustable double-stem Anuba hinges.

ALFIERI

ALFIERI

La moderna rivisitazione di uno stile classico tradizionale, per la famiglia Alfieri. Una collezione di porte capaci di inserirsi con naturalezza in spazi d'ispirazione differente, pur conservando la loro autentica e preziosa solidità. Anta, telaio e coprifili sono realizzati interamente da legno massello in essenza dichiarata.

A modern reinterpretation of a traditional classic style for the Alfieri family. A collection of doors able to naturally fit into differently inspired spaces, while retaining their authentic and precious solidity. Leaf, frame and architraves are entirely made in the stated solid wood type.

Alfieri 9 nocinwood

I coprifili sono forniti di serie nel modello Provenza con larghezza 70 mm e aletta ad incastro regolabile fino a 10 mm.

The architraves are supplied as standard in the 70 mm wide Provenza model and adjustable interlocking flap up to 10 mm.

Le bugne sono spesse 20 mm. I pannelletti sono contornati su entrambi i lati da piattabanda bisellata perimetralmente ad effetto rilievo.

The raised panels are 20 mm thick. The panels are surrounded on both sides with a bevelled perimeter band having a relief effect.

Versione scorrevole.

Sliding version.

Tutti gli elementi portanti dell'anta che è spessa 44 mm sono realizzati con due strati di legno massello incollati con bironi di giunzione ed uniti in controsagoma.

BALDI

BALDI

Cieca o finestrata, con bugna o foderina.

Baldi interpreta l'estrema versatilità di una porta in legno massiccio di gusto tradizionale.

Forme e sostanza si armonizzano; in Baldi, il legno massiccio esprime con naturalezza il suo valore puro e senza tempo.

Anta, telaio e coprifili sono realizzati interamente da legno massello in essenza dichiarata.

Flush or glazed, with raised or flat panel, Baldi interprets the extreme versatility of a traditional-style solid wood door. Shape and substance blend in together; Baldi makes solid wood naturally express its pure and timeless value.

Leaf, frame and architraves are entirely made in the stated solid wood type.

Baldi 14 alder tinto ciliegio
Baldi 14 cherry stained alder

Anta di spessore 44 mm: tutti gli elementi portanti sono realizzati con due strati di legno massello incollati con bironi di giunzione ed uniti in controsagoma al fine di conferire alla porta una migliore stabilità e durata.

44 mm thick door: all load-bearing items are made with two solid wood layers glued with joining pins and joined in counter-shape in order to give the door greater stability and durability.

I coprifili sono forniti di serie nel modello "barocco" con larghezza 70 mm e aletta ad incastro regolabile fino a 10 mm.

The architraves are supplied as standard in the 70 mm wide Barocco model and adjustable interlocking flap up to 10 mm.

Il battente è completo di serratura magnetica Patent con quadro 8 mm.

The leaf includes a Patent magnetic lock with 8 mm spindle.

La porta è ferrata con 3 cerniere tipo Anuba doppio gambo regolabili.

The door is equipped with 3 adjustable double-stem Anuba hinges complete with hinge covers.

NOVELTY

NOVELTY

Il calore e il prestigio del massello, per porte dall'eleganza classica ma sempre attuale. Configurazioni disponibili anche finestrato, con inserti in ottone lucido o in cromo satinato. Anta, telaio e coprifili sono realizzati interamente da legno massello in essenza dichiarata.

The warmth and prestige of solid wood, for doors with a classic yet timeless elegance. Available configurations: glazed, with inserts in polished brass or satin chrome. Leaf, frame and architraves are entirely made in the stated solid wood types.

Novelty 1 nocinwood

I coprifili sono forniti di serie nel modello M70 con larghezza 70 mm e aletta ad incastro regolabile fino a 10 mm.

The architraves are supplied as standard in the 70 mm wide M70 model and adjustable interlocking flap up to 10 mm.

Il telaio è completo di guarnizione in gomma e contro serratura ottonata con guscio copriscasso.

The frame is complete with rubber seal and brass counter lock with casing covers.

Particolare della versione scorrevole.

Detail of the sliding version.

Su entrambi i lati, i pannelletti sono contornati da piattabanda bisellata perimetralmente ad effetto rilievo.

The panels are surrounded on both sides with a bevelled perimeter band having a relief effect.
